

## Initial Sustainability Appraisal Report April 2016

1 Consultation questions	5
2 Introduction	7
3 Appraisal methodology	12
4 SA Scoping stage	33
4.1 Sustainability Appraisal Framework	48
5 Summary of findings	57
5.1 Appraisal of housing target options	57
5.2 Appraisal of site options	67
5.3 Appraisal of alternative development approaches for Cheadle	119
6 Next steps	129
7 Appraisal of site options	131
7.1 Leek	142
7.1.1 Other uses	211
7.1.2 Sites outside current development boundary	252
7.2 Biddulph	316
7.2.1 Urban extension	348
7.2.2 Other uses	353
7.2.3 Sites within Green Belt	367
7.3 Cheadle	456
7.3.1 Urban extension	502
7.3.2 Other uses	507
7.3.3 Sites outside the development boundary	521
7.4 Larger villages	675
7.4.1 Larger Villages: Brown Edge to Cheddleton	801
7.4.2 Larger villages: Endon to Kingsley	899
7.4.3 Larger villages: Upper Tean to Werrington & Cellarhead	1017
7.5 Smaller villages: Bagnall to Checkley	1158
7.5.1 Smaller villages: Dilhorne to Foxt	1213
7.5.2 Smaller villages: Hollington to Longsdon	1241
7.5.3 Smaller villages: Lower Tean to Rushton Spencer	1296
7.5.4 Smaller villages: Stockton Brook to Whiston and other areas	1350
8 Appraisal of alternative housing target options	1397

9 Appraisal of alternative development approaches for Cheadle	1467
10 Site Appraisals - Constraints maps	1518

## Consultation questions

## 1 Consultation questions

**1.1** The purpose of this consultation is to seek your views on this Initial SA Report. We would particularly welcome your comments on the following:

### Question 1

Do you support the overall approach taken to the appraisal of options?

### Question 2

Have we correctly identified the main significant effects and potential mitigation measures?

### Question 3

Do you wish to make a comment on the appraisal of one or more specific housing target option(s)?

### Question 4

Do you wish to make a comment on the appraisal of one or more specific site allocation(s)?

### Question 5

Do you wish to make a comment on the appraisal of one or more alternative development approaches for Cheadle?

### Question 6

Does this Initial SA Report, together with the SA Scoping Report provide sufficient information at this stage to ensure that an appropriate SA can be carried out of the emerging Staffordshire Moorlands Local Plan?

**1.2** Details of how to respond are provided from paragraph 2.23 - 2.26 of this report.

## Introduction

## 2 Introduction

**2.1** Staffordshire Moorlands District Council is in the process of preparing a Local Plan which, when adopted, will guide future development across the plan area, up to the year 2031.

**2.2** This Initial Sustainability Appraisal Report has been published to accompany the Preferred Options draft of the Staffordshire Moorlands Local Plan. Sustainability Appraisal is a process that is carried out as an integral part of developing the Local Plan, with the aim of promoting sustainable development through the integration of social, environmental and economic considerations. It is a mandatory requirement and is subject to the same level of public consultation and scrutiny as the plan itself.

**2.3** Sustainability Appraisal (SA) is an ongoing process and this Initial Report follows on from the Sustainability Appraisal Scoping Report, consulted on between 13<sup>th</sup> August 2014 and 26<sup>th</sup> September 2014.

**2.4** The purpose of sustainability appraisal is to promote the objectives of sustainable development within planning policy. This is done by appraising the social, environmental and economic effects of a plan from the outset and in doing so, helping to ensure that sustainable development is treated in an integrated way in the preparation of development plans.

**2.5** The sustainability appraisal process is governed by European and national legislation, supported by government policy, which includes:

- The Planning and Compulsory Purchase Act 2004 which requires sustainability appraisal of emerging Development Plan Documents and Supplementary Planning Documents.
- The requirements of European Directive 2001/42/EC (often known as the Strategic Environmental Assessment (SEA) Directive) which requires the preparation of an environmental report that considers the significant environmental effects of a plan or programme. This Directive is transposed into UK law by The Environmental Assessment of Plans and Programmes Regulations 2004: Statutory Instrument 2004 No. 1633 (SEA Regulations).

**2.6** This sustainability appraisal incorporates the requirements of the SEA Directive, by combining the more environmentally-focused considerations of SEA with wider social and economic effects.

### Staffordshire Moorlands Local Plan

**2.7** The Staffordshire Moorlands Core Strategy was adopted in March 2014. The plan identified a housing requirement of 300 homes per year and an employment land requirement of at least 24ha over the period 2011 to 2026. The Core Strategy also established the appropriate distribution of development across the District with the emphasis being on development in the market towns of Leek, Biddulph and Cheadle with a more modest scale of development in the villages that lie within the Rural Area. However, the Inspector determined that an early and comprehensive review of the Core Strategy for the period 2016 to 2031 would be required to take account of longer term development requirements. The review of the Core Strategy has been rolled forward into a single Local Plan combined with site allocations.

**2.8** Local Plans are seen by Government as key to delivering sustainable development. They should, as far as possible, reflect the aspirations of local communities and should strive to contribute towards their wider social, economic and environmental objectives. The Staffordshire Moorlands Local Plan also needs to be consistent with the Government's planning principles and policies as set out in the National Planning Policy Framework<sup>(1)</sup>.

**2.9** To meet these objectives, the Staffordshire Moorlands Local Plan - Preferred Options document covers a range of issues, including:

- Housing - identifying sufficient land to meet requirements.
- Employment - supporting the economy by identifying sites for existing and new businesses, and supporting the sustainability of town centres.
- Settlement and infill boundaries to inform the location of future windfall sites.
- Modest Green Belt release to assist in meeting development requirements.
- Other elements including broad locations for school improvements; mixed-use use designations and a site to meet travellers' accommodation needs.

**2.10** A separate public consultation regarding preferred options policies is proposed to commence in the Summer. This will allow the Council to take account of forthcoming changes to the National Planning Policy Framework and the outcome of further evidence base studies.

## **Habitats Regulations Assessment**

**2.11** European Directive 92/43/EEC on the Conservation of Natural Habitats and of Wild Fauna and Flora (the Habitats Directive) requires a Habitats Regulations Assessment (HRA) to be undertaken on the Local Plan. In the UK, the Habitats Directive is implemented through the Conservation of Habitats and Species Regulations 2010 (the "Habitats Regulations").

**2.12** The HRA assesses any impacts of the Local Plan against the conservation objectives of sites of European importance for nature conservation in, and outside the plan area, to ascertain whether it would adversely affect the integrity of any sites concerned. These sites, often just referred to as European sites, include Special Areas of Conservation (SACs) and Special Protection Areas (SPAs).

**2.13** Staffordshire Moorlands District Council has appointed consultants Clearlead to undertake the HRA requirements for the Local Plan. It is important that the sustainability appraisal takes account of HRA findings in order that consideration can be given to mitigating any adverse effects; and this will be reflected in the next version of the SA Report.

**2.14** The HRA of the Local Plan is building on work undertaken to prepare the HRA of the adopted Core Strategy. The HRA reports for the Core Strategy can be viewed at:

[www.staffsmoorlands.gov.uk/sm/council-services/core-strategy/sustainability-appraisal-and-appropriate-assessment](http://www.staffsmoorlands.gov.uk/sm/council-services/core-strategy/sustainability-appraisal-and-appropriate-assessment)

**2.15** The HRA process is an iterative one and it will be reviewed and amended as the Local Plan develops.

---

1 [www.communities.gov.uk/publications/planningandbuilding/nppf](http://www.communities.gov.uk/publications/planningandbuilding/nppf)

## Equalities Impact Assessment

**2.16** In order to comply with the Public Sector Equality Duty (set out in the Equality Act 2010)<sup>(2)</sup> the Council is carrying out an equalities impact assessment of Staffordshire Moorlands emerging Local Plan. The broad purpose of the Equalities Duty is to integrate consideration of equality and good relations into the day-to-day business of public authorities.

**2.17** The Equalities Impact Assessment (EqIA) is considering the impact, or likely impact, of the development strategy, policies and their functions outlined in the Local Plan on different equality groups, including women, people from ethnic minorities and those with disabilities. The findings of the assessment will be summarised to provide an overall assessment of the submission version of the Staffordshire Moorlands Local Plan.

**2.18** An EqIA is a tool to assist public authorities with assessing the impact, or likely impact, of their policies and functions on people who share a relevant protected characteristic. It assists authorities with identifying adverse outcomes and steps that can be taken to mitigate adverse effects. EqIAs help public authorities meet the requirements of their equality duties and to identify active steps to promote equality.

**2.19** One of the 12 core planning principles set out in paragraph 17 of the National Planning Policy Framework (NPPF) is that local planning authorities should take account of and support local strategies to improve health, social and cultural wellbeing for all, and deliver sufficient community and cultural facilities to meet local needs. It is considered that the EqIA can help inform this process by understanding the needs of different community groups and how planning policies and decisions can affect them.

## Structure of this report

**2.20** This Initial Sustainability Appraisal Report has been designed to be as succinct as possible to improve accessibility of information and to allow key findings to be presented more concisely. Detailed appraisal work is presented in separate appendices. Consultation questions are provided in Section 1.

**2.21** This section has provided an introduction to sustainability appraisal, the Staffordshire Moorlands Local Plan Habitats Regulations Assessment (HRA) and Equalities Impact Assessment (EqIA). The rest of the report is structured as follows:

- Section 3 – the methodology of how this appraisal was carried out, limitations and definitions of significance.
- Section 4 – an overview of the scoping stage, consultation responses received and the sustainability appraisal framework.
- Section 5 – a summary of findings with an overview of significant effects.
- Section 6 – Next steps in the sustainability appraisal process.
- Appendices - Providing full detail of the assessments undertaken:
- Section 7 - Appraisal of site options.
- Section 8 - Appraisal of alternative alternative housing target options.
- Section 9 - Appraisal of alternative development approaches for Cheadle.
- Section 10 - Constraints maps for site appraisals

2 <http://www.legislation.gov.uk/ukpga/2010/15/contents>

**2.22** This Initial Sustainability Appraisal Report includes the required elements of an environmental report as required by the SEA Regulations.

## How to respond

**2.23** Please let us have your comments by **13<sup>th</sup> June 2016**.

**2.24** If you would like to send us your views on this Initial SA Report, you can do so using one of the following methods:

- Online on the Local Plan consultation website
  - <http://staffsmoorlands-consult.objective.co.uk/portal>
- Email to [forward.plans@staffsmoorlands.gov.uk](mailto:forward.plans@staffsmoorlands.gov.uk)
- Post to the address given below

**2.25** The submission of comments online or by email is considered to be the most efficient means of responding. Use of the consultation website provides several benefits and enables consultees to:

- Read the Initial SA Report, Local Plan - preferred options document and other supporting information online.
- Submit comments online (registration required).
- Read all comments submitted by other consultees.

**2.26** Consultation responses to be returned by post should be sent to:

Regeneration  
Staffordshire Moorlands District Council  
Moorlands House  
Stockwell Street  
Leek  
Staffordshire  
ST13 6HQ

Tel: (01538) 395570

## Appraisal methodology

### 3 Appraisal methodology

**3.1** The methodology for this appraisal was developed in accordance with the following guidance:

- Sustainability Appraisal of Regional Spatial Strategies and Local Development Documents (ODPM, 2005).
- A Practical Guide to the Strategic Environmental Assessment (SEA) Directive (ODPM, 2005).
- Planning Advisory Service (PAS) Sustainability Appraisal guidance contained in the Communities and Local Government (CLG) Plan Making Manual.<sup>(3)</sup>
- National Planning Practice Guidance<sup>(4)</sup>

**3.2** The guidance issued by PAS is the latest official guidance for sustainability appraisal and replaces the section relating to Development Plan Documents in the 2005 ODPM guidance. The latest guidance on SEA remains that issued by ODPM in 2005.

**3.3** Staffordshire Moorlands District Council undertakes the sustainability appraisal process principally in-house, with Officers based in the Regeneration Service teams. The work has been supported by site appraisals carried out by consultants Amec Foster Wheeler.

**3.4** The sustainability appraisal is carried out in a series of stages, which include setting the context and objectives for the sustainability appraisal, developing and assessing the effects of alternatives and carrying out consultation on a Sustainability Appraisal Report. The stages of methodology are shown in Table 3.1 below.

Methodology stage	Description
A – Setting the context and objectives for the sustainability appraisal	This stage sets the scope for the ongoing appraisal by establishing an evidence base. A separate Scoping Report has been completed and published for consultation.
B – Developing options and assessing effects	The sustainability appraisal is involved in developing options from the outset. Development and appraisal of options is an iterative process, with effects being predicted and evaluated for their significance. Potential mitigation measures for any predicted significant effects are considered at this stage.
C – Preparing a Sustainability Appraisal Report	This Initial report is the first step in this key output of the appraisal process, presenting information on the effects of the plan in a format suitable for public consultation.
D – Consulting on the plan and Sustainability Appraisal Report	The Sustainability Appraisal Report is published for consultation alongside the plan concerned. Consultation must include the statutory environmental consultation bodies. This Initial SA Report is being consulted on alongside the Staffordshire Moorlands Local Plan - Preferred Options.

3 <http://www.pas.gov.uk/pas/core/page.do?pagelId=152450>

4 <http://planningguidance.communities.gov.uk/>

Methodology stage	Description
E – Monitoring significant effects	The predicted significant effects are monitored after implementation of the plan to identify any unforeseen effects and undertake appropriate remedial action.

**Table 3.1 Stages of sustainability appraisal methodology**

**3.5** A Scoping Report, meeting the requirements of Stage A, was published for consultation between 13<sup>th</sup> August 2014 and 26<sup>th</sup> September 2014. The report culminated in the production and updating of a sustainability appraisal framework or set of sustainability objectives. This framework provides a way in which sustainability effects can be described, analysed and compared, and forms the basis of the appraisal of Local Plan effects.

**3.6** More detail is provided on this scoping stage in Section 4 of this report where the framework of sustainability objectives is presented.

### Developing and refining ‘reasonable alternatives’

**3.7** The SEA Directive requires assessment of the likely significant effects of implementing the plan, and “reasonable alternatives”. Developing options and alternatives is an important part of both the plan-making and sustainability appraisal process. For the Local Plan, the reasonable alternatives are the different options put forward during the preparation of the plan.

**3.8** This consultation and the sustainability appraisal work documented in appendices to this report have had a significant part to play in identifying and refining options considered to be “reasonable alternatives”. The sustainability appraisal has been involved from an early stage in this development of options to help ensure that any adverse effects of proposals were identified as early as possible.

**3.9** To inform the emerging Local Plan, the Council consulted on Site Options between July and September 2015. Over 5,500 responses were received regarding site and boundary options for housing, employment, mixed-use, open space, town centres, retail frontages, settlement boundaries and infill. The appraisal of all site options is documented in section 7 of this report and the findings have been used to help determine the preferred sites taken forward into the draft plan.

**3.10** Based on past trends and the housing, economic and demographic context of Staffordshire Moorlands, the Staffordshire Moorlands Strategic Housing Market Assessment<sup>(5)</sup> has identified a number of scenarios chosen to reflect the alternatives for future growth within the District. The scenarios demonstrate the extent to which the population of the District is likely to change over the plan period, and how this growth would be translated into households, dwellings, numbers of economically active residents and the number of jobs that might be supported.

**3.11** Consideration of the scenarios led to the Council considering four potential housing requirement options:

- Option 1: 250 new homes each year (2016 - 2031)

<sup>5</sup> Staffordshire Moorlands 2012-based SNHP Update - Implications of the 2012-based SNHP - January 2016 Revision; January 2016; Nathaniel Lichfield & Partners

- Option 2: 320 new homes each year (2016 - 2031)
- Option 3: 440 new homes each year (2016 - 2031)
- Option 4: 520 new homes each year (2016 - 2031)

**3.12** The appraisal of these alternatives is set out in detail in section 8 of this report.

**3.13** The strategy for Cheadle set out in the adopted Core Strategy is based on taking a comprehensive view of the expansion of the town and programming ahead for the phased release of land and related infrastructure improvements. The Core Strategy notes that this will take the form of urban extensions involving housing and employment development with related leisure and community facilities as part of an overall regeneration and growth strategy.

**3.14** In identifying sites for inclusion in the preferred options Local Plan, a number of reasonable alternative development approaches have been considered for Cheadle, in line with the strategy set out above. These are:

- Option 1: Northern Focus
- Option 2: South western focus
- Option 3: Scattered approach

**3.15** The appraisal of these alternatives is set out in detail in section 9 of this report.

## Assessing the significance of effects

### The SEA Directive requires

... "an assessment of likely significant effects ... taking into account the objectives and geographical scope of the plan or programme".

**3.16** It is only necessary to assess those effects that are likely to be significant, not all possible effects. In this report, the social, environmental and economic effects of all Local Plan options have been predicted and evaluated for their significance. The sustainability appraisal framework, presented in Section 4, forms the basis for the assessment throughout the report.

**3.17** Prediction of effects involves identifying what changes might occur to the sustainability baseline over time – these changes are then evaluated for their likely significance, in terms of their probability, duration, frequency, and the geographical area likely to be affected.

**3.18** Assessment matrices (contained in Sections 7 - 9) present the detailed findings. Each matrix is relatively simple and allows for a discussion of potential effects, evidence and possible mitigation measures. The simplicity of the matrix is designed to reflect the fact that strategic options should (and in many cases can only be) assessed in broad terms where there is a lack of spatial expression. A combination of expert judgement and analysis of baseline data has been used to judge the effects.

**3.19** Within each matrix, a significance "score", ranging from: ++ (very positive impact) to: -- (very negative impact) is given against each objective. Ultimately, the significance of an effect is a matter of judgement, making best use of available evidence, and requires no more

than a clear and reasonable justification. Definition of significance is considered further at paragraph 3.27. Where uncertainties exist or where it is considered that insufficient information exists to enable an accurate assessment to be made, this has been noted.

### Assessing cumulative effects

**3.20** The assessment of effects of Local Plan policies includes potential secondary, cumulative and synergistic effects, as required by the SEA Directive. Many sustainability problems result from the accumulation of multiple, small and often indirect effects, rather than a few large obvious ones, and consideration of such effects will be included in further discussion of significant effects in this report.

### Consideration of potential mitigation measures

#### The SEA Directive requires

... consideration of “measures envisaged to prevent, reduce and as fully as possible offset any significant adverse effects on the environment of implementing the plan or programme”.

**3.21** These measures are referred to as mitigation measures, and can include recommendations for improving beneficial effects.

**3.22** In the assessment matrices, potential mitigation measures are considered for likely adverse and positive effects. For any effects judged likely to be significant, these are discussed further in this report. Mitigation measures are set out at paragraph 5.359 of this report.

### Appraisal limitations, difficulties encountered and assumptions made

**3.23** A key issue in undertaking the appraisal of the emerging Local Plan is the partly strategic nature of the document, the uncertainty surrounding precisely how its ambitions will be implemented on the ground and the degree to which they will be achieved in practice (particularly since many different partners are involved in its delivery).

**3.24** Inevitably, a high degree of judgement has been required in undertaking the appraisals to determine the ‘significance’ of effects. Sustainability appraisal relies on expert judgement, which is guided by knowledge of the likely impacts of the plan, the baseline data available and responses and information provided by consultees and other stakeholders. The assessment has been carried out and reported using an expert, judgement-led, qualitative assessment.

**3.25** Definitions of significance have been identified and used in the appraisals in order to address the qualitative nature of the work, and to help ensure consistency and transparency. This is discussed further from paragraph 3.27 below.

**3.26** Some gaps in the baseline data regarding detailed trends across the plan area have been identified. Although every effort has been made to present an accurate baseline situation in the scoping report, there have been inevitable data constraints and the scoping

report is subject to regular review. Information contained within the scoping report is always likely to become outdated quickly and there are time and resource issues regarding how often this data can be updated.

### Definitions of significance

**3.27** In order to support the appraisals, definitions of significance were used to ensure assessments were consistent and transparent. These definitions are set out in Table 3.4 below, and show the rationale under-pinning judgements made on significance of identified effects. The key to the symbols depicting the description of significance used in Table 3.4 is given in Table 3.3 below.

**3.28** In considering definitions of significance, suggested acceptable walking distances have been taken from Building for Life 12 as set out in the table below.

(1)	Town centres (m)	Commuting / School / Sight-seeing (m)	Elsewhere (m)
Desirable	200	500	400
Acceptable	400	1000	800
Preferred maximum	800	2000	1200

**Table 3.2 Suggested acceptable walking distances**

1. Source: The Institution of Highways and Transportation (2000) Guidelines for Providing for Journeys on Foot, London

### Key to description of the nature of effects

Effect	
++	The policy / proposal will have a very positive impact on the sustainability objective. See definition of significance in Table 3.4.
+	The policy / proposal will have a slightly positive impact on the sustainability objective. See definition of significance in Table 3.4.
0	The policy / proposal will have a negligible or neutral impact on the sustainability objective. A recorded neutral effect does not necessarily mean that there will be no effect at the project level, but shows that at this strategic level there are no identifiable effects.
-	The policy / proposal will have a slightly negative impact on the sustainability objective. See definition of significance in Table 3.4.
--	The policy / proposal will have a very negative impact on the sustainability objective. See definition of significance in Table 3.4.
i	The outcome could be dependent on implementation, or more detail is required to make an assessment.

Effect	
?	The impact of an issue cannot be predicted at this stage.

**Table 3.3 Description of the nature of effects**

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
1. To improve community cohesion and the quality of the quality of where people work and live.	<ul style="list-style-type: none"> <li>Will it make a positive contribution towards community cohesion?</li> <li>Will it improve neighbourhood quality?</li> <li>Will it ensure that there is adequate open space and support Green Infrastructure (GI)?</li> <li>Will it minimise light and noise pollution?</li> <li>Will it ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	<p>++</p> <p>+</p> <p>-</p> <p>--</p>	<p>The proposal could enable the delivery of new, or the significant enhancement of existing, community facilities and services.</p> <p>The proposal could enable significant improvements to the social and environmental quality of the neighbourhood.</p> <p>The proposal could enable significant enhancement of the District's GI network. The proposal is within the existing settlement boundary.</p> <p>The proposal could enable the enhancement of existing, community facilities and services.</p> <p>The proposal could enable improvement of the social and environmental quality of the neighbourhood.</p> <p>The proposal could enable enhancement of the District's GI network. The proposal is within or adjoins the existing settlement boundary.</p> <p>The proposal could reduce the availability and quality of existing community facilities and services.</p> <p>The proposal could have an adverse effect on the social and environmental quality of the neighbourhood.</p> <p>The proposal could have an adverse effect on the District's GI network. The proposal is separate from an existing settlement.</p> <p>The proposal could result in the loss of existing community facilities and services without suitable replacement</p> <p>The proposal could have a significantly adverse effect on the social and environmental quality of the neighbourhood.</p> <p>The proposal could have a significantly adverse effect on the District's GI network.</p> <p>The proposal is remote from an existing settlement.</p>
2. To advance equality of opportunity	<ul style="list-style-type: none"> <li>Will it remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy /</li> </ul>	++	<p>The proposal could ensure that new development is located in close proximity to a wide range of services and facilities (e.g. within 800m of a wide range of services and/or 400m of a settlement centre.) The needs of all members of the community can be addressed.</p>

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>maternity, race, religion / belief, sex and sexual orientation?</li> <li>Will it help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>+</p> <p>-</p> <p>--</p>	<p>The proposal could ensure that new development is located in proximity to some services and facilities (e.g. within 800m of a key service.)</p> <p>The proposal could result in new development being located away from existing services and facilities (e.g. in excess of 2,000m from a wide range of services.)</p> <p>The proposal could result in new development being inaccessible to existing services and facilities. The needs of some members of the community could not be addressed.</p>
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Will it improve health or access to health facilities?</li> <li>Will it promote healthy lifestyles?</li> <li>Will it reduce health inequalities?</li> <li>Will it provide opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>++</p> <p>+</p> <p>-</p>	<p>The proposal could ensure that new development is located in close proximity to a range of healthcare facilities (e.g. within 800m of a GP surgery and open space).</p> <p>The proposal could have strong and sustained impacts on healthy lifestyles and improve well-being through physical or recreational activity.</p> <p>The proposal could deliver new healthcare or physical recreation facilities; open space or enable improved recreational access to the countryside and address the needs of those areas which experience economic and/or social deprivation.</p> <p>The proposal could ensure that new development is located in proximity to a healthcare facility (e.g. within 1,200m of a GP surgery and open space).</p> <p>The proposal could support healthy lifestyles and well-being through physical or recreational activity and enable improved recreational access to the countryside.</p> <p>The proposal could deliver development in excess of 1,200m from a GP surgery or open space.</p> <p>The proposal could reduce access to healthcare facilities and open space.</p> <p>The proposal could have effects which could result in a deterioration of health e.g. through reducing opportunity for physical or recreational activity, including reducing opportunities for supporting recreational access to the countryside.</p>

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
		--	<p>The proposal could result in loss of healthcare facilities and open space without suitable replacement.</p> <p>The proposal could have significant effects which could result in a deterioration of health within the community e.g. through loss of leisure and physical recreational facilities.</p>
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Will it reduce actual levels of crime?</li> <li>Will it reduce fear of crime?</li> </ul>	++	The proposal could significantly reduce the level of crime and fear of crime through design and/or other safety measures.
		+	The proposal could reduce the level of crime and fear of crime through design and/or other safety measures.
		-	The proposal risks leading to an increase in reported crime and the fear of crime in the District.
		--	The proposal risks leading to a significant increase in reported crime and the fear of crime in the District.
		++	<p>The proposal could provide a significant contribution to help boost the supply of housing in the District (for sites: over 20 dwellings in towns and over 10 dwellings elsewhere).</p> <p>The proposal could enable the delivery of a range of types and tenures making a significant contribution to meeting the needs of the whole community.</p> <p>The proposal could make a significant contribution to the delivery of affordable homes.</p>
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Will it provide an appropriate mix of housing to enable all needs to be met?</li> <li>Will it enable people to meet their needs within their existing communities?</li> <li>Will it ensure that people can afford their housing?</li> </ul>	+	<p>The proposal could provide a contribution to help boost the supply of housing in the District (for sites: between 15 - 19 dwellings in towns and between 5 - 9 elsewhere).</p> <p>The proposal could enable the delivery of a range of types and tenures making a contribution to meeting community needs</p> <p>The proposal could make a contribution to the delivery of affordable homes.</p>

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
		-	<p>The proposal could fail to provide a contribution to help boost significantly the supply of housing in the District (for sites: between 1 - 14 dwellings in towns and 1 - 4 dwellings elsewhere).</p> <p>The proposal could not enable the delivery of a range of types and tenures and could fail to make a contribution to meeting community needs.</p> <p>The proposal could not make a contribution to the delivery of affordable homes.</p>
		--	<p>The proposal could fail to provide a contribution to help boost the supply of housing in the District (for sites: 0 dwellings).</p> <p>The proposal could fail to provide an appropriate mix of housing and significant need of some parts of the community could be unmet.</p> <p>The proposal could not make a contribution to the delivery of affordable homes and significant affordable housing need could be unmet.</p>
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Will it minimise impacts on existing traffic congestion?</li> <li>Will it support the use of public transport?</li> <li>Will it support safe walking and cycling?</li> <li>Will it protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	++	<p>The proposal could have a significantly positive effect on minimising the impact of new development on existing traffic congestion e.g. a site in an area without existing traffic congestion.</p> <p>The proposal could offer significant support for the use of public transport e.g. a site that could deliver development within 500m of a bus stop or 1,000m of a train station.</p> <p>The proposal could provide significant support for safe walking and cycling e.g. development that could deliver a new, or improvement to an existing, greenway and /or deliver development within 400m of a settlement centre or 800m of a range of services and facilities.</p>

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
		+	<p>The proposal could have a positive effect on minimising the impact of new development on existing traffic congestion e.g. a site in an area without high levels of existing traffic congestion.</p> <p>The proposal could offer support for the use of public transport e.g. a site that could deliver development within 1,000m of a bus stop or 2,000m of a train station.</p> <p>The proposal could provide support for safe walking and cycling e.g. development that could deliver a new, or improvement to an existing, greenway and /or deliver development within 800m of a settlement centre or 1,200m of a range of services and facilities.</p>
		-	<p>The proposal could increase the need to travel by less sustainable forms of transport, increasing road traffic and congestion eg a site remote from a settlement centre (eg in excess of 2,000m from a wide range of services) and/or in an area of existing traffic congestion.</p> <p>The proposal could not offer support for the use of public transport eg a site that could deliver development in excess of 2,000m from public transport services.</p>
		--	<p>The proposal could significantly increase the need to travel by less sustainable forms of transport, increasing road traffic and congestion.</p>
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Will it reduce emissions of greenhouse gases particularly CO<sub>2</sub>?</li> <li>Will it increase energy efficiency?</li> <li>Will it increase the use of renewable energy?</li> <li>Will it ensure new development is in accessible locations in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	++	<p>The proposal could significantly reduce greenhouse gas emissions from the District.</p> <p>The proposal could significantly reduce energy consumption or increase the amount of renewable energy used / generated.</p> <p>The proposal could deliver development within 400m of a settlement centre or 800m of a range of services and facilities.</p>
		+	<p>The proposal could reduce greenhouse gas emissions from the District.</p> <p>The proposal could reduce energy consumption or increase the amount of renewable energy used / generated.</p> <p>The proposal could deliver development within 800m of a settlement centre or 1,200m of a range of services and facilities.</p>

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
		-	<p>The proposal could lead to an increase in greenhouse gas emissions from the District</p> <p>The proposal could lead to an increase in energy consumption.</p> <p>The proposal could fail to support increase in the use of renewable energy.</p> <p>The proposal could deliver development in excess of 1,200m from a wide range of services and facilities.</p>
		--	<p>The proposal could lead to a significant increase in greenhouse gas emissions from the District.</p> <p>The proposal could lead to a significant increase in energy consumption.</p> <p>The proposal could lead to a decline in the contribution made by renewable forms of energy.</p> <p>The proposal could deliver development in excess of 2,000m from public transport and other services and facilities.</p>
8. To improve air quality.	<ul style="list-style-type: none"> <li>Will it minimise emissions of airborne pollutants?</li> <li>Will it maximise the removal of air pollutants (e.g. by trees)?</li> </ul>	++	The proposal could significantly improve air quality; result in air quality targets being met and/or the number of identified areas of poor air quality being reduced.
		+	<p>The proposal could improve air quality.</p> <p>The proposal could contribute to improvements in air quality e.g. through delivery of significant soft landscape features.</p>
		-	<p>The proposal could lead to a decrease in air quality.</p> <p>The proposal could result in new development being located within 500m of an identified area of poor air quality.</p>
		--	<p>The proposal could lead to a decrease in air quality and could result in the extension to an identified area of poor air quality.</p> <p>The proposal could result in new development being located within an identified area of poor air quality.</p>

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Is new development directed towards areas of least flood risk?</li> <li>Will it reduce risk of flooding eg by encouraging the integration of mitigation measures such as SuDs into new development?</li> <li>Will it protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Will it encourage water efficiency and demand management?</li> </ul>	++	<p>The proposal could significantly reduce flood risk to new or existing infrastructure or communities currently located in the 1 in 100 year floodplain (flood zone 3). The proposal could lead to a significant reduction of wastewater, surface water runoff and/or pollutant discharge so that the quality of groundwater and/or surface water could be significantly improved and all water targets could be met.</p> <p>The proposal could lead to a significant reduction in the demand for water from the District.</p>
		+	<p>The proposal could reduce flood risk to new or existing infrastructure or communities currently located in the 1 in 1,000 year floodplain (flood zone 2). The proposal could lead to a reduction of wastewater, surface water runoff and/or pollutant discharge so that the quality of groundwater and/or surface water could be improved so that some water targets could be met.</p> <p>The proposal could lead to a reduction in the demand for water from the District.</p>
		-	<p>The proposal could result in an increased flood risk within the 1 in 1,000 year floodplain (flood zone 2).</p> <p>The proposal could result in development being located in flood zone 2.</p> <p>The proposal could reduce flood risk to new or existing infrastructure or communities currently located in the 1 in 1,000 year floodplain (flood zone 2). The proposal could lead to an increase in the amount of wastewater, surface water runoff and/or pollutant discharge so that the quality of groundwater and/or surface water could be reduced.</p> <p>The proposal could lead to an increase in the demand for water from the District.</p>
		--	<p>The proposal could result in an increased flood risk within the 1 in 100 year floodplain (flood zone 3).</p> <p>The proposal could result in development being located in flood zone 3.</p> <p>The proposal could lead to a significant increase in the amount of wastewater, surface water runoff and/or pollutant discharge so that the quality of groundwater and/or surface water could be decreased and water targets could not be met.</p> <p>The proposal could lead to a significant increase in the demand for water from the District.</p>

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Will it protect and promote effective management of the district's sites of ecological and nature conservation importance?</li> <li>Will it help contribute to Staffordshire Biodiversity Action Plan objectives?</li> <li>Will it help deliver networks of biodiversity and green infrastructure?</li> </ul>	<p>++</p> <p>+</p> <p>-</p> <p>--</p>	<p>The proposal could have a positive effect on European or national designated sites, habitats or species e.g. enhancing habitats, creating additional habitat or increasing protected species population.</p> <p>The proposal could create new habitat and link it with existing habitats or significantly improve existing habitats to support local biodiversity.</p> <p>The proposal could have a positive effect on regional or locally designated sites, habitats or species.</p> <p>The proposal could improve existing habitats to support local biodiversity.</p> <p>The policy could enhance the District's ecological and GI networks.</p> <p>The proposal could have negative effects on regional or locally designated sites, habitats or species e.g. short term loss of habitats, temporary loss of species.</p> <p>The proposal could lead to short-term disturbance of existing habitat but could not have long-term effects on local biodiversity.</p> <p>The proposal could adversely affect the District's ecological and GI networks.</p> <p>The proposal could have a negative effect on European or national designated sites, habitats and/or protected species and these effects could not be reasonably mitigated.</p> <p>The proposal could have a significantly adverse effect on the District's ecological and GI networks.</p>
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance	<ul style="list-style-type: none"> <li>Will it safeguard the best and most versatile agricultural land?</li> <li>Will it minimise the loss of greenfield land?</li> <li>Will it reduce land contamination / instability?</li> <li>Will it reduce the amount of derelict land?</li> <li>Will it protect notable geological and geomorphological features?</li> </ul>	<p>++</p> <p>+</p>	<p>The proposal could avoid the loss of agricultural land including the best and most versatile land.</p> <p>The proposal could result in significant development on brownfield land.</p> <p>The proposal could result in soil contamination being removed.</p> <p>The proposal could have major positive effects on protected geologically important sites.</p> <p>The proposal could result in development on brownfield land.</p> <p>The proposal could have positive effects on protected geologically important sites.</p>

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
geological resources.		-	The proposal could result in development on greenfield land. The proposal could have minor negative effects on protected geologically important sites.
		--	The proposal could result in the loss of the best and most versatile agricultural land. The proposal could result in land contamination. The proposal could have major negative effects on protected geologically important sites.
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Will it reduce waste generation?</li> <li>Will it maximise the re-use of existing buildings?</li> <li>Will it increase the use of building materials from sustainable sources?</li> </ul>	++	The proposal could reduce the amount of waste generated through prevention, minimisation and re-use. The proposal could enable the significant re-use of existing buildings. The proposal could enable the significant use of sustainable materials.
		+	The proposal could enable some re-use of existing buildings. The proposal could enable some use of sustainable materials.
		-	The proposal could involve the loss of existing buildings. The proposal could increase the demand for local resources.
		--	The proposal could result in a significantly increased amount of waste going to landfill. The proposal could involve the significant loss of existing buildings. The proposal could significantly increase the demand for local resources. The proposal could result in inappropriate development within a Minerals Safeguarding Area.

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Will it ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Will it protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	<p>++</p> <p>+</p> <p>-</p> <p>--</p>	<p>The proposal could provide opportunities to enhance cultural and historic heritage assets (designated and undesignated assets) along with their settings. The proposal could offer potential to significantly enhance townscape character.</p> <p>The proposal could protect cultural and historic heritage assets (designated and undesignated assets) along with their settings. The proposal could offer potential to enhance townscape character.</p> <p>The proposal could lead to deterioration of cultural and historic heritage assets (designated and undesignated assets) or their settings.</p> <p>The proposal could lead to significant deterioration of cultural and historic heritage assets (designated and undesignated assets) or their settings that could not be reasonably mitigated. The proposal could lead to new development that risked making a negative contribution to local character and distinctiveness.</p>
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Will it protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Will it promote development on brownfield land?</li> <li>Will it safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	<p>++</p> <p>+</p> <p>-</p>	<p>The proposal could offer potential to significantly protect and enhance landscape character in accordance with NCA profiles. The proposal could avoid development within 1,000m of protected sites (e.g. Natura sites and SSSIs) and thus recreational and urbanisation pressures on such sites.</p> <p>The proposal could offer potential to protect and enhance landscape character in accordance with NCA profiles. The proposal could avoid development within 400m of protected sites (e.g. Natura sites and SSSIs).</p> <p>The proposal could have an adverse effect on landscape character or an area of historic landscape value that could not be reasonably mitigated. The proposal has potential for an adverse effect on a site of local importance such as ancient woodland that could not be reasonably mitigated.</p>

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
		--	<p>The proposal could have a significant adverse effect on landscape character or area of historic landscape value that could not be reasonably mitigated.</p> <p>The proposal could result in development within proximity of protected sites (e.g. Natura sites and SSSIs) and could result in recreational and urbanisation pressures on such sites that could not be reasonably mitigated.</p>
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Will it support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Does it help support tourism and the visitor economy?</li> </ul>	++	The proposal could support opportunities for investment in culture and tourism that could result in significant positive effects on the local economy.
		+	The proposal could support opportunities for investment in culture and tourism that could result in positive effects on the local economy.
		-	The proposal could have negative effects on potential investment in culture and tourism that could result in negative impacts on the local economy.
		--	The proposal could have significantly negative effects on investment in culture and tourism that could result in significant negative impacts on the local economy.
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Will it safeguard shops and services in existing centres?</li> <li>Will it safeguard and improve the retail, leisure and service provision?</li> </ul>	++	The proposal could significantly enhance the vitality and viability of the District's towns and villages, contributing to the safeguarding and improvement of shops and services.
		+	The proposal could enhance the vitality and viability of the District's towns and villages contributing to the safeguarding and improvement of shops and services.
		-	The proposal could have an adverse effect on the vitality and viability of the District's towns and villages, leading to the decline of shops and services.
		--	The proposal could have a significantly adverse effect on the vitality and viability of the District's towns and villages, leading to significant decline in shops and services.

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Will it provide a balanced portfolio of employment land in sustainable locations?</li> <li>Will it provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	<p>++</p> <p>+</p> <p>-</p> <p>--</p>	<p>The proposal could significantly encourage investment in businesses, people and infrastructure which could lead to a strengthened and more diversified economy, e.g. it could deliver over 1ha of employment land within 20 minutes travel time of a main population centre.</p> <p>The proposal could encourage investment in businesses, people and infrastructure which could lead to a strengthened and more diversified economy. The proposal could provide accessible employment opportunities.</p> <p>The proposal could have a negative effect on business, the local economy and local employment, e.g. it could lead to the closure or relocation of existing business, or the loss of employment land.</p> <p>The proposal could have a significant negative effect on business, the local economy and local employment, e.g. it could lead to the closure or relocation of significant businesses, the loss of over 1ha of employment land or negative impact on key sectors of the economy (e.g. knowledge-based; advanced manufacturing).</p>
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Will it meet the employment needs of local people?</li> <li>Will it increase economic activity levels?</li> <li>Will it improve physical accessibility to jobs?</li> <li>Will it support higher income levels for local residents?</li> </ul>	<p>++</p> <p>+</p> <p>-</p>	<p>The proposal could facilitate the delivery of new employment opportunities, or residential development in close proximity to existing local employment provision e.g. within 500m or 10 minutes travel time by walk/cycle/bus/rail.</p> <p>The proposal could facilitate the delivery of new employment opportunities, or residential development e.g. within 1,000m or 30 minutes travel time of existing local employment provision by walk/cycle/bus/rail.</p> <p>The proposal is unlikely to contribute to the employment needs of local people e.g. by delivering development beyond 1,000m and 30 minutes travel time by walk/cycle/bus/rail.</p>

Objective	Decision making criteria	Effect	Illustrative Guidance for determining significance
		--	The proposal could fail to meet the employment needs of local people e.g. by delivering development beyond 1,500m and 30 minutes travel time by walk/cycle/bus/rail.

Table 3.4 Definitions of significance

## Consultation requirements for the sustainability appraisal

### The SEA Directive requires that

... “ authorities with relevant environmental responsibilities and the public ... shall be given an early and effective opportunity within appropriate time frames to express their opinion on the draft plan ... and accompanying environmental report...”

**3.29** This Initial Sustainability Appraisal Report has been published for formal public consultation alongside the Staffordshire Moorlands Local Plan - Preferred Options document. The consultation includes the statutory environmental organisations Natural England, Historic England and the Environment Agency, as required by the SEA Directive, alongside a wide range of other stakeholders and community organisations.

**3.30** Consultation has also previously been undertaken on the scope and level of detail of the sustainability appraisal through consultation on the SA Scoping Report held between 13<sup>th</sup> August 2014 and 26<sup>th</sup> September 2014. Seeking the views of the statutory environmental organisations on the scope and level of detail to be included in the Environmental Report is also a requirement of the SEA Directive.

SA Scoping stage

## 4 SA Scoping stage

### The SEA Directive requires

an environmental report to include ... “An outline of the plan’s relationship with other relevant plans and programmes”.

“The relevant aspects of the current state of the environment and the likely evolution thereof without implementation of the plan or programme”.

“The environmental characteristics of those areas likely to be significantly affected”.

“Any existing problems which are relevant to the plan or programme including, in particular, those relating to any areas of a particular environmental importance such as areas designated pursuant to Council Directive 79/409/EEC on the conservation of wild birds and Habitats Directive”.

“The environmental protection objectives, established at international, Community or Member State level, which are relevant to the plan or programme and the way those objectives and any environmental considerations have been taken into account during its preparation”.

**4.1** This stage of the sustainability appraisal (shown as stage A in Table 3.1) involves compiling background information needed before a sustainability appraisal can be undertaken. It established an evidence base for ongoing appraisal work and culminated in a framework of sustainability objectives.

**4.2** Key tasks in this evidence compilation included:

- identifying relevant policies, plans and programmes;
- collecting baseline information;
- identifying key sustainability issues in the plan area;
- establishing sustainability objectives.

**4.3** This evidence base work was subject to a period of public consultation held on the SA Scoping Report between 13<sup>th</sup> August 2014 and 26<sup>th</sup> September 2014 as part of a continuing baseline review taking place alongside preparation of the emerging Staffordshire Moorlands Local Plan. An SA Scoping Report was originally produced in 2006 and updated in 2007 to form the basis for assessing the Council's Local Development Framework.

**4.4** The SA Scoping Report forms part of the environmental report required by the SEA Directive. The scoping work is subject to continual review as evidence becomes outdated and new information made available. This helps to ensure that effects prediction and evaluation remains accurate and consistent.

**4.5** The key elements of the Scoping Report are described below, and the full version can be viewed online at:

[www.staffsmoorlands.gov.uk/sm/council-services/core-strategy/sustainability-appraisal-and-appropriate-assessment](http://www.staffsmoorlands.gov.uk/sm/council-services/core-strategy/sustainability-appraisal-and-appropriate-assessment)

## **Relationship with other plans and programmes (policy context) and baseline evidence**

**4.6** A thorough review was undertaken of other relevant plans, policies and programmes and this was presented in the Scoping Report. The purpose of this was to meet the requirement of the SEA Directive to take account of environmental protection objectives and to gather other information that would influence options to be considered in plan preparation.

**4.7** This review studied a range of international, national, regional and local documents that should be taken into account during the preparation of the Local Plan.

**4.8** This was followed by a thorough review of the sustainability "baseline" in the Staffordshire Moorlands plan area. The baseline identifies what is currently happening in Staffordshire Moorlands and the likely future state of the area if current trends were to continue. It provides the basis for predicting and monitoring effects and helps to identify sustainability problems and alternative ways of dealing with them.

## **Key sustainability issues**

**4.9** The review of plans, policies and programmes, and baseline research as described above, has enabled the identification of key sustainability issues in Staffordshire Moorlands (including environmental problems as required by the SEA Directive).

**4.10** Sustainability issues can be any problems or uncertainties which need to be understood and addressed before the Local Plan can be considered sustainable. On the basis of the issues identified, sustainability appraisal objectives have been defined which are used to test how likely the proposals in the Local Plan and alternative options are to lead to sustainable outcomes.

## **Sustainability appraisal framework**

**4.11** The Sustainability Appraisal Framework consists of sustainability objectives which provide a way in which the effects of the Local Plan can be described, analysed and compared. These objectives were developed as a result of the review of other plans and programmes and baseline, consultation responses and from the identified sustainability issues, in particular.

**4.12** Sustainability appraisal objectives are different in concept and purpose from the objectives of the Local Plan, though there is a degree of overlap. The objectives are listed in table 4.2 at section 4.1 and form the basis of the appraisal. The full framework includes detailed "decision aiding criteria"; these criteria help to ensure that all the key issues are included in the framework.

## **Comments received on the SA Scoping Report**

**4.13** The SA Scoping Report was consulted on for six weeks between 13<sup>th</sup> August 2014 and 26<sup>th</sup> September 2014. Seven organisations made comments and these are summarised in the table below.

**4.14** Where possible comments have been taken on board during the preparation of this Initial SA Report. Other comments, including the identification of additional plans and programmes, will be addressed when the revised Scoping Report is published.

**4.15** Details of the responses received and the Council's actions in the light of responses is set out in the table below.

Organisation	Summary of Response	Action
Staffordshire Police	Welcomes that ' <b>crime</b> ' has been identified as a sustainability issue and that there is a recognition within the local authority that 'New developments need to create safe public and private environments and include 'designing out crime' initiatives' and that objective (No.4) 'To minimise opportunities for crime and reduce the fear of crime' is proposed to reflect this. Seeking to fulfil this objective helps satisfy the obligation within Section 17 of the Crime and Disorder Act 1998 placed on all local authorities 'to exercise their functions with due regard to their likely effects on crime and disorder, and to do all they reasonably can to prevent crime and disorder' .	Support noted.
Staffordshire Police	With regard to the local authority's recognition for the need to include ' <b>designing-out crime</b> initiatives', the local authority could do no better than embrace Secured by Design and require all new developments to be built and accredited to Secured by Design.	Core Strategy Policy DC1 – Design Considerations states that new development should incorporate 'designing-out crime initiatives'. Add reference to Plans, Policies and Programmes list in Appendix 1.
English Heritage	<b>Mitigation measures</b> are mentioned throughout the document, how will any mitigation measures be included within the Local Plan? Consider inserting a statement to set out how this will be dealt with. We would encourage mitigation measures to be incorporated within the Local Plan itself, in policy wording and justification text.	Agree. Include reference in the scoping report to clarify that mitigation measures will be incorporated within the Local Plan, in policy wording and justification text.
Environment Agency	<b>Flood Risk:</b> The ability of the WFD waterbodies to meet their required status by 2027 could be affected by growth. The ability of the existing sewerage infrastructure and water environment to accommodate	Agree. Include this within the sustainability issues.

Organisation	Summary of Response	Action
	the proposed levels of growth should be reflected within this section.	
Environment Agency	<b>Objective 9:</b> summarises the SA objectives identified for the plan. Although we welcome Point 9 (to reduce flood risk and protect water resources) we recommend that Point 7 (to minimise contributions to climate change) is expanded to also include climate change adaptation, as there are other climate change impacts that should be considered within the plan.	Accepted. Amend Objective 7 to reflect to include reference to climate change adaption.
Environment Agency	<p>We have reviewed <b>Appendix 1</b> and welcome the inclusion of the EU Water Framework Directive (WFD) and corresponding Humber River Basin Management Plan (RBMP).</p> <p>Suggest including the following.</p> <ul style="list-style-type: none"> <li>• River Trent Catchment Flood Management Plan (CFMP) 2010 produced by the Environment Agency - these give an overview of the flood risks across different catchments and ensure that works/development affecting flooding are coordinated between all parties.</li> <li>• Staffordshire Preliminary Flood Risk Assessment (PFRA) (2011) - The Preliminary Flood Risk Assessments (PFRAs) provide a high level summary of significant flood risk from surface water, ordinary watercourses and groundwater through collection of information on past (historic) and future (potential) floods. They are a requirement of the Flood Risk Regulation 2009 and must be produced every 6 years.</li> <li>• Shropshire and Staffordshire Local Flood Risk Management Strategy (2014) - currently out for consultation - This Local Flood Risk Management Strategy (LFRMS) offers an opportunity for Staffordshire County Council (as Lead Local Flood Authority) to formalise their longer term vision and shape individual priorities that deliver the greatest benefit to the people, property and environment of Staffordshire.</li> </ul>	Comments noted. Agreed that the other documents can be referenced in Appendix 1.
Environment Agency	We have reviewed <b>Appendix 2</b> and note that there is no reference to baseline data relating to the WFD waterbodies that flow through your district. The ability of these waterbodies to meet their required status by 2027 could be hindered by growth, and it should be	Noted. SA to be updated accordingly.

Organisation	Summary of Response	Action
	ensured that the plan is able to mitigate for this risk and ensure that watercourses are retained at or returned to their most natural possible condition. Please see the attached spreadsheet and map which shows the waterbodies affecting your district, their current status and their required future status.	
Environment Agency	Under the housing and employment sections we note section 5 (flood risk) and the criteria of <b>classifying developments</b> 1-4 according to their location in relation to the floodplain. We note that Floodzone 3b is not specified here. In line with Table 2 of the NPPG residential and employment development is not considered appropriate within this zone, therefore sites at this level of risk should be thinned out as part of the SHLAA process and not be further considered as allocations. In light of this, we find exclusion of a reference to FZ3b acceptable.	Noted. Site assessment methodology reviewed.
Environment Agency	We also welcome the inclusion of <b>criteria 9</b> (physical infrastructure including sewerage and water provision). We note this alludes to findings of the Development Capacity Study, which summarises a number of infrastructure requirements under the red amber green system. We recommend that sewerage infrastructure is singled out under its own criteria, in order to highlight the site's potential impact on the pollution of the water environment. Development in locations where there is the availability of public main foul sewer should be considered in preference to those where connection is not feasible, as it is these sites that will pose the greatest risk of pollution of the water environment as any treated effluent will discharge directly into the water environment (either groundwater or rivers). Data for this would be provided by a WCS if the Development Capacity Study does not provide this level of detail.	Noted. Site assessment methodology reviewed.
Environment Agency	<b>Criteria 11 assesses contamination.</b> We welcome the high scoring of contaminated sites, as these provide unique opportunities for the remediation of any underlying contamination and therefore protection and improvement of the water environment (as required under WFD).	Noted. Site assessment methodology reviewed.
Environment Agency	With regards to the <b>criteria for gypsy and traveller sites</b> , we draw your attention to Table 2 of the NPPG that states that such a land use is not suitable for sites within Flood Zone 3, and only suitable in Flood Zone 2 in exceptional circumstances. Sites affected by Flood Zone 3 (3a or 3b) should therefore be thinned out prior	Noted. Site assessment methodology reviewed.

Organisation	Summary of Response	Action
	to consideration by sustainability appraisal as being contrary to national policy. The scoring criteria should therefore be reconsidered in light of the high vulnerability of this land use.	
Natural England	<b>Soil and Agricultural Land:</b> No mention if an assessment has been undertaken to determine the quality of soil and agricultural land. Digital ALC data is available from Natural England and sufficient site specific data should be available to inform decision making.	Add section referring to Soil and Agricultural Land.
Natural England	<b>Landscape:</b> Pleased the landscape section has highlighted that District adjoins the PDNP. Suggest the baseline incorporates the South West Peak, White Peak and Potteries and Churnet Valley National Character Areas (NCAs) which fall within the Staffordshire Moorlands. NCA profiles provide an invaluable resource for understanding wider landscape context, and highlighting opportunities for enhancement of the natural environment.	Agree. Add reference to these in the baseline information and Plans, Policies and Programmes list in Appendix 1.
Natural England	<b>Access and Recreation:</b> Access to the countryside is not included as a topic. NE encourages any proposal to incorporate measures to help encourage people to access the countryside for quiet enjoyment. Relevant aspects of local authority green infrastructure strategies should be incorporated where appropriate. The SA should also consider Green Infrastructure.	Agree that Access to the Countryside could be included as a topic. Green Infrastructure is considered within Objective 10 but could also be considered within Objectives 1 and 6.
Natural England	Insert a reference to the historic environment within the ' <b>cumulative impacts</b> ' section on page 15/16 and assess what impacts could arise for the historic environment.	Accepted. Add reference to historic environment within this section.
Natural England	<b>Objective 6:</b> NE are pleased that there is an objective to encourage sustainable links between rural areas and towns. However strongly recommends that that an objective is included which seeks to protect and improve access to the natural environment.	Consider that this can be considered within Objective 6 by adding a question under decision making criteria within Appendix 3.

Organisation	Summary of Response	Action
Natural England	<b>Objective 10:</b> The Moorlands has a number of internationally designated nature conservation sites and locally protected sites. There should therefore be an objective to test the plan's policies and proposals on European sites and SSSIs.	Agreed. Amend Objective 10 to reflect this.
Natural England	<b>Objective 11:</b> This could be improved to be more specific to protecting the best and most versatile agricultural land.	Agreed. Amend Objective 11 to reflect this.
Natural England	<b>Objective 14:</b> This could be strengthened by making reference to protected sites and could incorporate links to the NCA objectives.	Agreed. Add a question under decision making criteria within Appendix 3 making reference to protected sites and natural environment.
Natural England	Suggest that <b>Biodiversity 2010</b> and neighbouring local plans could be considered in the SA context.	Add references to Plans, Policies and Programmes list in Appendix 1.
Natural England	The <b>baseline data</b> should consider the presence of Protected species and Priority species (including Annex1 birds and regularly occurring migratory birds). Site allocations within the local plan could affect habitats that support either domestic or European Protected Species. Areas that are known to be wildlife habitats or corridors should be highlighted and scoped into the SEA to be considered.	Noted.
Natural England	We have highlighted above data that could further inform the <b>baseline</b> in relation to protected species, soils, landscape and access to nature.	Comments noted.
Natural England	<b>Objective 10:</b> 'Will it help to deliver the findings of the Appropriate Assessment?' It is not clear what this indicator is setting out to achieve. An Appropriate Assessment is a stage within the Habitat Regulation process to assess whether a plan or project is likely to have adverse impacts on a European site. Complying with the Appropriate Assessment is therefore a requirements under the Habitat Directive. Natural England recommends an indicator that would encourage benefits to the natural environment for example;	Agreed that this is a requirement under the Habitat Directive. Amend Appendix 3 to reflect comments and add suggested indicator.

Organisation	Summary of Response	Action
	"% of new developments incorporating ecological enhancement measures per year".	
Natural England	<p>Natural England is concerned that the <b>site appraisal</b> process does not give sufficient weight to the natural environment, in particular designated sites. The SA states that European designated sites (also commonly referred to as Natura 2000 sites), fall within your Authority boundary. European sites are afforded protection under the Conservation of Habitats and Species Regulations 2010, as amended (the 'Habitats Regulations'). In considering European sites of interest, Natural England advises that you, as a competent authority under the provisions of the Habitats Regulations, should have regard for any potential impacts that a plan or project may have. The Conservation objectives for each European site explain how the site should be restored and/or maintained and may be helpful in assessing what, if any, potential impacts a plan or project may have.</p> <p>European sites are also notified at national level as Sites of Special Scientific Interest (SSSI). Natural England notes that criteria 4 'protected land' is split into two themes 'green belt' and 'nature conservation sites' Natural England is concerned that Green Belt is given greater weighting in terms of scoring than Nature Conservation sites. This could lead to pressure being created to allocate sites for housing within or adjacent to international / national designated sites and therefore have the potential to affect their interest features. It is also important to be aware that housing development can have indirect impacts on protected sites for e.g. a housing site adjacent to a designated could have impacts on its interest features via recreational disturbance and 'urban edge' effects etc. In line with the NPPF paragraph 113, distinctions should be made between the hierarchy of international, national and local sites. This therefore need to be reflected in the assessment criteria when scoring potential development sites against designated sites.</p>	Site appraisal methodology reviewed.
Historic England	<b>Landscape:</b> Information from the historic character assessment could be included here.	Agree. Add separate paragraph into landscape section regarding this.

Organisation	Summary of Response	Action
Historic England	<b>Historic Assets:</b> Request amending 'historic assets' to read 'heritage assets'. We would encourage including some additional information in this section, such as referencing the HER, numbers of assets (designated and undesignated assets), the availability of conservation area appraisals and management plans as examples.	Agree. Amend title and add additional information as suggested.
Historic England	<b>Objectives 13 &amp; 14.</b> We support the inclusion of specific objectives within the SEA for the historic environment considering both buildings and landscape. Include reference to the need to protect, conserve and enhance the significance of heritage assets, which includes their setting. Ensure that the objective relates to both designated and undesignated assets.	Objective 13 refers to the setting of heritage assets. An amendment can be made to the question under decision making criteria within Appendix 3 to refer to undesignated assets.
Historic England	<b>Objective 15:</b> Consider using the term heritage. The section title references 'local distinctiveness', we would encourage including this term within the objective.	Agreed. Add references to heritage and local distinctiveness.
Historic England	Include <b>monitoring indicators</b> that reflect the historic environment. The English Heritage SEA guidance, link included below, includes monitoring examples that may be useful.	Accepted.
Historic England	Support the reference to conservation area appraisals, historic environment characterisation, landscape and settlement character appraisals. Also encourage the inclusion of the Historic Environment Record, Heritage Legislation and National Planning Policy Guidance.	Support noted.
Historic England	<b>Appendix 2</b> amend 'historic assets' to read 'heritage assets' and 'historic Parks and Gardens' to read 'Registered Parks and Gardens'. Include information from the Historic Environment Record on a wider range of issues including archaeology and undesignated assets. Reference other historic environment evidence base such as conservation area appraisals and management plans within this section. Consider including a reference to locally important listings, if applicable.	Noted. SA will be updated accordingly.

Organisation	Summary of Response	Action
Historic England	Page 29 on <b>site assessments</b> consider how an assessment of the impacts/harm to the historic environment, as a result of development/site allocations, could be included within this process. Any potential sites for allocation would have to undergo a heritage impact assessment.	SA methodology reviewed and assessment commissioned.
Historic England	Appendix 4 regarding <b>site assessment criteria</b> scores highly where development is not within or adjacent to heritage assets such as conservation areas. However, if development is appropriate and takes account of the historic environment then it is possible for development to protect, conserve and/or enhance heritage assets. The NPPF states that sustainable development within a conservation area could better reveal its significance.	SA methodology reviewed.
Historic England	Within Appendix 4 and between the different uses – housing/employment/travellers sites there are different criteria that are applied; this should be a consistent approach. Consider this approach during the <b>site assessment</b> process. The important issue is to consider what impacts/harm to the historic environment could result from development and how they can be avoided/ mitigated. A heritage impact assessment would be a beneficial tool.	SA methodology reviewed and assessment commissioned.
Historic England	Sources at the end of the <b>assessment criteria</b> should reference historic environment sources such as the HER and other documents of relevance.	Noted.
Staffordshire County Council	The three Extensive Urban Survey (EUS) for Alton, Cheadle and Leek should be included within Chapter 2 paragraph 2.4 under the heading “Historic Assets” alongside the reference to the Historic Environment Character Assessment (HECA). The EUS also considers the impacts of change on the historic environment of the District’s three medieval towns in greater detail than that provided within the HECA. The emerging English Heritage and SCC guidance on the sustainable reuse of historic farm buildings and sympathetic new build on historic farmstead complexes is a county-wide guidance document which has particular resonance in the Staffordshire Moorlands. This guidance lays a methodology for the preliminary assessment of historic farm buildings/complexes by applicants and for discussion with local planning officers. The aim of this approach is to enable early discussion and the development of appropriate and sustainable proposals which promote the conservation of historic farm complexes through their sustainable	Noted.

Organisation	Summary of Response	Action
	<p>reuse and the deployment of appropriate new build to reflect the area and the site's inherent historic character.</p> <p>The section on 'Historic Assets' considers (in sentence 2) the range of heritage assets, many of which are statutorily protected including '...buildings, gardens and structures'; this sentence must also include reference to archaeological remains (such as the Scheduled Bury Bank hillfort). This section should also recognise that the unique character of heritage assets may comprise a range of individual elements, for example Alton Castle is a Grade I Listed Building, but is also a Scheduled Monument which also incorporates medieval earthworks, structural remains and below ground archaeological remains within its bounds. The castle also represents an important landscape feature.</p> <p>The majority of heritage assets are not however statutorily protected and instead receive consideration as part of the planning process. The nature of below ground archaeological remains means that their presence and significance is often not fully understood before they are encountered. As such there is the potential for non-scheduled nationally important remains to be present. Sustainability in this context requires early discussions (and in some circumstances investigations) where development may impact upon such sensitive remains to develop appropriate strategies to ensure the conservation and enhancement of such remains.</p>	
Staffordshire County Council	<p>There are errors in the Biodiversity, Flora and Fauna section in 2.4. Geodiversity should be added. Nationally designated sites are not referenced. It should be made clear that the data from Defra for area of designated sites in favourable condition relates only to SSSIs. Staffordshire Wildlife Trust may be able to supply data on local sites. This will show a much lower proportion of local sites in favourable condition than SSSIs. Condition of designated habitats is therefore an issue, associated with agricultural practices and economy. This section is limited to designated sites. Reference to ecological connectivity, in line with Natural Environment White Paper and the NPPF is required. An issue in Moorlands, as elsewhere, is addressing fragmentation of habitats and facilitating and encouraging improvements in habitat connectivity. Reference to biodiversity opportunity mapping would be relevant here and to the Churnet Valley Living</p>	Noted. SA will be updated accordingly.

Organisation	Summary of Response	Action
	Landscapes Project which includes objectives for enhancing ecological connectivity. Moorlands includes a significant survival of species-rich grassland – one of the most threatened and declining habitats nationally – while the Churnet Valley supports a significant area of ancient woodland and the district supports important moorland habitats - this could be recognised including the role these surviving habitats play in attracting visitors.	
Staffordshire County Council	Should be an objective to deliver more <b>extra care units</b> in line with the Flexicare Strategy. SCC keep a database which could be used for monitoring purposes.	Agree. Add extracare into Objective 5 and include a monitoring indicator.
Staffordshire County Council	Support <b>monitoring of SA 13</b> but what is the indicator measuring, total number, condition, number of designated heritage assets considered 'at risk'?	Noted.
Staffordshire County Council	<b>Biodiversity, Flora and Fauna:</b> Reference to Appropriate Assessment may not be required – if this is not fully met a proposal/site should be refused. Legal requirements mean that this cannot be balanced against other objectives/criteria. If it is included the objective should be that impacts on Europa 2000 sites are fully avoided. Reference to meeting/contributing to objectives of the Water Framework Directive should be made. Reference to contributing to Staffordshire Biodiversity Action Plan objectives would be welcomed. Thought could be given to an indicator of contribution to ecological connectivity. Connectivity mapping can be carried out for some habitats.	Noted and SA will be updated accordingly.
Staffordshire County Council	SA 3. <b>Access to natural green space</b> could be added as an indicator. There is much evidence that this is an indicator for physical and mental health.	Noted and SA will be updated accordingly.
Staffordshire County Council	There is no mention of <b>Veteran or Ancient trees</b> within the documentation. These are highlighted in the NPPF and therefore should be reflected in local documentation. This is a difficult asset, in that they are often not recorded, however due to their cultural and ecological importance, once lost cannot be replaced. An indicator would be through data collection and safeguarding through the Planning Process. <b>Soil and Material Assets.</b> A better indicator for geological sites would be condition rather than area.	Noted and SA will be updated accordingly.

Organisation	Summary of Response	Action
Staffordshire County Council	<b>Objective 2</b> covers access to education and minimising distance to travel. However, we feel that this does not take into account the capacity of nearby schools or the potential for new sites to provide additional facilities. Therefore, the indicators should be updated to include the number of school places created and the distance of new housing to school sites. The School Organisation Team at the County can provide data annually on new school places created for monitoring purposes.	Noted and SA will be updated accordingly.
Staffordshire County Council	<b>Appendix 1</b> should also include the following policies and documents relating to Cultural Heritage. Under International/European Context the relevancy of the European Landscape Convention (2000), Florence and the Convention for the Protection of the Archaeological Heritage of Europe (1992), Valletta should be considered. Under Local/Sub-Regional Context the three Extensive Urban Surveys (EUS), for Alton, Cheadle and Leek, should be included. This appendix should also identify the emerging EH/SCC guidance concerning the sustainable reuse of historic farmsteads. While a county-wide document, this does have particular relevant to the Staffordshire Moorlands where many important early farm buildings and complexes survive.	Noted and SA will be updated accordingly.
Staffordshire County Council	<b>International:</b> The EU Green Infrastructure Strategy should be referred to: EU-wide strategy on Green Infrastructure: Enhancing Europe's Natural Capital. The EU Water Framework Directive should be listed. <b>National:</b> The UK Biodiversity Strategy: Biodiversity 2020: A strategy for England's wildlife and ecosystem services should be cited. The White Paper on the Natural Environment: The Natural Choice- Securing the Value of Nature should be cited. The Conservation of Habitats and Species Regulations 2010 and the Natural Environment and Rural Communities Act 2006 should be referenced. Reference to the Wildlife and Countryside Act is incorrect. This should read The Wildlife and Countryside Act 1981 (as amended).	Noted and SA will be updated accordingly.
Staffordshire County Council	<b>European context:</b> The European Landscape Convention (Florence 2002): Landscape is an important part of the quality of life for people everywhere: in urban areas and in the countryside. It sets, as part of its principle aims, the promotion of landscape protection, management and planning, to be implemented through; recognising landscapes in	Noted and SA will be updated accordingly.

Organisation	Summary of Response	Action
	<p>law as an essential component of peoples surroundings, to establish and implement landscape policies aimed at landscape protection, management and planning, and to integrate landscape into regional and town planning policies as well as any other policies with possible direct or indirect impact on landscape. It advocates a landscape character approach to informing planning decisions.</p> <p><b>Local / Sub Regional:</b> Planning For Landscape Change: Supplementary Planning Guidance to the Staffordshire and Stoke on Trent Structure Plan 1996-2011 or its successor document. Incorporates landscape character assessment for Staffordshire and provides guidance on protection, management and planning of Staffordshire's Landscapes. This document is currently being reviewed and updated.</p>	
Staffordshire County Council	Consider that further emphasis needs to be placed on extracare (flexicare) housing for elderly in the <b>baseline information</b> . Raft of data available from the Flexicare Strategy.	Noted and SA will be updated accordingly.
Staffordshire County Council	In <b>Appendix 2</b> the three Extensive Urban Surveys (EUS) for Alton, Cheadle and Leek should be included within Column 2 under the heading "Historic Assets". The Staffordshire Historic Environment Character Assessment (2010), which is included in the list, deliberately excluded an assessment on the historic character and heritage assets of the built areas of these three settlements because they would be considered in greater detail by the EUS project. The EUS project is now complete and the reports for Alton (February 2013), Cheadle (June 2012) and Leek (December 2011) can be found on the Staffordshire County Council website. Column 2 "Historic Assets" should also include reference to undesignated heritage assets (monuments, buildings (which includes the undesignated traditional farmsteads which are the subject of the guidance mentioned above) and landscapes). Under column 1 "Historic Assets" reference should also be made to the Staffordshire Historic Environment Record (HER), which is held by Staffordshire County Council.	Noted and SA will be updated accordingly.
Staffordshire County Council	The data for biodiversity is limited to designated sites, Data is held by Staffordshire Ecological Record on habitats and species of principal importance for biodiversity. Quantified habitat areas could be cited as could the number of species recorded in the	Noted and SA will be updated accordingly.

Organisation	Summary of Response	Action
	District. The Biodiversity Opportunity Mapping should be cited. It should be made clear that the data from Defra for area of designated sites in favourable condition relates only to SSSIs. Staffordshire Wildlife Trust may be able to supply data on local sites. It is not clear whether all ancient woodland is captured through SSSI datasets, this is available through the Inventory of Ancient semi Natural Woodland and this is not referenced in Appendix 2, which may result in some fragmented areas of woodland not being captured in this piece of work. It is common place to set parameters that will prevent the loss of ASNW, therefore without the baseline; there is a missed opportunity to use this commonly used target. Planning For Landscape Change: Supplementary Planning Guidance to the Staffordshire and Stoke on Trent Structure Plan 1996-2011 or its successor document. This provides landscape character assessment and guidance on protecting and managing landscapes.	
Staffordshire County Council	<b>Appendix 4</b> does not appear to take into account the results of either the Staffordshire Historic Environment Character Assessment or the Extensive Urban Survey.	SA methodology reviewed.
Staffordshire County Council	Protected land: B) Nature Conservation Site/ TPO should refer to SAC, SPA, SSSI and habitats of principal importance. Could, for <b>residential allocations</b> , accessible natural green space within 300 metres be included as a positive in line with Natural England targets?	SA methodology reviewed.
Staffordshire County Council	The <b>site appraisal criteria</b> set out the capacity of social infrastructure as a theme, which includes education stating sites should not have an adverse impact. However, it is not clear how the appraisal scores sites that can have a positive impact, for example by providing land for new school provision if required. We therefore suggest that this should be factored into appraisal criteria as it likely that new school sites will be needed in the District to cater for new housing growth.	SA methodology reviewed.
United Utilities	<b>Objective 7:</b> support objective regarding climate change.	Comment noted.
United Utilities	<b>Objective 9:</b> support objective regarding water.	Comment noted.

Table 4.1 Summary of consultation responses and action taken

## **4.1 Sustainability Appraisal Framework**

**4.16** The Table below sets out the SA Framework used in the appraisals. The objectives and indicators have been revised in the light of consultation responses received during the period of public consultation held on the SA Scoping Report between 13<sup>th</sup> August 2014 and 26<sup>th</sup> September 2014.

Objective	SEA Topic	Decision making criteria	Indicator
<b>SOCIAL</b>			
<b>Population, Human Health and Social Inclusiveness</b>			
1. To improve community cohesion and the quality of where people work and live.	Population and Human Health	<ul style="list-style-type: none"> <li>Will it make a positive contribution towards community cohesion?</li> <li>Will it improve neighbourhood quality?</li> <li>Will it ensure that there is adequate open space and support Green Infrastructure?</li> <li>Will it minimise light and noise pollution?</li> <li>Will it ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	<ul style="list-style-type: none"> <li>Area of open space. (SMDC, Annual Monitoring Report)</li> </ul>
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	Population and Human Health	<ul style="list-style-type: none"> <li>Will it remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Will it help to minimise the distance people need to travel to access education,</li> </ul>	<ul style="list-style-type: none"> <li>Job Seekers Allowance Claimant Count Aged 18 – 24 (nomisweb)</li> <li>Incidents of crime per 1,000 Population</li> <li>Fear of Crime (Office for National Statistics)</li> <li>Number of affordable houses competed</li> </ul>

Objective	SEA Topic	Decision making criteria	Indicator
		employment, shopping and other key services and facilities.	<ul style="list-style-type: none"> <li>% of new residential development completed within Towns / Large Villages/ Small Villages/ Other Rural Areas (SMDC)</li> <li>Number of school places created (School Organisation Team, SCC)</li> </ul>
3. To improve health and reduce health inequalities.	Population and Human Health	<ul style="list-style-type: none"> <li>Will it improve health or access to health facilities?</li> <li>Will it promote healthy lifestyles?</li> <li>Will it reduce health inequalities?</li> <li>Will it provide opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<ul style="list-style-type: none"> <li>Life expectancy (Public Health England)</li> <li>Adult Obesity (Public Health England)</li> <li>Adult participation in sport (Sport England Active People Data)</li> </ul>
4. To minimise opportunities for crime and reduce the fear of crime.	Population and Human Health	<ul style="list-style-type: none"> <li>Will it reduce actual levels of crime?</li> <li>Will it reduce fear of crime?</li> </ul>	<ul style="list-style-type: none"> <li>Incidents of crime per 1,000 Population</li> <li>Fear of Crime (Office for National Statistics)</li> </ul>
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	Population and Human Health	<ul style="list-style-type: none"> <li>Will it provide an appropriate mix of housing to enable all needs to be met?</li> <li>Will it enable people to meet their needs within their existing communities?</li> <li>Will it ensure that people can afford their housing?</li> </ul>	<ul style="list-style-type: none"> <li>Number of affordable houses competed</li> <li>No of years supply of deliverable housing sites (SMDC, Annual Monitoring Report)</li> <li>No of extra care units delivered (SCC)</li> </ul>

Objective	SEA Topic	Decision making criteria	Indicator
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	Population and Human Health	<ul style="list-style-type: none"> <li>Will it minimise impacts on existing traffic congestion?</li> <li>Will it support the use of public transport?</li> <li>Will it support safe walking and cycling?</li> <li>Will it protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	<ul style="list-style-type: none"> <li>Frequency of bus service (by settlement) (Staffordshire County Council)</li> <li>% of new residential development completed within Towns / Large Villages/ Small Villages/ Other Rural Areas (SMDC)</li> </ul>
<b>ENVIRONMENTAL</b>			
<b>Climate Change, Air and Water</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	Air and Climatic Factors	<ul style="list-style-type: none"> <li>Will it reduce emissions of greenhouse gases particularly CO<sub>2</sub>?</li> <li>Will it increase energy efficiency?</li> <li>Will it increase the use of renewable energy?</li> <li>Will it ensure new development is in accessible locations in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	<ul style="list-style-type: none"> <li>% of new residential development completed within Towns / Large Villages/ Small Villages/ Other Rural Areas (SMDC)</li> <li>CO<sub>2</sub> total emissions (National Atmospheric Emissions Inventory)</li> <li>Amount of renewable energy generation by installed capacity and type (SMDC, Annual Monitoring Report)</li> </ul>
8. To improve air quality.	Air	<ul style="list-style-type: none"> <li>Will it minimise emissions of airborne pollutants?</li> <li>Will it maximise the removal of air pollutants (e.g. by trees)?</li> </ul>	<ul style="list-style-type: none"> <li>CO<sub>2</sub> total emissions (National Atmospheric Emissions Inventory)</li> </ul>

Objective	SEA Topic	Decision making criteria	Indicator
9. To reduce flood risk, protect and enhance water sources.	Water	<ul style="list-style-type: none"> <li>Is new development directed towards areas of least flood risk?</li> <li>Will it reduce risk of flooding eg by encouraging the integration of mitigation measures such as SuDs into new development?</li> <li>Will it protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Will it encourage water efficiency and demand management?</li> </ul>	<ul style="list-style-type: none"> <li>Number of planning applications granted contrary to the advice of the EA in respect of flood risk.</li> <li>Number of planning applications granted contrary to the advice of the EA in respect of water quality. (Environment Agency)</li> </ul>
<b>Biodiversity, Flora and Fauna</b>			
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	Biodiversity, Flora and Fauna	<ul style="list-style-type: none"> <li>Will it protect and promote effective management of the district's sites of ecological and nature conservation importance?</li> <li>Will it help contribute to Staffordshire Biodiversity Action Plan objectives?</li> <li>Will it help deliver networks of biodiversity and green infrastructure?</li> </ul>	<ul style="list-style-type: none"> <li>Area (ha) of UK priority habitats by type. (Staffordshire Ecological Record)</li> <li>% of designated sites brought into favourable condition (DEFRA)</li> <li>% of new developments incorporating ecological enhancement measures per year</li> </ul>
<b>Soil and Material Assets</b>			

Objective	SEA Topic	Decision making criteria	Indicator
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	Soil	<ul style="list-style-type: none"> <li>Will it safeguard the best and most versatile agricultural land?</li> <li>Will it minimise the loss of greenfield land?</li> <li>Will it reduce land contamination / instability?</li> <li>Will it reduce the amount of derelict land?</li> <li>Will it protect notable geological and geomorphological features?</li> </ul>	<ul style="list-style-type: none"> <li>% of development built on brownfield sites (SMDC, Annual Monitoring Report)</li> <li>Area of Regionally Important Geological Sites (RIGS) (Staffordshire Ecological Record)</li> </ul>
12. To minimise the use of non-renewable resources.	Material Assets	<ul style="list-style-type: none"> <li>Will it reduce waste generation?</li> <li>Will it maximise the re-use of existing buildings?</li> <li>Will it increase the use of building materials from sustainable sources?</li> </ul>	<ul style="list-style-type: none"> <li>Residual household Waste (kg/hh)</li> <li>% of household waste reused, recycled or composted (recycle for Staffordshire.org)</li> </ul>
<b>Built and Cultural Heritage, Landscape and Local Distinctiveness</b>			
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	Cultural Heritage	<ul style="list-style-type: none"> <li>Will it ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Will it protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	<ul style="list-style-type: none"> <li>Number of major development projects that affect the significance of heritage assets or historic landscape character whether in an adverse or beneficial way (SMDC, Annual Monitoring Report)</li> </ul>

Objective	SEA Topic	Decision making criteria	Indicator
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	Cultural Heritage and Landscape	<ul style="list-style-type: none"> <li>Will it protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Will it promote development on brownfield land?</li> <li>Will it safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	<ul style="list-style-type: none"> <li>% of new dwellings on previously developed land (SMDC, Annual Monitoring Report)</li> <li>% of new employment on previously developed land (SMDC, Annual Monitoring Report)</li> </ul>
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	Cultural Heritage	<ul style="list-style-type: none"> <li>Will it support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Does it help support tourism and the visitor economy?</li> </ul>	<ul style="list-style-type: none"> <li>Percentage of visitors staying overnight (STEAM report)</li> </ul>
<b>ECONOMIC</b>			
<b>Employment, Economic Development and Regeneration</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	N/A	<ul style="list-style-type: none"> <li>Will it safeguard shops and services in existing centres?</li> <li>Will it safeguard and improve the retail, leisure and service provision?</li> </ul>	<ul style="list-style-type: none"> <li>Retail vacancy rates (%)</li> <li>Retail A1 completions (m<sup>2</sup>) (SMDC, Annual Monitoring Report)</li> </ul>
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	N/A	<ul style="list-style-type: none"> <li>Will it provide a balanced portfolio of employment land in sustainable locations?</li> <li>Will it provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	<ul style="list-style-type: none"> <li>Employment land supply SMDC, Annual Monitoring Report)</li> <li>Enterprise births and deaths (Business Demography, ONS)</li> </ul>

Objective	SEA Topic	Decision making criteria	Indicator
18. To encourage and support a high and stable level of employment	N/A	<ul style="list-style-type: none"> <li>• Will it meet the employment needs of local people?</li> <li>• Will it increase economic activity levels?</li> <li>• Will it improve physical accessibility to jobs?</li> <li>• Will it support higher income levels for local residents?</li> </ul>	<ul style="list-style-type: none"> <li>• Unemployment rates</li> <li>• % of population economically active</li> <li>• Earnings by residence and workplace (Nomisweb)</li> </ul>

**Table 4.2 Objectives and indicators**

## Summary of findings

## 5 Summary of findings

**5.1** This section provides a summary of the main findings of the SA. The summary findings are set out in three sections:

- Housing target options appraisal.
- Site options appraisal.
- Alternative development approaches for Cheadle.

### 5.1 Appraisal of housing target options

#### Background

**5.2** Nathaniel Lichfield & Partners (NLP) produced a Strategic Housing Market Assessment (SHMA) on behalf of the Council in April 2014. The identification of Objectively Assessed Need (OAN) for housing was at the heart of the study, based on a range of housing, economic and demographic factors, trends and forecasts. The demographic data underpinning NLP's modelling work was subsequently updated by the Office for National Statistics (ONS). This new data, the 2012-based Sub National Population Projections, (SNPP) was published on 29th May 2014. NLP analysed this updated data and issued an updated report in August 2014.

**5.3** The August 2014 Housing Needs Update<sup>(6)</sup> recommended a range of housing OAN between 210 and 430 dwellings per annum. This range encompassed the Oxford Economics Job Growth projections and would allow the District to meet its demographically-driven housing needs in full.

**5.4** The adopted Core Strategy covers the period 2006 - 2026. Policy SS2 (Future Provision of Development) indicates that the Council will make provision for an additional 6,000 dwellings over the plan period at an average annual development rate of 300 dwellings. The policy also states that "the Council will undertake and complete an early and comprehensive review of the Core Strategy by 2016 to cover the period 2016 - 2031 to ensure that future provision will continue to adequately meet objectively assessed needs and reflect development potential".

**5.5** The 2012-based Sub-National Household Projections (SNHP) were released on 27th February 2015 and superseded the 2011-based (interim) SNHP. The 2012-based SNHP incorporate the ONS 2012-based SNPP published on 28th May 2014 and further information from the Census 2011 where available.

**5.6** Since these latest SNHP were released following the adoption of the Core Strategy in March 2014, NLP has undertaken further work to consider the implications of the 2012-based SNHP on the Council's OAN and a further update Report was published in July 2015.

**5.7** A revision to the July 2015 was subsequently prepared to take account of the latest information released since Summer 2015 as well as relevant Planning inspector's Reports and High Court Judgements on approaches to defining housing OAN. This latest January

6 Housing Needs Study 2012-based SNPP Update: High Peak Borough Council and Staffordshire Moorlands District Council; Nathaniel Lichfield and Partners; 15th August 2014

2016 revision also takes on board new Annual Population Survey (APS) data, the 2014 Mid-Year Population Estimates (MYE) and the latest unemployment data in the PopGroup modelling.

## Selection of alternatives for appraisal

**5.8** The Staffordshire Moorlands 2012-based SNHP Update<sup>(7)</sup> tested the on-going validity of the housing OAN of 210 to 430dpa identified in the 2012-based SNPP Update (August 2014) and found that a revised range of between 250 dpa and 440 dpa represented the appropriate range for the plan area, taking into account worsening market signals, an additional allowance for affordable housing need and planning for a level of economic growth to match earlier assumptions.

**5.9** Based on past trends and the housing, economic and demographic context of Staffordshire Moorlands, the SHMA has identified a number of scenarios chosen to reflect the alternatives for future growth within the District. The scenarios demonstrate the extent to which the population of the District is likely to change over the plan period, and how this growth would be translated into households, dwellings, numbers of economically active residents and the number of jobs that might be supported.

**5.10** The scenarios were:

- **Scenario A: Updated PopGroup 2012-based SNHP** - A projection of the demographic shift based on current factors and recent trends in Staffordshire Moorlands District, aligning household growth to the 2012-based SNHP. The scenario takes account of dwelling vacancy rates in order to derive a housing need figure from the projections in household growth. [219 dpa (with uplifts)]
- **Scenario Aa: Partial Catch-Up Headship Rates** – Using the 2012-based headship rates as a starting point, it is projected that by 2033 (starting after 2017 to allow for full economic recovery) headship rates for the younger adult age groups will have caught up half of the difference between the 2012 and 2008-based SNHP headship rates. The underlying population upon which this scenario is based is the same as Scenario A, i.e. the 2012-based SNHP. [240 dpa (with uplifts)]
- **Scenario Ab: 2013 and 2014 MYE** - Using the 2013 and 2014 MYE and applying the fertility, mortality, migration and headship rates from the 2012-based household projections thereafter. [227 dpa (with uplifts)]
- **Scenario Ac: 2013 and 2014 MYEs + Partial Catch-Up Headship Rates** - As Ab, but incorporation of partial catch up headship rates on the same basis as Scenario Aa. [248 dpa (with uplifts)]
- **Scenario B: Natural Change** – In and out-migration is reduced to zero, hence growth is driven purely by natural change, or the interaction between births and deaths. [49 dpa (with uplifts)]

---

7 Staffordshire Moorlands 2012-based SNHP Update - Implications of the 2012-based SNHP - January 2016 Revision; January 2016; Nathaniel Lichfield & Partners

- **Scenario C: Zero Net Migration** – Whereby the annual international and domestic migration flows under the baseline scenario are equalised to result in a net migration of zero (i.e. an identical number of people move into the area as leave the District). [8 dpa (with uplifts)]
- **Scenario D: Short Term Migration Trends** - Based on average gross flows of internal and international migration in Staffordshire Moorlands over the five year period 2008/09 to 2012/13 as taken from the ONS MYE Series, assuming Staffordshire Moorlands will continue to see migration at a level in line with recent trends. [111 dpa (with uplifts)]
- **Scenario E: Long Term Migration Trends** – As above, but using a ten year migration average, from 2002/03 to 2012/13, assuming Staffordshire Moorlands will continue to see migration in line with levels on average over the last decade. [165 dpa (with uplifts)]
- **Scenario F Oxford Economics Job Growth** – A ‘policy-off’ trend scenario based upon Oxford Economics local area-based econometric model. This provides potential unconstrained employment growth in Staffordshire Moorlands (+2,250 jobs 2012-2031) over the Plan period. [438 dpa (with uplift)]
- **Scenario Fa: Oxford Economics Job Growth + 5% Reduction in Out-Commuting** - This scenario applies the above assumption whilst factoring in a 5% reduction in out-commuting over the period 2012-2031. [361 dpa (with uplift)]
- **Scenario G: Policy On Job Growth Target** – A ‘Policy-on’ trend scenario based upon the Council’s realistic economic objectives whilst factoring in increased economic growth in key sectors in line with regional averages. This provides employment growth in Staffordshire Moorlands of 3,879 jobs over the course of the plan period. [520 dpa (with uplift)]
- **Scenario Ga: Policy On Job Growth Target + 5% Reduction in Out-Commuting** - This scenario applies the above assumption whilst factoring in a 5% reduction in out-commuting over the period 2012-2031. [441 dpa (with uplift)]
- **Scenario H Job Stabilisation / Past Trends Job Growth** – Assumes that there are no additional jobs created over the projection period, i.e. the number of jobs remains at the level achieved in 2012. The past trends job growth for the period 2000-2013, derived from the ONS Job density data, indicates that the long term past trends are neutral and align with the Job Stabilisation scenario, so the two have been combined. [319 dpa (with uplift)]
- **Scenario: Average Past Delivery** – Using past delivery trends (2005/06 - 2014/15) to illustrate what the market has previously delivered and project these forward over the Plan period. [195 dpa]
- **Scenario: SHMA Need** - The SHMA 2014 identified a critical need for 707 (net) affordable housing dwellings annually over the next five years in the District. [2,142 dpa]
- **Scenario: Core Strategy target** - Testing the population and economic implications of delivering the target set out in the adopted Core Strategy. [300 dpa]

**5.11** The Government's Practice Guidance states that 'household projections published by the Department for Communities and Local Government should provide the starting point estimate of overall housing need'. It also states that the household projections of housing need may require adjustment to reflect factors affecting local demography and household formation rates which are not captured in past trends.

**5.12** Housing requirements must set a level of housing delivery which meets the needs associated with population and household growth, addresses the need for all types of housing including affordable and caters for housing demand<sup>(8)</sup>. Furthermore, a planned level of housing to meet OAN must respond positively to wider opportunities for growth and should take account of market signals, including affordability<sup>(9)</sup>.

**5.13** Scenarios B, C, D, E and "Average past delivery" have produced targets that are lower than the baseline demographic projections considered the starting point for identifying objectively assessed need and on this basis have not been pursued by the Council.

**5.14** Scenario Fa Oxford Economics and reduced commuting has also not been considered a reasonable alternative for sustainability appraisal. This is because the scenario is based on job growth remaining the same as in Scenario F, but assumes a policy approach to attempt to reduce out-commuting and thereby reduce the number of in-migrants required to take up those job opportunities. In the absence of known policy measures, it was considered more appropriate to consider Scenario F as an option for appraisal, (see paragraph 5.17).

**5.15** The Baseline Scenario (A); the Baseline plus Partial Catch Up Scenario (Aa); including the 2013 and 2014 MYE Scenario (Ab); and including the 2013 and 2014 MYE with Partial Catch Up Scenario (Ac) are (before uplifts) closely aligned to the average past delivery figure (Scenario: Average Past Delivery). These scenarios have contributed to NLP's recommended lower end of the OAN range (250 dpa including uplifts) and this requirement is thus considered a reasonable option to assess. (Option 1.)

**5.16** The Job Stabilisation scenario (H) is broadly aligned with the Council's adopted housing requirement figure (Scenario Core Strategy target) and has been considered further on this basis. (Option 2.)

**5.17** The Council is actively seeking to promote economic growth and therefore a third reasonable alternative requirement is one that allows for an additional element of housing growth to support the creation of new jobs. The top end of the range proposed by NLP (440 dpa) enables the delivery of sufficient labour force levels to support the Oxford Economics Job Growth projections (Scenario F). Since this is intended to allow for the economic potential of Staffordshire Moorlands to be realised, it is considered a reasonable alternative to appraise. This Scenario also closely aligns with Scenario Ga. (Option 3.)

**5.18** Finally, Scenario G is a Policy On Job Growth scenario, using the job creation figures set out in the Council's Employment Land Review (ELR). It presents an objective forecast of how the District could perform in economic terms based on the nature of its economy and current expectations of future national and regional economic performance. To underpin this level of growth there would be need to be an increase in dwellings equating to a housing requirement of 473 dpa; with the 10% uplift for affordable housing this yields a requirement of 520dpa. This is the highest requirement of the scenarios tested by NLP.

---

8 National Planning Policy Framework paragraph 159

9 National Planning Policy Framework paragraph 17

**5.19** The SHMA (2014) identified a critical affordable housing OAN of 707 dpa (net) affordable housing over the next five years across the District. The NPPF makes clear that having identified the OAN for affordable housing, the Local Plan should meet this need subject to the constraints referred to in paragraphs 14 and 47. However paragraph 154 of the Framework also requires that Local Plans should be aspirational but realistic. NLP considered that delivering 707 affordable dpa at a rate of 33% overall would indicate a housing requirement of 2,142 dpa. This is clearly not realistic for the District to deliver. However the Council considered it appropriate to consider the economic, social and environmental impacts of delivering a housing requirement of 520 dpa, representing an employment led scenario giving rise to a requirement beyond the upper end of the recommended OAN range and making a very significant contribution to meeting affordable housing need.

**5.20** On this basis the SA has considered a fourth reasonable alternative housing requirement: the option of 520 dpa. (Option 4.)

**5.21** In summary, consideration of the scenarios set out above led to the Council considering four potential housing requirement alternatives for appraisal:

- Option 1: 250 new homes each year (2016 - 2031)
- Option 2: 320 new homes each year (2016 - 2031)
- Option 3: 440 new homes each year (2016 - 2031)
- Option 4: 520 new homes each year (2016 - 2031)

## Summary of appraisal findings

**5.22** The full SA appraisal matrices recording the detail of the appraisal of each of these options are provided in section 8. The summary of findings is set out below.

### Option 1 - Summary of significant effects

**5.23** This option proposes the delivery of 250 new dwellings per year. It will have a direct, long-term positive effect on the SA objective to ensure provision of homes to meet local needs since it represents the lower end of the recommended objectively assessed housing need range. However being the lower end of the range, the option makes the least contribution of all options considered to addressing affordable housing need and the needs of an ageing population.

**5.24** Predicted population growth of around 2,800 is likely to increase spending in the local economy resulting in positive benefits for the District's towns and villages including helping to safeguard local shops and services. However since this option provides for the lowest level of growth, these benefits would be lowest of all options considered.

**5.25** This option is likely to lead to the loss of 2,075 jobs over the plan period. This is likely to result in a significant negative effect on business, the local economy and local employment through a lack of encouragement for investment in business and infrastructure.

**5.26** As the lowest growth option, requiring the lowest number of site allocations, by comparison with other options considered, this alternative is likely to result in minor positive effects on SA objectives relating to the protection of biodiversity; the character of towns, villages and heritage assets and their settings; and landscape character and natural assets. The low level of growth is also likely to minimise the negative effects on objectives relating

to climate change contributions and air quality that are associated with energy consumption and emissions arising from construction and use of new dwellings and associated car journeys.

**5.27** The low level of growth is also likely to help enable a focus of new development on small urban extensions and small sites within existing settlement boundaries resulting in minor positive effects on minimising the distance people need to travel to access key services and facilities and increasing the opportunities for use of sustainable forms of transport. However since this option proposes the lowest level of growth, it is also likely to result in the lowest level of investment in community facilities, including Green Infrastructure and other measures that help to reduce health inequalities, leading to minor negative effects on the SA objective relating to reducing health improvements.

## **Option 2 - Summary of significant effects**

**5.28** This option proposes the delivery of 320 new dwellings per year. Since it is within the recommended objectively assessed housing need range, the housing requirement would have a direct, long-term positive effect on the SA objective to ensure provision of homes to meet local needs. This positive effect is likely to be more significant than under option 1. However being closer to the lower end of the range than options 3 and 4, the option makes less of a contribution than options 3 and 4 to addressing affordable housing need and the needs of an ageing population.

**5.29** Predicted population growth of around 7,900 is likely to increase spending in the local economy resulting in positive benefits for the District's towns and villages, including help to safeguard local shops and services. Under this option, these benefits are likely to be more significant than under option 1 and less significant than under options 3 and 4.

**5.30** This option is expected to maintain the current number of jobs in the district over the plan period. This is likely to result in a long term minor positive impact on business, the local economy and local employment. This compares favourably with the impacts on this objective likely under option 1, where significant negative impacts on SA objectives for supporting employment and economic growth are likely. However the positive impacts on economic growth under this option are less significant than those likely to result under options 3 and 4.

**5.31** Option 2 requires the second lowest number of site allocations of the four options considered, and consequently this alternative is likely to result in comparatively more positive effects on SA objectives relating to the protection of biodiversity; the character of towns, villages and heritage assets and their settings; and landscape character and natural assets than options 3 and 4. Positive effects on these objectives are slightly less under this option than under option 1.

**5.32** The lower level of growth under option 2 compared with options 3 and 4 is also likely to minimise the negative effects on objectives relating to climate change contributions and air quality that are associated with energy consumption and emissions arising from construction and use of new dwellings and associated car journeys.

**5.33** The lower level of growth is also likely more likely under option 2 than options 3 and 4 to enable a focus of new development on small urban extensions and small sites within existing settlement boundaries resulting in minor positive effects on minimising the distance people need to travel to access key services and facilities and increasing the opportunities for use of sustainable forms of transport. Benefits under option 2 in this regard are not likely

to be as great as under option 1. However since option 2 proposes the second lowest level of growth of the four options considered, it is likely to result in a lower level of investment than under options 3 and 4 in community facilities, including Green Infrastructure and other measures that help to reduce health inequalities, leading to possible minor negative effects on the SA objective relating to reducing health improvements. These negative effects are not likely to be as significant as under option 1.

### **Option 3 - Summary of significant effects**

**5.34** This option proposes the delivery of 440 new dwellings per year. Since it is the upper end of the recommended objectively assessed housing need range, the housing requirement would have a direct, long-term positive effect on the SA objective to ensure provision of homes to meet local needs. This positive effect is likely to be more significant than under options 1 and 2. As the upper end of the range, the option is likely to make a significant contribution to addressing affordable housing need and the needs of an ageing population.

**5.35** Predicted population growth of around 13,400 is likely to increase spending in the local economy resulting in positive benefits for the District's towns and villages, including help to safeguard local shops and services. Under this option, these benefits are likely to be more significant than under options 1 and 2, but less significant than under option 4.

**5.36** This option is based on expected job growth of 2,250 in the district over the plan period. This is likely to allow for the economic potential of the district to be realised and result in medium and long term positive impacts on the local economy and local employment.

**5.37** Option 3 requires the second highest number of site allocations of the four options considered, and consequently this alternative is likely to result in comparatively more negative effects on SA objectives relating to the protection of biodiversity; the character of towns, villages and heritage assets and their settings; and landscape character and natural assets than options 1 and 2. Negative effects on these objectives are slightly less under this option than under option 4.

**5.38** The higher level of growth under option 3 compared with options 1 and 2 is also likely to result in negative effects on objectives relating to climate change contributions and air quality that are associated with energy consumption and emissions arising from construction and use of new dwellings and associated car journeys.

**5.39** Due to the extent of sites that are likely to be allocated under this option, it is less likely than under options 1 and 2 that a high proportion of new development can be delivered close to town and village centres, resulting in negative effects on minimising the distance people need to travel to access key services and facilities and reducing the opportunities for use of sustainable forms of transport. Negative effects under option 3 in this regard are not likely to be as great as under option 4. However since option 3 proposes the second highest level of growth of the four options considered, it is likely to result in a higher level of investment than under options 1 and 2 in community facilities, including Green Infrastructure and other measures that help to reduce health inequalities, leading to possible minor positive effects on the SA objective relating to reducing health improvements. These positive effects are not likely to be as significant as under option 4.

## **Option 4 - Summary of significant effects**

**5.40** This option proposes the delivery of 520 new dwellings per year. It will have a direct and significant positive effect on the SA objective to ensure provision of homes to meet local needs since it exceeds the upper end of the recommended objectively assessed housing need range. This option should make the greatest contribution of all options considered to addressing affordable housing need and the needs of an ageing population.

**5.41** Predicted population growth of around 17,000 is likely to increase spending in the local economy resulting in positive benefits for the District's towns and villages, including helping to safeguard local shops and services. This option is based on an objective forecast of how the district could perform in economic terms based on the nature of its economy and current expectations of future national and regional economic performance and provides unconstrained employment growth in the district of 3,878 jobs over the plan period. As a result, the option is likely to have a significant positive effect on the local economy and local employment. However these predicted positive effects should be treated with caution, since the 2012-based SNHP update notes that the population growth required to underpin this job growth would primarily be achieved by inward migration as opposed to natural change. Net migration would need to increase from +7,373 to +20,645 - over 13,000 net additional in migrants to achieve the required population level (all other assumptions remaining constant). This is considered to be at odds with what may be reasonably expected to occur in the district.

**5.42** As the highest growth option, requiring the highest number of site allocations, by comparison with other options considered, this alternative is likely to result in significant negative effects on SA objectives relating to the protection of biodiversity; the character of towns, villages and heritage assets and their settings; and landscape character and natural assets. The high level of housing growth is also likely to result in negative effects on objectives relating to climate change contributions and air quality that are associated with energy consumption and emissions arising from construction and use of new dwellings and associated car journeys.

**5.43** This level of new housing development is not likely to enable growth to be focused on small urban extensions and small sites within the existing settlement boundaries, which may result in increasing the distance people need to travel to access key services and facilities and makes the use of sustainable forms of transport less likely. However since this option proposes the highest level of growth, it is likely to result in the highest level of investment in community facilities, including Green Infrastructure and other measures that may help to reduce health inequalities, leading to positive effects on the SA objective relating to reducing health improvements.

### **Mitigation measures proposed**

**5.44** It is possible that some likely significant effects identified via the SA can be mitigated. To assist this, potential mitigation measures have been identified during the appraisal of alternative housing requirements. These recommendations will be included in the review of policies undertaken as part of Local Plan preparation.

## **Recommended preferred option and options dismissed**

**5.45** The table below sets out the rationale for recommending an option to take forward into the preferred options plan.

Option recommended to take forward	Rationale
Option 2: 320 dpa	<p>This option could be expected to:</p> <ul style="list-style-type: none"> <li>• Have a direct and long term positive effect on providing homes to meet local needs (more significant than under option 1);</li> <li>• Result in increased spending in the local economy, helping to safeguard local shops and services;</li> <li>• Maintain the current number of jobs in the District;</li> <li>• Offer comparatively more protection for landscape character and natural assets, biodiversity, the character of towns, villages and heritage assets and their settings when compared with options 3 and 4;</li> <li>• Minimise negative effects on climate change and air quality when compared with options 3 and 4;</li> <li>• Enable a focus of new development on small urban extensions and small sites within existing settlement boundaries, helping to minimise the distance people need to travel to access key services and facilities (less significant than under option 1).</li> </ul> <p>However the option makes less of a contribution than options 3 and 4 to:</p> <ul style="list-style-type: none"> <li>• Addressing affordable housing need and the needs of an ageing population;</li> <li>• Increased spending in the local economy;</li> <li>• Supporting employment and economic growth; and</li> <li>• Enabling investment in community facilities associated with growth.</li> </ul>

**Table 5.1 Housing requirement option recommended for taking forward**

**5.46** The table below sets out the rationale behind those options recommended for dismissal following the appraisal.

Options proposed for dismissal	Rationale
Option 1: 250 dpa	<p>This option could be expected to:</p> <ul style="list-style-type: none"> <li>• Have a direct and long term positive effect on providing homes to meet local needs;</li> <li>• Result in increased spending in the local economy, helping to safeguard local shops and services;</li> <li>• Offer comparatively more protection for landscape character and natural assets, biodiversity, the character of towns, villages and heritage assets and their settings when compared with all other options;</li> </ul>

Options proposed for dismissal	Rationale
	<ul style="list-style-type: none"> <li>Minimise negative effects on climate change and air quality when compared with all other options;</li> <li>Enable a focus of new development on small urban extensions and small sites within existing settlement boundaries, helping to minimise the distance people need to travel to access key services and facilities.</li> </ul> <p>However the option makes less of a contribution than all other options to:</p> <ul style="list-style-type: none"> <li>Addressing affordable housing need and the needs of an ageing population;</li> <li>Increased spending in the local economy; and</li> <li>Enabling investment in community facilities associated with growth.</li> </ul> <p>The option is likely to lead to the loss of 2,075 jobs over the plan period, resulting in significant negative effects on the local economy.</p>
Option 3: 440 dpa	<p>This option could be expected to:</p> <ul style="list-style-type: none"> <li>Have a direct and long term positive effect on providing homes to meet local needs, including addressing affordable housing need and the needs of an ageing population;</li> <li>Result in increased spending in the local economy, helping to safeguard local shops and services (more significant than under options 1 and 2);</li> <li>Enable growth related investment in community facilities (less significant than under option 4).</li> </ul> <p>The option is based on expected job growth of 2,250 over the plan period, resulting in significant positive effects on the local economy.</p> <p>However the option has more negative effects than options 1 and 2 (that may not be reasonably mitigated) in relation to likely impact on:</p> <ul style="list-style-type: none"> <li>Landscape character and natural assets;</li> <li>Biodiversity;</li> <li>Character of towns, villages and heritage assets and their settings; and</li> <li>Climate change and air quality.</li> </ul> <p>It is less likely than under options 1 and 2 that a high proportion of new development can be delivered close to town and village centres, increasing the distance people may need to travel to access key services and facilities (less significant than under option 4).</p>

Options proposed for dismissal	Rationale
Option 4: 520 dpa	<p>This option could be expected to:</p> <ul style="list-style-type: none"> <li>• Have a direct and long term positive effect on providing homes to meet local needs, including addressing affordable housing need and the needs of an ageing population;</li> <li>• Result in increased spending in the local economy, helping to safeguard local shops and services (more significant than under all other options);</li> <li>• Enable growth related investment in community facilities (more significant than under all other options).</li> </ul> <p>The option is based on unconstrained job growth of 3,878 over the plan period, resulting in significant positive effects on the local economy.</p> <p>However the population growth required to underpin this job growth would primarily be achieved by inward migration and this is not considered a reasonable expectation for the district.</p> <p>The option has more negative effects than all other options (that may not be reasonably mitigated) in relation to likely impact on:</p> <ul style="list-style-type: none"> <li>• Landscape character and natural assets;</li> <li>• Biodiversity;</li> <li>• Character of towns, villages and heritage assets and their settings; and</li> <li>• Climate change and air quality.</li> </ul> <p>It is less likely than under all other options that a high proportion of new development can be delivered close to town and village centres, increasing the distance people may need to travel to access key services and facilities.</p>

Table 5.2 Housing requirement options dismissed following appraisal

## 5.2 Appraisal of site options

### Selection of alternatives for appraisal

**5.47** To inform the emerging Local Plan, the Council consulted on Site Options between July and September 2015. Over 5,500 responses were received regarding site and boundary options for housing, employment, mixed-use, open space, town centres, retail frontages, settlement boundaries and infill. The detailed appraisal of all site options is documented in section 7 of this report and the findings have been used to help determine the preferred sites taken forward into the draft plan.

**5.48** Further information will be provided in the next version of the SA report around the selection of preferred options alongside updated appraisals as the Council continues to build its evidence base.

### **Glossary of terms used**

**5.49** Agricultural Land Classification (**ALC**) is a basis for assessing how development proposals affect agricultural land within the planning system. The system classifies land into five grades, with Grade 3 subdivided into Subgrades 3a and 3b. The best and most versatile land is defined as Grades 1, 2 and 3a by policy guidance.

**5.50** **Flood Zones** refer to the probability of river and sea flooding, ignoring the presence of defences. Zone 1: Low Probability; Zone 2: Medium Probability; Zone 3a: High Probability; Zone 3b: The Functional Floodplain.

**5.51** Sites of Biological Importance (**SBI**) are sites of local importance and contain most of the best remaining areas of semi-natural habitat in the county. The sites are selected as the result of a series of county biological and habitat surveys.

**5.52** Biodiversity Alert Sites (**BAS**) are of lesser significance on a County basis, because of lower intrinsic quality, smaller size or damage or disturbance. Nevertheless they collectively form a significant part of the County's nature conservation resource, and in some cases a valuable 'reserve series' for some of the Sites of Biological Importance.

### **Summary of appraisal findings**

#### **Leek**

##### **Leek - sites within current settlement boundary**

###### **LE022**

**5.53** The proposed delivery of circa 16 dwellings is considered to have a positive effect. The site is also accessible to existing services and facilities which is likely to have a positive effect, as could the site's low ecological importance. However, the development of greenfield land is assessed as having a negative effect, as could the site's proximity to historic assets and the inaccessibility of existing areas of employment.

###### **LE037A**

**5.54** The proposed delivery of circa 28 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. The site is also accessible to existing services and facilities which is likely to have a positive effect. However, the development of greenfield land is assessed as having a negative effect, as could the site's proximity to historic assets and the ecological importance of the site.

###### **LE045**

**5.55** The proposed delivery of circa 50 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment and services and facilities within the town. However, the site's proximity to a designated asset is likely to have a significant negative effect. The development of greenfield land, grade 4 ALC is assessed as having a negative effect, as could the site's proximity to historic assets.

**LE057**

**5.56** The proposed delivery of circa 105 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment and services and facilities within the town. However, the development of greenfield land, grade 4 ALC is assessed as having a negative effect, as could the site's proximity to historic assets and the ecological importance of the site given the proximity to Ladydale Site of Biological Importance.

**LE061**

**5.57** The site's proximity to existing areas of employment and services and facilities within the town is assessed as having a significant positive effect, as could the development of brownfield, urban ALC land. The proposed delivery of circa 16 houses is considered to have a positive effect. However, the site's proximity to historic assets is assessed as being a negative effect.

**LE063**

**5.58** The proposed delivery of circa 30 dwellings is considered to have a significant positive effect, as could the site's proximity to services, facilities and existing areas of employment. However, the site's proximity to historic assets and ecological importance of the site is likely to have a negative effect.

**LE064**

**5.59** The site's proximity to existing areas of employment is considered to be a significant positive effect. Similarly, the site has good accessibility to services and facilities which is likely to have a positive effect. However, the site is located within flood zone 2 which is assessed as being a negative effect. The development of greenfield land is likely to have a negative effect, as could the site's proximity to historic assets and a Local Nature Reserve.

**LE070**

**5.60** The proposed delivery of circa 22 dwellings is considered to have a significant positive effect, as could the development of urban ALC brownfield land, the site's proximity to services, facilities and existing areas of employment. However, the site's proximity to historic assets and the ecological importance of the site is assessed as a negative effect.

**LE076**

**5.61** The proposed delivery of circa 50 dwellings is considered to have a significant positive effect, as could the site's proximity to services, facilities and existing areas of employment. However, the site's proximity to a designated asset is likely to have a significant negative effect. The development of greenfield land, grade 4 ALC is assessed as being a negative effect, as could the site's proximity to a Local Nature Reserve and the ecological importance of the site.

**LE091**

**5.62** The proposed delivery of circa 150 dwellings is considered to have a significant positive effect, as could the site's proximity to services, facilities and existing areas of employment. However, the site's proximity to designated and historic assets is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as being a negative effect.

#### **LE106**

**5.63** The site's proximity to services, facilities and existing areas of employment is assessed as a significant positive effect. However, the development of greenfield land, grade 4 ALC is assessed as being a negative effect. As could the site's proximity to historic assets and a Local Nature Reserve.

#### **LE147**

**5.64** The proposed delivery of circa 25 dwellings is considered to have a significant positive effect, as could the site's proximity existing areas of employment. Similarly, the site is accessible to services and facilities which is likely to have a positive effect. However, the site's proximity to designated and historic assets is likely to have a significant negative effect. Similarly, the development of greenfield land, grade 4 ALC is assessed as being a negative effect.

#### **LE243**

**5.65** The proposed delivery of circa 70 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. Similarly, the site has good accessibility to services and facilities which is likely to have a positive effect, as could the development of urban ALC brownfield land. However, the site's proximity to historic assets could have a negative effect. The site's proximity to a Local Nature Reserve is also assessed as being a negative effect.

#### **LE249**

**5.66** The proposed delivery of circa 35 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. However, the site is within flood zone 3 which is likely to have a significant negative effect, as could its proximity to historic assets. Similarly, the proximity a Local Nature Reserve is assessed as being negative effects, as could the inaccessibility of services and facilities.

#### **LE259**

**5.67** The proposed delivery of circa 50 dwellings is considered to have a significant positive effect, as could the site's proximity to services, facilities and existing areas of employment. However, the proximity to historic assets and a LNR are assessed as being significant negative effects. The development of greenfield land, grade 4 ALC land is assessed as being a negative effect.

#### **Leek - Other Uses**

#### **LE1014 and LE015**

**5.68** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the accessibility of other services and facilities is likely to have a significant positive effect, as could the proposed delivery of circa 30 dwellings.

**LE067**

**5.69** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the accessibility of other health care services and facilities is likely to have a significant positive effect, as could the proposed delivery of circa 30 dwellings. However, the site is in proximity to historic assets and a Local Nature Reserve which is likely to have a negative effect.

**LE073**

**5.70** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the accessibility of other services and facilities is likely to have a significant positive effect, as could the development of brownfield, urban ALC land. However, the proximity to historic assets and a Local Nature Reserve are assessed as being negative effects.

**LE080, LE085, LE086 & LE252**

**5.71** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the accessibility of other services and facilities is likely to have a significant positive effect, as could the proposed delivery of circa 25 dwellings. However, the site includes two listed buildings which is likely to have a significant negative effect. The proximity of the site to a Local Nature Reserve which is likely to have a negative effect.

**LE116**

**5.72** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the accessibility of other services and facilities is likely to have a significant positive effect, as could the proposed delivery of circa 21 dwellings and development of brownfield, urban ALC land. However, the site is in proximity to historic assets and a Local Nature Reserve which is likely to have a negative effect, as could the district ecological importance of the site.

**LE150**

**5.73** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the proposed delivery of circa 120 is likely to have a significant positive effect. However, the development of greenfield, grade 3 ALC land is likely to have a significant negative effect. The site's proximity to historic assets and district ecological importance is likely to have a significant negative effect.

## **LE219**

**5.74** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the development of brownfield, urban ALC land is likely to have a significant positive effect. However, the site's proximity to historic assets and some ecological importance is likely to have a negative effect.

## **LE220**

**5.75** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site has good accessibility to services and facilities and the development of brownfield, urban ALC land is likely to have a significant positive effect. However, the site's proximity to historic assets is likely to have a significant negative effect. The site's proximity to ecological importance is likely to have a negative effect.

## **Cornhill**

**5.76** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the proposed delivery of circa 244 dwellings is considered to have a significant positive effect. The site's accessibility to services, facilities and open space is likely to have a positive effect. However, the site is located within a flood zone which is likely to have a significant negative effect, as could its proximity to designated and historic assets.

## **Leek - sites outside current settlement boundary**

### **LE066**

**5.77** The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. Similarly, the site is located away from historic assets and has good accessibility to services and facilities which is likely to have a positive effect. However, the ecological importance of the site is likely to have a negative effect as well as the inaccessibility of existing areas of employment.

### **LE069**

**5.78** The proposed delivery of circa 42 dwellings is considered to have a significant positive effect. Similarly, the site has low ecological value and has good accessibility to services and facilities which is likely to have a positive effect. However, the proximity of the site to historic assets is likely to have a negative effect as well as the inaccessibility of existing areas of employment.

### **LE102**

**5.79** The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. However, the development of greenfield, grade 3 ALC land could have a significant negative effect, as could the site's proximity to historic assets. Similarly, the site is relatively inaccessible to services, facilities and areas of existing employment, and has some ecological value which is likely to have a negative effect.

**LE103**

**5.80** The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. However, the development of greenfield, grade 3 ALC land would have a significant negative effect. Similarly, the site is relatively inaccessible to services, facilities and areas of existing employment and is adjacent to a listed building all of which is likely to have a negative effect.

**LE127**

**5.81** The proposed delivery of circa 100 dwellings is considered to have a significant positive effect. Similarly, the site has low ecological value and has good accessibility to services and facilities which is likely to have a positive effect. However, the development of mixed greenfield and brownfield, grade 4 ALC land and the proximity of the site to historic assets is likely to have a negative effect as well as the inaccessibility of existing areas of employment.

**LE128**

**5.82** The proposed delivery of circa 95 dwellings is considered to have a significant positive effect. Similarly, the site has low ecological value and good accessibility to services and facilities which is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land and the proximity of the site to historic assets is likely to have a negative effect as well as the inaccessibility of existing areas of employment.

**LE140**

**5.83** The proposed delivery of circa 95 dwellings is considered to have a significant positive effect. Similarly, the site has low ecological value and good accessibility to services, facilities and areas of employment which is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land and the proximity of the site to historic assets is likely to have a negative effect.

**LE142A**

**5.84** The proposed delivery of circa 140 dwellings is considered to have a significant positive effect. Similarly, the site good accessibility to services, facilities and areas of employment which is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land, the ecological importance of the site and the proximity to historic assets is likely to have a negative effect.

**LE142B**

**5.85** The proposed delivery of circa 40 dwellings is considered to have a significant positive effect. Similarly, the site good accessibility to services, facilities and areas of employment which is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land, the ecological importance of the site and the proximity to historic assets is likely to have a negative effect.

### **LE143**

**5.86** The proposed delivery of circa 190 dwellings is considered to have a significant positive effect. However, the development of greenfield, grade 4 ALC land, the proximity to historic assets is likely to have a negative effect as could the relative inaccessibility to services, facilities and areas of existing employment.

### **LE143A**

**5.87** The proposed delivery of circa 135 dwellings is considered to have a significant positive effect. However, the site's proximity to historic assets is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land, the proximity to historic assets is likely to have a negative effect as could the relative inaccessibility to services, facilities and areas of existing employment.

### **LE253**

**5.88** The proposed delivery of circa 15 dwellings is considered to have a positive effect, as could the site's proximity to areas of existing employment. However, the site's proximity to historic assets is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land, the proximity to historic assets is likely to have a negative effect as could the relative inaccessibility to services and facilities and the ecological importance of the site.

### **Broad Area EM2 Leekbrook**

**5.89** The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. The site's accessibility to open space is likely to have a positive effect. However, the site is relatively inaccessible to services and facilities and the site is located within a flood zone which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as being a negative effect, as could the site's proximity to historic assets and a partial SBI designation.

### **Leek - Additional Sites**

#### **ADD01**

**5.90** The proposed delivery of circa 25 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. The site's accessibility to areas of open space is considered to have a positive effect. However, the site's proximity to designated and historic assets is likely to have a negative effect, as could the development of greenfield land, grade 4 ALC and the inaccessibility of services and facilities.

### **Biddulph**

#### **Biddulph - Sites within current development boundary**

#### **BD004**

**5.91** The development of urban ALC land on a brownfield site is likely to have a significant positive effect, as could the site's proximity to existing areas of employment. The site should deliver a quantum of housing, circa 15 dwellings which is likely to have a positive effect. The

site is located within the settlement boundary and has good accessibility to the services and facilities. However, its proximity to heritage assets would have a negative effect, as would the ecological importance of the site.

#### **BD016**

**5.92** The site should deliver a quantum of housing, circa 20 dwellings which is likely to have a significant positive effect, as could the location of the site with regard to its proximity to services and facilities and areas of existing employment as well as the positive effect on the landscape. The site is located within the settlement boundary and has good accessibility to health care services and facilities. However, its proximity to heritage assets would have a negative effect.

#### **BD055**

**5.93** The site should deliver a quantum of housing, circa 20 dwellings which is likely to have a significant positive effect, as could the development of urban ALC brownfield land and proximity to services and facilities. However, the site's proximity to heritage assets is assessed as a significant negative. The site is located within the settlement boundary and has good accessibility to services and facilities and areas of existing employment. However, the site's ecological importance would have a negative effect.

#### **BD059**

**5.94** The development of urban ALC brownfield land should have a significant positive effect, as should the preservation of the landscape and the site's proximity to existing areas of employment and services and facilities. The site is located within the settlement boundary, and away from historical assets. However, the site's ecological importance would have a negative effect.

#### **BD101**

**5.95** The development of urban ALC brownfield land should have a significant positive effect, as should the preservation of the landscape and the site's proximity to existing areas of employment and services and facilities and the delivery of circa 24 dwellings. The site is located within the settlement boundary, and away from historical assets. However, the site's ecological importance would have a negative effect.

#### **BD102**

**5.96** The development of urban ALC brownfield land should have a significant positive effect, as should the preservation of the landscape and the site's proximity to existing areas of employment and services and facilities and the delivery of circa 42 dwellings. The site is located within the settlement boundary, and away from historical assets. However, the site's ecological importance would have a negative effect.

#### **BD108**

**5.97** The development of urban ALC brownfield land should have a significant positive effect, as should the preservation of the landscape and the site's proximity to services and facilities. However there is scope that development of this site could have significant negative effects on historical assets. Similarly, the site's ecological importance would have a negative effect.

## **Biddulph - Urban Extension**

### **BD071, BD071A, BD106 & BD156**

**5.98** The site's proximity to services, facilities and existing areas of employment and proposed delivery of circa 265 dwellings should have a significant positive effect. However there is scope that development of this site could have negative effects due to the site's ecological importance and the development of greenfield land.

## **Biddulph - Other uses**

### **BD117**

**5.99** The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. However, the greenfield nature of this site and its location outside of the settlement boundary, coupled with its ecological importance could have a negative effect.

### **BD076**

**5.100** The proposed delivery of a town centre employment site is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect.

### **BD076A**

**5.101** The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site is located within settlement boundary and should have good access to services and facilities which is likely to also have a significant positive effect. However the site has been assessed as having ecological importance which is likely to have a negative effect.

## **Biddulph - Sites within existing Green Belt**

### **BD062**

**5.102** The proposed delivery of circa 40 dwellings should have a significant positive effect. The site is also accessible to existing services, facilities and areas of employment which is likely to have a positive effect. However, the site's ecological importance due to the potential for protected species to be present and its connection to the wider countryside are considered to have a significant negative effect. Similarly, the development of greenfield land, grade 4 ALC and the site's proximity to historic assets are also assessed as having a negative effect.

### **BD063A**

**5.103** The proposed delivery of circa 120 dwellings should have a significant positive effect. The site is also accessible to existing services, facilities and areas of employment which is likely to have a positive effect. However, the site's ecological importance is considered to have a negative effect. Similarly, the development of greenfield land, grade 3/4 ALC and the site's proximity to historic assets are also assessed as having a negative effect.

**BD064**

**5.104** The site is accessible to existing services, facilities and areas of employment which is likely to have a positive effect. However, the site's district ecological importance are considered to have a negative effect. Similarly, the development of greenfield land, grade 4 ALC and the site's proximity to historic assets and the ecological status of the site are also assessed as having a negative effect.

**BD067A**

**5.105** The proposed delivery of circa 120 dwellings is considered to have a significant positive effect. The site is accessible to existing services, facilities and areas of employment and located away from historic assets is likely to have a positive effect. However, the site's ecological importance are considered to have a negative effect. Similarly, the development of greenfield land, grade 4 ALC is also assessed as having a negative effect.

**BD067B**

**5.106** The proposed delivery of circa 150 dwellings is considered to have a significant positive effect. The site is accessible to existing services, facilities and areas of employment is likely to have a positive effect. However, the site's ecological importance is considered to have a negative effect. Similarly, the development of greenfield land, grade 4 ALC and the site's proximity to heritage assets is also assessed as having a negative effect.

**BD067C**

**5.107** The proposed delivery of circa 120 dwellings is considered to have a significant positive effect. The site is accessible to existing services, facilities and areas of employment is likely to have a positive effect. However, the site's ecological value is considered to have a negative effect. Similarly, the development of greenfield land, grade 4 ALC and the site's proximity to heritage assets is also assessed as having a negative effect.

**BD068**

**5.108** The proposed delivery of circa 70 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. The site is also accessible to existing services and facilities which is likely to have a positive effect. However, the site's is partly located within a flood zone which is likely to have a significant negative effect. Similarly, the ecological value is considered to have a negative effect, as could the development of greenfield land, grade 4 ALC and the site's proximity to heritage assets is also assessed as having a negative effect.

**BD069**

**5.109** The proposed delivery of circa 30 dwellings is considered to have a significant positive effect. The site is also accessible to existing employment areas which is likely to have a positive effect. However, the site's proximity to historic assets is assessed as having a significant negative effect. The development of greenfield land is also assessed as having a negative effect.

### **BD083**

**5.110** The proposed delivery of circa 40 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. The site is also accessible to existing services and facilities which is likely to have a positive effect. However, the site is partly located within a flood zone which is likely to have a significant negative effect. The development of greenfield land, grade 4 ALC and the site's proximity to heritage assets and an LNR are assessed as having a negative effect.

### **BD087**

**5.111** The proposed delivery of circa 25 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. The site is also accessible to existing services and facilities which is likely to have a positive effect. However, the site is partly located within a flood zone which is likely to have a significant negative effect. The development of greenfield land, grade 4 ALC and the site's proximity to heritage assets and an LNR is likely to have a negative effect, as could the site's ecological value.

### **BD109 and BD118**

**5.112** The proposed delivery of circa 26 dwellings is considered to have a significant positive effect. The site is also accessible to existing services, facilities and areas of existing employment as well as being located away from historic assets and a SSSI and LNR, as well as the site's low ecological value is likely to have a positive effect. However, the development of greenfield is assessed as having a negative effect.

### **BD110**

**5.113** The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. The site is also accessible to existing services, facilities and areas of existing employment as well as being located away from historic assets and a SSSI and LNR, as well as the site's low ecological value is likely to have a positive effect. However, the development of greenfield land is assessed as having a negative effect.

### **BD131B**

**5.114** The proposed delivery of circa 80 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. The site is also accessible to existing services and facilities which is likely to have a positive effect. However, the site is partly located within a flood zone which is likely to have a significant negative effect. The development of greenfield land is assessed as having a negative effect, as could the site's proximity to historic assets.

### **BD134**

**5.115** The proposed delivery of circa 40 dwellings is considered to have a significant positive effect. The site is also accessible to existing services, facilities and existing areas of employment is likely to have a positive effect, as could its distance away from historic assets. However, the development of greenfield land, grade 4 ALC is assessed as having a negative effect, as could the ecological value of the site.

**BD138A**

**5.116** The proposed delivery of circa 90 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. The site is also accessible to existing services and facilities is likely to have a positive effect, as could its low biodiversity value of the site. However, the development of greenfield land, grade 4 ALC is assessed as having a negative effect, as could the site's location near to historic assets.

**BD138B**

**5.117** The proposed delivery of circa 76 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. The site is also accessible to existing services and facilities is likely to have a positive effect. However, the development of greenfield land, grade 4 ALC is assessed as having a negative effect, as could the site's location near to historic assets and the ecological value of the site.

**BD144**

**5.118** The proposed delivery of circa 80 dwellings is considered to have a significant positive effect. The site is also accessible to existing services, facilities and existing areas of employment is likely to have a positive effect, as could the site's distance away from historic assets. However, the development of greenfield land is assessed as having a negative effect, as could the site's ecological value.

**Biddulph - Additional sites****ADD02**

**5.119** The proposed delivery of circa 159 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. The site's location away from designated and historic assets is likely to have a positive effect. However, the site's inaccessibility to services and facilities is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land.

**ADD03**

**5.120** The proposed delivery of circa 372 dwellings is considered to have a significant positive effect. The site's location away from designated assets is likely to have a positive effect, as could the site's accessibility to services, facilities and areas of existing employment. However, the site's proximity to historic assets is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is considered to have a negative effect.

**ADD04**

**5.121** The proposed delivery of circa 1,070 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. However, the site's proximity to historic assets is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect.

## **Cheadle**

### **Cheadle - sites within the current development boundary**

#### **CH002A**

**5.122** The proposed delivery of circa 26 dwellings is considered to have a significant positive effect, as could the site's proximity to health care services and facilities and areas of existing employment. Similarly, the site's distance away from historic assets is likely to have a positive effect. However, the site is partly within flood zone 2 and 3 which is likely to have a significant negative effect, as could the development of grade 3 ALC land and the site's proximity to designated assets.

#### **CH002B**

**5.123** The proposed delivery of circa 42 dwellings is considered to have a significant positive effect, as could the site's proximity to services and facilities and areas of existing employment. Similarly, the site's distance away from historic assets is likely to have a positive effect. However, the site's proximity to a designated asset and the development of grade 3 ALC land is likely to have a significant negative effect.

#### **CH003**

**5.124** The proposed delivery of circa 55 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. Similarly, the site's distance away from historic assets is likely to have a positive effect. However, the site is partly within a flood zone which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as could the site's ecological importance.

#### **CH004**

**5.125** The proposed delivery of circa 45 dwellings is considered to have a significant positive effect. Similarly, the site's distance away from historic assets is likely to have a positive effect as could the accessibility to services, facilities and areas of existing employment. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The ecological value of the site is likely to have a negative effect.

#### **CH006**

**5.126** The proposed delivery of circa 45 dwellings is considered to have a significant positive effect, as could the site's accessibility to areas of existing employment. Similarly, the site's distance away from historic assets is likely to have a positive effect as could the accessibility to services and facilities. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's partial location within a flood zone and proximity to a designated asset.

**CH009**

**5.127** The site's accessibility to services, facilities and areas of existing employment is considered to have a significant positive effect. Similarly, the proposed delivery of circa 16 dwellings is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's proximity to designated assets. The site's proximity to historic assets is likely to have a negative effect.

**CH013**

**5.128** The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as could the ecological value of the site and its proximity to historic assets.

**CH015**

**5.129** The proposed delivery of circa 32 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could the development of brownfield land. However, the ecological value of the site and its proximity to a LNR, candidate AQMA and historic assets is likely to have a negative effect.

**CH020**

**5.130** The proposed delivery of circa 42 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect, as could its location away from historic assets. However, the site is partly within a flood zone which is likely to have a significant negative effect. The ecological value of the site is likely to have a negative effect.

**CH024**

**5.131** The proposed delivery of circa 45 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The ecological importance of the site, its location near to a LNR, and its proximity to heritage assets is assessed as a negative effect.

**Urban Extension: Area 1 - CH001**

**5.132** The proposed delivery of circa 240 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect. Similarly, the site's location away from historic assets is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect.

## **Other uses**

### **Core Strategy Broad Area EM1 - CH127**

**5.133** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the accessibility of other services and facilities and its location away from historic assets is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is likely to have a negative effect as could the ecological value of the site.

### **Core Strategy Broad Area EM2 - CH019**

**5.134** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the low ecological value of the site, the development of brownfield land and its location away from historic assets is likely to have a positive effect.

### **CH143**

**5.135** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, its location away from historic assets is likely to have a positive effect as could its accessibility to services and facilities. However, the development of greenfield, grade 4 ALC land is likely to have a negative effect as could the ecological value of the site.

## **Cheadle - Sites outside the current development boundary**

### **CH073A**

**5.136** The proposed delivery of circa 90 dwellings is considered to have a significant positive effect, as could the accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The ecological value of the site and its location near to a LNR and historic assets is likely to have a negative effect.

### **CH073B**

**5.137** The proposed delivery of circa 114 dwellings is considered to have a significant positive effect, as could the accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's proximity to designated assets.

### **CH073C**

**5.138** The proposed delivery of circa 90 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect as could its location away from historic assets. However, the development of

greenfield, grade 3 ALC land and proximity to designated assets is assessed as having a significant negative effect. The site's inaccessibility to areas of existing employment is likely to have a negative effect.

#### **CH073D**

**5.139** The proposed delivery of circa 77 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's location near to a LNR is likely to have a negative effect.

#### **CH073E**

**5.140** The proposed delivery of circa 140 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the remote nature of this site within the open countryside. The site's inaccessibility to areas of existing employment and proximity to designated assets is likely to have a negative effect.

#### **CH075A**

**5.141** The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's location near to a Local Nature Reserve.

#### **CH075B**

**5.142** The proposed delivery of circa 60 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's proximity to designated assets. The site's inaccessibility to areas of existing employment is likely to have a negative effect.

#### **CH075C**

**5.143** The proposed delivery of circa 125 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land and the site's proximity to designated assets is assessed as having a significant negative effect. The site's inaccessibility to areas of existing employment is likely to have a negative effect.

#### **CH075D**

**5.144** The proposed delivery of circa 45 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land and proximity to designated assets is assessed as having a significant negative effect.

#### **CH076A**

**5.145** The proposed delivery of circa 100 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2 and 3. The site's location near to designated and historic assets and the inaccessibility of areas of existing employment is likely to have a negative effect.

#### **CH076B**

**5.146** The proposed delivery of circa 110 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2 and 3. The site's location near to a Local Nature Reserve and historic assets is likely to have a negative effect, as could the inaccessibility of areas of existing employment.

#### **CH077A**

**5.147** The proposed delivery of circa 100 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2 and 3 and proximity to historic assets. Additionally, the site has ecological value and may have potential for classification as a Site of Biological Importance which has a significant negative effect. The inaccessibility of areas of existing employment is likely to have a negative effect.

#### **CH077B**

**5.148** The proposed delivery of circa 105 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to health care services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2 and 3. Additionally, the site has ecological value and may have potential for classification as a Site of Biological Importance which has a significant negative effect. The site's location near to historic assets is likely to have a negative effect, as could the inaccessibility of areas of existing employment.

#### **CH080**

**5.149** The proposed delivery of circa 80 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to health care services and facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2 and 3. The site's location near to a Local Nature Reserve and historic assets is likely to have a negative effect.

**CH081**

**5.150** The proposed delivery of circa 110 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. Similarly, the site's accessibility to health care services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2 and 3. The site's location near to a Local Nature Reserve and historic assets and its ecological value is likely to have a negative effect.

**CH085A**

**5.151** The proposed delivery of circa 150 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could part of the site's location within flood zone 2. The site's ecological value is likely to have a negative effect.

**CH085B**

**5.152** The proposed delivery of circa 80 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to health care services and facilities and areas of existing employment is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could part of the site's location within flood zone 2 and 3.

**CH085C**

**5.153** The proposed delivery of circa 150 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility areas of existing employment is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect.

**CH085D**

**5.154** The proposed delivery of circa 115 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to health care services and facilities and areas of existing employment is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's ecological value and proximity to historic assets is likely to have a negative effect.

**CH093**

**5.155** The proposed delivery of circa 165 dwellings is considered to have a significant positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2. The site's proximity to historic assets is likely to have a negative effect, as could the inaccessibility of areas of existing employment.

## CH121

**5.156** The proposed delivery of circa 38 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's ecological value and proximity to a Local Nature Reserve is likely to have a negative effect.

## CH122

**5.157** The proposed delivery of circa 22 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's ecological value and proximity to a Local Nature Reserve is likely to have a negative effect.

## CH128

**5.158** The proposed delivery of circa 28 dwellings and accessibility to areas of existing employment is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's proximity to historic assets is likely to have a negative effect.

## CH129

**5.159** The proposed delivery of circa 120 dwellings is considered to have a significant positive effect, as could the accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities and distance away from historic assets is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's proximity to a Local Nature Reserve and ecological value is likely to have a negative effect.

## CH132

**5.160** The proposed delivery of circa 130 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment and distance away from historic assets is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's partial location within flood zone 2 and 3. The site's proximity to two Local Nature Reserves and ecological value is likely to have a negative effect.

## CH134A

**5.161** The proposed delivery of circa 150 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land and the remote nature of the site is assessed as having a significant negative effect, as could the site's partial location within flood zone 2 and 3.

**CH134B**

**5.162** The proposed delivery of circa 150 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land and the remote nature of the site is assessed as having a significant negative effect, as could the site's partial location within flood zone 2 and 3.

**CH135A**

**5.163** The proposed delivery of circa 160 dwellings is considered to have a significant positive effect, as its proximity to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect, as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's partial location within flood zone 2 and 3.

**CH135B**

**5.164** The proposed delivery of circa 110 dwellings is considered to have a significant positive effect, as its proximity to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's proximity to historic assets is likely to have a negative effect.

**CH135C**

**5.165** The proposed delivery of circa 130 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's partial location within flood zone 2 and 3.

**CH165**

**5.166** The proposed delivery of circa 26 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's proximity to historic assets is likely to have a negative effect.

**Employment sites****CH094**

**5.167** The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, site's location away from historic assets is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land and the site's ecological value is likely to have a negative effect.

## **CH136**

**5.168** The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, site's location away from historic assets is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land and the site's ecological value is likely to have a negative effect.

### **Additional sites**

## **ADD05**

**5.169** The proposed delivery of circa 186 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. However, the site's proximity to historic assets is likely to have a significant negative effect, as could the site's partial location within a flood zone. The site's proximity to designated assets and the development of greenfield, grade 4 ALC land is assessed as having a negative effect.

## **Larger Villages**

### **Alton**

#### **Sites (5+ dwellings) within the current development boundary**

##### **AL024 (only small part within development boundary)**

**5.170** The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The site's proximity to historic assets and ecological value is likely to have a negative effect.

#### **Sites (5+ dwellings) outside the current development boundary**

##### **AL012**

**5.171** The proposed delivery of circa 18 dwellings is considered to have a significant positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The site's proximity to historic assets and ecological value is likely to have a negative effect.

##### **AL019**

**5.172** The proposed delivery of circa 43 dwellings is considered to have a significant positive effect. Similarly, the site's proximity to services and facilities, albeit limited, is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and a SSSI.

**AL022**

**5.173** The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's proximity to services and facilities, albeit limited, is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect, as could the proximity of the site to a SSSI. The site's proximity to historic assets is likely to have a negative effect.

**AL025**

**5.174** The proposed delivery of circa 60 dwellings is considered to have a significant positive effect. Similarly, the site's proximity to health care services and facilities is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

**AL026**

**5.175** The proposed delivery of circa 43 dwellings is considered to have a significant positive effect. Similarly, the site's proximity to health care services and facilities is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and a SSSI.

**AL027**

**5.176** The proposed delivery of circa 45 dwellings is considered to have a significant positive effect. Similarly, the site's proximity to services and facilities is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and a SSSI.

**Biddulph Moor****Sites (5+ dwellings) - within the current Green Belt****BM008**

**5.177** The proposed delivery of circa 18 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment and low ecological value is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of mixed brownfield and greenfield, grade 4 ALC land and the site's proximity to historic assets is assessed as having a negative effect.

**BM013**

**5.178** The proposed delivery of circa 65 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have

a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and the ecological value of the site.

#### **BM014A**

**5.179** The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and the ecological value of the site.

#### **BM014B**

**5.180** The proposed delivery of circa 25 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect, as could its location away from historic assets and designated assets. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect.

#### **BM021**

**5.181** The proposed delivery of circa 7 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect, as could its location away from designated assets. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is its location near to historic assets.

#### **BM029**

**5.182** The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is its location near to historic assets and the ecological value of the site.

#### **BM030**

**5.183** The proposed delivery of circa 60 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect, as could its location away from designated assets. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is its location near to historic assets.

**BM031**

**5.184** The proposed delivery of circa 60 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is its location near to historic assets and the ecological value of the site.

**BM032**

**5.185** The proposed delivery of circa 30 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is its location near to historic assets.

**BM035**

**5.186** The proposed delivery of circa 35 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is its location near to historic assets.

**Blythe Bridge & Forsbrook****Sites (5+ dwellings) - within the current development boundary****BB021**

**5.187** The proposed delivery of circa 30 dwellings is considered to have a significant positive effect, as is the accessibility of the site to services and facilities and public transport. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect, as could the site's location away from historic assets. However, there is scope that the site could be designated SBI land which would have a significant negative effect, as would the partial flood zone 2 and 3 designation of the site. Similarly, the development of greenfield, urban ALC land is assessed as having a negative effect.

**Sites (5+ dwellings) - outside the current development boundary****BB027/28**

**5.188** The proposed delivery of circa 27 dwellings is considered to have a significant positive effect, as is the accessibility of the site to services and facilities and public transport. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect, as could the site's location away from historic assets. However, the site is partially within flood zone 2 and 3 which is likely to have a significant negative effect. Similarly, the site is adjacent to Blyth Bridge Woods BAS which would have a negative effect, as would the development of greenfield, urban ALC land.

#### **BB040**

**5.189** The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site and the inaccessibility of areas of existing employment.

#### **BB044**

**5.190** The proposed delivery of circa 30 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to public transport is likely to have a positive effect. However, the site is partially within flood zone 2 and 3 which is likely to have a significant negative effect. Similarly, the development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site and the inaccessibility of areas of existing employment.

#### **BB045**

**5.191** The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to public transport is likely to have a positive effect. The site's location away from historic assets is likely to have a positive effect. However, the development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site.

#### **BB054**

**5.192** The proposed delivery of circa 70 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect. However, the site's partial location within a flood zone is assessed as having a significant negative effect. The development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site and the proximity of historic assets.

#### **BB062**

**5.193** The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site.

#### **BB086**

**5.194** The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site.

**BB087**

**5.195** The proposed delivery of circa 46 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the site's proximity to historic assets is likely to have a negative effect. The development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site.

**Other uses****BB021**

**5.196** The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District, as is the accessibility of the site to services and facilities and public transport. Similarly, the site's location away from historic assets is likely to have a positive effect. However, there is scope that the site could be designated SBI land which would have a significant negative effect, as would the partial flood zone 2 and 3 designation of the site. Similarly, the development of greenfield, urban ALC land is assessed as having a negative effect.

**BB087**

**5.197** The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the site's proximity to historic assets is likely to have a significant negative effect. The development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site.

**Brown Edge****Sites (5+ dwellings) - within the current development boundary****BE003A**

**5.198** The site's proximity to the village centre could reduce the need to travel and as such have a positive effect on climate change which is likely to have a significant positive effect. The proposed delivery of circa 6 dwellings is considered to have a positive effect, as is its distance away from historic assets and low ecological value. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect.

**Sites (5+ dwellings) - within the current Green Belt****BE032**

**5.199** The proposed delivery of circa 35 dwellings is considered to have a significant positive effect. Similarly, the site's low ecological value is likely to have a positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets.

#### **BE041**

**5.200** The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. Similarly, the site's distance away from historic assets is likely to have a positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the ecological value of the site.

#### **BE044**

**5.201** The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's distance away from historic assets is likely to have a positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the ecological value of the site.

#### **BE045**

**5.202** The proposed delivery of circa 35 dwellings is considered to have a significant positive effect. Similarly, the site's distance away from historic assets is likely to have a positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the ecological value of the site.

#### **BE056**

**5.203** The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the ecological value of the site.

#### **BE060**

**5.204** The proposed delivery of circa 60 dwellings is considered to have a significant positive effect. Similarly, the site's distance away from designated assets is likely to have a positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets.

#### **ADD06**

**5.205** The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the location away from designated assets is considered to have a positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets.

**Cheddleton****Sites (5+ dwellings) - within the current development boundary****CD004**

**5.206** The proposed delivery of circa 18 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. Similarly, the site's accessibility to areas of countryside and open space is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and the ecological value of the site.

**CD017**

**5.207** The proposed delivery of circa 29 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. Similarly, the site's accessibility to areas of countryside and open space is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the site's proximity to historic assets and the ecological value of the site is likely to have a negative effect.

**CD029**

**5.208** The site's proximity to areas of existing employment is considered to have a significant positive effect. Similarly, the proposed delivery of circa 8 dwellings is likely to have a positive effect, as could the site's accessibility to areas of open countryside and location away from historic assets. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's inaccessibility to services and facilities.

**CD060/CD118**

**5.209** The proposed delivery of circa 113 dwellings is considered to have a significant positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 3 and 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and the inaccessibility of areas of existing employment.

**CD069A**

**5.210** The proposed delivery of circa 6 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open countryside and low ecological value is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the site's inaccessibility to areas of existing employment is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets.

## **CD088**

**5.211** The proposed delivery of circa 7 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open countryside is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the site's inaccessibility to areas of existing employment is likely to have a negative effect. The site's proximity to historic assets and the ecological value of the site is likely to have a negative effect.

### **Sites (5+ dwellings) - within the current Green Belt**

## **CD002**

**5.212** The proposed delivery of circa 26 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment and open countryside, as well as the site's location away from historic assets is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's ecological value.

## **CD003**

**5.213** The proposed delivery of circa 70 dwellings is considered to have a significant positive effect, as is the site's accessibility to areas of existing employment. Similarly, the site's accessibility to the open countryside is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's ecological value and location near to historic assets.

## **CD007**

**5.214** The proposed delivery of circa 14 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to the open countryside and areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect and location near to historic assets.

## **CD008**

**5.215** The proposed delivery of circa 23 dwellings is considered to have a significant positive effect, as is the site's accessibility to areas of existing employment. Similarly, the site's accessibility to the open countryside is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect and location near to historic assets.

## **CD015**

**5.216** The proposed delivery of circa 30 dwellings is considered to have a significant positive effect, as is the site's accessibility to areas of existing employment. Similarly, the site's accessibility to the open countryside is likely to have a positive effect. However, the

inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect and location near to historic assets.

#### **CD019**

**5.217** The proposed delivery of circa 39 dwellings is considered to have a significant positive effect, as is the site's accessibility to areas of existing employment. Similarly, the site's accessibility the open countryside is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect and its location near to historic assets.

#### **CD115: residential**

**5.218** The proposed delivery of circa 104 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities and development of greenfield, grade 3 ALC land is likely to have a significant negative effect. Similarly, the sites proximity to historic assets is likely to have a negative effect.

#### **Other uses**

#### **CD115: alternative uses**

**5.219** The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the provision of housing provided is likely to have a significant positive effect. However, the inaccessibility of services and facilities and development of greenfield, grade 3 ALC land is likely to have a significant negative effect. Similarly, the site's proximity to historic assets is likely to have a negative effect.

#### **Endon**

#### **Sites (5+ dwellings) - within the current development boundary**

#### **EN128**

**5.220** The proposed delivery of circa 27 dwellings is considered to have a significant positive effect, as is the site's proximity to services and facilities. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The site's proximity to historic assets and ecological value is likely to have a negative effect.

#### **Sites (5+ dwellings) - within the current Green Belt**

#### **EN007**

**5.221** The proposed delivery of circa 45 dwellings is considered to have a significant positive effect, as is the site's proximity to services and facilities. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the

site is inaccessible to areas of existing employment which is likely to have a significant negative effect, as could its partial location within a flood zone. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

#### **EN012**

**5.222** The proposed delivery of circa 24 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

#### **EN019**

**5.223** The proposed delivery of circa 8 dwellings is considered to have a positive effect. Similarly, the site's accessibility to services, facilities and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

#### **EN024**

**5.224** The proposed delivery of circa 7 dwellings is considered to have a positive effect. Similarly, the site's accessibility to services, facilities and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect, as could its partial location within a flood zone. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

#### **EN030**

**5.225** The proposed delivery of circa 10 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land partially within flood zone 2 is assessed as having a negative effect, as is the site's proximity to historic assets.

#### **EN033**

**5.226** The proposed delivery of circa 12 dwellings is considered to have a significant positive effect, as is the accessibility of services and facilities. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

**EN079**

**5.227** The proposed delivery of circa 18 dwellings is considered to have a significant positive effect, as is the accessibility of services and facilities. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect, as could its partial location within a flood zone. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

**EN101**

**5.228** The proposed delivery of circa 54 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

**EN125**

**5.229** The proposed delivery of circa 14 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets.

**EN126**

**5.230** The proposed delivery of circa 12 dwellings is considered to have a significant positive effect, as could its accessibility to services and facilities. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect, as could its partial location within a flood zone. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

**Other uses****EN024**

**5.231** The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site's accessibility to areas of open countryside, services and facilities and low ecological value is likely to have a positive effect. However, the site is partially located within a flood zone which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets.

## **Ipstones**

### **Sites (5+ dwellings) - within the current development boundary**

#### **IP019**

**5.232** The proposed delivery of circa 35 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to designated and historic assets and ecological value.

### **Sites (5+ dwellings) - outside the current development boundary**

#### **IP011**

**5.233** The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

#### **IP012A**

**5.234** The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

#### **IP014A**

**5.235** The proposed delivery of circa 35 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to designated and historic assets.

#### **IP015**

**5.236** The proposed delivery of circa 22 dwellings is considered to have a significant positive effect, as is the site's proximity to areas of existing employment. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is in proximity to a designated asset, Churnet Valley SSSI which is likely to have a significant negative effect, as could the site's proximity to listed assets. The development of greenfield, grade 4 ALC land is assessed as having a negative effect.

**Kingsley****Sites (5+ dwellings) - within the current development boundary****KG024**

**5.237** The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and the partial brownfield nature of the site is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. The site's proximity to designated and historic assets is likely to have a negative effect, as could the site's ecological value.

**KG059**

**5.238** The proposed delivery of circa 6 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. Similarly, the site's proximity to historic assets and the development of greenfield, grade 3 ALC land is likely to also have a significant negative effect. The site's proximity to designated assets is likely to have a negative effect.

**Sites (5+ dwellings) - within the current Green Belt****KG005**

Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the site's proximity to a designated asset is likely to have a negative effect. The development of greenfield, grade 4 ALC land is likely to also have a negative effect, as could the site's proximity to historic assets and the inaccessibility of areas of existing employment.

#### **Sites (5+ dwellings) - outside the current development boundary**

##### **WA005**

**5.257** The proposed delivery of circa 40 dwellings is considered to have a significant positive effect, as is the site accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the site's proximity to a designated asset is likely to have a negative effect. The development of greenfield, grade 4 ALC land is likely to also have a negative effect, as could the site's proximity to historic assets.

**WA006**

**5.258** The proposed delivery of circa 30 dwellings is considered to have a significant positive effect, as is the site accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the site's proximity to a designated asset is likely to have a negative effect. The development of greenfield, grade 4 ALC land is likely to also have a negative effect, as could the site's proximity to historic assets.

**Wetley Rocks****Suitable sites (5+ dwellings) - within the current development boundary****WR002**

**5.259** The proposed delivery of circa 29 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and low ecological importance of the site is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect, as could the site's proximity to designated and historic assets. The development of greenfield, grade 4 ALC land is likely to have a negative effect.

**WR015**

**5.260** The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and low ecological value of the site is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect, as could the site's proximity to historic assets.

**Sites (5+ dwellings) - within the current Green Belt****WR005**

**5.261** The proposed delivery of circa 13 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect, as could the site's proximity to historic assets and ecological value.

**WR014A**

**5.262** The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment and services and facilities which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect, as could the site's proximity to historic assets and ecological value.

## **Werrington & Cellarhead**

### **Sites (5+ dwellings) - within the current development boundary**

#### **WE018**

**5.263** The proposed delivery of circa 24 dwellings is considered to have a significant positive effect, as is the accessibility of services and facilities. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated assets. Similarly, the site's proximity to historic assets is assessed as having a negative effect.

### **Sites (5+ dwellings) - within the current Green Belt**

#### **WE003**

**5.264** The proposed delivery of circa 85 dwellings is considered to have a significant positive effect, as is the accessibility of services and facilities. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated assets. Similarly, the development of greenfield, grade 4 ALC land and the site's proximity to historic assets is assessed as having a negative effect.

#### **WE013**

**5.265** The proposed delivery of circa 10 dwellings is considered to have a significant positive effect, as is the accessibility of services and facilities. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated assets. Similarly, the development of greenfield, grade 4 ALC land and the site's proximity to historic assets is assessed as having a negative effect.

#### **WE019**

**5.266** The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated assets. Similarly, the development of greenfield, grade 4 ALC land and the site's proximity to historic assets is assessed as having a negative effect.

#### **WE027**

**5.267** The proposed delivery of circa 20 dwellings is considered to have a significant positive effect, as could the site's accessibility to services and facilities. Similarly, the site's to areas of open space is likely to have a positive effect. However, the site's accessibility to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated assets. Similarly, the development of greenfield, grade 4 ALC land and the site's proximity to historic assets is assessed as having a negative effect.

**WE033**

**5.268** The proposed delivery of circa 60 dwellings is considered to have a significant positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect. Similarly, the site's inaccessibility to services and facilities and areas of open space is likely to have a negative effect. Also, the site's ecological value is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land and the site's proximity to historic assets is assessed as having a negative effect.

**WE040**

**5.269** The proposed delivery of circa 7 dwellings is considered to have a positive effect, as is the accessibility to services and facilities and areas of open space. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated and historic assets. Similarly, the development of greenfield, grade 4 ALC land is likely to have a negative effect.

**WE041**

**5.270** The proposed delivery of circa 22 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated and historic assets. Similarly, the development of greenfield, grade 4 ALC land is likely to have a negative effect.

**WE052**

**5.271** The proposed delivery of circa 25 dwellings is considered to have a significant positive effect, as is the site's accessibility to services and facilities. Similarly, the site's accessibility to open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect. The site's proximity to designated and historic assets is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land.

**WE053**

**5.272** The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to historic assets. The site's proximity to designated assets is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land.

**WE069**

**5.273** The proposed delivery of circa 6 dwellings is considered to have a positive effect. Similarly, the site's accessibility to services and facilities and areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to historic assets. The site's proximity to designated assets is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land.

## **WE070**

**5.274** The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect. The site's proximity to designated and historic assets is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land.

### **Other uses**

## **WE001**

**5.275** The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site's low ecological value is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the proximity to historic assets and distance away from services and facilities and areas of open space.

## **WE002**

**5.276** The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. However, the remote nature of the site is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the proximity to historic assets, ecological value and distance away from services and facilities and areas of open space.

## **Smaller Villages**

### **Bagnall**

The site's proximity to designated and historic assets and the development of greenfield, grade 4 ALC land are likely to have a negative effect.

#### **WH016**

**5.325** The site's proximity to areas of existing employment is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and the proposed delivery of circa 6 dwellings are likely to have a positive effect. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect. The site's proximity to designated and historic assets and the development of greenfield, grade 4 ALC land are likely to have a negative effect.

#### **WH018**

**5.326** The site's proximity to areas of existing employment is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and the proposed delivery of circa 5 dwellings are likely to have a positive effect. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect. The site's proximity to designated and historic assets and the development of greenfield, grade 4 ALC land are likely to have a negative effect.

## Other Areas

### Sites (5+ dwellings) - within current Green Belt

#### OC003

**5.327** The development of brownfield, grade 4 ALC land is considered to have a positive effect, as could the site's accessibility to areas of open space and the proposed delivery of circa 6 dwellings. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to designated and historic assets are likely to have a negative effect.

### Sites (5+ dwellings) - outside infill boundary

#### OC055

**5.328** The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site is located away from designated and historic assets. However, the site is inaccessible to services and facilities, is partially within a flood zone which are both assessed to have a significant negative effect. The development of greenfield, grade 4 ALC land is considered to have a negative effect.

## 5.3 Appraisal of alternative development approaches for Cheadle

### Background

**5.329** Cheadle is the district's smallest town, located 10 miles south east of Leek and 10 miles west of the north Staffordshire conurbation. Cheadle has suffered from under-investment and a poor infrastructure and its town centre has declined in recent years, although a successful Heritage Economic Regeneration Scheme has led to some improvements. Whilst the town has some notable buildings, including the precious asset of St. Giles' RC Church, one of the finest works of the celebrated Victorian architect A W Pugin, the majority of its houses have been built since the First World War. Cheadle is only 4 miles from the A50 Stoke to Derby road that links the M1 and M6 motorways.

**5.330** The adopted core strategy sets out Cheadle's role in the District as a significant service centre and market town with scope to be enhanced and strengthened. The identified priorities for the town are to expand its housing market area and range of community provision; creating further employment growth and increasing the diversity of employment opportunities; expanding its retailing centre; and improving environmental quality and accessibility. The Council's Development Capacity Study indicates scope to accommodate further growth that will address issues of under-investment and under-performance, contribute to achieving a more sustainable settlement and help meet the needs of the District.

**5.331** The strategy for Cheadle set out in the adopted Core Strategy is based on taking a comprehensive view of the expansion of the town and programming ahead for the phased release of land and related infrastructure improvements. The Core Strategy notes that this will take the form of urban extensions involving housing and employment development with related leisure and community facilities as part of an overall regeneration and growth strategy.

## Selection of alternatives for appraisal

**5.332** In identifying sites for inclusion in the preferred options Local Plan, a number of reasonable alternative development approaches have been considered for Cheadle, in line with the strategy set out above. These are:

- Option 1: Northern Focus
- Option 2: South western focus
- Option 3: Scattered approach

**5.333 Option 1: Northern focus** proposes growth centred on extending Cheadle to the north. This option proposes including the following housing sites within the preferred options Local Plan:

Sites within development boundary	Potential yield (Number new homes)
CH001	240
CH004	45
CH006	36
CH009	16
CH024	45
CH015	32
CH002A	26
CH002B	42
CH013	50
CH020	42
<b>Other potential sites</b>	
CH073B	114
CH132	80
CH081	110
CH080	80
CH129	120

**Table 5.3 Proposed sites comprising Northern Focus**

**5.334 Option 2: South Western focus** proposes growth centred on extending Cheadle to the south west. This option proposes including the following housing sites within the preferred options Local Plan:

Sites within development boundary	Potential yield (Number new homes)
CH001	240
CH004	45
CH006	36
CH009	16
CH024	45
CH015	32
CH002A	26
CH002B	42
CH013	50
CH020	42
<b>Other potential sites</b>	
CH085A	150
CH085B	80
CH085C	150
CH085D	115
CH093	165
CH128	28

Table 5.4 Proposed sites comprising South Western Focus

**5.335 Option 3: Scattered approach** proposes a spread of growth based on a number of small scale extensions to the periphery of Cheadle. This option proposes including the following housing sites within the preferred options Local Plan:

Sites within development boundary	Potential yield (Number new homes)
CH001	240
CH004	45
CH006	36
CH009	16
CH024	45
CH015	32

Sites within development boundary	Potential yield (Number new homes)
CH002A	26
CH002B	42
CH013	50
CH020	42
Other potential sites	
CH132	80
CH128	28
CH075A	50
CH075B	60
CH075C	125
CH081	110
CH085A	75
CH085D	50

Table 5.5 Proposed sites comprising Scattered Approach

## Summary of appraisal findings

**5.336** The full SA appraisal matrices recording the detail of the appraisal of each of these options are provided in section 9. The summary of findings is set out below.

### Option 1 - Summary of significant effects

**5.337** Sites comprising the option "northern focus" are located both within and outside the existing settlement boundary. The sites are a range of sizes, four are large enough to yield over 100 homes each, a further three are each expected to yield 50 or more homes. This could be expected to help enable the delivery of a range of types and tenures, making a significant contribution to meeting the housing needs of the whole community.

**5.338** A further positive effect of the option is the opportunity it provides for the delivery of a new school. A new school in the north of Cheadle could be expected to ease some pressure on peak time journeys to the existing schools that are concentrated in the south west of the town. This is likely to result in positive effects on the town centre and may help support opportunities for investment in culture and tourism with positive effects on the local economy.

**5.339** All the sites comprising this option could deliver development within 500m of a bus stop and all but three sites are within 1,200m of the town centre with its wide range of key services and facilities. This is likely to result in positive effects on: improving access to jobs, services and facilities (which in turn is likely to advance equality of opportunity), improving access to health care, helping to safeguard the vitality and viability of the town centre,

providing support for walking and cycling and reducing the need to travel by car. However sites CH080, CH081 and CH132 are more than 1,200m away from the town centre, so this option could result in existing services and facilities being inaccessible for residents of some new developments.

**5.340** There is potential for the cumulative impacts of development to result in the disturbance of habitats (and their connectedness) and of protected species that could not be reasonably mitigated. The option includes sites CH002a and CH024 which border Cecilly Brook Local Nature Reserve (LNR), one of the most important sites for water voles (a protected species) in Staffordshire. In addition, sites CH002b, CH006 and CH009 are within 100m of the Reserve. CH129 is within 100m of Hales Hall Pool LNR. Sites CH073b and CH081 are within 200m of one of these Local Nature Reserves.

**5.341** This option is also likely to result in the development of sites subject to risk from flooding, the option includes sites CH002a, CH006, CH020, CH080, CH081 and CH132 all of which are partly located within a flood zone 3 area.

**5.342** Dependent on proposal specific information, there is scope that the cumulative impact of development under this option may result in harm or loss to the significance of designated heritage assets. Sites CH009, CH013, CH015, CH024, CH080 and CH081 are within 400m of one or more grade II listed assets. Site CH015 is within 400m of 24 grade II listed assets; CH013 is within 400m of 38 grade II listed assets and one grade 1 listed asset.

**5.343** Likely negative effects on landscape character have also been identified, sites CH073B, CH080, CH081, CH129 and CH132 are all greenfield sites outside the current development boundary, however none are within the area identified as "important landscape setting to settlement".

**5.344** The option has also been assessed as likely to result in minor negative effects in relation to loss of best and most versatile agricultural land, air quality and greenhouse gas emissions and energy consumption arising from construction and occupation of new developments.

## **Option 2 - Summary of significant effects**

**5.345** Sites comprising the option "south western focus" are located both within and outside the existing settlement boundary. The sites are a range of sizes, five are large enough to yield over 100 homes each, a further two are expected to yield 50 or more homes. This could be expected to help enable the delivery of a range of types and tenures, making a significant contribution to meeting the housing needs of the whole community.

**5.346** A further positive effect of the option is the opportunity it provides for the delivery of a southern link road to help relieve traffic congestion in the town centre. However focusing new development where there is an existing cluster of schools may exacerbate congestion at peak times from concentrating journeys to school into one area of town. Unless the new journeys to school are mainly made on foot, this may result in negative effects on the town centre. All of the sites comprising this option could deliver development within 500m of a bus stop and all but two are within 1,200m of the town centre with its wide range of key services and facilities. This is likely to result in positive effects on: improving access to jobs, services and facilities (which in turn is likely to advance equality of opportunity), improving access to health care, helping to safeguard the vitality and viability of the town centre, providing support for walking and cycling and reducing the need to travel by car. However

sites CH093 and CH128 are more than 1,200m away from the town centre, so this option could result in existing services and facilities being inaccessible for residents of some new developments.

**5.347** There is potential for the cumulative impacts of development to result in the disturbance of habitats (and their connectedness) and of protected species that could not be reasonably mitigated. The option includes sites CH002A and CH024 which border Cecilly Brook Local Nature Reserve, one of the most important sites for water voles (a protected species) in Staffordshire. In addition, sites CH002B, CH006 and CH009 are within 100m of the Reserve.

**5.348** This option is also likely to result in the development of sites subject to risk from flooding, the option includes sites CH002A, CH006, CH020 and CH085B all of which are partly located within a flood zone 3 area; and sites CH085A and CH093 that are partly within flood zone 2.

**5.349** Dependent on proposal specific information, the cumulative impact of development under this option may result in harm or loss to the significance of designated heritage assets. Sites CH009, CH013, CH015, CH024, CH085C, CH085D, CH093 and CH128 are within 400m of one or more grade II listed assets. Site CH015 is within 400m of 24 grade II listed assets; CH013 is within 400m of 38 grade II listed assets and one grade 1 listed asset.

**5.350** Likely negative effects on landscape character have also been identified; sites CH085A, B, C and D, CH093 and CH128 are all greenfield sites outside the current development boundary, however none are within the area identified as "important landscape setting to settlement". Sites CH093 and CH128 have been recommended as appropriate to consider for release from the Green Belt under exceptional circumstances.

**5.351** The option has also been assessed as likely to result in minor negative effects in relation to loss of best and most versatile agricultural land, air quality and greenhouse gas emissions and energy consumption arising from construction and occupation of new developments.

### **Option 3 - Summary of significant effects**

**5.352** Sites comprising the option "scattered approach" are located both within and outside the existing settlement boundary. The sites are a range of sizes, three are large enough to yield over 100 homes each, a further six are each expected to yield 50 or more homes. This could be expected to help enable the delivery of a range of types and tenures, making a significant contribution to meeting the housing needs of the whole community.

**5.353** A further positive effect of the option is the opportunity it provides for the delivery of a new school. A new school in the north of Cheadle could be expected to ease some pressure on peak time journeys to the existing schools that are concentrated in the south west of the town. However this option also includes some sites comprising a small scale extension to the south west, where there is an existing cluster of schools and this may contribute to "school run congestion" issues in this part of the town. All of the sites comprising this option could deliver development within 500m of a bus stop and all but three are within 1,200m of the town centre with its wide range of key services and facilities. This is likely to result in positive effects on: improving access to jobs, services and facilities (which in turn is likely to advance equality of opportunity), improving access to health care, helping to safeguard the vitality and viability of the town centre, providing support for walking and cycling

and reducing the need to travel by car. However sites CH081, CH128 and CH132 are more than 1,200m away from the town centre, so this option could result in existing services and facilities being inaccessible for residents of some new developments.

**5.354** There is potential for the cumulative impacts of development to result in the disturbance of habitats (and their connectedness) and of protected species that could not be reasonably mitigated. The option includes sites CH002A and CH024 which border Cecilly Brook Local Nature Reserve, one of the most important sites for water voles (a protected species) in Staffordshire. In addition, sites CH002B, CH006 and CH009 are within 100m of the Reserve.

**5.355** This option is also likely to result in the development of sites subject to risk from flooding, the option includes sites CH002A, CH006, CH020, CH81 and CH132 all of which are partly located within a flood zone 3 area; and site CH085A that is partly within flood zone 2.

**5.356** Dependent on proposal specific information, the cumulative impact of development under this option may result in harm or loss to the significance of designated heritage assets. Sites CH009, CH013, CH015, CH024, CH075C, CH081, CH085D, and CH128 are within 400m of one or more grade II listed assets. Site CH015 is within 400m of 24 grade II listed assets; CH013 is within 400m of 38 grade II listed assets and one grade 1 listed asset.

**5.357** Likely negative effects on landscape character have also been identified; sites CH075A, B and C, CH081, CH085A and D, CH128 and CH132 are all greenfield sites outside the current development boundary; sites CH075A, B and C lie in the area identified as "important landscape setting to settlement, where impacts may be most significant. Site CH128 has been recommended as appropriate to consider for release from the Green Belt under exceptional circumstances.

**5.358** The option has also been assessed as likely to result in minor negative effects in relation to loss of best and most versatile agricultural land, air quality and greenhouse gas emissions and energy consumption arising from construction and occupation of new developments

### **Mitigation measures proposed**

**5.359** It is possible that likely significant effects identified via the SA can be mitigated. To assist this, the following measures have been identified during the appraisal of alternative development approaches. These recommendations will be included in the review of policies undertaken as part of Local Plan preparation.

**5.360** Local Plan policies should help to ensure that:

- Good standards of amenity and open space and Green Infrastructure are delivered as part of new housing development.
- The needs of all members of the community can be addressed by helping to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.
- New developments deliver opportunities to increase take up of sustainable transport choices and improvements to healthy travel networks, including increased opportunities for access to the countryside.
- New developments are well designed, creating safe places and reducing opportunities for anti-social behaviour.

- Developments include appropriate landscaping to aid removal of air pollutants and provide support for the Cheadle Transport Package.
- New developments are directed towards areas of least flood risk and incorporate SuDS wherever possible.
- Impacts on biodiversity are minimised and proposals provide net gains in biodiversity where possible.
- Geologically important sites are afforded protection and enhancement.
- Support is provided for waste minimisation.
- The character of towns / villages; heritage and archaeological assets along with their settings are protected and enhanced.
- The character and appearance of the landscape including historic landscape and other natural assets and resources are protected and enhanced.
- Support is given to sustainable economic growth; tourism and the visitor economy; and the vitality and viability of town and village centres.

### Recommended preferred option and options dismissed

Options proposed for dismissal	Rationale
Option 1: Northern focus	<p>The option could be expected to:</p> <ul style="list-style-type: none"> <li>• Make a significant contribution to meeting the housing needs of the whole community;</li> <li>• Provide opportunity for delivering a new school in the north of the town where educational facilities are currently lacking; and</li> <li>• Deliver new development within 500m of a bus stop and largely within 1,200m of the town centre, providing good access to services and facilities.</li> </ul> <p>However the the cumulative impacts of development could result in:</p> <ul style="list-style-type: none"> <li>• Disturbance of habitats (and their connectedness) and of protected species that could not be reasonably mitigated;</li> <li>• Harm or loss to the significance of designated heritage assets that could not be reasonably mitigated; and</li> <li>• An increase in the risk of flooding.</li> </ul> <p>The option would not be expected to help deliver the southern link road.</p>
Option 2: South western focus	<p>The option could be expected to:</p> <ul style="list-style-type: none"> <li>• Make a significant contribution to meeting the housing needs of the whole community;</li> <li>• Provide opportunity to deliver the southern link road; and</li> <li>• Deliver new development within 500m of a bus stop and largely within 1,200m of the town centre, providing good access to services and facilities.</li> </ul>

Options proposed for dismissal	Rationale
	<p>However the the cumulative impacts of development could result in:</p> <ul style="list-style-type: none"> <li>• Additional town centre congestion from focusing journeys to school in one part of the town;</li> <li>• Disturbance of habitats (and their connectedness) and of protected species that could not be reasonably mitigated (the effects are less significant than under option 1);</li> <li>• Harm or loss to the significance of designated heritage assets that could not be reasonably mitigated;</li> <li>• Requirement to consider release of sites from the Green Belt; and</li> <li>• An increase in the risk of flooding (the effects are less significant than under option 1).</li> </ul> <p>The option would not be expected to help spread location of key sites (such as a new school) to the north of the town.</p>
Option 3: Scattered approach	<p>The option could be expected to:</p> <ul style="list-style-type: none"> <li>• Make a significant contribution to meeting the housing needs of the whole community;</li> <li>• Provide opportunity for delivering a new school in the north of the town where educational facilities are currently lacking; and</li> <li>• Deliver new development within 500m of a bus stop and largely within 1,200m of the town centre, providing good access to services and facilities.</li> </ul> <p>However the the cumulative impacts of development could result in:</p> <ul style="list-style-type: none"> <li>• Town centre congestion from journeys to school arising from small scale extension to the south west where existing schools are located;</li> <li>• Disturbance of habitats (and their connectedness) and of protected species that could not be reasonably mitigated (the effects are less significant than under option 1);</li> <li>• Harm or loss to the significance of designated heritage assets that could not be reasonably mitigated;</li> <li>• Negative impact on the landscape setting to the settlement;</li> <li>• Requirement to consider release of a site from the Green Belt; and</li> <li>• An increase in the risk of flooding (the effects are less significant than under option 1).</li> </ul> <p>The option would not be expected to help deliver the southern link road.</p>

Table 5.6 Development approach options dismissed following appraisal

## Next steps

## 6 Next steps

**6.1** This is an Initial Sustainability Appraisal Report and the process of assessing Local Plan policies and site allocations will continue after the results of this public consultation stage have been taken into account. The results of the public consultation will inform the next iteration of the sustainability appraisal.

**6.2** These findings will be published in the next stage of the sustainability appraisal that will accompany the Local Plan Submission document. This will also include any additional appraisal work in relation to any significant amendments that may be made to the emerging Local Plan.

**6.3** The next iteration of the sustainability appraisal will also include an Equalities Impact Assessment.

## Appraisal of site options

## 7 Appraisal of site options

**7.1** As set out in the Sustainability Appraisal Scoping Report August 2014, each potential site is assessed against the Council's SA Objectives. The criteria used for the assessment of the long list of sites against the SA Framework are set out below, along with factors considered in reaching a judgement. The findings of the site appraisals are recorded in a series of tables below, with an appraisal summary.

**7.2** Where the assessment refers to the findings of the HRA Report, this is the 2014 Report of the Core Strategy. A separate HRA of the Local Plan has been commissioned and its findings will be published alongside the submission version of the Plan.

**7.3** In some cases it is not considered possible to spatially assess against an objective. Where impact on an objective depends less on the nature or location of a site, and more on the implementation of Local Plan or other policies, a neutral, or "dependent on implementation" assessment is recorded.

**7.4** It should be noted that none of the criteria, or the assessment of the sustainability appraisal against these criteria, necessarily prohibits a site from being allocated or being taken forward as a preferred option.

### Scoring of options

Score	
++	The allocation will have a very positive impact on the sustainability objective
+	The allocation will have a slightly positive impact on the sustainability objective
0	The allocation will have a negligible or neutral impact on the sustainability objective. A recorded neutral effect does not necessarily mean that there will be no effect at the project level, but shows that at this strategic level there are no identifiable effects.
-	The allocation will have a slightly negative impact on the sustainability objective
--	The allocation will have a very negative impact on the sustainability objective
i	The outcome could be dependent on implementation, or more detail is required to make an assessment

Score	
?	The impact of an issue cannot be predicted at this stage

**Table 7.1 Scoring of options**

**7.5** Different components within an option may generate varying impacts. This is indicated by "/".

**Key to Table**

- ST: Short term = 0 - 5 years
- MT: Medium term = 5 - 10 years
- LT: Long term = over 10 years

**7.6** The assessment matrix used for appraisals is set out below.

SA Objective	Assessment Criteria - Does the site ...?	Commentary on likely nature of effects of site allocation on SA Objective	Overall assessment
<b>SOCIAL</b>			

SA Objective	Assessment Criteria - Does the site ...?	Commentary on likely nature of effects of site allocation on SA Objective	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>• Make a positive contribution towards community cohesion?</li> <li>• Offer opportunity to improve neighbourhood quality?</li> <li>• Offer opportunity to provide open space and support Green Infrastructure?</li> <li>• Risk unacceptable light and noise pollution?</li> <li>• Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	<p>Mainly influenced by development design.</p> <p>Factors considered:</p> <p>Is site within or adjacent to settlement; or remote from settlement centre?</p> <p>Is site in an area with high levels of existing traffic congestion?</p> <p>Is site close to a potentially noisy or polluting use?</p> <p>Is site within an Air Quality Management Area?</p> <p>Is site within walking distance of an area of publicly accessible open space and from a cultural or leisure facility?</p>	<p>Positive</p> <p>Negative</p> <p>Neutral</p> <p>Uncertain</p> <p>Dependent on implementation</p>
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>• Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>• Help to minimise the distance people need to travel to access education,</li> </ul>	<p>Factors considered:</p> <p>Can a range of services and facilities be accessed within a short walk or bus ride?</p> <p>Distance of the site from a bus stop.</p> <p>Distance of the site from a train station.</p> <p>Distance from Strategic Road Network.</p>	

SA Objective	Assessment Criteria - Does the site ...?	Commentary on likely nature of effects of site allocation on SA Objective	Overall assessment
	employment, shopping and other key services and facilities.	Distance of the site from a town or settlement centre.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>Some dependency on the implementation of other policies.</p> <p>Factors considered:</p> <p>Distance to nearest healthcare facility. Is the site within walking distance of an area of publicly accessible open space or recreation facility?</p> <p>Does the location of the site facilitate healthy travel choices?</p> <p>Can a range of services and facilities be readily accessed within a short walk or cycle journey?</p>	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	<p>Mainly influenced by development design.</p> <p>Factors considered:</p> <p>Is site within or adjacent to settlement; or remote from settlement centre?</p>	
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	<p>Some dependency on the implementation of other policies.</p> <p>Factors considered:</p>	

SA Objective	Assessment Criteria - Does the site ...?	Commentary on likely nature of effects of site allocation on SA Objective	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	<p>Does the site have potential to deliver affordable homes?</p> <p>Do development economics or other factors mean that the site is unlikely to deliver affordable homes?</p>	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	<p>Factors considered:</p> <p>Is site in an area with high levels of existing traffic congestion?</p> <p>Distance of the site from a bus stop.</p> <p>Distance of the site from a train station.</p> <p>Can a range of services and facilities be readily accessed within a short walk or cycle journey?</p> <p>Is site within walking distance of an area of publicly accessible open space?</p> <p>Is development of the site likely to impact on the District's Green Infrastructure or Ecological Network, either in a positive or negative way?</p>	
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site ...?	Commentary on likely nature of effects of site allocation on SA Objective	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	<p>Mainly influenced by development design.</p> <p>Dependent on the implementation of other policies.</p> <p>Factors considered:</p> <p>Can a range of services and facilities be readily accessed within a short walk or cycle journey, or using public transport?</p>	
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	<p>Factors considered:</p> <p>Is site within an Air Quality Management Area?</p> <p>Is site adjacent to and up-wind of an Air Quality Management Area?</p>	
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding eg by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute</li> </ul>	<p>Some dependency on the implementation of other policies.</p> <p>Factors considered:</p> <p>Does the site meet the sequential test?</p> <p>Is the site partially or wholly in Flood Zones 2 or 3?</p>	

SA Objective	Assessment Criteria - Does the site ...?	Commentary on likely nature of effects of site allocation on SA Objective	Overall assessment
	<p>to the objectives of the Water Framework Directive?</p> <ul style="list-style-type: none"> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	<p>Are there incidents of surface water flooding on site or within 100m of the site?</p> <p>Does the site contain controlled water?</p> <p>Is the site up to 250m from controlled water?</p> <p>Findings from SFRA.</p>	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	<p>Factors considered:</p> <p>Are there likely significant effects on the integrity of a European site?</p> <p>Does the site contain a nationally, regionally or locally designated site?</p> <p>Is the site within 100m of a site of importance for nature conservation or within 400m of a nationally or internationally designated site?</p> <p>Does the site have potential for nature conservation interest or for legally protected species to be present?</p> <p>Is the site important for wildlife linkages or habitat contiguity?</p> <p>Does the site have potential for nature conservation enhancement?</p>	

SA Objective	Assessment Criteria - Does the site ...?	Commentary on likely nature of effects of site allocation on SA Objective	Overall assessment
		Findings from Ecological Study and HRA.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>• Help safeguard the best and most versatile agricultural land?</li> <li>• Deliver development that helps to minimise the loss of greenfield land?</li> <li>• Offer opportunities to reduce land contamination / instability?</li> <li>• Deliver development that helps reduce the amount of derelict land?</li> <li>• Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	<p>Factors considered:</p> <p>Would development of the site lead to the loss of high quality agricultural land?</p> <p>Is site previously developed land?</p> <p>Does the site include notable geological features?</p>	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>• Offer opportunities to reduce waste generation?</li> <li>• Offer opportunities to maximise the re-use of existing buildings?</li> <li>• Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	<p>Some dependency on the implementation of other policies.</p> <p>Factors considered:</p> <p>Is the site previously developed land with buildings in use, or vacant buildings on site?</p>	
13. To protect and enhance the character	<ul style="list-style-type: none"> <li>• Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and</li> </ul>	<p>Factors considered:</p> <p>Does the site contain, or provide the setting to, a nationally important archaeological site (Scheduled Monument)?</p>	

SA Objective	Assessment Criteria - Does the site ...?	Commentary on likely nature of effects of site allocation on SA Objective	Overall assessment
of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	<p>Does the site contain known archaeological sites or possess high archaeological potential?</p> <p>Is the site in a Conservation Area or on the register of historic parks and gardens?</p> <p>Is the site on the edge of a Conservation Area?</p> <p>Does the site contain or form the setting of a listed building?</p>	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	<p>Factors considered:</p> <p>Is site previously developed land?</p> <p>Is site an area of high historic landscape value?</p> <p>If site is in countryside - capability of the landscape to accommodate change.</p> <p>Findings from Landscape and Settlement Character Assessment of Staffordshire Moorlands.</p>	
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	<p>Dependent on the implementation of other policies.</p> <p>No criteria are proposed as it cannot be shown how the location or nature of a site can meaningful illustrate the effects on this objective.</p>

<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site ...?	Commentary on likely nature of effects of site allocation on SA Objective	Overall assessment

Table 7.2 Methodology for assessment of site options

## 7.1 Leek

### Sites (10+ dwellings) – within the Development Boundary

#### LE022

SA Objective	Assessment Criteria - Does the site (LE022),...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within the settlement boundary, albeit on the south east edge. The development of greenfield land adjacent to the open countryside has the scope to reduce the quality of Green Infrastructure of the Town. Overall, this site has been assessed as having a neutral effect on this Objective.	0
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the settlement boundary and is within 800m of the town centre and the wide range of key services and facilities that could serve prospective residents of the site. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that the site is in proximity to Leek Moorlands Hospital. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions.	+

SA Objective	Assessment Criteria - Does the site (LE022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 16 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and a 1,200m from a GP surgery and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (LE022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,500m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of the species poor grassland area but has some fairly biodiverse areas connected by hedgerows to the south and north. Therefore the site is deemed to have low ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as urban ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (LE022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of two grade II listed assets and 400m of two more grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (LE022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is not within 1,000m to existing areas of employment within the town or District and, as such, could fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 16 dwellings is considered to have a positive effect. The site is also accessible to existing services and facilities which is likely to have a positive effect, as could the site's low ecological importance. However, the development of greenfield land is assessed as having a negative effect, as could the site's proximity to historic assets and the inaccessibility of existing areas of employment.			

Table 7.3

## LE037A

SA Objective	Assessment Criteria - Does the site (LE037A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (LE037A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within the town centre of Leek, although it is also located on the settlement boundary. The redevelopment of this greenfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Given the town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. It should be noted that the site is in proximity to Leek First School. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is within 800m of a GP surgery and could have good access to the open countryside as the site is also on the edge of the settlement boundary. It could be considered that the development of this site could have a positive effect on health. It should be noted that the site is in proximity to Leek Moorlands Hospital. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (LE037A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 28 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and a GP surgery and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (LE037A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,000m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has broadleaved woodland, dense scrub and tall ruderal vegetation which are connected to semi-natural broadleaved woodland and running water habitats, which form an important potentially biodiverse mosaic as part of Ladydale SBI and therefore has been deemed to have ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as urban ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 150m of two grade II listed assets within the town centre of Leek. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration	-/?

SA Objective	Assessment Criteria - Does the site (LE037A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	of the setting of these historical heritage assets. It should be noted that the site is within 400m of Leek Conservation Area which has been placed on the Heritage at Risk register by Historic England. Overall, the site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (LE037A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is in proximity to existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 28 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. The site is also accessible to existing services and facilities which is likely to have a positive effect. However, the development of greenfield land is assessed as having a negative effect, as could the site's proximity to historic assets and the ecological importance of the site.			

Table 7.4

## LE045

SA Objective	Assessment Criteria - Does the site(LE045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	This site is within the existing village boundary of Leek but not within the Draft New Town Boundary for Leek. There is scope, due to the size of this site, that it could enable the enhancement of existing facilities and services within the town and also improve the social and environmental quality of the neighbourhood. Overall, this site has been assessed as having a neutral effect on this Objective.	0
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located on the edge of the settlement boundary and it is within 800m of the town centre and the wide range of key services and facilities that can be found here that would serve prospective residents	+

SA Objective	Assessment Criteria - Does the site(LE045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	of the site. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and adjacent to an area of designated open space and help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 50 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and a GP surgery and adjacent to the open countryside this should reduce the need to travel within the town. However, the site is relatively inaccessible at present, although the sites is linked to a number of other sites which could provide access. Overall, this site has been assessed as having a neutral effect on this Objective.	0
ENVIRONMENTAL			

SA Objective	Assessment Criteria - Does the site(LE045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site borders Brough Park Fields (LNR), a County Site of Biological Interest for its grassland areas. It could be considered that the development of this site could lead to short-term disturbances of this habitat and possibly long term also. This could therefore have an adverse effect on the District's Green infrastructure network. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site(LE045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is in proximity to one grade II listed assets and within 400m of a further grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. It should be noted that the site is within 400m of Dieu La Cres Abbey which has been placed on the Heritage at Risk register by Historic England. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration although its location adjacent to Brough Park Fields (LNR)	0

SA Objective	Assessment Criteria - Does the site(LE045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		could detract from this. Overall, this site has been assessed as having a neutral effect on this Objective.	
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 50 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment and services and facilities within the town. However, the site's proximity to a designated asset is likely to have a significant negative effect. The development of greenfield land, grade 4 ALC is assessed as having a negative effect, as could the site's proximity to historic assets.			

Table 7.5

## LE057

	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site(LE057)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located outside of both the existing village boundary and also the draft new town boundary for Leek. The development of greenfield land adjacent to the open countryside has the scope to reduce the quality of Green Infrastructure of the Town. Overall, this site has been assessed as having a neutral effect on this Objective.	0
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Although the site is outside of the settlement boundary for Leek, it can be considered that the site would be in proximity to a wide range of key services and facilities within Leek town centre. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is within 800m of a GP surgery and could have good access to the open countryside as the site is located in the open countryside. It could be considered that the development of this site could have a positive effect on health. It should be noted that the site is in proximity to Leek Moorlands Hospital. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE057)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 105 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and 1,200m from a GP surgery and near to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a s positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site(LE057)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,000m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has fairly low biodiversity value overall with potential for supporting breeding birds, foraging bats and badger, but does form an important part of Ladydale SBI and therefore is attributed ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most versatile land. 	<ul style="list-style-type: none"> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>		
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 105 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment and services and facilities within the town. However, the development of greenfield land, grade 4 ALC is assessed as having a negative effect, as could the site's proximity to historic assets and the ecological importance of the site given the proximity to Ladydale SBI.			

Table 7.6

## LE061

SA Objective	Assessment Criteria - Does the site(LE061)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	As the site is located on the edge of the town centre of Leek it could be considered that the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	Given the edge of town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site(LE061)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>		
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is within 800m of a GP surgery but has relatively poor good access to the open countryside and areas of open space. It could be considered that the development of this site for could have a positive effect on health. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 16 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and a GP surgery and near to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site(LE061)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 500m of Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could possibly have an effect on this site, however these could be limited. The Ecological Study (2015) notes that the site has low biodiversity value overall, is set within an urban environment with little connectivity to the wider countryside which lowers the biodiversity of the area considerably, so therefore is considered to have low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	The site has been assessed as being a brownfield site, similarly it is classified as urban ALC land. As such, the development of this site could avoid the loss of best and most versatile agricultural land. Overall,	++

SA Objective	Assessment Criteria - Does the site(LE061)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	this site has been assessed as having a significant positive effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of four grade II listed assets and within 100m of 20 grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. It should be noted that the site is within 400m of Leek Conservation Area which has been placed on the Heritage at Risk register by Historic England. Overall, the site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural	+

SA Objective	Assessment Criteria - Does the site(LE061)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The site's proximity to existing areas of employment and services and facilities within the town is assessed as having a significant positive effect, as could the development of brownfield, urban ALC land. The proposed delivery of circa 16 houses is considered to have a positive effect. However, the site's proximity to historic assets is assessed as being a negative effect.			

Table 7.7

## LE063

SA Objective	Assessment Criteria - Does the site(LE063)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site(LE063)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	As the site is located within the town centre of Leek it could be considered that the redevelopment of this mixed greenfield and brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Given the town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. It should be noted that the site is in proximity to Leek First School. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is within 800m of a GP surgery and could have good access to the open countryside as the site is in proximity to the settlement boundary and the open countryside. It could be considered that the development of this site for could have a positive effect on health. It should be noted that the site is in proximity to Leek Moorlands Hospital. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE063)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 30 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	The town centre location of this site means that it is within 500m of a number of bus stops as well as a range of other key services and facilities. However, there is scope that the site could increase the need to travel by less sustainable forms of transport, however this is uncertain. Overall, the site has been assessed as having a positive effect on this objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site(LE063)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,000m of Brough Park Fields (LNR), the nearest designated asset. It could be considered that development of this site could possibly have an effect on this site, however these could be limited. The Ecological Study (2015) notes that the site itself has buildings with bat potential, broadleaved woodland, dense scrub and tall ruderal vegetation which are connected to semi-natural broadleaved woodland and running water habitats, which form an important potentially biodiverse mosaic culminating in the site being attributed regional ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield and brownfield land. However the land has also been assessed as urban ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	0
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 150m of two grade II listed assets within the town centre of Leek. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration	-/?

SA Objective	Assessment Criteria - Does the site(LE063)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	of the setting of these historical heritage assets. It should be noted that the site is within 400m of Leek Conservation Area which has been placed on the Heritage at Risk register by Historic England. Overall, the site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site(LE063)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 30 dwellings is considered to have a significant positive effect, as could the site's proximity to services, facilities and existing areas of employment. However, the site's proximity to historic assets and ecological importance of the site is likely to have a negative effect.			

Table 7.8

## LE064

SA Objective	Assessment Criteria - Does the site(LE064) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within the settlement boundary, albeit on the north west edge. The development of this greenfield site adjacent to the open countryside has the scope to reduce the quality of Green Infrastructure of the Town. Overall, this site has been assessed as having a neutral effect on this Objective.	0
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	Whilst the site is located on the edge of the settlement boundary, it is still within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE064) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>		
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. However, the site is in excess of 1,200m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 11 dwellings and could not significantly contribute to housing in the District. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and adjacent to the open countryside this should reduce the need to travel within the town. Similarly, the site is near to the A523 which has a number of bus stops and services serving it. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site(LE064) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within flood zone 2 and an area which highlights that communities are at risk from fluvial flooding as noted in the SFRA. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a negative effect on this objective.	-
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 750m from Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could possibly have an effect on this site, however these could be limited. The Ecological Study (2015) notes that the site has fairly low biodiversity overall, with fairly poor connectivity to more biodiverse habitats therefore is attributed low ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as urban ALC land so development of this site could not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site(LE064) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of three grade II listed assets and a scheduled monument, Brindley's Mill. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE064) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The site's proximity to existing areas of employment is considered to be a significant positive effect. Similarly, the site has good accessibility to services and facilities which is likely to have a positive effect. However, the site is located within flood zone 2 which is assessed as being a negative effect. The development of greenfield land is likely to have a negative effect, as could the site's proximity to historic assets and a Local Nature Reserve.			

Table 7.9

## LE070

SA Objective	Assessment Criteria - Does the site(LE070) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			

SA Objective	Assessment Criteria - Does the site(LE070)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	As the site is located within the town settlement boundary of Leek it could be considered that the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located toward the edge of town, it is still within 800m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the nearby open space and countryside which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 22 dwellings, and therefore also	++

SA Objective	Assessment Criteria - Does the site(LE070)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and a GP surgery and near to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site(LE070)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 800m away from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall and is deemed to have low ecological importance overall while being set within an urban environment with little connectivity to the wider countryside. The site is attributed district ecological importance as there is potential for buildings and a tree to support roosting bats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site has been assessed as being a brownfield site, similarly it is classified as urban ALC land. As such, the development of this site could avoid the loss of best and most versatile agricultural land. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical	-/?

archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site(LE070)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 22 dwellings is considered to have a significant positive effect, as could the development of urban ALC brownfield land, the site's proximity to services, facilities and existing areas of employment. However, the site's proximity to historic assets and the ecological importance of the site is assessed as a negative effect.			

Table 7.10

## LE076

SA Objective	Assessment Criteria - Does the site(LE076)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	This site is within the existing village boundary of Leek but not within the Draft New Town Boundary for Leek. There is scope, due to the size of this site, that it could enable the enhancement of existing facilities and services within the town and also improve the social and environmental quality of the neighbourhood. Overall, this site has been assessed as having a neutral effect on this Objective.	0
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	The site is located on the edge of the settlement boundary, it is still within 800m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site(LE076)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>		
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and adjacent to an area of open space should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 50 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and a GP surgery and adjacent to the open countryside this should reduce the need to travel within the town. However, the site is relatively inaccessible at present, although access could be provided through other allocated sites. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site(LE076)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 250m of Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have an effect on this asset, at least a short term disturbance of this habitat, if not long term. The Ecological Study (2015) notes that the site has potential for numerous protected species to be present due to the intricate habitat mosaic present on site. The site is also well connected to more biodiverse habitats and the wider countryside. Moreover the site is part of Ball Haye Green Disused Tip SBI and therefore is attributed regional ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site(LE076)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE076)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration although its location near to Brough Park Fields (LNR) could detract from this. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 50 dwellings is considered to have a significant positive effect, as could the site's proximity to services, facilities and existing areas of employment. However, the site's proximity to a designated asset is likely to have a significant negative effect. The development of greenfield land, grade 4 ALC is assessed as being a negative effect, as could the site's proximity to a Local Nature Reserve and the ecological importance of the site.			

Table 7.11

## LE091

SA Objective	Assessment Criteria - Does the site(LE091)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	This site is within the existing village boundary of Leek but not within the Draft New Town Boundary for Leek. There is scope, due to the size of this site, that it could enable the enhancement of existing facilities and services within the town and also improve the social and environmental quality of the neighbourhood. Overall, this site has been assessed as having a neutral effect on this Objective.	0
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the settlement boundary and is within 800m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and adjacent to an area of open space should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE091)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 150 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and a GP surgery and adjacent to the open countryside this should reduce the need to travel within the town. However, the site is relatively inaccessible at present, although access could be provided through other allocated sites. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site(LE091)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 100m of Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have an effect on this asset, at least a short term disturbance of this habitat, if not long term. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 50m of one grade II listed assets and 400m of a further three grade II listed assets and a scheduled monument. Dependent on proposal specific information, there is scope that development of	--/?

SA Objective	Assessment Criteria - Does the site(LE091)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	this site could lead to the deterioration of these historical heritage assets. It should be noted that the site is within 400m of Dieu La Cres Abbey which has been placed on the Heritage at Risk register by Historic England. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration although its location near to Brough Park Fields (LNR) could detract from this. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site(LE091)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 150 dwellings is considered to have a significant positive effect, as could the site's proximity to services, facilities and existing areas of employment. However, the site's proximity to designated and historic assets is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as being a negative effect.			

Table 7.12

## LE106

SA Objective	Assessment Criteria - Does the site(LE106)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the edge of the town centre of Leek it could be considered that the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	Given the edge of town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. It should be noted that the site is in proximity to the Leek Campus of Buxton and Leek College. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site(LE106)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>		
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. However, the site is in excess of 1,200m of a GP surgery and is in proximity to one of the most deprived LSOAs in the District, Leek North, which is in the 20% most deprived nationally. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 16 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek, within 1,200m of a GP surgery and adjacent to the open countryside this should reduce the need to travel within the town. Similarly, the site is located off of the A523 which has a number of bus stops and services serving it. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE106)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,500m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of the species poor grassland area but has some fairly biodiverse areas connected by hedgerows to the south and north. Therefore the site is deemed to have low ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site(LE106)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site(LE106)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The site's proximity to services, facilities and existing areas of employment is assessed as a significant positive effect. However, the development of greenfield land, grade 4 ALC is assessed as being a negative effect. As could the site's proximity to historic assets and a Local Nature Reserve.			

Table 7.13

## LE147

SA Objective	Assessment Criteria - Does the site(LE147)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	This site is within the settlement boundary of Leek, albeit on the edge. There is scope, due to the size of this site, that it could enable the enhancement of existing facilities and services within the town and also improve the social and environmental quality of the neighbourhood. Overall, this site has been assessed as having a neutral effect on this Objective.	0
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the settlement boundary and is within 800m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and adjacent to an area of open space should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE147)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 25 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and a GP surgery and adjacent to the open countryside this should reduce the need to travel within the town. However, the site has limited access to the transport network at present. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site(LE147)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,000m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. The Ecological Study (2015) notes that the site is very significantly and completely within Ladydale SBI. It has potential protected species present due to the intricate habitat mosaic present on the site and it is well connected to more biodiverse habitats and the wider countryside. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site has been assessed as being a greenfield site. However, the land has also been assessed as grade 4 ALC land so development of this site could note result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, the site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site(LE147)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 100m of three grade II listed assets, including the Lady O'Th'Dale on the southern edge of the site. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. It should be noted that the site is within 400m of Leek Conservation Area which has been placed on the Heritage at Risk register by Historic England. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration although its location adjacent to the open countryside could detract from this. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE147)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 25 dwellings is considered to have a significant positive effect, as could the site's proximity existing areas of employment. Similarly, the site is accessible to services and facilities which is likely to have a positive effect. However, the site's proximity to designated and historic assets is likely to have a significant negative effect. Similarly, the development of greenfield land, grade 4 ALC is assessed as being a negative effect.

## LE243

SA Objective	Assessment Criteria - Does the site(LE243)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site(LE243)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	This site is within the settlement boundary of Leek, albeit on the northern edge. There is scope, due to the size of this site, that it could enable the enhancement of existing facilities and services within the town and also improve the social and environmental quality of the neighbourhood. Overall, this site has been assessed as having a neutral effect on this Objective.	0
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the settlement boundary and is within 800m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and adjacent to an area of open space should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE243)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 70 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and a GP surgery and adjacent to the open countryside this should reduce the need to travel within the town. However, the site has limited access at present. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site(LE243)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 300m of Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have an effect on this asset, at least a short term disturbance of this habitat, if not long term. The Ecological Study (2015) notes that the site is considered to have low ecological importance overall, however as the site is adjacent to Ball Haye Green Disused Tip SBI, there is potential to support reptile populations within refugia to the north of the site. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site has been assessed as being a brownfield site, similarly it is classified as urban ALC land. As such, the development of this site could avoid the loss of best and most versatile agricultural land. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 50m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?

	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration although its location near to Brough Park Fields (LNR) could detract from this. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site(LE243)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>		
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 70 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. Similarly, the site has good accessibility to services and facilities which is likely to have a positive effect, as could the development of urban ALC brownfield land. However, the site's proximity to historic assets could have a negative effect. The site's proximity to a Local Nature Reserve is also assessed as being a negative effect.			

Table 7.15

## LE249

SA Objective	Assessment Criteria - Does the site(LE249)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	As the site is located within the town settlement boundary of Leek it could be considered that the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	The site is located on the edge of the settlement boundary and is more than 2,000m away from the town centre which could result in existing services and facilities being inaccessible and the needs of prospective residents not being addressed. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site(LE249)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>		
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. However, the site is in excess of 1,200m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 35 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is further than 2,000m of the town centre of Leek, which could be expected to increase the need to travel within the town. However, it is adjacent to the open countryside. Similarly, the site is near to the A523 which has a number of bus stops and services serving it. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site(LE249)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 2,000m of the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within flood zone 3 and an area which highlights that communities are at risk from fluvial flooding as noted in the SFRA. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site borders Ladderedge Country Park (LNR), an area of unimproved grassland meadows which supports a variety of habitats and vegetation communities. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This could therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site has very low biodiversity value overall, however as the site is adjacent to Ladderedge Country Park the site's edge habitats and hence the site as a whole are considered to have some ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site(LE249)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on brownfield land. However the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a positive effect on this Objective.	+
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is close to, if not bordering, a grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of this historical heritage assets and its setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site(LE249)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration although its location adjacent to Ladderedge Country Park (LNR) could detract from this. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Leek and the wider District, however the Leek town centre is not easily accessible from the site which may reduce the effect on this objective. Overall, this has been assessed as having a neutral effect on this Objective.	0
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District, notably Barnfields Industrial Park, and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 35 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. However, the site is within flood zone 3 which is likely to have a significant negative effect, as could its proximity to historic assets. Similarly, the proximity to a Local Nature Reserve is assessed as being negative effects, as could the inaccessibility of services and facilities.			

Table 7.16

## LE259

SA Objective	Assessment Criteria - Does the site(LE259)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light</li> </ul>	This site is within the existing village boundary of Leek but not within the Draft New Town Boundary for Leek. There is scope, due to the size of this site, that it could enable the enhancement of existing facilities and services within the town and also improve the social and environmental quality of the neighbourhood. Overall, this site has been assessed as having a neutral effect on this Objective.	0
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● <del>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</del></li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the settlement boundary and is within 800m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and adjacent to an area of open space should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help	+

SA Objective	Assessment Criteria - Does the site(LE259)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 50 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and a GP surgery and adjacent to the open countryside this should reduce the need to travel within the town. However, the site is relatively inaccessible at present, although access could be provided through other allocated sites. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate	+

SA Objective	Assessment Criteria - Does the site(LE259)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 100m of Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have an effect on this asset, at least a short term disturbance of this habitat, if not long term. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 50m of one grade II listed asset and 400m of a further three grade II listed assets and a scheduled monument. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a	--/?

SA Objective	Assessment Criteria - Does the site(LE259)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?	significant negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration although its location near to Brough Park Fields (LNR) could detract from this. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site(LE259)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>		
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 50 dwellings is considered to have a significant positive effect, as could the site's proximity to services, facilities and existing areas of employment. However, the proximity to historic assets and a LNR are assessed as being significant negative effects. The development of greenfield land, grade 4 ALC land is assessed as being a negative effect.			

**Table 7.17**

## 7.1.1 Other uses

### LE073

SA Objective	Assessment Criteria - Does the site(LE073)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	As the site is located within the town centre of Leek it could be considered that the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Given the town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is within 800m of a GP surgery and a number of areas of open space within the town. The development of this site for employment purposes should also have a positive effect on health. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE073)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and a GP surgery and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site(LE073)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 500m away from Brough Park Fields (LNR) and, as such, is considered to have no effect on this asset. The redevelopment of this site, a brownfield site, could be expected to have an effect on biodiversity in the short term, however there could be no long term effects. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site has been assessed as being a brownfield site, similarly it is classified as urban ALC land. As such, the development of this site could avoid the loss of best and most versatile agricultural land. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of one grade II* listed asset and 12 grade II listed assets. It could be considered that the development of this site could affect the setting of these assets. It should be noted that the site	-/?

SA Objective	Assessment Criteria - Does the site(LE073)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	is within 400m of Leek Conservation Area which has been placed on the Heritage at Risk register by Historic England. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact upon the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	Given the proposed employment use of this site and its location, there is scope that the site could support opportunities for investment in culture and tourism and should have a positive effect on the local economy. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Leek and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Leek as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site(LE073)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents as well as new employment provision on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the accessibility of other services and facilities is likely to have a significant positive effect, as could the development of brownfield, urban ALC land. However, the proximity to historic assets and a Local Nature Reserve are assessed as being negative effects.			

Table 7.18

## LE014 &amp; LE015

SA Objective	Assessment Criteria - Does the site(LE014 & LE015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	It can be considered that this site may have a positive effect on the District's GI network given the adjacent area of Open Space and the mixed brownfield and greenfield nature of the site at present. Overall, the site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site could be in proximity to a number of key facilities and services located within Leek town centre which could provide for any prospective residents. Similar, the mixed use nature of the site may also provide	++

SA Objective	Assessment Criteria - Does the site(LE014 & LE015),...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	new services and facilities on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is within 1,200m of a GP Surgery and adjacent to an area of open space. This should support healthy lifestyles and well-being for residents and support recreational activity and access to such facilities. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 30 dwellings, and therefore also provide a quantum of affordable housing on site. It is acknowledged that the site is proposed as mixed use which may reduce the quantum of housing delivered by this site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek, within 1,200m of a GP surgery and adjacent to an area of open space this should reduce the need to travel within the town. Similarly, the site is located off of Newcastle Road which has a number of bus stops and services. Overall, this site has been assessed as having a positive effect on this Objective.	+
ENVIRONMENTAL			

SA Objective	Assessment Criteria - Does the site(LE014 & LE015),...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 750m away from Ladderedge Country Park (LNR) and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that although habitats on site are fairly species poor, there is a range of vegetation structure which could support reptile populations and provide habitat for foraging bats and owls and breeding birds. Biodiversity is likely to be accentuated by the adjacent similar habitat to the west and connective hedgerows; therefore the site is deemed to have ecological importance. As noted, the site is adjacent to an area of open space. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site(LE014 & LE015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being both brownfield and greenfield land. As such, the effect of development of this site against this objective would be mixed. Overall, the site has been assessed as having a neutral effect on this objective.	0
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of a brownfield and greenfield, urban ALC site could have a mixed effect on this objective due to the loss of existing buildings but also the scope for use of sustainable materials. Overall, this objective has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	There are no heritage assets within 400m of the site. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. It should be noted that the site is within 400m of Leek Conservation Area which has been placed on the Heritage at Risk register by Historic England. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on the landscape character. Proposal specific information is required to assess the impact upon the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE014 & LE015),...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	Given the proposed employment use of this site and its location, there is scope that the site could support opportunities for investment in culture and tourism and should have a positive effect on the local economy. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Leek and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Leek as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents as well as new employment provision on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the accessibility of other services and facilities is likely to have a significant positive effect, as could the proposed delivery of circa 30 dwellings.			

Table 7.19

## LE067

SA Objective	Assessment Criteria - Does the site(LE067)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	As the site is located on the edge of the town centre of Leek it could be considered that the redevelopment of this mixed brownfield and greenfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Regardless of the edge of town centre location of this site, it can be considered that the site would be in relatively proximity to a wide range of key services and facilities. It should be noted that the site is in proximity to Leek High Specialist Technology School and Leek First School. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is within 800m of a GP surgery and a number of areas of open space within the town. The mixed use development of this should also have a positive effect on health, as could the nearby open space area to the east of the site. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site(LE067)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 30 dwellings, and therefore also provide a quantum of affordable housing on site. It is acknowledged that the site is proposed as mixed use which may reduce the quantum of housing delivered by this site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	The town centre location of this site means that it is within 500m of a number of bus stops as well as a range of other services and facilities. It could be considered that The site could have a positive effect on walking and cycling given the proximity of open space to the site. Overall, the site has been assessed as having a positive effect on this objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?

SA Objective	Assessment Criteria - Does the site(LE067)...?	Commentary on likely nature of effects of site allocation	Overall assessment
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> <li>● Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>● Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>● Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 750m away from Brough Park Fields (LNR) and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall, though as there is 1 building present on site that could potentially support roosting bats the site is afforded ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being both brownfield and greenfield land. As such, the effect of development of this site against this objective would be mixed. Overall, the site has been assessed as having a neutral effect on this objective.	0
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of a brownfield and greenfield site could have a mixed effect on this objective due to the loss of existing buildings but also the scope for use of sustainable materials. Overall, this objective has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site(LE067)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II* listed asset and seven grade II listed assets. It is considered that the development of this site could affect the setting of these assets. It should be noted that the site is within 400m of Leek Conservation Area which has been placed on the Heritage at Risk register by Historic England. Overall, this site has been assessed as having a negative effect on this Objective with scope, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact upon the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	Given the proposed employment use of this site and its location, there is scope that the site could support opportunities for investment in culture and tourism and should have a positive effect on the local economy. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Leek and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Leek as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site(LE067)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents as well as new employment provision on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>

**LE080, LE085, LE086 & LE252**

SA Objective	Assessment Criteria - Does the site(LE080, LE085, LE086 & LE252)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	As the site is located within the town centre of Leek it could be considered that the redevelopment of this brownfield and greenfield site could help to improve the social and environmental quality of the town centre, especially given the mixed use nature of proposed development. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	Given the town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. It should be noted that the site is in proximity to Leek First	++

SA Objective	Assessment Criteria - Does the site(LE080, LE085, LE086 & LE252)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	School. Overall, this site has been assessed as having a significant positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is within 800m of a GP surgery, however there is limited access to nearby areas of open space within the town. The development of this site for both employment and residential purposes should also have a positive effect on health. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 25 dwellings and could not contribute to the housing need of the District. It is acknowledged that the site is proposed as mixed use which may reduce the quantum of housing delivered by this site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	The town centre location of this site means that it is within 500m of a number of bus stops as well as a range of other services and facilities. As noted previously, it does have good access to a wide range of services and facilities within the town centre. Overall, the site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site(LE080, LE085, LE086 & LE252)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 500m away from Brough Park Fields (LNR) and, as such, is considered to have no effect on this asset. The redevelopment of the brownfield aspect of site could be expected to have an effect on biodiversity in the short term, however there could be no long term effects. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall with the main interest focused on the potential for the 6 buildings to support roosting bats, therefore the site is given ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed	-/?

SA Objective	Assessment Criteria - Does the site(LE080, LE085, LE086 & LE252)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		as having a negative effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being both brownfield and greenfield land, similarly it is urban ALC. As such, the effect of development of this site against this objective would be mixed. Overall, the site has been assessed as having a neutral effect on this objective.	0
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of a brownfield and greenfield site could have a mixed effect on this objective due to the loss of existing buildings but also the scope for use of sustainable materials. Overall, this objective has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	This site includes two grade II listed buildings, London Mill and Cross Street Mills. Although dependent on specific proposal information, there is scope that development of this site could lead to the deterioration of cultural and historic heritage assets and their settings. It should be noted that the site is within 400m of Leek Conservation Area which has been placed on the Heritage at Risk register by Historic England. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact upon the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE080, LE085, LE086 & LE252)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	Given the proposed employment use of this site and its location, there is scope that the site could support opportunities for investment in culture and tourism and should have a positive effect on the local economy. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Leek and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Leek as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents as well as new employment provision on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the accessibility of other services and facilities is likely to have a significant positive effect, as could the proposed delivery of circa 25 dwellings. However, the site includes two listed buildings which is likely to have a significant negative effect. The proximity of the site to a Local Nature Reserve which is likely to have a negative effect.

The	+

SA Objective	Assessment Criteria - Does the site(LE16)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 750m away from Brough Park Fields (LNR) and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall and is set within an urban environment which only has scattered trees as a habitat with no connectivity to the wider countryside which lowers the biodiversity potential of the area considerably. However, the presence of two buildings and two trees with potential to support roosting bats warrants the site being attributed ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site has been assessed as being a brownfield site, similarly it is classified as urban ALC land. As such, the development of this site could avoid the loss of best and most versatile agricultural land. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE16)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of three scheduled ancient monuments, one grade I listed asset, one grade II* listed asset and seventy seven grade II listed assets. It is considered that the development of this site could affect the setting of these assets. It should be noted that the site is within 400m of Leek Conservation Area which has been placed on the Heritage at Risk register by Historic England. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact upon the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	Given the proposed employment use of this site and its location, there is scope that the site could support opportunities for investment in culture and tourism and should have a positive effect on the local economy. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Leek and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Leek as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site(LE116)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District, notably Barnfields Industrial Estate, and, as such, could provide sufficient accessible employment opportunities for prospective residents as well as new employment provision on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the accessibility of other services and facilities is likely to have a significant positive effect, as could the proposed delivery of circa 21 dwellings and development of brownfield, urban ALC land. However, the site is in proximity to historic assets and a Local Nature Reserve which is likely to have a negative effect, as could the district ecological importance of the site.			

Table 7.22

## LE150

SA Objective	Assessment Criteria - Does the site(LE150)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the edge of the town boundary in the southern side of Leek along the A520. It is considered that given the size of the site, there is scope that, through developer contributions, development of the site could lead to an enhancement of existing, and possibly new, facilities and services. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by</li> </ul>	The out of town location of this site means that the key services and facilities could be more than 800m away from the site. However, there	+

SA Objective	Assessment Criteria - Does the site(LE150)...?	Commentary on likely nature of effects of site allocation	Overall assessment
persons and eliminate social exclusion by improving access to jobs, services and facilities.	<p>people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</p> <ul style="list-style-type: none"> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	is scope that, due to the size of The site, some services and facilities may be provided on site. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is within 1,200m of a GP surgery has good access to open space and is adjacent to woodland and the open countryside. This is expected to support healthy lifestyles within the District and especially for those residents and workers on the site. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 120 dwellings, and therefore also provide a quantum of affordable housing on site. It is acknowledged that the site is proposed as mixed use which may reduce the quantum of housing delivered by this site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	The out of town centre location of this site means that access to sustainable forms of transport are limited, however there are bus stops nearby on the A520. The site is in proximity to a public right of way to the east of the site which should encourage walking and cycling within the District by workers and residents of the site. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site(LE150)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,250m from Ladderedge County Park (LNR) and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area but has had badger field signs recorded in one area, and is adjacent to a large area of semi-natural broadleaved woodland, Ladydale SBI and rough grassland to the south. Therefore the site is given ecological value as the site abuts Ladydale SBI / Ballington Wood. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site(LE150)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site could result in the loss of greenfield land through development of the site. Similarly, the land is classified as grade 3 ALC land so it could result in the loss of the best and most versatile agricultural land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	Whilst this site could not result in the re-use of existing buildings, there is scope that development could use sustainable materials but also increase demand for local resources. Overall, this site has been assessed as having a neutral effect upon this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of five grade II listed assets. Development of the site has the scope to lead to the deterioration of these assets, although this is uncertain until proposal specific information is available. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, the greenfield nature of the site and how it borders natural woodland and open country side on its west side, there is scope that development of this site could have an adverse effect on landscape character. Proposal specific information is required to assess the impact upon the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site(LE150)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	Given the proposed employment use of this site and its location, there is scope that the site could support opportunities for investment in culture and tourism and should have a positive effect on the local economy. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The scale of development proposed by this site, circa 120 dwellings on a mixed use site, has the scope to significantly enhance the vitality and viability of the District's towns, notably Leek. This should also help to safeguard and improve shops and services. Overall, this site has been assessed as having a significant positive effect upon this Objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	As noted previously, given the scale of this site the scale of economic development through construction and also employment uses thereafter have the scope to encourage investment in businesses, people and infrastructure (through developer contributions) which could be expected to have a significant positive impact upon the local economy. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents as well as new employment provision on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the proposed delivery of circa 120 is likely to have a significant positive effect. However, the development of greenfield, grade 3 ALC land is likely to have a significant negative effect. The site's proximity to historic assets and district ecological importance is likely to have a significant negative effect.			

Table 7.23

## LE219

SA Objective	Assessment Criteria - Does the site(LE219)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	As the site is located on the edge of the town centre of Leek it could be considered that the redevelopment of this mixed brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Given the edge of town centre location of this site, it can be considered that the site would be in relatively proximity to a wide range of key services and facilities. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is within 800m of a GP surgery and a number of areas of open space within the town. The mixed use development of this should also have a positive effect on health, as would the nearby open space area to the east of the site. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help	+

SA Objective	Assessment Criteria - Does the site(LE219)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 10 dwellings and could not contribute to the housing need of the District. It is acknowledged that the site is proposed as mixed use which may reduce the quantum of housing delivered by this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	The town centre location of this site means that it is within 500m of a number of bus stops as well as a range of other services and facilities. It could be considered that The site could have a positive effect on walking and cycling given the proximity of open space to the site. Overall, the site has been assessed as having a positive effect on this objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate	+

	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 500m away from Brough Park Fields (LNR) and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has very low biodiversity value overall with extremely poor connectivity to the wider countryside, is set within an urban environment and only has one tree and species poor amenity grassland with no connectivity to the wider countryside. However, the tree and building have some potential to support roosting bats therefore the site is attributed ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site has been assessed as being a brownfield site, similarly it is classified as urban ALC land. As such, the development of this site could avoid the loss of best and most versatile agricultural land. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of one grade II* listed asset and 10 grade II listed assets. It is considered that the development of this site could affect the setting of these assets. It should be noted that the site is	-/?

SA Objective	Assessment Criteria - Does the site(LE219)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	within 400m of Leek Conservation Area which has been placed on the Heritage at Risk register by Historic England. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact upon the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	Given the proposed employment use of this site and its location, there is scope that the site could support opportunities for investment in culture and tourism and should have a positive effect on the local economy. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Leek and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Leek as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site(LE219)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents as well as new employment provision on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the development of brownfield, urban ALC land is likely to have a significant positive effect. However, the site's proximity to historic assets and some ecological importance is likely to have a negative effect.			

Table 7.24

## LE220

SA Objective	Assessment Criteria - Does the site(LE220)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	As the site is located on the edge of the town centre of Leek it could be considered that the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	Given the edge of town centre location of this site, the site would be in relatively proximity to a wide range of key services and facilities. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site(LE220)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>		
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is within 800m of a GP surgery, however there is limited access to nearby areas of open space within the town. The development of this site for both employment and residential purposes should also have a positive effect on health. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 10 dwellings and could not significantly contribute to housing need in the District. It is acknowledged that the site is proposed as mixed use which may reduce the quantum of housing delivered by this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	The town centre location of this site means that it is within 500m of a number of bus stops as well as a range of other services and facilities. As noted previously, it does have good access to a wide range of services and facilities within the town centre. Overall, the site has been assessed as having a positive effect on this objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site(LE220)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 500m Brough Park Fields (LNR) and, as such, there is scope that this site could have an effect upon its setting, albeit limited. The Ecological Study (2015) notes that the site has very low biodiversity value overall with extremely poor connectivity to the wider countryside and is set within an urban environment with no vegetative habitats present on site. The site is however afforded ecological importance due to potential for the building to support roosting bats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	The site has been assessed as being a brownfield site, similarly it is classified as urban ALC land. As such, the development of this site	++

SA Objective	Assessment Criteria - Does the site(LE220)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	could avoid the loss of best and most versatile agricultural land. Overall, this site has been assessed as having a significant positive effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of two grade II listed assets and within 400m of four scheduled ancient monuments. The site is in proximity to a number of listed buildings including one grade II* listed building and fifty four grade II listed buildings. The Big Mill and the Front Boundary Wall of The Big. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the historical heritage assets and its setting. It should be noted that the site is within 400m of Leek Conservation Area which has been placed on the Heritage at Risk register by Historic England. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact upon the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE220)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	Given the proposed employment use of this site and its location, there is scope that the site could support opportunities for investment in culture and tourism and should have a positive effect on the local economy. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Leek and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Leek as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents as well as new employment provision on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site has good accessibility to services and facilities and the development of brownfield, urban ALC land is likely to have a significant positive effect. However, the site's proximity to historic assets is likely to have a significant negative effect. The site's proximity to ecological importance is likely to have a negative effect.			

Table 7.25

## Cornhill

SA Objective	Assessment Criteria - Does the site (Cornhill)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	As the site is located on the edge of the town centre of Leek it could be considered that the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The out of town location of this site means that the key services and facilities could be more than 800m away from the site. However, there is scope that, due to the size of the site, some services and facilities may be provided on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is within 1,200m of a GP Surgery and adjacent to an area of open space. This should support healthy lifestyles and well-being for residents and support recreational activity and access to such facilities. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (Corrhill)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the Cornhill Concept Plan within the Churnet Valley Masterplan SPD, it is considered that the site could accommodate circa 244 dwellings and could not significantly contribute to housing need in the District. It is acknowledged that the site is proposed as mixed use which may reduce the quantum of housing delivered by this site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	Given the edge of town location of this site, it is within 500m of a number of bus stops as well as a range of other services and facilities. As noted previously, it does have good access to a wide range of services and facilities within the town centre. Overall, the site has been assessed as having a positive effect on this objective.	++
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	Part of the site is located within flood zone 3 and an area which highlights that communities are at risk from fluvial flooding as noted in the SFRA. The development of this could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--

SA Objective	Assessment Criteria - Does the site (Corrhill)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 250m from Ladderedge Country Park (LNR) and, as such, there is scope that this site could have an effect upon its setting. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on brownfield land. However, the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a positive effect on this Objective.	+
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and</li> </ul>	The site is within 50m from one grade II listed asset and within 400m from six grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (Corthill)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could within 250m from Ladderedge Country Park (LNR) and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact upon the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	Given the proposed employment use of this site and its location, there is scope that the site could support opportunities for investment in culture and tourism and should have a positive effect on the local economy. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a mixed use site on the edge of the town centre has the scope to have a positive effect on the vitality and viability of Leek and the wider District, as new employment and residents could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed mixed use of the site could be considered to have a positive effect on businesses and the residents of Leek as it could strengthen and diversify the economy. Overall, this has been assessed as having a positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents as well as new	++

SA Objective	Assessment Criteria - Does the site (Corhhill)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	employment provision on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
<p><b>Summary of overall assessment and likely significant effects:</b></p> <p>The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the proposed delivery of circa 244 dwellings is considered to have a significant positive effect. The site's accessibility to services, facilities and open space is likely to have a positive effect. However, the site is located within a flood zone which is likely to have a significant negative effect, as could its proximity to designated and historic assets.</p>			

Table 7.26

## 7.1.2 Sites outside current development boundary

### LE066

SA Objective	Assessment Criteria - Does the site(LE066)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is outside of the settlement boundary of Leek and separate from the town of Leek when considered independently, however other there could be linkages through other allocated sites. The development of this site, a mixed brownfield and greenfield site that is set within the open countryside could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is outside of the settlement boundary of Leek and is remote from the town. The site would be within 800m of a wide range of services and facilities but not within 400m of the town centre of Leek. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, outside the edge of the settlement boundary, should provide residents with good access to the open countryside and adjacent to an area of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through,	+

SA Objective	Assessment Criteria - Does the site(LE066)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 50 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and 1,200m of a GP surgery and within the open countryside which should reduce the need to travel within the town as the site is within 500m of a bus stop. However, the site has limited access to the transport network at present. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?

SA Objective	Assessment Criteria - Does the site(LE066)...?	Commentary on likely nature of effects of site allocation	Overall assessment
9. To reduce flood risk, protect and enhance water resources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> <li>● Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>● Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>● Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,250m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. The Ecological Study (2015) notes that the site consists mainly of common habitats, mixed planted woodland, buildings, amenity grassland and associated gardens, allotments and amenity grassland and the site is fairly isolated with little connectivity to the wider countryside, apart from being located 20m away from LE140. The woodland and habitat mosaic as well as the buildings that could potentially support roosting bats and therefore the whole site has been attributed ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on mixed greenfield and greenfield land. However the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	0
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> </ul>	The development of this mixed greenfield and brownfield site could enable the re-use of existing buildings within the town centre.	+

SA Objective	Assessment Criteria - Does the site(LE066)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m from a listed asset, the nearest asset is circa 450m away from the site to the north west. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration although its location adjacent to the open countryside could detract from this. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site(LE066)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, could fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. Similarly, the site is located away from historic assets and has good accessibility to services and facilities which is likely to have a positive effect. However, the ecological importance of the site is likely to have a negative effect as well as the inaccessibility of existing areas of employment.			

Table 7.27

## LE069

SA Objective	Assessment Criteria - Does the site(LE069)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site(LE069)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is outside of the settlement boundary of Leek and separate from the town of Leek when considered independently, however other there could be linkages through other allocated sites. The development of this site, a mixed brownfield and greenfield site that is set within the open countryside could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is outside of the settlement boundary of Leek. The site would be within 1,200m of a wide range of services and facilities but not within 400m of the town centre of Leek. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, outside the edge of the settlement boundary, should provide residents with good access to the open countryside and adjacent to an area of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. It should be noted that the site is in proximity to Leek Moorlands Hospital. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help	+

SA Objective	Assessment Criteria - Does the site(LE069)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 42 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Leek and a GP surgery and within the open countryside which should reduce the need to travel within the town as the site is within 500m of a bus stop. However, the site has limited access to the transport network at present. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m of the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate	+

SA Objective	Assessment Criteria - Does the site(LE069)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,250m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. The Ecological Study (2015) notes that the site is considered to have low overall ecological importance, with low potential to support protected species apart from roosting bats, with poor connectivity to more biodiverse habitats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on mixed greenfield and brownfield land. However the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	0
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this mixed greenfield and brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of four grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical	-/?

persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	existing services and facilities being inaccessible. Overall, this site has been assessed as having a neutral effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the border of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. However, the site is in excess of 1,200m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 20 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is further than 1,200m of the town centre of Leek, which could be expected to increase the need to travel within the town. However, it is adjacent to the open countryside. Similarly, the site is near to the A523 which has a number of bus stops and services serving it. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site(LE102)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m of the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. However, the SFRA indicates that it is in an area which suggests communities may be at risk from fluvial flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 750m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. The Ecological Study (2015) notes that the site itself has mostly low biodiversity value overall in terms of area as it consists solely of species poor improved grassland with adjacent semi-natural broadleaved woodland. The site is considered to have ecological importance due to the presence of tree with bat roosting potential and the adjacent broadleaved woodland. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site(LE102)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land, so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is adjacent to one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of this historical heritage asset and its setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site(LE102)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration although its location adjacent to the open countryside could detract from this. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Leek and the wider District, however the Leek town centre is not easily accessible from the site which may reduce the effect on this objective. Overall, this has been assessed as having a neutral effect on this Objective.	0
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, could fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. However, the development of greenfield, grade 3 ALC land could have a significant negative effect, as could the site's proximity to historic assets. Similarly, the site is relatively inaccessible to services, facilities and areas of existing employment, has some ecological value which is likely to have a negative effect.			

Table 7.29

## LE103

SA Objective	Assessment Criteria - Does the site(LE103)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is borders the settlement boundary of Leek. The development of this site, a greenfield site that is set within the open countryside could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site borders the settlement boundary of Leek. The site is more than 1,200m away from the town centre which could result in existing services and facilities being inaccessible. Overall, this site has been assessed as having a neutral effect on this Objective.	-
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the border of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. However, the site is in excess of 1,200m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site(LE103)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 20 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is further than 1,200m of the town centre of Leek, which could be expected to increase the need to travel within the town. However, it is adjacent to the open countryside. Similarly, the site is near to the A523 which has a number of bus stops and services serving it. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m of the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding.	+

SA Objective	Assessment Criteria - Does the site(LE103)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	However, the SFRA indicates that it is in an area which suggests communities may be at risk from fluvial flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 750m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land, so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of four grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical	-/?

SA Objective	Assessment Criteria - Does the site(LE103)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration although its location adjacent to the open countryside could detract from this. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Leek and the wider District, however the Leek town centre is not easily accessible from the site which may reduce the effect on this objective. Overall, this has been assessed as having a neutral effect on this Objective.	0
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site(LE103)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, could fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. However, the development of greenfield, grade 3 ALC land would have a significant negative effect. Similarly, the site is relatively inaccessible to services, facilities and areas of existing employment and is adjacent to a listed building all of which is likely to have a negative effect.			

Table 7.30

## LE127

SA Objective	Assessment Criteria - Does the site (LE127)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is outside of the settlement boundary of Leek and separate from the town of Leek when considered independently, however other there could be linkages through other allocated sites. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	As noted, the site is outside of the settlement boundary of Leek. The site would be within 1,200m of a wide range of services and facilities but not within 400m of the town centre of Leek. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (LE127)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>		
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, outside the edge of the settlement boundary, should provide residents with good access to the open countryside and adjacent to an area of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. It should be noted that the site is in proximity to Leek Moorlands Hospital. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 100 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Leek and a GP surgery and within the open countryside which should reduce the need to travel within the town as the site is within 500m of a bus stop. However, the site has limited access to the transport network at present. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (LE127)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,250m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. The Ecological Study (2015) notes that the site itself has very low biodiversity value overall in terms of area as it consists of species poor improved grassland, one small area of scattered scrub with one species poor hedgerow. Therefore the site is considered to have low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as grade 4 ALC land so	-

SA Objective	Assessment Criteria - Does the site (LE127)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of five grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural	0

SA Objective	Assessment Criteria - Does the site (LE127)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		regeneration although its location adjacent to the open countryside could detract from this. Overall, this site has been assessed as having a neutral effect on this Objective.	
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, could fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 100 dwellings is considered to have a significant positive effect. Similarly, the site has low ecological value and has good accessibility to services and facilities which is likely to have a positive effect. However, the development of mixed greenfield and brownfield, grade 4 ALC land and the proximity of the site to historic assets is likely to have a negative effect as well as the inaccessibility of existing areas of employment.			

Table 7.31

## LE128

SA Objective	Assessment Criteria - Does the site(LE128) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site(LE128) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is outside of the settlement boundary of Leek. The development of this site, a greenfield site that is set within the open countryside could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is outside of the settlement boundary of Leek. The site would be within 800m of a wide range of services and facilities but not within 400m of the town centre of Leek. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, outside the edge of the settlement boundary, should provide residents with good access to the open countryside and adjacent to an area of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 95 dwellings, and therefore also	++

SA Objective	Assessment Criteria - Does the site(LE128) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and 1,200m of a GP surgery and within the open countryside which should reduce the need to travel within the town as the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site(LE128) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,250m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. The Ecological Study (2015) notes that the site itself has mostly low biodiversity value overall in terms of area as it consists solely of species poor improved grassland with one species poor hedgerow. Therefore the site has been deemed to have low ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m of two grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site(LE128) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration although its location adjacent to the open countryside could detract from this. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, could fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (LE128) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>		
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 95 dwellings is considered to have a significant positive effect. Similarly, the site has low ecological value and good accessibility to services and facilities which is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land and the proximity of the site to historic assets is likely to have a negative effect as well as the inaccessibility of existing areas of employment.			

Table 7.32

## LE140

SA Objective	Assessment Criteria - Does the site (LE140)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	<p>The site is outside of the settlement boundary of Leek. The development of this site, a greenfield site that is set within the open countryside could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.</p>	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>As noted, the site is outside of the settlement boundary of Leek. The site would be within 800m of a wide range of services and facilities but not within 400m of the town centre of Leek. For example, the site is in proximity to Leek High Specialist Technology School. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+

SA Objective	Assessment Criteria - Does the site (LE140)...?	Commentary on likely nature of effects of site allocation	Overall assessment
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, outside the edge of the settlement boundary, should provide residents with good access to the open country side and adjacent to an area of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 95 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and 1,200m of a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and 1,200m of a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (LE142A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>• Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>• Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>• Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,000m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. The Ecological Study (2015) notes that the site itself has 12 trees with bat potential and is given ecological importance as a result, though the site and its species poor grassland is poorly connected to other more biodiverse habitats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>• Help safeguard the best and most versatile agricultural land?</li> <li>• Deliver development that helps to minimise the loss of greenfield land?</li> <li>• Offer opportunities to reduce land contamination / instability?</li> <li>• Deliver development that helps reduce the amount of derelict land?</li> <li>• Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>• Offer opportunities to reduce waste generation?</li> <li>• Offer opportunities to maximise the re-use of existing buildings?</li> <li>• Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>• Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>• Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (LE142A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider District. Similarly, the increased population of both the town and the District may have a positive effect also. The site is located within the Churnet Valley Area as an area of sustainable tourism and rural regeneration although its location adjacent to the open countryside could detract from this. Overall, the site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase football. Overall, this site has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, the site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (LE142A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
The proposed delivery of circa 140 dwellings is considered to have a significant positive effect. Similarly, the site good accessibility to services, facilities and areas of employment which is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land, the ecological importance of the site and the proximity to historic assets is likely to have a negative effect.			

**Table 7.34****LE142B**

SA Objective	Assessment Criteria - Does the site (LE142B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is outside of the settlement boundary of Leek. The development of this site, a greenfield site that is set within the open countryside could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is outside of the settlement boundary of Leek and is remote from the town. The site would be within 800m of a wide range of services and facilities but not within 400m of the town centre of Leek. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site, outside the edge of the settlement boundary, should provide residents with good access to the open country side	+

SA Objective	Assessment Criteria - Does the site (LE142B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 40 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and 1,200m of a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (LE142B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>		
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,000m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. The Ecological Study (2015) notes that the site contains fairly species poor habitats and is poorly connected to other more biodiverse habitats. However, as polecat are recorded within 2km and the site has potential to support their populations the site is deemed as having ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (LE142B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>		
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Overall, the site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this site has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, the site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is not within 1,000m of existing areas of employment within the town and, as such, could fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (LE143)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 190 dwellings is considered to have a significant positive effect. However, the development of greenfield, grade 4 ALC land, the proximity to historic assets is likely to have a negative effect as could the relative inaccessibility to services, facilities and areas of existing employment.			

**Table 7.36****LE143A**

SA Objective	Assessment Criteria - Does the site (LE143A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The site is outside of the settlement boundary of Leek. The development of this site, a greenfield site that is set within the open countryside could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is outside of the settlement boundary of Leek and is remote from the town. The site would be within 1,200m of a wide range of services and facilities and the town centre of Leek, however this may not effectively serve the needs of prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. However, the site is in excess of 1,200m	0

SA Objective	Assessment Criteria - Does the site (LE143A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	of a GP surgery and is in proximity to one of the most deprived LSOAs in the District, Leek North, which is in the 20% most deprived nationally. It should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a neutral effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 135 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Leek and a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (LE143A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,250m from Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. The Ecological Study (2015) notes that the site has fairly low biodiversity value overall but some connectivity to the wider countryside through hedgerows. Overall the site is attributed importance as there are two trees with potential to support roosting bats and a species rich hedgerow. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (LE143A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of one grade II listed asset and within 400m of two other grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site could avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider District. Similarly, the increased population of both the town and the District may have a positive effect also. The site is located within the Churnet Valley Area as an area of sustainable tourism and rural regeneration although its location adjacent to the open countryside could detract from this. Overall, the site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria - Does the site (LE143A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this site has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, the site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is not within 1,000m of existing areas of employment within the town and, as such, could fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 135 dwellings is considered to have a significant positive effect. However, the site's proximity to historic assets is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land, the proximity to historic assets is likely to have a negative effect as could the relative inaccessibility to services, facilities and areas of existing employment.

Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (LE253)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	The proposed delivery of circa 15 dwellings is considered to have a positive effect, as could the site's proximity to areas of existing employment. However, the site's proximity to historic assets is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land, the proximity to historic assets is likely to have a negative effect as could the relative inaccessibility to services and facilities and the ecological importance of the site.		

**Table 7.38****Core Strategy Broad Area EM2 Leekbrook**

SA Objective	Assessment Criteria - Does the site (EM2)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site outside the development boundary, could be expected to have an effect on the Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Leekbrook does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide employees with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Leekbrook does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EM2)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>		
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Leekbrook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (EM2)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within flood zone 3 and an area which highlights that communities are at risk from fluvial flooding as noted in the SFRA. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,000m of Combes Valley SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site at the time of survey appeared to have mostly low biodiversity value overall in terms of the marshy grassland area, however given the precautionary principle to ecological protection, and given the sub-optimal time of year the survey was carried out, it is recommended that another full floral survey is conducted at an appropriate time of year. The site also has some broadleaved woodland, scrub and riparian vegetation within its boundary, and is adjacent to an important mosaic of semi-natural broadleaved woodland, scrub, a stream and grasslands. Given that the SBI covers the majority of the site, and owing to the ecological importance of a third tier site designated for its ecological assemblage, it is recommended that any future development of this site is considered in line with paras 7, 9, 17, 109, 114 and 117 NPPF; and also in relation to the Council's own Core Strategy Policy NE1. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site could not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (EM2)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from one grade II* listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,000m from Combes Valley SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site provides scope for the development of this site to have a positive effect on investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EM2)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Leekbrook and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Leekbrook as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is proximity to areas of existing local employment provision as well as new employment provision generated by this site. Overall, this site has been assessed as having a significant positive effect on this objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. The site's accessibility to open space is likely to have a positive effect. However, the site is relatively inaccessible to services and facilities and the site is located within a flood zone which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as being a negative effect, as could the site's proximity to historic assets and a partial SBI designation.			

Table 7.39

## ADD01

SA Objective	Assessment Criteria - Does the site (ADD01)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is outside of the settlement boundary of Leek. The development of this site, a greenfield site that is set within the open countryside could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the settlement boundary and is more than 2,000m away from the town centre which could result in existing services and facilities being inaccessible and the needs of prospective residents not being addressed. However, it should be noted that the site is adjacent to Churnet View Middle School. Overall, this site has been assessed as having a negative effect on this Objective.	-
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and adjacent to an area of open space should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. However, it should be noted that the supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand which may require additional investment through, for example, developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (ADD01)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development could include aspects of good design which could help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the location and size of this site, it is considered that the site could accommodate circa 25 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Leek and a GP surgery and adjacent to the open countryside this should reduce the need to travel within the town. However, the site has limited access to the transport network at present. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site could not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (ADD01)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 500m of Brough Park Fields (LNR), the nearest designated asset, and, as such, is considered that development could have an effect on this asset, at least a short term disturbance of this habitat, if not long term. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site could not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of a two grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical	-/?

archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and could reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the town centre of Leek has scope to have a positive effect on the vitality and viability of Leek and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this could be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (ADD01)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, could provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<p><b>Summary of overall assessment and likely significant effects:</b></p> <p>The proposed delivery of circa 25 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. The site's accessibility to areas of open space is considered to have a positive effect. However, the site's proximity to designated and historic assets is likely to have a negative effect, as could the development of greenfield land, grade 4 ALC and the inaccessibility of services and facilities.</p>			

Table 7.40

## 7.2 Biddulph

### Potentially suitable sites (10+ dwellings) - within the Development Boundary

#### BD004

SA Objective	Assessment Criteria - Does the site (BD004) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and</li> </ul>	The site is located within the settlement boundary, albeit on the north west edge, the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● <del>Does the site have the potential to provide appropriate levels of infrastructure?</del> minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Whilst the site is located on the edge of the settlement boundary, it is within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the edge of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD004) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 15 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Biddulph and a GP surgery and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?

SA Objective	Assessment Criteria - Does the site (BD004) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> <li>● Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>● Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>● Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,250m from both Gannister Quarry SSSI and Biddulph Valley Way (Whitemoor) (LNR), the nearest designated assets, and, as such, is considered to have no effect on these assets. The Ecological Study (2015) notes that the site has potential for protected species to be present due to the mosaic of habitats and habitat structure present, especially as the site is well connected to the wider countryside and on this basis the site is deemed to have ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site has been assessed as being a brownfield site, similarly it is classified as urban ALC land. As such, the development of this site would avoid the loss of best and most versatile agricultural land. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD004) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD004) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The development of urban ALC land on a brownfield site is likely to have a significant positive effect, as could the site's proximity to existing areas of employment. The site should deliver a quantum of housing, circa 15 dwellings which is likely to have a positive effect. The site is located within the settlement boundary and has good accessibility to the services and facilities. However, its proximity to heritage assets would have a negative effect, as would the ecological importance of the site.			

Table 7.41

## BD016

SA Objective	Assessment Criteria - Does the site (BD016) ...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within the settlement boundary and the redevelopment of this mixed brownfield and greenfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	Given the town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. For example, the site is in proximity to James Bateman Junior	++

SA Objective	Assessment Criteria - Does the site (BD016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	High School and Knypersley High School. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the nearby open space and countryside which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. However, it should be noted that this site is adjacent to one of the most deprived LSOAs in Staffordshire Moors, Biddulph East, which is in the most deprived 20% in England. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 20 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Biddulph and a GP surgery and near to the open countryside this should reduce the need to travel within the town. Similarly, the site is located near to a number of bus stops. Overall, this site has been assessed as having a positive effect on this Objective.	+
ENVIRONMENTAL			

SA Objective	Assessment Criteria - Does the site (BD016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 2,000m from Roe Park Woods SSSI, the nearest designated asset land, as such, is considered to have no effect on these assets. The Ecological Study (2015) notes that the site has been attributed a low ecological value in its potential to support protected species as the habitats are species poor and poorly connected to other more biodiverse habitats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	The site has been assessed as being a brownfield and greenfield site, similarly it is classified as urban ALC land. As such, the development of this site would avoid the loss of best and most versatile agricultural	0

SA Objective	Assessment Criteria - Does the site (BD016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	land. Overall, this site has been assessed as having a neutral effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of seven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD055)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The site should deliver a quantum of housing, circa 20 dwellings which is likely to have a significant positive effect, as could the development of urban ALC brownfield land and proximity to services and facilities. However, the site's proximity to heritage assets is assessed as a significant negative. The site is located within the settlement boundary and has good accessibility to services and facilities and areas of existing employment. However, the site's ecological importance would have a negative effect.			

Table 7.43

## BD059

SA Objective	Assessment Criteria - Does the site (BD059)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within the settlement boundary and the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	Given the town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. For example, the site is in proximity to English Martyrs Catholic Primary School and Kingsfield First School. It should be noted that education facilities and services within the town have adequate supply	++

SA Objective	Assessment Criteria - Does the site (BD059)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	at present but it is expected to be outstripped by future demand. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the nearby open space and countryside which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. However, it should be noted that the site is within one of the most deprived LSOAs in Staffordshire Moors, Biddulph East, which is in the lowest 20% in the UK. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings and therefore would not provide a significant quantum of housing to meet identified need. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the town centre of Biddulph and a GP surgery and a number of bus stops but does not have an area of open space or countryside in proximity. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (BD059)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 2,250m from Roe Park Woods SSSI, the nearest designated asset and, as such, is considered to have no effect on these assets. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall, is set within an urban environment with little connectivity to the wider countryside. However as the buildings could potentially support roosting bats the site is given ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	The site has been assessed as being a brownfield, similarly it is classified as urban ALC land. As such, the development of this site would avoid the loss of best and most versatile agricultural land. Overall,	++

SA Objective	Assessment Criteria - Does the site (BD059)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	this site has been assessed as having a significant positive effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The nearest historical asset is circa 550m south west from the site. Given the distance of the site from this asset, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD059)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The development of urban ALC brownfield land should have a significant positive effect, as should the preservation of the landscape and the site's proximity to existing areas of employment and services and facilities. The site is located within the settlement boundary, and away from historical assets. However, the site's ecological importance would have a negative effect.			

Table 7.44

## BD101

<b>SOCIAL</b>			

SA Objective	Assessment Criteria - Does the site (BD101)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The site is located within the settlement boundary and the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Given the town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. For example, the site is in proximity to Biddulph Valley Leisure Centre and Kingsfield First School. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the nearby open space and countryside which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 24 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (BD101)...?	Commentary on likely nature of effects of site allocation	Overall assessment
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the town centre of Biddulph and a GP surgery and there are a small number of open space areas in proximity of varying types. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	AAs the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. <b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings are not adversely affected by natural light and noise pollution?</li> </ul>	The site is located within the settlement boundary and the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Buildings and spaces that have suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Given the town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. For example, the site is in proximity to Biddulph Valley Leisure Centre and Kingsfield First School. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to the nearby open space and countryside which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It	++

SA Objective	Assessment Criteria - Does the site (BD102)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a significant positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 42 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the town centre of Biddulph and a GP surgery and there are a small number of open space areas in proximity of varying types. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD102)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,750m from Gannister Quarry SSSI, the nearest designated asset and, as such, is considered to have no effect on these assets. The Ecological Study (2015) notes that the site is deemed to have ecological importance as the buildings could support roosting bats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site has been assessed as being a brownfield, similarly it is classified as urban ALC land. As such, the development of this site would avoid the loss of best and most versatile agricultural land. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal	+

SA Objective	Assessment Criteria - Does the site (BD102)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The nearest historical asset is circa 500m west from the site. Given the distance of the site from this asset, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD102)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The development of urban ALC brownfield land should have a significant positive effect, as should the preservation of the landscape and the site's proximity to existing areas of employment and services and facilities and the delivery of circa 42 dwellings. The site is located within the settlement boundary, and away from historical assets. However, the site's ecological importance would have a negative effect.			

Table 7.46

## BD108

SA Objective	Assessment Criteria - Does the site (BD108)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (BD108)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	As the site is located within the town settlement boundary of Biddulph it could be considered that the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Given the town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. For example, the site is in proximity to James Bateman Junior High School and Knypersley High School. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the nearby open space and countryside which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery and is adjacent to national route 55, part of the national cycle network. However, it should be noted that this site is adjacent to one of the most deprived LSOAs in Staffordshire Moors, Biddulph East, which is in the most deprived 20% in England. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD108)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings and therefore would not provide a significant quantum of housing to meet identified need. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Biddulph and a GP surgery and near to the open countryside this should reduce the need to travel within the town. Similarly, the site is located near to a number of bus stops. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (BD108)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 2,250m from Roe Park Woods SSSI, the nearest designated asset and, as such, is considered to have no effect on these assets. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall, is set within a fairly urban environment with relatively good connectivity to the wider countryside. Nevertheless, as the site has good connectivity to other more biodiverse habitats, suitable reptile habitat and potential to support roosting bats the site is deemed as having ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site has been assessed as being a brownfield, similarly it is classified as urban ALC land. As such, the development of this site would avoid the loss of best and most versatile agricultural land. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. This site is also within a Minerals Consultation Area and development of this site would preclude any extraction of the minerals below. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	Both on the site and within 50m of it are six grade II listed assets and one more grade II listed assets within 400m. Dependent on proposal specific information, there is scope that development of this site could	-/?

SA Objective	Assessment Criteria - Does the site (BD108)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD108)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b> The development of urban ALC brownfield land should have a significant positive effect, as should the preservation of the landscape and the site's proximity to services and facilities. However there is scope that development of this site could have significant negative effects on historical assets. Similarly, the site's ecological importance would have a negative effect.			

Table 7.47

## 7.2.1 Urban extension

### BD071, BD071A, BD106 & BD156

SA Objective	Assessment Criteria - Does the site (BD071, BD071A, BD106 & BD156)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within the settlement boundary. The development of this greenfield site could reduce the quality of Green Infrastructure of the Town. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Given the town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. For example, the site is in proximity to Biddulph Valley Leisure Centre and Kingsfield First School. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the nearby open space and countryside which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (BD071, BD071A, BD106 & BD156)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 265 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the town centre of Biddulph and a GP surgery and there are a small number of open space areas in proximity of varying types. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?

SA Objective	Assessment Criteria - Does the site (BD071, BD071A, BD106 & BD156)...?	Commentary on likely nature of effects of site allocation	Overall assessment
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> <li>● Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>● Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>● Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,750m from Gannister Quarry SSSI, the nearest designated asset land, as such, is considered to have no effect on these assets. The Ecological Study (2015) notes that the site is deemed to have ecological importance as the buildings could support roosting bats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site has been assessed as being a greenfield, similarly it is classified as urban ALC land. As such, the development of this site would avoid the loss of best and most versatile agricultural land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD071, BD071A, BD106 & BD156)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The nearest historical asset is circa 500m west from the site. Given the distance of the site from this asset, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD071, BD071A, BD106 & BD156)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The site's proximity to services, facilities and existing areas of employment and proposed delivery of circa 265 dwellings should have a significant positive effect. However there is scope that development of this site could have negative effects due to the site's ecological importance and the development of greenfield land.			

**Table 7.48**

## 7.2.2 Other uses

### BD117

SA Objective	Assessment Criteria - Does the site (BD117)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and that they are not likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The site is located outside of the existing town boundary and also outside of the draft new town boundary. The development of greenfield land within the open countryside could reduce the quality of the Green Infrastructure of the Town. Overall, this site has been assessed as having a negative effect on this Objective.</p>	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Help to improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>As noted, the site is located outside of the settlement boundary on the south east edge of Biddulph. The site is more than 1,200m away from the town centre which could result in existing services and facilities being inaccessible. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.</p>	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	<p>The sites location would provide good access to areas of open space and the countryside which could help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.</p>	0
4. To minimise opportunities for crime and reduce the fear of crime.		<p>This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help</p>	+

SA Objective	Assessment Criteria - Does the site (BD117)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted, the site is more than 1,200m from the town centre of Biddulph and a GP surgery this could be expected to increase the need to travel. However, the site is near to the open country side and an area of open space and a number of bus stops. Similarly, the development of this site may lead to the provision of additional public transport services. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is more than 1,200m from the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate	+

SA Objective	Assessment Criteria - Does the site (BD117)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,500m from Whitfield Valley (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has very low biodiversity value overall, however as there are two trees with bat roosting potential and species rich hedgerows, on this basis the site has been attributed ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is more than 400m away from any historical heritage asset, the nearest asset is grade II* listed Knypersley Hall which is circa 650m to the north of the site. Dependent on proposal specific information,	+/?

SA Objective	Assessment Criteria - Does the site (BD117)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site provides scope for the development of this site to have a positive effect on investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Biddulph as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (BD117)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is proximity to areas of existing local employment provision as well as new employment provision generated by this site. Overall, this site has been assessed as having a significant positive effect on this objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. However, the greenfield nature of this site and its location outside of the settlement boundary, coupled with its ecological importance could have a negative effect.			

Table 7.49

## BD076

SA Objective	Assessment Criteria - Does the site (BD076)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The site is located within the settlement boundary and the redevelopment of this mixed brownfield and greenfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	Given the town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (BD076)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>		
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide employees with good access to the nearby open space and countryside which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery and is adjacent to national route 55, part of the national cycle network. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the town centre of Biddulph and a GP surgery and is near to the open countryside which should reduce the need to travel within the town. Similarly, the site is located near to a number of bus stops and given the size of the site additional public transport methods may become available through developer contributions. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (BD076)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the town centre and could be expected to reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,500m from Roe Park Woods SSSI, the nearest designated asset and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site itself has scattered planted broadleaved trees, ephemeral grassland, dense scrub and tall ruderal vegetation which are connected to a series of other hedgerows and habitats, which form an important potentially biodiverse mosaic. Therefore the site is considered to be of ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (BD076)....?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site has been assessed as being a mixed brownfield and greenfield site, similarly it is classified as urban ALC land. As such, the development of this site would avoid the loss of best and most versatile agricultural land. Overall, this site has been assessed as having a neutral effect on this Objective.	0
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. This site is also within a Minerals Consultation Area and development of this site would preclude any extraction of the minerals below. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m away from any historical heritage asset, the nearest asset is grade II listed Whitehouse Cottage which is circa 500m to the north of the site. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD076)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed use of this site provides scope for the development of this site to have a positive effect on investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Biddulph as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is proximity to areas of existing local employment provision as well as new employment provision generated by this site. Overall, this site has been assessed as having a significant positive effect on this objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of a town centre employment site is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect.			

Table 7.50

**BD076A**

SA Objective	Assessment Criteria - Does the site (BD076A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within the settlement boundary and the redevelopment of this mixed brownfield and greenfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> <li>● People due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Given the town centre location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities and may provide additional services and facilities. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents and employees with good access to nearby open space and countryside which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery and is adjacent to national route 55, part of the national cycle network. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD076A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 55 dwellings and therefore also provide a quantum of affordable housing on site. It is acknowledged that the site is proposed as mixed use which may reduce the quantum of housing delivered by this site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the town centre of Biddulph and a GP surgery and is near to the open countryside which should reduce the need to travel within the town. Similarly, the site is located near to a number of bus stops. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the town centre and could be expected to reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (BD076A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,500m from Roe Park Woods SSSI, the nearest designated asset and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site is connected to a hedgerow and other potentially biodiverse habitats, and forms part of an important potentially biodiverse mosaic, therefore the site is attributed ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	The site has been assessed as being a mixed brownfield and greenfield site, similarly it is classified as urban ALC land. As such, the development of this site would avoid the loss of best and most versatile agricultural land. Overall, this site has been assessed as having a neutral effect on this Objective.	0
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. This site is also within a Minerals Consultation Area and development of this site would preclude any extraction of the minerals below. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is circa 450m away from a historical heritage asset. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (BD076A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed mixed use of this site provides scope for the development of this site to have a positive effect on investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a mixed use site within the town centre has the scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed mixed use, and associated employment, of the site could be considered to have a positive effect on businesses and the residents of Biddulph as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is proximity to areas of existing local employment provision as well as new employment provision generated by this site. Overall, this site has been assessed as having a significant positive effect on this objective.	++

SA Objective	Assessment Criteria - Does the site (BD076A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site is located within settlement boundary and should have good access to services and facilities which is likely to also have a significant positive effect. However the site has been assessed as having ecological importance which is likely to have a negative effect.			

**Table 7.51**

## 7.2.3 Sites within Green Belt

### BD062

SA Objective	Assessment Criteria - Does the site (BD062)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is outside of the settlement boundary of Biddulph. The site would be within 800m of a wide range of services and facilities but not within 400m of the town centre of Biddulph. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the border of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery and is adjacent to national route 55, part of the national cycle network. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD062)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 40 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Biddulph and 1,200m of a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (BD062)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,000m from Biddulph Valley Way (Whitemoor) (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. The Ecological Study (2015) notes that the site has potential for protected species to be present due to the mosaic of habitats and habitat structure present, especially as the site is well connected to the wider countryside. The site is deemed to have ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD062)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of grade I Biddulph Grange Gardens, one grade II* listed asset, the Church of St. Lawrence and Coffin Lids and Benches on South Side, and seven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Biddulph and the wider District. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD062)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of local employment provision and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 40 dwellings should have a significant positive effect. The site is also accessible to existing services, facilities and areas of employment which is likely to have a positive effect. However, the site's ecological importance due to the potential for protected species to be present and its connection to the wider countryside are considered to have a significant negative effect. Similarly, the development of greenfield land, grade 4 ALC and the site's proximity to historic assets are also assessed as having a negative effect.			

Table 7.52

## BD063A

SA Objective	Assessment Criteria - Does the site (BD063A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	As noted, the site is outside of the settlement boundary of Biddulph. The site would be within 800m of a wide range of services and facilities. For example, the site is in proximity to James Bateman Junior High School and Knypersley High School. Similarly, given the size of development proposed there is scope that additional key services and	+

SA Objective	Assessment Criteria - Does the site (BD063A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	facilities could be brought forward through developer contributions. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the border of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery and is adjacent to national route 55, part of the national cycle network. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 120 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Biddulph and a GP surgery and near to the open countryside this should reduce the need to travel within the town. Similarly, the site is located near to a number of bus stops. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (BD063A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 2,000m from Roe Park Woods SSSI, the nearest designated asset, and, as such, is considered to have no effect on these assets. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of the species poor grassland area but has some fairly biodiverse areas connected by hedgerows to the south and north; the site is attributed ecological importance due to the presence of trees with bat roosting potential. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as both grade 3 & 4 ALC	-/?

SA Objective	Assessment Criteria - Does the site (BD063A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	land so development of this site Could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. This site is also within a Minerals Consultation Area and development of this site would preclude any extraction of the minerals below. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of seven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD063A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Biddulph and the wider District. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of local employment provision and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 120 dwellings should have a significant positive effect. The site is also accessible to existing services, facilities and areas of employment which is likely to have a positive effect. However, the site's ecological importance is considered to have a negative effect. Similarly, the development of greenfield land, grade 3/4 ALC and the site's proximity to historic assets are also assessed as having a negative effect.			

Table 7.53

**BD064**

SA Objective	Assessment Criteria - Does the site (BD064)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Whilst the site is located on the outside of the settlement boundary, it is within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, outside of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help	+

SA Objective	Assessment Criteria - Does the site (BD064)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings and therefore would not provide any affordable homes. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Biddulph and a GP surgery and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate	+

SA Objective	Assessment Criteria - Does the site (BD064)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,250m from both Gannister Quarry SSSI and Biddulph Valley Way (Whitemoor) (LNR) , the nearest designated asset and, as such, is considered to have no effect on these assets. The Ecological Study (2015) notes that the site has fairly low potential to support protected species as the habitats are species poor and poorly connected to other more biodiverse habitats. However as the site has a potentially species rich hedgerow and tree with bat potential the site is given ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical	-/?

archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD064)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The site is accessible to existing services, facilities and areas of employment which is likely to have a positive effect. However, the site's district ecological importance are considered to have a negative effect. Similarly, the development of greenfield land, grade 4 ALC and the site's proximity to historic assets and the ecological status of the site are also assessed as having a negative effect.			

Table 7.54

## BD067A

SA Objective	Assessment Criteria - Does the site (BD067A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	Whilst the site is located on the outside of the settlement boundary, it is within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective	+

SA Objective	Assessment Criteria - Does the site (BD067A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	residents of the site. For example, the site is in proximity to Oxhey First School. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, outside of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 120 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Biddulph and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (BD067A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 2,000m from Biddulph Valley Way (Whitemoor) (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has little potential to support protected species, although the site is fairly well connected to the wider countryside the surrounding habitats appear of low biodiversity value as well. However, the presence of nine trees with potential to support roosting bats warrants the site being considered to have ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (BD067A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m from any historical heritage assets, the nearest designated asset is grade I listed Biddulph Grange Garden which is circa 650m to the north of the site. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this, or other, historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD067A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 120 dwellings is considered to have a significant positive effect. The site is accessible to existing services, facilities and areas of employment and located away from historic assets is likely to have a positive effect. However, the site's ecological importance are considered to have a negative effect. Similarly, the development of greenfield land, grade 4 ALC is also assessed as having a negative effect.			

Table 7.55

**BD067B**

SA Objective	Assessment Criteria - Does the site (BD067B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Whilst the site is located on the outside of the settlement boundary, it is within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. For example, the site is in proximity to Oxhey First School. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, outside of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help	+

SA Objective	Assessment Criteria - Does the site (BD067B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 150 dwellings and therefore would not provide any affordable homes. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Biddulph and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. However, the land has also been assessed as grade 4 ALC land so	-

SA Objective	Assessment Criteria - Does the site (BD067C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of grade I listed Biddulph Grange Garden, circa 300m to the north of the site. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of this historical heritage assets and its setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Chumet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD067C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 120 dwellings is considered to have a significant positive effect. The site is accessible to existing services, facilities and areas of employment is likely to have a positive effect. However, the site's ecological value is considered to have a negative effect. Similarly, the development of greenfield land, grade 4 ALC and the site's proximity to heritage assets is also assessed as having a negative effect.			

Table 7.57

**BD068**

<b>SOCIAL</b>			

SA Objective	Assessment Criteria - Does the site (BD068)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is outside of the settlement boundary of Biddulph. The site would be within 800m of a wide range of services and facilities but not within 400m of the town centre of Biddulph. For example, the site is in proximity to Woodhouse Middle School. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the border of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 70 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (BD068)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Biddulph and 1,200m of a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	Part of the site is located within a flood zone 2 and 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--

SA Objective	Assessment Criteria - Does the site (BD068)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,000m from Biddulph Valley Way (Whitemoor) (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. The Ecological Study (2015) notes that the site has been deemed to have ecological importance due to the presence of trees with bat roosting potential, potential reptile populations and good connectivity to other biodiverse habitats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m of grade I Biddulph Grange Gardens, one grade II* listed asset, the Church of St. Lawrence and Coffin Lids and Benches on South Side, and seven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets.	-/?

SA Objective	Assessment Criteria - Does the site (BD068)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?	Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Biddulph and the wider District. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. <b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Biddulph and the wider District. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 30 dwellings is considered to have a significant positive effect. The site is also accessible to existing employment areas which is likely to have a positive effect. However, the site's proximity to historic assets is assessed as having a significant negative effect. The development of greenfield land is also assessed as having a negative effect.			

Table 7.59

**BD083**

SA Objective	Assessment Criteria - Does the site (BD083)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is outside of the settlement boundary of Biddulph. The site would be within 800m of a wide range of services and facilities and is adjacent to national route 55, part of the national cycle network. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the border of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD083)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 40 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Biddulph but more than 1,200m from a GP surgery. The site is within the open countryside which should increase access to the towns Green Infrastructure. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--

SA Objective	Assessment Criteria - Does the site (BD083)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	<p>The site is within 1,000m of Biddulph Valley Way (Whitemoor) (LNR), the nearest designated asset, and, as such, is considered that development could have an effect, albeit limited, on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of the species poor grassland area but has some fairly biodiverse areas to the south and west. The site is directly adjacent to a housing estate to the east but is directly connected to more diverse habitats to the south and west and further connections to the north with a small copse and species poor hedgerow. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.</p>	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	<p>As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.</p>	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	<p>As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.</p>	0
13. To protect and enhance the character of towns /	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of</li> </ul>	<p>The site is within 400m of grade I Biddulph Grange Gardens, one grade II* listed asset, the Church of St. Lawrence and Coffin Lids and Benches</p>	-/?

SA Objective	Assessment Criteria - Does the site (BD083)...?	Commentary on likely nature of effects of site allocation	Overall assessment
villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	on South Side, a scheduled monument and seven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Biddulph and the wider District. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD083)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 40 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. The site is also accessible to existing services and facilities which is likely to have a positive effect. However, the site is partly located within a flood zone which is likely to have a significant negative effect. The development of greenfield land, grade 4 ALC and the site's proximity to heritage assets and an LNR are assessed as having a negative effect.			

Table 7.60

## BD087

Overall, this site has been assessed as having a negative effect on this Objective.</p>	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● <del>Does the site have the potential to help improve equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities?</del></li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>As noted, the site is located outside of the settlement boundary on the south east edge of Biddulph. The site is more than 1,200m away from the town centre which could result in existing services and facilities being inaccessible. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.</p>	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>The sites location would provide good access to areas of open space and the countryside which could help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.</p>	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	<p>This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	<p>Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 26 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.</p>	++

SA Objective	Assessment Criteria - Does the site (BD109 & BD118)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted, the site is more than 1,200m from the town centre of Biddulph and a GP surgery this could be expected to increase the need to travel. However, the site is near to the open country side and an area of open space and a number of bus stops. Similarly, the development of this site may lead to the provision of additional public transport services. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is more than 1,200m from the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (BD109 & BD118)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 2,500m from both Roe Park Woods SSSI and Whitfield Valley (LNR), the nearest designated assets, and, as such, is considered to have no effect on these assets. The Ecological Study (2015) notes that the site has low potential to support protected species as the habitats are species poor and poorly connected to other more biodiverse habitats, and therefore is given a low ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as both urban ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. This site is also within a Minerals Consultation Area and development of this site would preclude any extraction of the minerals below. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is more than 400m away from any historical heritage asset, the nearest asset is grade II listed which is circa 650m to the north east of the site. Dependent on proposal specific information, there is limited	+/?

SA Objective	Assessment Criteria - Does the site (BD109 & BD118)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Biddulph and the wider District. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD109 & BD118)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of local employment provision and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 26 dwellings is considered to have a significant positive effect. The site is also accessible to existing services, facilities and areas of existing employment as well as being located away from historic assets and a SSSI and LNR, as well as the site's low ecological value is likely to have a positive effect. However, the development of greenfield is assessed as having a negative effect.			

Table 7.62

Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. The site is also accessible to existing services, facilities and areas of existing employment as well as being located away from historic assets and a SSSI and LNR, as well as the site's low ecological value is likely to have a positive effect. However, the development of greenfield land is assessed as having a negative effect.			

Table 7.63

## BD131B

SA Objective	Assessment Criteria - Does the site (BD131B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (BD131B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and <del>superior facilities that</del> help to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Help to improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	As noted, the site is outside of the settlement boundary of Biddulph. The site would be within 1,200m of a wide range of services and facilities and the town centre of Biddulph. For example, the site is in proximity to James Bateman Junior High School and Knypersley High School. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the border of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery and in proximity to Knypersley Sports Club. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 80 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (BD131B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Biddulph and a GP surgery and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> </ul>	The site is more than 2,250m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is considered that development	0

SA Objective	Assessment Criteria - Does the site (BD131B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	could have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a neutral effect on this Objective.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as urban ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of grade II* Knypersley Hall and one grade II listed asset, Stables, Coach Houses including Coachman's Cottage and Lodge North of Knypersley Hall. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD131B)...? of the natural environment identified in the NCA profiles?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Biddulph and the wider District. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 80 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. The site is also accessible to existing services and facilities which is likely to have a positive effect. However, the site is partly located within a flood zone which is likely to have a significant negative effect. The development of greenfield land is assessed as having a negative effect, as could the site's proximity to historic assets.			

Table 7.64

**BD134**

SA Objective	Assessment Criteria - Does the site (BD134)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Whilst the site is located on the outside of the settlement boundary, it is within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. For example, the site is in proximity to Oxhey First School. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, outside of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 40 dwellings, and therefore also	++

SA Objective	Assessment Criteria - Does the site (BD134)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Biddulph and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (BD134)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 2,250m from Biddulph Valley Way (Whitemoor) (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that apart from roosting bats the site has little potential to support protected species and is poorly connected to the wider countryside, however the presence of six mature trees that have potential to support roosting bats elevates the site's ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is more than 400m from any historical heritage assets, the nearest designated asset is grade I listed Biddulph Grange Garden which is circa 1,100m to the north of the site. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this, or other, historical	+/?

SA Objective	Assessment Criteria - Does the site (BD134)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?	heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD134)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>		
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 40 dwellings is considered to have a significant positive effect. The site is also accessible to existing services, facilities and existing areas of employment is likely to have a positive effect, as could its distance away from historic assets. However, the development of greenfield land, grade 4 ALC is assessed as having a negative effect, as could the ecological value of the site.			

Table 7.65

## BD138A

SA Objective	Assessment Criteria - Does the site (BD138A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Whilst the site is located on the outside of the settlement boundary, it is within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site, outside of the settlement boundary, should provide residents with good access to the open countryside and help	+

	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 90 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Biddulph and a GP surgery and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD138A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,000m from Gannister Quarry SSSI, the nearest designated asset land, as such, is considered to have no effect on these asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area and is directly adjacent to a housing estate and species poor grasslands, and poorly connected to the wider countryside which reduces the value of the site as a whole to bats and other species of wildlife. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (BD138A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	-
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD138A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 90 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. The site is also accessible to existing services and facilities is likely to have a positive effect, as could its low biodiversity value of the site. However, the development of greenfield land, grade 4 ALC is assessed as having a negative effect, as could the site's location near to historic assets.			

Table 7.66

## BD138B

SA Objective	Assessment Criteria - Does the site (BD138B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (BD138B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Whilst the site is located on the outside of the settlement boundary, it is within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The sites location would provide good access to areas of open space and the countryside which could help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 76 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Biddulph and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD138B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,000m of Biddulph Valley Way (Whitemoor) (LNR), the nearest designated asset, and, as such, is considered that development could have an effect, albeit limited, on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area, is directly adjacent to a housing estate and species poor grasslands. However, the site has a species rich hedgerow which elevates the site's ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (BD138B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD138B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Biddulph has scope to have a positive effect on the vitality and viability of Biddulph and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 76 dwellings is considered to have a significant positive effect, as could the site's proximity to existing areas of employment. The site is also accessible to existing services and facilities is likely to have a positive effect. However, the development of greenfield land, grade 4 ALC is assessed as having a negative effect, as could the site's location near to historic assets and the ecological value of the site.			

Table 7.67

**BD144**

SA Objective	Assessment Criteria - Does the site (BD144)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is located outside of the settlement boundary on the south east edge of Biddulph. The site is more than 1,200m away from the town centre which could result in existing services and facilities being inaccessible. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The sites location would provide good access to areas of open space and the countryside which could help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BD144)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 80 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted, the site is more than 1,200m from the town centre of Biddulph and a GP surgery this could be expected to increase the need to travel. However, the site is near to the open country side and an area of open space and a number of bus stops. Similarly, the development of this site may lead to the provision of additional public transport services. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is more than 1,200m from the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (BD144)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 2,250m from both Roe Park Woods SSSI and Whitfield Valley (LNR), the nearest designated assets, and, as such, is considered to have no effect on these assets. The Ecological Study (2015) notes that the site mostly has low potential to support protected species as the habitats are species poor and poorly connected to other more biodiverse habitats. However as the site has six mature trees on site or immediately adjacent that have potential to support roosting bats the site is deemed to have ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as both urban ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. This site is also within a Minerals Consultation Area and development of this site would preclude any extraction of the minerals below. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is more than 400m away from any historical heritage asset, the nearest asset is grade II listed which is circa 650m to the north east of the site. Dependent on proposal specific information, there is limited	+/?

SA Objective	Assessment Criteria - Does the site (BD144)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BD144)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of local employment provision and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 80 dwellings is considered to have a significant positive effect. The site is also accessible to existing services, facilities and existing areas of employment is likely to have a positive effect, as could the site's distance away from historic assets. However, the development of greenfield land is assessed as having a negative effect, as could the site's ecological value.			

Table 7.68

## ADD02

SA Objective	Assessment Criteria - Does the site (ADD02)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The site is located outside of the existing town boundary and also outside of the draft new town boundary. The development of greenfield land within the open countryside could reduce the quality of the Green Infrastructure of the Town. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	As noted, the site is located outside of the settlement boundary on the south edge of Biddulph. The site is more than 2,000m away from the town centre which could result in existing services and facilities being inaccessible. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to	-

SA Objective	Assessment Criteria - Does the site (ADD02)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	be outstripped by future demand. Overall, this site has been assessed as having a negative effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The sites location would provide good access to areas of open space and the countryside which could help to support healthy lifestyles. However, the site is more than 2,000m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the location and size of this site, it is considered that the site could accommodate circa 159 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted, the site is more than 2,000m from the town centre of Biddulph and a GP surgery this could be expected to increase the need to travel. However, the site is near to the open country side and an area of open space and a number of bus stops. Similarly, the development of this site may lead to the provision of additional public transport services. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (ADD02)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is more than 2,000m from the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,250m from Whitfield Valley (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (ADD02)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m away from any historical heritage asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (ADD02)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of local employment provision and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 159 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. The site's location away from designated and historic assets is likely to have a positive effect. However, the site's inaccessibility to services and facilities is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land.			

Table 7.69

## ADD03

SA Objective	Assessment Criteria - Does the site (ADD03)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and amenity and are not adversely affected by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.</p>	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that improves access to health facilities?</li> <li>● Help to improve health and access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>As noted, the site is outside of the settlement boundary of Biddulph. The site would be within 800m of a wide range of services and facilities. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>The location of this site, on the border of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery and is adjacent to national route 55, part of the national cycle network. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	<p>This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+

SA Objective	Assessment Criteria - Does the site (ADD03)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the location and size of this site, it is considered that the site could accommodate circa 372 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Biddulph and a GP surgery and near to the open countryside this should reduce the need to travel within the town. Similarly, the site is located near to a number of bus stops. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (ADD03)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,250m from Roe Park Woods SSSI and Gannister Quarry SSSI, the nearest designated assets, and, as such, is considered to have no effect on these assets. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as both grade 4 & urban ALC land so development of this site Could not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. This site is also within a Minerals Consultation Area and development of this site would preclude any extraction of the minerals below. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	There is a grade II listed building on the site. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (ADD03)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Biddulph and the wider District. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of local employment provision and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (ADD03)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 372 dwellings is considered to have a significant positive effect. The site's location away from designated assets is likely to have a positive effect, as could the site's accessibility to services, facilities and areas of existing employment. However, the site's proximity to historic assets is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is considered to have a negative effect.			

Table 7.70

## ADD04

SA Objective	Assessment Criteria - Does the site (ADD04)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support to disadvantaged people?</li> </ul>	The site borders the settlement boundary of Biddulph but is outside of the boundary. The development of this site, a greenfield site that is set within the open countryside, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Support to disadvantaged people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is outside of the settlement boundary of Biddulph. The site would be within 1,200m of a wide range of services and facilities and the town centre of Biddulph. For example, the site is in proximity to James Bateman Junior High School and Knypersley High School. It should be noted that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site, on the border of the settlement boundary, should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery and in proximity to Knypersley Sports Club. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without	+

4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	Based on the location and size of this site, it is considered that the site could accommodate circa 1,070 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
		As noted previously, the site is within 1,200m of the town centre of Biddulph and a GP surgery and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?

SA Objective	Assessment Criteria - Does the site (ADD04)...?	Commentary on likely nature of effects of site allocation	Overall assessment
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> <li>● Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>● Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>● Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 2,000m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is considered that development could have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (ADD04)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site borders grade II* Knypersley Hall and one grade II listed asset, Stables, Coach Houses including Coachman's Cottage and Lodge North of Knypersley Hall as well as being within 400m of seven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Biddulph and the wider District. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (ADD04)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 1,070 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. However, the site's proximity to historic assets is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect.			

Table 7.71

### 7.3 Cheadle

#### Sites (10+ dwellings) within the current development boundary

##### CH002A

SA Objective	Assessment Criteria -Does the site (CH002A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within the settlement boundary. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Given the location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	Given the location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. It should be noted that the supply of community facilities and services is currently	++

SA Objective	Assessment Criteria -Does the site (CH002A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 26 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Cheadle and a GP surgery and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria -Does the site (CH002A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site borders Cecilly Brook (LNR), a 1.25km stretch of Cecilly Brook through Cheadle which is one of the most important sites for water voles in Staffordshire. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site mainly has low potential to support protected species as the habitats are species poor and poorly connected to other more biodiverse habitats. However, the presence of species rich hedgerows and bat potential trees warrants the site being attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria -Does the site (CH002A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>		
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is circa 450m away from a historical heritage asset. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria -Does the site (CH002A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 26 dwellings is considered to have a significant positive effect, as could the site's proximity to health care services and facilities and areas of existing employment. Similarly, the site's distance away from historic assets is likely to have a positive effect. However, the site is partly within flood zone 2 and 3 which is likely to have a significant negative effect, as could the development of grade 3 ALC land and the site's proximity to designated assets.			

Table 7.72

## CH002B

SA Objective	Assessment Criteria -Does the site (CH002B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		<b>SOCIAL</b>	

SA Objective	Assessment Criteria -Does the site (CH002B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and deliver green infrastructure?</li> <li>● Deliver green infrastructure to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The site is located within the settlement boundary and the redevelopment of this mixed brownfield and greenfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver green infrastructure to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>Given the location of this site, within 800m of the town centre, it can be considered that the site would be in proximity to a wide range of key services and facilities. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.</p>	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	<p>This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	<p>Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 42 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.</p>	++

SA Objective	Assessment Criteria -Does the site (CH002B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Cheadle and a GP surgery and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> </ul>	The site is within 100m of Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could lead	--/?

SA Objective	Assessment Criteria -Does the site (CH002B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	to short-term disturbances of this habitat and possibly long term also. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site has potential to support protected species although the habitats are fairly species poor but are well connected to other more biodiverse habitats. As the site has buildings with potential to support roosting bats and a species rich hedgerow the site has been attributed ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on brownfield and greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is circa 550m away from a historical heritage asset. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria -Does the site (CH002B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria -Does the site (CH002B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	The proposed delivery of circa 42 dwellings is considered to have a significant positive effect, as could the site's proximity to services and facilities and areas of existing employment. Similarly, the site's distance away from historic assets is likely to have a positive effect. However, the site's proximity to a designated asset and the development of grade 3 ALC land is likely to have a significant negative effect.		

Table 7.73

## CH003

SA Objective	Assessment Criteria -Does the site (CH003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site borders the settlement boundary of Cheadle but is inside the boundary. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria -Does the site (CH003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 55 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria -Does the site (CH003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,000m from Cecilly Brook (LNR, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has potential for protected species to be present due to the mosaic of habitats and habitat structure present, especially as the site is well connected to the wider countryside, combined with the complex nature and size of the site warrants the site to be attributed ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria -Does the site (CH003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is circa 650m away from a historical heritage asset. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 55 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. Similarly, the site's distance away from historic assets is likely to have a positive effect. However, the site is partly within a flood zone which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as could the site's ecological importance.			

Table 7.74

## CH004

SA Objective	Assessment Criteria - Does the site (CH004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (CH004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is within the settlement boundary of Cheadle. The development of this site, a greenfield site could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 45 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and a GP surgery and near to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and a GP surgery and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (CH004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	<p>The site is within 550m of Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could possibly have an effect on this site, however these would be limited. The Ecological Study (2015) notes that the site has low potential to support protected species as the habitats are species poor and poorly connected to other more biodiverse habitats, though as species rich hedgerows are present the site is considered as having ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective.</p>	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	<p>As noted, this site has been assessed as being on greenfield land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.</p>	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	<p>As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.</p>	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	<p>The site is circa 500m away from a grade II listed asset. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.</p>	+/?

SA Objective	Assessment Criteria - Does the site (CH004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>		
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 45 dwellings is considered to have a significant positive effect. Similarly, the site's distance away from historic assets is likely to have a positive effect as could the accessibility to services, facilities and areas of existing employment. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The ecological value of the site is likely to have a negative effect.			

Table 7.75

## CH006

SA Objective	Assessment Criteria - Does the site (CH006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within the settlement boundary. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located within the settlement boundary and is within 800m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site.	+

SA Objective	Assessment Criteria - Does the site (CH006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 45 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Cheadle and a GP surgery and adjacent to an area of open space which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (CH006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within circa 60m of Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site has potential to support protected species although the habitats are species poor but are well connected to other more biodiverse habitats. Therefore the mosaic of habitats and trees with bat potential constitute the site being given ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain	--/?

SA Objective	Assessment Criteria - Does the site (CH006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is circa 500m away from two grade II listed assets. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 45 dwellings is considered to have a significant positive effect, as could the site's accessibility to areas of existing employment. Similarly, the site's distance away from historic assets is likely to have a positive effect as could the accessibility to services and facilities. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's partial location within a flood zone and proximity to a designated asset.			

Table 7.76

## CH009

SA Objective	Assessment Criteria - Does the site (CH009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within the settlement boundary and the redevelopment of this mixed brownfield and greenfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	Given the location of this site, it can be considered that the site would be in proximity to a wide range of key services and facilities. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 16 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the town centre of Cheadle and a GP surgery and adjacent to an area of open space which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (CH009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within circa 85m of Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site has fairly low biodiversity value overall and is set within a mainly urban environment with some connectivity to the wider countryside through a species rich hedgerow. The combination of the species rich hedgerow and buildings/ tree with bat potential constitutes the site as having ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of five grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The site's accessibility to services, facilities and areas of existing employment is considered to have a significant positive effect. Similarly, the proposed delivery of circa 16 dwellings is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's proximity to designated assets. The site's proximity to historic assets is likely to have a negative effect.			

Table 7.77

## CH013

SA Objective	Assessment Criteria - Does the site (CH013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set just outside of the town centre could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (CH013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the town centre, is within 400m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site, the site borders The Cheadle Academy and is within proximity of other primary and secondary schools. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 50 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the town centre of Cheadle and adjacent to an area of open space as well as 800m from a GP surgery which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 800m of Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has two trees and four buildings which are considered to have bat roosting potential, and species poor hedgerows which are fairly isolated from other habitats. The site has therefore been deemed to have ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (CH013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of thirty eight grade II listed assets and one grade I listed asset, the Roman Catholic Church of St. Giles. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as could the ecological value of the site and its proximity to historic assets.			

Table 7.78

**CH015**

SA Objective	Assessment Criteria - Does the site (CH015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the edge of the town centre, the redevelopment of this brownfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is within 400m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 32 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the town centre of Cheadle and a GP surgery and adjacent to an area of open space which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. It should be noted that the site is within 100m of a candidate AQMA. Overall, this site has been assessed as having a negative effect on this Objective.	-
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (CH015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 400m of Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could possibly have an effect on this site, however these would be limited. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site itself has two trees and four buildings which are considered to have bat roosting potential, and species poor hedgerows which are fairly isolated from other habitats. The site has therefore been deemed to have ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on brownfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a positive effect on this Objective.	+
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of twenty four grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 32 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could the development of brownfield land. However, the ecological value of the site and its proximity to a LNR, candidate AQMA and historic assets is likely to have a negative effect.			

Table 7.79

## CH020

SA Objective	Assessment Criteria - Does the site (CH020)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is in proximity to the west side of the settlement boundary of Cheadle but is inside the boundary. The development of this site, a mixed brownfield and greenfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH020)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within the settlement boundary and is within 800m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 42 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Cheadle and in proximity to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH020)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,500m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site itself has one building that is deemed to have potential to support roosting bats, noxious weeds and a range of 'brownfield' habitats albeit fairly species poor in terms of floral diversity. However the fairly large size of the site and the potential to support protected species warrants being attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (CH020)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on brownfield and greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	0
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is circa 600m away from a grade II historical heritage asset. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH020)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 42 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect, as could its location away from historic assets. However, the site is partly within a flood zone which is likely to have a significant negative effect. The ecological value of the site is likely to have a negative effect.			

Table 7.80

## CH024

SA Objective	Assessment Criteria - Does the site (CH024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within the settlement boundary and the redevelopment of this mixed brownfield and greenfield site could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within the settlement boundary and is within 800m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 45 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Cheadle and a GP surgery and adjacent to an area of open space which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (CH024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site borders Cecilly Brook (LNR), a 1.25km stretch of Cecilly Brook through Cheadle which is one of the most important sites for water voles in Staffordshire. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site has potential for protected species to be present mainly due to the proximity of the mosaic of stream habitats and good connectivity Cecily Brook Local Nature Reserve and the wider countryside, therefore is given ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (CH024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<p><b>Summary of overall assessment and likely significant effects:</b></p> <p>The proposed delivery of circa 45 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The ecological importance of the site, its location near to a LNR, and its proximity to heritage assets is assessed as a negative effect.</p>			

Table 7.81

### 7.3.1 Urban extension

#### Area 1 - CH001

SA Objective	Assessment Criteria - Does the site (CH001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within the settlement boundary, albeit on the north east edge. The development of this site, a greenfield site, could be expected to have an effect on the Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within the settlement boundary and is within 800m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. Given the size of this site, there is scope that development could lead to additional services and facilities including health care. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. Again, given the size of this site, there is scope that development could lead to additional services and facilities including health care. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen	+

SA Objective	Assessment Criteria - Does the site (CH001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 240 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Cheadle and a GP surgery and adjacent to an area of open space which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?

SA Objective	Assessment Criteria - Does the site (CH001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
9. To reduce flood risk, protect and enhance water resources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> <li>● Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>● Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>● Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 400m of Cecilly Brook (LNR), the nearest designated asset. This could therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site has low potential to support protected species as the habitats are species poor and fairly poorly connected to other more biodiverse habitats, therefore the site is attributed low ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is circa 450m away from one grade II listed assets. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 240 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect. Similarly, the site's location away from historic assets is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect.			

**Table 7.82**

### 7.3.2 Other uses

#### Plus Core Strategy Broad Area EM1 - CH127

SA Objective	Assessment Criteria - Does the site (CH127)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site borders the settlement boundary of Cheadle but is inside the boundary. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective employees of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide employees with good access to the open countryside and help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH127)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (CH127)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,250m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has species poor habitats present on site; however the surrounding habitats are potentially biodiverse and reptiles could be found along the sites boundaries, especially to the north and west. Therefore the site is given ecological importance due to its species rich hedgerow and potential to support reptile populations. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH127)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is circa 800m away from a grade II historical heritage asset. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact upon the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site provides scope for the development of this site to have a positive effect upon investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Cheddle and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++

SA Objective	Assessment Criteria - Does the site (CH127)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is proximity to areas of existing local employment provision as well as new employment provision generated by this site. Overall, this site has been assessed as having a significant positive effect on this objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the accessibility of other services and facilities and its location away from historic assets is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is likely to have a negative effect as could the ecological value of the site.			

Table 7.83

### Plus Core Strategy Broad Area EM2 - CH019

SA Objective	Assessment Criteria - Does the site (CH019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (CH019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site borders the settlement boundary of Cheadle but is inside the boundary. The development of this site, a brownfield site, could help to improve the social and environmental quality of the town centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 2,000m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective employees of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide employees with good access to the open countryside and help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective, with scope for negative effects.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 2,000m of the town centre of Cheadle and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 650m of a bus stop. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m from the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (CH019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	<p>The site is over 2,250m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has very low biodiversity value overall, however due to the high quality of the surrounding broadleaved woodland and the pond within 250m this industrial site could be utilised by amphibians and reptiles. Nonetheless the site is still deemed to have low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.</p>	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	<p>As noted, this site has been assessed as being on brownfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	<p>The development of this brownfield site could enable the re-use of existing buildings within the town centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	<p>The site is circa 1,000m away from a grade II historical heritage asset. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.</p>	+/?

SA Objective	Assessment Criteria - Does the site (CH019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact upon the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site provides scope for the development of this site to have a positive effect upon investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Cheddle and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Cheddle as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> </ul>	The site is proximity to areas of existing local employment provision as well as new employment provision generated by this site. Overall, this site has been assessed as having a significant positive effect on this objective.	++

SA Objective	Assessment Criteria - Does the site (CH019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>		
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the low ecological value of the site, the development of brownfield land and its location away from historic assets is likely to have a positive effect.			

Table 7.84

## CH143

SA Objective	Assessment Criteria - Does the site (CH143)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is within the settlement boundary of Cheadle, albeit near to the south west edge. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective employees of the site. It should be noted that the supply	+

SA Objective	Assessment Criteria - Does the site (CH143)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide employees with good access to the open countryside and help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (CH143)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,250m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has potential for protected species to be present due to the mosaic of habitats and habitat structure present, especially as the site is well connected to the wider countryside. Therefore the site is considered to have ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so	-

SA Objective	Assessment Criteria - Does the site (CH143)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is circa 750m away from a grade II historical heritage asset. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact upon the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site provides scope for the development of this site to have a positive effect upon investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and	+

SA Objective	Assessment Criteria - Does the site (CH143)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Cheadle as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is proximity to areas of existing local employment provision as well as new employment provision generated by this site. Overall, this site has been assessed as having a significant positive effect on this objective.	++
<b>Summary of overall assessment and likely significant effects:</b>			
The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, its location away from historic assets is likely to have a positive effect as could its accessibility to services and facilities. However, the development of greenfield, grade 4 ALC land is likely to have a negative effect as could the ecological value of the site.			

Table 7.85

### 7.3.3 Sites outside the development boundary

#### CH073A

SA Objective	Assessment Criteria - Does the site (CH073A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is remote and located outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH073A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 90 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and within to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (CH073A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is in proximity to Hales Hall Pool (LNR), the nearest designated asset. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that despite ponds being located in proximity there have been no European protected species recorded within 2km. The site has low potential to support protected species as the habitats are species poor but not connected to Hales Hall Pool LNR. However, the site is connected to other habitats by the species rich hedgerow and trees with bat potential which enables the site to be attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope	0

SA Objective	Assessment Criteria - Does the site (CH073A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II* listed asset and one grade II asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH073A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 90 dwellings is considered to have a significant positive effect, as could the accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The ecological value of the site and its location near to a LNR and historic assets is likely to have a negative effect.			

Table 7.86

## CH073B

SA Objective	Assessment Criteria - Does the site (CH073B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (CH073B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 800m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. <b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (CH073B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	<p>The site is within 200m of Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site mainly has low potential to support protected species as the habitats are species poor and poorly connected to other more biodiverse habitats. However, the presence of species rich hedgerows and bat potential trees warrants the site being attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.</p>	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	<p>As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.</p>	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	<p>As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.</p>	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	<p>The site is within circa 650m of one grade II listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical</p>	+/?

SA Objective	Assessment Criteria - Does the site (CH073B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH073B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 114 dwellings is considered to have a significant positive effect, as could the accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's proximity to designated assets.			

Table 7.87

## CH073C

SA Objective	Assessment Criteria - Does the site (CH073C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is remote and located outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-

SA Objective	Assessment Criteria - Does the site (CH073C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment methodology, it is considered that the site could accommodate circa 90 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and within to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH073C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 200m of Hales Hall Pool (LNR), the nearest designated asset. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This would therefore have an adverse effect on the District's Green Infrastructure network. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (CH073C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 500m of one grade II* listed asset and one grade II asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH073C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 90 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land and proximity to designated assets is assessed as having a significant negative effect. The site's inaccessibility to areas of existing employment is likely to have a negative effect.			

Table 7.88

## CH073D

SA Objective	Assessment Criteria - Does the site (CH073D)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located outside of the settlement boundary, albeit with a small part of the site abutting the settlement boundary, within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH073D)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 77 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle, 800m from a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 300m of Cecilly Brook (LNR), the nearest designated asset. This would therefore have an adverse effect on the District's Green Infrastructure network. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within circa 700m of one grade II listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical	+/?

SA Objective	Assessment Criteria - Does the site (CH073D)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH073D)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 77 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's location near to a LNR is likely to have a negative effect.			

Table 7.89

## CH073E

SA Objective	Assessment Criteria - Does the site (CH073E)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is remote and located outside of the settlement boundary within the open countryside. The development of this site - a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (CH073E)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 140 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and within to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH073E)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 400m of Hales Hall Pool (LNR) and Cecilly Brook (LNR), the nearest designated assets. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This would therefore have an adverse effect on the District's Green Infrastructure network. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (CH073E)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 550m of one grade II* listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH073E)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 140 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the remote nature of this site within the open countryside. The site's inaccessibility to areas of existing employment and proximity to designated assets is likely to have a negative effect.			

Table 7.90

Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH075A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's location near to a Local Nature Reserve.			

Table 7.91

## CH075B

SA Objective	Assessment Criteria - Does the site (CH075B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (CH075B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 60 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH075B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 400m of Cecilly Brook (LNR), the nearest designated asset. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site has district potential to support protected species despite the majority of the area being species poor habitats. However, the site is connected to other more biodiverse habitats, has a small pond and a large quantity of trees with potential to support roosting bats and therefore as a whole is attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (CH075B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within circa 500m of one grade II* listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH075B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 60 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's proximity to designated assets. The site's inaccessibility to areas of existing employment is likely to have a negative effect.			

Table 7.92

## CH075C

SA Objective	Assessment Criteria - Does the site (CH075C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is remote and located on the outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+

<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 125 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land and the site's proximity to designated assets is assessed as having a significant negative effect. The site's inaccessibility to areas of existing employment is likely to have a negative effect.			

Table 7.93

## CH075D

SA Objective	Assessment Criteria - Does the site (CH075D)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. For example, the site is in proximity to South Moorlands Leisure Centre. It should be noted that the supply of community facilities and services is currently adequate but it is	+

SA Objective	Assessment Criteria - Does the site (CH075D)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 45 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and 800m from a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (CH075D)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 150m of Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site has district potential to support protected species despite the majority of the area being species poor habitats. However, the site is connected to other more biodiverse habitats, has a small pond and a large quantity of trees with potential to support roosting bats and therefore as a whole is attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (CH075D)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II* listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH075D)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 45 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land and proximity to designated assets is assessed as having a significant negative effect.			

Table 7.94

**CH076A**

SA Objective	Assessment Criteria - Does the site (CH076A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the outside edge of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH076A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 100 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and 800m from a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding.	--

SA Objective	Assessment Criteria - Does the site (CH076A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	The development of this site could lead to an increase in wastewater and reduction of natural drainage; however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 200m of Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 75m of one grade II* listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the historical heritage assets and	-/?

SA Objective	Assessment Criteria - Does the site (CH076A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	its setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH076A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 100 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2 and 3. The site's location near to designated and historic assets and the inaccessibility of areas of existing employment is likely to have a negative effect.			

Table 7.95

## CH076B

SA Objective	Assessment Criteria - Does the site (CH076B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is remote and located on the outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (CH076B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 110 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH076B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within circa 350m of Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so	--/?

SA Objective	Assessment Criteria - Does the site (CH076B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II* listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage asset. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural	+

SA Objective	Assessment Criteria - Does the site (CH076B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 110 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2 and 3. The site's location near to a Local Nature Reserve and historic assets is likely to have a negative effect, as could the inaccessibility of areas of existing employment.			

Table 7.96

SA Objective	Assessment Criteria - Does the site (CH077A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (CH077A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the outside edge of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH077A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 100 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and 800m from a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--

SA Objective	Assessment Criteria - Does the site (CH077A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 200m of Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Report (2015) notes that the site has very good potential for protected species to be present due to the habitat mosaic and good connectivity to other habitats, therefore is attributed ecological value. The site may be considered for classification as an SBI. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. <b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 105 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to health care services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2 and 3. Additionally, the site has ecological value and may have potential for classification as a Site of Biological Importance which has a significant negative effect. The site's location near to historic assets is likely to have a negative effect, as could the inaccessibility of areas of existing employment.			

Table 7.98

## CH080

SA Objective	Assessment Criteria - Does the site (CH080)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is located on the outside of the settlement boundary on the north east edge of Cheadle. The site is more than 1,200m away from the town centre which could result in existing services and facilities being inaccessible. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH080)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 80 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and a GP surgery and adjacent to an area of open space which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m from the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding.	--

SA Objective	Assessment Criteria - Does the site (CH080)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 400m of Hales Hall Pool (LNR), the nearest designated asset. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m from one grade II listed assets. Although dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting	-/?

SA Objective	Assessment Criteria - Does the site (CH080)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	of this historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH080)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 80 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to health care services and facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2 and 3. The site's location near to a Local Nature Reserve and historic assets is likely to have a negative effect.

## CH081

SA Objective	Assessment Criteria - Does the site (CH081)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (CH081)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is located on the outside of the settlement boundary on the north east edge of Cheadle. The site is more than 1,200m away from the town centre which could result in existing services and facilities being inaccessible. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 110 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and a GP surgery and adjacent to an area of open space which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH08*)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m from the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 200m of Hales Hall Pool (LNR), the nearest designated asset. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This could therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site has low potential to support protected species as the habitats present on site are species poor and have fairly poor boundary habitat and connections to other more biodiverse habitats. Nevertheless the site is attributed ecological value as two trees on site are deemed to have potential to support roosting bats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been	-/?

SA Objective	Assessment Criteria - Does the site (CH084)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 110 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. Similarly, the site's accessibility to health care services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2 and 3. The site's location near to a Local Nature Reserve and historic assets and its ecological value is likely to have a negative effect.			

Table 7.100

## CH085A

SA Objective	Assessment Criteria - Does the site (CH085A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the outside of the settlement boundary within the open countryside. However, it is within the draft new town boundary. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the town centre, is within 1200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. For example, the site is in proximity to Moorlands Sixth Form. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH085A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 150 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	Part of the site is located within a flood zone 2 area and, as such, it can be considered that the site would be subject to risk from flooding.	-

SA Objective	Assessment Criteria - Does the site (CH085A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a negative effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,000m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has low potential to support protected species as the habitats present on site are species poor and have poor boundary habitat and connections to other more biodiverse habitats. However, the site is attributed ecological value due to the two trees present on site that have been deemed capable of supporting roosting bats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH085A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is circa 600m away from one grade II listed historical heritage asset. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH085A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 150 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could part of the site's location within flood zone 2. The site's ecological value is likely to have a negative effect.			

Table 7.101

## CH085B

SA Objective	Assessment Criteria - Does the site (CH085B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the outside of the settlement boundary within the open countryside. However, it is within the draft new town boundary. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (CH085B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the town centre, is within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. For example, the site is in proximity to Moorlands Sixth Form. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (CH085C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,000m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has fairly low potential to support protected species as the habitats are species poor and moderately connected to other more biodiverse habitats. The site is therefore given low ecological value as the species rich hedgerow is defunct. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH085C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m away from one grade II listed historical heritage asset. Although dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a neutral effect on this Objective.	0
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH085C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 150 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility areas of existing employment is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect.			

Table 7.103

## CH085D

SA Objective	Assessment Criteria - Does the site (CH085D)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the outside of the settlement boundary within the open countryside. However, it is within the draft new town boundary. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by</li> </ul>	The site is located on the edge of the town centre, is within 1,200m of the town centre and the wide range of key services and facilities that	0

SA Objective	Assessment Criteria - Does the site (CH085D)...?	Commentary on likely nature of effects of site allocation	Overall assessment
persons and eliminate social exclusion by improving access to jobs, services and facilities.	<p>people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</p> <ul style="list-style-type: none"> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	can be found here that could serve prospective residents of the site. For example, the site is in proximity to Moorlands Sixth Form. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 115 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (CH085D)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,000m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has fairly low potential to support protected species as the habitats are mainly species poor and moderately connected to other more biodiverse habitats. However the species rich hedgerow and tree with bat potential warrants the site being attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so	--/?

This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from three grade II listed historical heritage assets. Although dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (CH093)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (CH093)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	The proposed delivery of circa 165 dwellings is considered to have a significant positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect as could the site's partial location within flood zone 2. The site's proximity to historic assets is likely to have a negative effect, as could the inaccessibility of areas of existing employment.		

Table 7.105

## CH121

SA Objective	Assessment Criteria - Does the site (CH121)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH121)...?	Commentary on likely nature of effects of site allocation	Overall assessment
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 38 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle, 800m from a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH121)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 400m of Cecilly Brook (LNR), the nearest designated asset. It could be considered that development of this site could possibly have an effect on this site, however these would be limited. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) noted that the site has potential to support some protected species although the habitats are fairly species poor but are well connected to other more biodiverse habitats. The presence of a species rich hedgerow and trees with potential to support roosting bats warrants the site being attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (CH121)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within circa 800m of one grade II* listed asset and two grade II listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH121)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 38 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's ecological value and proximity to a Local Nature Reserve is likely to have a negative effect.			

Table 7.106

## CH122

SA Objective	Assessment Criteria - Does the site (CH122)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (CH122)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH122)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 22 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle, 800m from a GP surgery and within the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8.
