2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is located outside of the settlement boundary on the south east edge of Cheadle. The site is more than 1,200m away from the town centre which could result in existing services and facilities being inaccessible. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 28 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted, the site is more than 1,200m from the town centre of Cheadle and a GP surgery this could be expected to increase the need to travel. However, the site is near to the open country side and an area of open space and a number of bus stops. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH128)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m from the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,000m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site is large enough to potentially support small mammals that could provide food for owls and raptors as well as supporting ground nesting birds. However, this former woodland site has species poor habitats and floral diversity and therefore is considered to have low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH128)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from two grade II listed historical heritage assets. Although dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH128)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 28 dwellings and accessibility to areas of existing employment is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's proximity to a historic assets is likely to have a negative effect.			

Table 7.108

## CH129

SA Objective	Assessment Criteria - Does the site (CH129)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH129)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 120 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and within to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH129)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 100m of Hales Hall Pool (LNR), the nearest designated asset. It could be considered that development of this site could lead to short-term disturbances of this habitat and possibly long term also. This would therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site mainly has low potential to support protected species as the habitats are species poor and poorly connected to other more biodiverse habitats. However, the presence of species rich hedgerows and bat potential trees warrants the site being attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (CH129)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 550m of one grade II* listed asset and one grade II asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH129)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 120 dwellings is considered to have a significant positive effect, as could the accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities and distance away from historic assets is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's proximity to a Local Nature Reserve and ecological value is likely to have a negative effect.			

Table 7.109

## CH132

SA Objective	Assessment Criteria - Does the site (CH132)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (CH132)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located on the outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is located outside of the settlement boundary on the south east edge of Cheadle. The site is more than 1,200m away from the town centre which could result in existing services and facilities being inaccessible. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH132)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 130 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted, the site is more than 1,200m from the town centre of Cheadle and a GP surgery this could be expected to increase the need to travel. However, the site is near to the open country side and an area of open space and a number of bus stops. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m from the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--

SA Objective	Assessment Criteria - Does the site (CH132)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 500m of both Cecilly Brook (LNR) and Hales Hall Pool (LNR), the nearest designated assets. It could be considered that development of this site could possibly have an effect on this site, however these would be limited. This could therefore have an adverse effect on the District's Green Infrastructure network. The Ecological Study (2015) notes that the site mainly has low potential to support protected species as the habitats are species poor and poorly connected to other more biodiverse habitats. Nevertheless the species rich hedgerow and trees that have potential to support roosting bats gives the site ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is circa 550m away from one grade II listed assets. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting	+/?

SA Objective	Assessment Criteria - Does the site (CH132)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CH132)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 130 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment and distance away from historic assets is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's partial location within flood zone 2 and 3. The site's proximity to two Local Nature Reserves and ecological value is likely to have a negative effect.			

Table 7.110

## CH134A

SA Objective	Assessment Criteria - Does the site (CH134A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is remote and located outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of	+

SA Objective	Assessment Criteria - Does the site (CH134A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 150 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and within to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (CH134A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 800m of Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most	--/?

resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 700m of three grade II listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH134A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 150 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land and the remote nature of the site is assessed as having a significant negative effect, as could the site's partial location within flood zone 2 and 3.

However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 500m of one grade II listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (CH134B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible	+

SA Objective	Assessment Criteria - Does the site (CH134B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 150 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's partial location within flood zone 2 and 3. The site's proximity to a LNR is likely to have a negative effect.			

Table 7.112

## CH135A

SA Objective	Assessment Criteria - Does the site (CH135A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH135A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>		
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 160 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and within to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (CH135A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 800m of Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have an effect on this asset, albeit limited. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most	--/?

SA Objective	Assessment Criteria - Does the site (CH135A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 550m of two grade II listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (CH135B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
The proposed delivery of circa 110 dwellings is considered to have a significant positive effect, as its proximity to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's proximity to historic assets is likely to have a negative effect.			

Table 7.114

## CH135C

SA Objective	Assessment Criteria - Does the site (CH135C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 1,200m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to the open countryside and help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that supply	+

SA Objective	Assessment Criteria - Does the site (CH135C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 130 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the town centre of Cheadle and within to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH135C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 600m of Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have an effect on this asset, albeit limited. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope	0

SA Objective	Assessment Criteria - Does the site (CH135C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 500m of two grade II listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH135C)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 130 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect, as could its location away from historic assets. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect, as could the site's partial location within flood zone 2 and 3.			

Table 7.115

## CH165

SA Objective	Assessment Criteria - Does the site (CH165)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (CH165)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is within 800m of the town centre and the wide range of key services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 26 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (CH165)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the town centre of Cheadle and a GP surgery and adjacent to an area of open space which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the town centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (CH165)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,000m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of seventeen grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (CH165)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (CH165)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	The proposed delivery of circa 26 dwellings is considered to have a significant positive effect. However, the development of greenfield, grade 3 ALC land is assessed as having a significant negative effect. The site's proximity to historic assets is likely to have a negative effect.		

Table 7.116

## CH094

SA Objective	Assessment Criteria - Does the site (CH094)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The site is located outside of the existing settlement boundary. The development of greenfield land within the open countryside has the scope to reduce the quality of the Green Infrastructure of the Town. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is located outside of the settlement boundary on the south west edge of Cheadle. The site is more than 1,200m away from the town centre which could result in existing services and facilities being inaccessible. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> </ul>	The sites location would provide good access to areas of open space and the countryside which could help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should	0

SA Objective	Assessment Criteria - Does the site (CH094)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted, the site is more than 1,200m from the town centre of Cheadle and a GP surgery this could be expected to increase the need to travel. However, the site is near to the open country side and an area of open space and a number of bus stops. Similarly, the development of this site may lead to the provision of additional public transport services. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is more than 1,200m from the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (CH094)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,750m from Whitfield Valley (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall, apart from the diverse boundary habitats. However, these boundary habitats consist of species rich hedgerows and trees with bat potential that constitute the site being attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (CH094)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 1,000m away from any historical heritage asset, the nearest asset is grade II listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site provides scope for the development of this site to have a positive effect on investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Cheddle and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++

SA Objective	Assessment Criteria - Does the site (CH094)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Cheadle as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is proximity to areas of existing local employment provision as well as new employment provision generated by this site. Overall, this site has been assessed as having a significant positive effect on this objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, site's location away from historic assets is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land and the site's ecological value is likely to have a negative effect.			

Table 7.117

## CH136

SA Objective	Assessment Criteria - Does the site (CH136)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The site is located outside of the existing settlement boundary. The development of greenfield land within the open countryside has the scope to reduce the quality of the Green Infrastructure of the Town. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-

SA Objective	Assessment Criteria - Does the site (CH136)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is located outside of the settlement boundary on the south west edge of Cheadle. The site is more than 1,200m away from the town centre which could result in existing services and facilities being inaccessible. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The sites location would provide good access to areas of open space and the countryside which could help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted, the site is more than 1,200m from the town centre of Cheadle and a GP surgery this could be expected to increase the need to travel. However, the site is near to the open country side and an area of open space and a number of bus stops. Similarly, the development of this site may lead to the provision of additional public transport services. Overall, this site has been assessed as having a neutral effect on this Objective.	0

<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is more than 1,200m from the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is over 1,500m from Whitfield Valley (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall, apart from the diverse boundary habitats. Within these boundary habitats contain species rich hedgerows and trees with bat potential that warrant the site being attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (CH136)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 1,000m away from any historical heritage asset, the nearest asset is grade II listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CH136)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site provides scope for the development of this site to have a positive effect on investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the town centre has the scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new employment could be expected to increase footfall in the nearby town centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Cheadle as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is proximity to areas of existing local employment provision as well as new employment provision generated by this site. Overall, this site has been assessed as having a significant positive effect on this objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, site's location away from historic assets is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land and the site's ecological value is likely to have a negative effect.			

Table 7.118

**ADD05**

SA Objective	Assessment Criteria - Does the site (ADD05)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light?</li> </ul>	The site is located on the outside of the settlement boundary within the open countryside. The development of this site, a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Can an opportunity be created to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	As noted, the site is located outside of the settlement boundary on the south east edge of Cheadle. The site is more than 1,200m away from the town centre which could result in existing services and facilities being inaccessible. It should be noted that the supply of community facilities and services is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to the open countryside and areas of open space which should help to support healthy lifestyles. However, the site is more than 1,200m from a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (ADD05)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the location and size of the site, it is considered that the site could accommodate circa 186 dwellings, and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted, the site is more than 1,200m from the town centre of Cheadle and a GP surgery this could be expected to increase the need to travel. However, the site is near to the open country side and an area of open space and a number of bus stops. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m from the town centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--

SA Objective	Assessment Criteria - Does the site (ADD05)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 800m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a neutral effect on this Objective.	0
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. Similarly, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of two grade II listed assets and within 400m from one grade II listed historical heritage assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (ADD05)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 1,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the town and wider district. However, the increased population of both the town and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the town centre of Cheadle has scope to have a positive effect on the vitality and viability of Cheadle and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (ADD05)...?	Commentary on likely nature of effects of site allocation	Overall assessment
The proposed delivery of circa 186 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. However, the site's proximity to historic assets is likely to have a significant negative effect, as could the site's partial location within a flood zone. The site's proximity to designated assets and the development of greenfield, grade 4 ALC land is assessed as having a negative effect.			

**Table 7.119**

## 7.4 Larger villages

### Alton

#### Potentially suitable sites (5+ dwellings) within the Development Boundary

##### AL024 (only small part within development boundary)

SA Objective	Assessment Criteria - Does the site (AL024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a mixed brownfield and greenfield site that is set just inside of the village within the settlement boundary, although a large part of the site is outside of the settlement boundary. The development of this site could help to improve the social and environmental quality of the village centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that Alton does not have a secondary school and that the current supply of educational services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (AL024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Alton and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (AL024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,000m of Saltersford Lane Meadows SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has species rich hedgerows, and scattered scrub/ tall ruderal vegetation which are well connected to a series of other hedgerows and other habitats; therefore the site is attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on mixed brownfield and greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	0
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns /	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of four grade II listed assets. Dependent on proposal specific information, there is scope that development of this	-/?

SA Objective	Assessment Criteria - Does the site (AL024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,000m of Saltersford Lane Meadows SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Alton has scope to have a positive effect on the vitality and viability of Alton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (AL024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The site's proximity to historic assets and ecological value is likely to have a negative effect.			

Table 7.120

### Potentially suitable sites (5+ dwellings) outside the Development Boundary

#### AL012

<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and ventilation levels to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The development of this site, a mixed brownfield and greenfield site that is set outside of the village boundary could help to improve the social and environmental quality of the village centre. Overall, this site has been assessed as having a neutral effect on this Objective.	0
2. To advance equality of opportunity between all persons and eliminate social		The site is located on the outside of the village boundary, but is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site.	+

SA Objective	Assessment Criteria - Does the site (AL012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	It should be noted that Alton does not have a secondary school and that the current supply of educational services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 18 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Alton and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
ENVIRONMENTAL			

SA Objective	Assessment Criteria - Does the site (AL012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,000m of Saltersford Lane Meadows SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has 3 trees and 1 building with bat potential, species rich hedgerows, and species poor grasslands which are connected to a series of other hedgerows and other habitats. Therefore the site is attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on mixed brownfield and greenfield land. However, the land has also been assessed as	0

SA Objective	Assessment Criteria - Does the site (AL012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of eight grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,000m of Saltersford Lane Meadows SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural	+

SA Objective	Assessment Criteria - Does the site (AL012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Alton has scope to have a positive effect on the vitality and viability of Alton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 18 dwellings is considered to have a significant positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The site's proximity to historic assets and ecological value is likely to have a negative effect.

## AL019

SA Objective	Assessment Criteria - Does the site (AL019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (AL019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> <li>● Offer opportunities to help people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The development of this site, a greenfield site that is set outside of the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.</p>	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.		<p>The site is located on the outside of the village boundary, but is within 400m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that Alton does not have a secondary school and that the current supply of educational services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.</p>	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	<p>This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	<p>Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 43 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.</p>	++

SA Objective	Assessment Criteria - Does the site (AL019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Alton and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (AL019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 600m of Saltersford Lane Meadows SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one scheduled monument, one grade II* listed asset and twenty nine grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the historical heritage assets and its setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (AL019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 600m of Saltersford Lane Meadows SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Alton has scope to have a positive effect on the vitality and viability of Alton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (AL019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	The proposed delivery of circa 43 dwellings is considered to have a significant positive effect. Similarly, the site's proximity to services and facilities, albeit limited, is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and a SSSI.		

Table 7.122

## AL022

SA Objective	Assessment Criteria - Does the site (AL022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The development of this site, a mixed brownfield and greenfield site that is set outside of the village boundary could help to improve the social and environmental quality of the village centre. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.		<p>The site is located on the outside of the village boundary, but is within 400m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that Alton does not have a secondary school and that the current supply of educational services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.</p>	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	<p>The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted</p>	+

SA Objective	Assessment Criteria - Does the site (AL022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	that the current supply of health care services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 20 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Alton and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (AL022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 500m of Saltersford Lane Meadows SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) note that the site itself has five trees with bat potential, species rich hedgerows, and species poor grasslands which are connected to a series of other hedgerows and other habitats. Therefore the site is attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on mixed brownfield and greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (AL022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one scheduled monument and twenty four grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the historical heritage assets and its setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 500m of Saltersford Lane Meadows SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Alton has scope to have a positive effect on the vitality and viability of Alton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (AL022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's proximity to services and facilities, albeit limited, is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect, as could the proximity of the site to a SSSI. The site's proximity to historic assets is likely to have a negative effect.			

Table 7.123

## AL025

SA Objective	Assessment Criteria - Does the site (AL025)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is set outside of the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (AL025)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the outside of the village boundary, but is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that Alton does not have a secondary school and that the current supply of educational services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 60 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Alton and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
ENVIRONMENTAL			

SA Objective	Assessment Criteria - Does the site (AL025)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,000m of Saltersford Lane Meadows SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area but does have a species rich hedgerow and good connectivity to other habitats, which warrants the site being attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (AL025)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one scheduled monument, one grade II* listed asset and twenty five grade II listed assets. One of the grade II listed assets, Turnditch Farmhouse is within 50m of the site. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the historical heritage assets and its setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,000m of Salterford Lane Meadows SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural	+

SA Objective	Assessment Criteria - Does the site (AL025)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Alton has scope to have a positive effect on the vitality and viability of Alton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 60 dwellings is considered to have a significant positive effect. Similarly, the site's proximity to health care services and facilities is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.			

Table 7.124

## AL026

SA Objective	Assessment Criteria - Does the site (AL026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (AL026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is set outside of the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the outside of the village boundary, but is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that Alton does not have a secondary school and that the current supply of educational services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 43 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (AL026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Alton and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> </ul>	The site is within 1,000m of Saltersford Lane Meadows SSSI, the nearest designated asset, and, as such, is considered to have an effect	-/?

SA Objective	Assessment Criteria - Does the site (AL026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of eight grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement</li> </ul>	The site would be within 1,000m of Saltersford Lane Meadows SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (AL026)...? of the natural environment identified in the NCA profiles?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Alton has scope to have a positive effect on the vitality and viability of Alton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 43 dwellings is considered to have a significant positive effect. Similarly, the site's proximity to health care services and facilities is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and a SSSI.			

Table 7.125

## AL027

SA Objective	Assessment Criteria - Does the site (AL027)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The development of this site, a greenfield site that is set outside of the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective</p>	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>The site is located on the outside of the village boundary, but is within 400m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that Alton does not have a secondary school and that the current supply of educational services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant positive effect on this Objective.</p>	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently adequate but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	<p>This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	<p>Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 45 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.</p>	++

needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Alton and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (AL027)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 500m of Saltersford Lane Meadows SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has eleven trees with bat potential, species rich hedgerows, and species poor grasslands which are well connected to a series of other hedgerows and other habitats. Therefore the site is attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m of two scheduled monuments, one grade I listed asset, five grade II* listed asset and forty one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the historical heritage assets and its setting. Overall, this site has been assessed	-/?

SA Objective	Assessment Criteria - Does the site (AL027)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?	as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 500m of Saltersford Lane Meadows SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Alton has scope to have a positive effect on the vitality and viability of Alton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria - Does the site (AL027)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>		
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 45 dwellings is considered to have a significant positive effect. Similarly, the site's proximity to services and facilities is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and a SSSI.

#### BM008

SA Objective	Assessment Criteria - Does the site (BM008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is set just outside of the village could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Biddulph Moor does not have a secondary school and that education facilities and services within the town have adequate supply at present but it is expected to	--

SA Objective	Assessment Criteria - Does the site (BM008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	be outstripped by future demand. Overall, this site has been assessed as having a significant negative effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Biddulph Moor does not have a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 18 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Biddulph Moor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (BM008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	+/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Biddulph Valley Way (Whitemoor) SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has low potential to support protected species as the habitats have been deemed to have low biodiversity which are fairly poorly connected to other more biodiverse habitats, and overall is considered to have low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so	-

SA Objective	Assessment Criteria - Does the site (BM008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m from Biddulph Valley Way (Whitemoor) SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BM008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Biddulph Moor has scope to have a positive effect on the vitality and viability of Biddulph Moor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of an area of existing employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 18 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment and low ecological value is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of mixed brownfield and greenfield, grade 4 ALC land and the site's proximity to historic assets is assessed as having a negative effect.

18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m to existing area of employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 65 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and the ecological value of the site.			

Table 7.128

## BM014A

SA Objective	Assessment Criteria - Does the site (BM014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is set just outside of the village could be expected to have an effect on Green Infrastructure and environmental quality, especially given the remote nature of this site. Overall, this site has been assessed as having a negative effect on this Objective	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Biddulph Moor does not have a secondary school and that education facilities and services within the town have adequate supply at present but it is expected to	--

SA Objective	Assessment Criteria - Does the site (BM014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	be outstripped by future demand. Overall, this site has been assessed as having a significant negative effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Biddulph Moor does not have a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 15 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Biddulph Moor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (BM014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Biddulph Valley Way (Whitemoor) SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (BM014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m from a listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m of Biddulph Valley Way (Whitemoor) SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria - Does the site (BM014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Biddulph Moor has scope to have a positive effect on the vitality and viability of Biddulph Moor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m to existing area of employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and the ecological value of the site.			

Table 7.129

## BM014B

SA Objective	Assessment Criteria - Does the site (BM014B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (BM014B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set just outside of the village could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Biddulph Moor does not have a secondary school and that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Biddulph Moor does not have a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 25 dwellings and therefore also	++

SA Objective	Assessment Criteria - Does the site (BM014B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Biddulph Moor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (BM014B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Biddulph Valley Way (Whitemoor) SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m from a listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (BM014B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m of Biddulph Valley Way (Whitemoor) SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Biddulph Moor has scope to have a positive effect on the vitality and viability of Biddulph Moor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m to existing area of employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (BM014B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
The proposed delivery of circa 25 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect, as could its location away from historic assets and designated assets. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect.			

Table 7.130

## BM021

SA Objective	Assessment Criteria - Does the site (BM021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is set just outside of the village could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Biddulph Moor does not have a secondary school and that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Biddulph Moor does not have a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BM021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 7 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Biddulph Moor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (BM021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Biddulph Valley Way (Whitemoor) SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has very low potential to support protected species as the habitats are species poor and poorly connected to other more biodiverse habitats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns /	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this	-/?

SA Objective	Assessment Criteria - Does the site (BM021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m of Biddulph Valley Way (Whitemoor) SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Biddulph Moor has scope to have a positive effect on the vitality and viability of Biddulph Moor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BM021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m to existing area of employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 7 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect, as could its location away from designated assets. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is its location near to historic assets.

## BM029

SA Objective	Assessment Criteria - Does the site (BM029)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and</li> </ul>	The development of this site, a greenfield site that is set just outside of the village could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Offer opportunity to provide open space and</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Biddulph Moor does not have a secondary school and that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria - Does the site (BM029)...?	Commentary on likely nature of effects of site allocation	Overall assessment
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Biddulph Moor does not have a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Biddulph Moor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BM029)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Biddulph Valley Way (Whitemoor) SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has fairly low potential to support protected species as the habitats are species poor and fairly poorly connected to other more biodiverse habitats. However, there is potential for terrestrial amphibians to be present therefore the site is considered to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (BM029)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m of Biddulph Valley Way (Whitemoor) SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Biddulph Moor has scope to have a positive effect on the vitality and viability of Biddulph Moor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BM029)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m to existing area of employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is its location near to historic assets and the ecological value of the site.			

Table 7.132

## BM030

SA Objective	Assessment Criteria - Does the site (BM030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set just outside of the village could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-

SA Objective	Assessment Criteria - Does the site (BM030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Biddulph Moor does not have a secondary school and that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant negative effect on this Objective..	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Biddulph Moor does not have a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 60 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Biddulph Moor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BM030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Biddulph Valley Way (Whitemoor) SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (BM030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m of Biddulph Valley Way (Whitemoor) SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BM030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Biddulph Moor has scope to have a positive effect on the vitality and viability of Biddulph Moor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m to existing area of employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 60 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect, as could its location away from designated assets. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is its location near to historic assets.			

Table 7.133

**BM031**

SA Objective	Assessment Criteria - Does the site (BM031)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of life for all people by providing opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The development of this site, a greenfield site that is set just outside of the village could be expected to have an effect on Green Infrastructure and the environment. The site is located in an area of high quality agricultural land. The site is located in an area of high quality agricultural land. The site is located in an area of high quality agricultural land.</p> <p>The development of this site, a greenfield site that is set just outside of the village could be expected to have an effect on Green Infrastructure and the environment. The site is located in an area of high quality agricultural land. The site is located in an area of high quality agricultural land. The site is located in an area of high quality agricultural land.</p>	-
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Biddulph Moor does not have a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	<p>This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	<p>Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 60 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.</p>	++

SA Objective	Assessment Criteria - Does the site (BM031)...?	Commentary on likely nature of effects of site allocation	Overall assessment
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Biddulph Moor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (BM031)...?	Commentary on likely nature of effects of site allocation	Overall assessment
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Biddulph Valley Way (Whitemoor) SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has fairly low potential to support protected species as the habitats are species poor and poorly connected to other more biodiverse habitats, however the presence of buildings with bat roosting potential means the site is attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (BM031)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m of Biddulph Valley Way (Whitemoor) SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Biddulph Moor has scope to have a positive effect on the vitality and viability of Biddulph Moor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m to an existing area of employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (BM031)...?	Commentary on likely nature of effects of site allocation	Overall assessment
The proposed delivery of circa 60 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is its location near to historic assets and the ecological value of the site.			

**Table 7.134****BM032**

SA Objective	Assessment Criteria - Does the site (BM032)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is set just outside of the village could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender, reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Biddulph Moor does not have a secondary school and that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Biddulph Moor does not have a GP surgery. It should be noted that	+

SA Objective	Assessment Criteria - Does the site (BM032)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 30 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Biddulph Moor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Biddulph Valley Way (Whitemoor) SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (BM032)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m of Biddulph Valley Way (Whitemoor) SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Biddulph Moor has scope to have a positive effect on the vitality and viability of Biddulph Moor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BM032)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m to an existing area of employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 30 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is its location near to historic assets.

SA Objective	Assessment Criteria - Does the site (BM035)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (BM035)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set just outside of the village could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Biddulph Moor does not have a secondary school and that education facilities and services within the town have adequate supply at present but it is expected to be outstripped by future demand. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Biddulph Moor does not have a GP surgery. It should be noted that supply for health care services and facilities currently falls short of demand and this is expected to worsen in the future without additional investment. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BM035)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 35 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Biddulph Moor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (BM035)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Biddulph Valley Way (Whitemoor) SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has low potential to support protected species and is fairly poorly connected to other more biodiverse habitats, therefore is attributed a low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical	-/?

SA Objective	Assessment Criteria - Does the site (BM035)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m of Biddulph Valley Way (Whitemoor) SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Biddulph Moor has scope to have a positive effect on the vitality and viability of Biddulph Moor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BM035)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m to an existing area of employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 35 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is its location near to historic assets.			

Table 7.136

## Blythe Bridge &amp; Forsbrook

## Potentially suitable sites (5+ dwellings) - within the Development Boundary

## BB021

Similarly, the site is within 500m of a bus stop and train station. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	Part of the site is located within a flood zone 2 and 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to an increased water demand within the District. Overall, this site has been assessed as having a significant negative effect on this objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (BB027/28)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3,000m from Coyney Woods (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site itself has mostly low biodiversity value overall in terms of area as it consists of species poor improved grassland and tall ruderal vegetation with adjacent semi-natural broadleaved woodland and wet ditch. Although the site abuts Blyth Bridge Woods Bas it is deemed that development works are likely to have limited effect on its woodland biodiversity for what it has been designated for if a buffer zone is created. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources, and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as urban ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is more than 400m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage	+/?

SA Objective	Assessment Criteria - Does the site (B027/28)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 3,000m of Coyne Woods (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Blythe Bridge and Forsbrook has scope to have a positive effect on the vitality and viability of Blythe Bridge and Forsbrook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BB027/28)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m to an existing area of employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 27 dwellings is considered to have a significant positive effect, as is the accessibility of the site to services and facilities and public transport. Similarly, the site's accessibility to areas of existing employment is likely to have a positive effect, as could the site's location away from historic assets. However, the site is partially within flood zone 2 and 3 which is likely to have a significant negative effect. Similarly, the site is adjacent to Blyth Bridge Woods BAS which would have a negative effect, as would the development of greenfield, urban ALC land.			

Table 7.138

## BB040

<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is located outside of the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-

SA Objective	Assessment Criteria - Does the site (B040)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational and community services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Blythe Bridge and Forsbrook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 1,000m of a bus stop and train station. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BB040)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,500m from Coyney Woods (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site generally has low biodiversity apart potentially from the scattered mature trees, seven of which have potential to support roosting bats and is attributed some ecological value as a consequence. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (B040)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as urban ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,500m of Coyney Woods (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BB040)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Blythe Bridge and Forsbrook has scope to have a positive effect on the vitality and viability of Blythe Bridge and Forsbrook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site and the inaccessibility of areas of existing employment.			

Table 7.139

## BB044

SA Objective	Assessment Criteria - Does the site (BB044)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light?</li> </ul>	The development of this site, a greenfield site that is located outside of the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● <del>Does the site have the potential to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</del></li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 1,200m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational and community services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BB044)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 30 dwellings. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the village centre of Blythe Bridge and Forsbrook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop and 2,000m of a train station. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	Part of the site is located within a flood zone 2 and 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to an increased water demand within the District.	--/?

SA Objective	Assessment Criteria - Does the site (B044)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Overall, this site has been assessed as having a significant negative effect on this objective, however the exact effects are uncertain.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3,000m from Coyney Woods (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site itself although fairly florally species poor it is an important UKBAP priority wet woodland habitat mosaic and should have a management regime applied to encourage conservation rather than be developed. It also has the potential to support a number of UK protected species therefore is attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as urban ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns /	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m from a grade II listed asset. Dependent on proposal specific information, there is scope that development of this	-/?

SA Objective	Assessment Criteria - Does the site (BB044)...?	Commentary on likely nature of effects of site allocation	Overall assessment
villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	site could lead to the deterioration of the setting of this historical heritage asset. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 3,000m of Coyney Woods (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Blythe Bridge and Forsbrook has scope to have a positive effect on the vitality and viability of Blythe Bridge and Forsbrook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BB044)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 30 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to public transport is likely to have a positive effect. However, the site is partially within flood zone 2 and 3 which is likely to have a significant negative effect. Similarly, the development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site and the inaccessibility of areas of existing employment.			

Table 7.140

## BB045

SA Objective	Assessment Criteria - Does the site (BB045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support local businesses that rely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	The development of this site, a greenfield site that is located outside of the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Offer opportunity to provide open space and support local businesses that rely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	The site is located on the edge of the village, it is within 1,200m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational and community services and facilities is currently exceeding demand and is expected to do so	0

SA Objective	Assessment Criteria - Does the site (BB045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<p>pregnancy / maternity, race, religion / belief, sex and sexual orientation?</p> <ul style="list-style-type: none"> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	for the foreseeable future. Overall, this site has been assessed as having a neutral effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a neutral effect on this Objective.	0
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 15 dwellings. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the village centre of Blythe Bridge and Forsbrook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop and 2,000m of a train station. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (B045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3,500m from Coyney Woods (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site itself although florally fairly species poor it has the potential to become a species rich grassland mosaic with an appropriate management regime applied to encourage conservation rather than be developed. The presence of a number of less common species could suggest that the site could have some species missed due to seasonal vegetative die back. The site also has potential to support roosting bats and reptiles so is therefore considered to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this	-/?

SA Objective	Assessment Criteria - Does the site (BB045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as urban ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage asset. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 3,500m of Coyney Woods (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (B045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Blythe Bridge and Forsbrook has scope to have a positive effect on the vitality and viability of Blythe Bridge and Forsbrook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m to an existing area of employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to public transport is likely to have a positive effect. The site's location away from historic assets is likely to have a positive effect. However, the development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site.			

Table 7.141

## BB054

SA Objective	Assessment Criteria - Does the site (BB054)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have access to natural light and appropriate levels of privacy offered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The development of this site, a greenfield site that is located in the outside of the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective</p>	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that improves equality of opportunity for people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The site is located on the edge of the village, it is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational and community services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 50m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the historical heritage assets and	-/?

SA Objective	Assessment Criteria - Does the site (B054)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	its setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 3,500m of Coyney Woods (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Blythe Bridge and Forsbrook has scope to have a positive effect on the vitality and viability of Blythe Bridge and Forsbrook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BB054)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 70 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect. However, the site's partial location within a flood zone is assessed as having a significant negative effect. The development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site and the proximity of historic assets.			

Table 7.142

## BB062

SA Objective	Assessment Criteria - Does the site (BB062)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is located in the outside of the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located on the edge of the village, it is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be	+

SA Objective	Assessment Criteria - Does the site (B062)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	noted that the current supply of educational and community services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 20 dwellings. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Blythe Bridge and Forsbrook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 1,000m of a bus stop and train station. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (BB062)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,500m from Coyney Woods (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site itself has species poor hedgerows which are connected to a series of other hedgerows and habitats within a rural landscape. Although the site has low biodiversity value the site is considered to have some ecological value overall as the pond could potentially support great crested newts. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (B062)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as urban ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 500m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,500m of Coyney Woods (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BB062)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Blythe Bridge and Forsbrook has scope to have a positive effect on the vitality and viability of Blythe Bridge and Forsbrook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site.

18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of an existing area of employment within the village or District and, as such, could provide accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect, as could the site's location away from historic assets. However, the development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site.			

Table 7.144

## BB087

SA Objective	Assessment Criteria - Does the site (BB087)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is located outside of the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	The site is located on the edge of the village, it is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational and community services and facilities is currently exceeding demand and is expected to do so	+

SA Objective	Assessment Criteria - Does the site (BB087)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<p>pregnancy / maternity, race, religion / belief, sex and sexual orientation?</p> <ul style="list-style-type: none"> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 46 dwellings. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Blythe Bridge and Forsbrook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop and 1,000m of a train station. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (B087)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3,500m from Barlaston and Rough Close Common (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has good potential to support protected species due to the presence of two ponds and associated riparian habitat as well as adequate terrestrial habitat and potential refuges. The site is also well connected to more biodiverse habitats and the wider countryside. Therefore the site is considered to have ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (BB087)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as urban ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the historical heritage assets and its setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 3,500m of Barlaston and Rough Close Common (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (B087)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Blythe Bridge and Forsbrook has scope to have a positive effect on the vitality and viability of Blythe Bridge and Forsbrook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 46 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the site's proximity to historic assets is likely to have a negative effect. The development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site.			

Table 7.145

## Other uses

## BB021

SA Objective	Assessment Criteria - Does the site (BB021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is located in the centre of the village could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located in the centre of the village, it is within 400m of the village centre and the range of services and facilities that can be found here that could serve prospective employees of the site. It should be noted that the current supply of educational and community services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BB021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Blythe Bridge and Forsbrook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop and train station. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?

SA Objective	Assessment Criteria - Does the site (BB021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> <li>● Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>● Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>● Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 2 and 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to an increased water demand within the District. Overall, this site has been assessed as having a significant negative effect on this objective, however the exact effects are uncertain.	--/?
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3.000m from Barlaston and Rough Close Common (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site as a whole contains a fairly diverse mosaic of wet grassland, riparian habitat, unmanaged semi-improved grassland and pockets of willow scrub, adjacent to a large pond, which could potentially support populations of amphibians, reptiles, raptors, owls, ground nesting birds and foraging bats. It is also deemed that the site could potentially qualify as an SBI for its potential floral diversity. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources, and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as urban ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope	0

SA Objective	Assessment Criteria - Does the site (BB021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 600m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 3,000m of Barlaston and Rough Close Common (LNR). Given the location of the site, it is considered that there could be no effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the village centre has the scope to have a positive effect on the vitality and viability of Blythe Bridge and Forsbrook and the wider District, as new employment could be expected to increase footfall in the nearby village centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++

SA Objective	Assessment Criteria - Does the site (BB021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Blythe Bridge and Forsbrook as is could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is proximity to areas of existing local employment provision as well as new employment provision generated by this site. Overall, this site has been assessed as having a significant positive effect on this objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District, as is the accessibility of the site to services and facilities and public transport. Similarly, the site's location away from historic assets is likely to have a positive effect. However, there is scope that the site could be designated SBI land which would have a significant negative effect, as would the partial flood zone 2 and 3 designation of the site. Similarly, the development of greenfield, urban ALC land is assessed as having a negative effect.			

Table 7.146

## BB087

SA Objective	Assessment Criteria - Does the site (BB087)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (B087)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is located in the outside of the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective employees of the site. It should be noted that the current supply of educational and community services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently exceeding demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BB087)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Blythe Bridge and Forsbrook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop and 1,000m of a train station. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (B087)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	<p>The site is more than 3,500m from Barlaston and Rough Close Common (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has good potential to support protected species due to the presence of two ponds and associated riparian habitat as well as adequate terrestrial habitat and potential refuges. The site is also well connected to more biodiverse habitats and the wider countryside. Therefore the site is considered to have ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.</p>	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	<p>As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as urban ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.</p>	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	<p>As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.</p>	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	<p>The site is within 50m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the historical heritage assets and</p>	-/?

SA Objective	Assessment Criteria - Does the site (BB087)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	its setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 3,500m of Barlaston and Rough Close Common (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the village centre has the scope to have a positive effect on the vitality and viability of Blythe Bridge and Forsbrook and the wider District. as new employment could be expected to increase footfall in the nearby village centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Blythe Bridge and Forsbrook as is could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (B087)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is proximity to areas of existing local employment provision as well as new employment provision generated by this site. Overall, this site has been assessed as having a significant positive effect on this objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the site's proximity to historic assets is likely to have a significant negative effect. The development of greenfield, urban ALC land is assessed as having a negative effect, as is the ecological value of the site.

## 7.4.1 Larger Villages: Brown Edge to Cheddleton

### Brown Edge

#### Potentially suitable sites (5+ dwellings) - within the Development Boundary

##### BE003A

SA Objective	Assessment Criteria - Does the site (BE003A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is within the village could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Brown Edge does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Brown Edge does not have a GP surgery and	+

SA Objective	Assessment Criteria - Does the site (BE003A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 6 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Brown Edge as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BE003A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,750m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area, surrounded by dwellings with poor connectivity to the wider countryside and therefore is deemed as having low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (BE003A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 600m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,750m from Marshes Hill Common (LNR). Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Brown Edge has scope to have a positive effect on the vitality and viability of Brown Edge and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BE003A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The site's proximity to the village centre could reduce the need to travel and as such have a positive effect on climate change which is likely to have a significant positive effect. The proposed delivery of circa 6 dwellings is considered to have a positive effect, as is its distance away from historic assets and low ecological value. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect.			

Table 7.148

However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (BE032)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of a grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,000m from Marshes Hill Common (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BE032)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Brown Edge has scope to have a positive effect on the vitality and viability of Brown Edge and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 35 dwellings is considered to have a significant positive effect. Similarly, the site's low ecological value is likely to have a positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets.			

Table 7.149

**BE041**

SA Objective	Assessment Criteria - Does the site (BE041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			

SA Objective	Assessment Criteria - Does the site (BE041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and views?</li> </ul>	The development of this site, a greenfield site that is outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Brown Edge does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Brown Edge does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 50 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (BE041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Brown Edge as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (BE041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,250m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly low to medium biodiversity value overall in terms of area. It is surrounded by dwellings and species poor grassland with fairly good connectivity to the wider countryside, therefore is deemed to have some ecological value due to the presence of some areas of floral diversity and the assemblage of mature trees of which eight are deemed to have potential to support roosting bats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is more than 400m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage	+/?

SA Objective	Assessment Criteria - Does the site (BE041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,250m from Marshes Hill Common (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Brown Edge has scope to have a positive effect on the vitality and viability of Brown Edge and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BE041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. Similarly, the site's distance away from historic assets is likely to have a positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the ecological value of the site.

7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,500m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area, surrounded by dwellings and species poor grassland with fairly good connectivity to the wider countryside. However the presence of mature trees especially with seven of them having the potential to support roosting bats qualifies the site to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (BE044)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 600m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,500m from Marshes Hill Common (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BE044)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Brown Edge has scope to have a positive effect on the vitality and viability of Brown Edge and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's distance away from historic assets is likely to have a positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the ecological value of the site.

5. To ensure adequate quality and provision of a range of	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	<p>Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 35 dwellings and therefore also</p>	++

SA Objective	Assessment Criteria - Does the site (BE045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Brown Edge as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (BE045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,500m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site itself has five trees with bat potential, species rich hedgerows, and tall ruderal vegetation which are connected to a series of other hedgerows and habitats, that forms an important potentially biodiverse mosaic and therefore warrants being assigned some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is more than 500m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (BE045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,500m from Marshes Hill Common (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Brown Edge has scope to have a positive effect on the vitality and viability of Brown Edge and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (BE045)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 35 dwellings is considered to have a significant positive effect. Similarly, the site's distance away from historic assets is likely to have a positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the ecological value of the site.			

Table 7.152

## BE056

SA Objective	Assessment Criteria - Does the site (BE056)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 800m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Brown Edge does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It	+

SA Objective	Assessment Criteria - Does the site (BE056)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	should be noted that Brown Edge does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 15 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Brown Edge as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BE056)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,000m of Marshes Hill Common (LNR), the nearest designated asset, and, as such, there is scope that development could have an effect on this asset. The Ecological Study (2015) notes that the site itself has two trees with bat potential, and species rich hedgerows which form the main biodiversity interest and therefore the site has been deemed to have some ecological value, although is fairly poorly connected to other biodiverse habitats within the locality. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (BE056)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 1,000m from Marshes Hill Common (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Brown Edge has scope to have a positive effect on the vitality and viability of Brown Edge and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BE056)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the ecological value of the site.

SA Objective	Assessment Criteria - Does the site (BE060)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is remote, outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria - Does the site (BE060)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Brown Edge does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Brown Edge does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 60 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Brown Edge as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (BE060)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	+/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,500m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (BE060)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of a grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 1,500m from Marshes Hill Common (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria - Does the site (BE060)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Brown Edge has scope to have a positive effect on the vitality and viability of Brown Edge and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 60 dwellings is considered to have a significant positive effect. Similarly, the site's distance away from designated assets is likely to have a positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets.			

Table 7.154

## ADD06

SA Objective	Assessment Criteria - Does the site (ADD06)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			

SA Objective	Assessment Criteria - Does the site (ADD06)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Brown Edge does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Brown Edge does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the location and size of the site, it is considered that the site could accommodate circa 15 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (ADD06)...?	Commentary on likely nature of effects of site allocation	Overall assessment
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Brown Edge as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> </ul>	The site is more than 1,000m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is considered to have no effect	+/?

SA Objective	Assessment Criteria - Does the site (ADD06)...?	Commentary on likely nature of effects of site allocation	Overall assessment
plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of a grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement</li> </ul>	The site would be more than 1,000m from Marshes Hill Common (LNR). Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (ADD06)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	of the natural environment identified in the NCA profiles?		
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Brown Edge has scope to have a positive effect on the vitality and viability of Brown Edge and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the location away from designated assets is considered to have a positive effect. However, the site is relatively inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets.

## Cheddleton

## Potentially suitable sites (5+ dwellings) - within the Development Boundary

## CD004

SA Objective	Assessment Criteria - Does the site (CD004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is both inside and outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 1,200m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cheddleton does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cheddleton does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CD004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 18 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is more than 1,200m from the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m from the village centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (CD004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage; however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,750m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that site has some potential for protected species to be present due to the proximity and connection to semi-natural broadleaved woodland. However, as a reptile survey is recommended the site is considered to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns /	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of two grade II listed assets. Dependent on proposal specific information, there is scope that development of this	-/?

SA Objective	Assessment Criteria - Does the site (CD004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 1,750m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CD004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 18 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. Similarly, the site's accessibility to areas of countryside and open space is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and the ecological value of the site.			

Table 7.156

## CD017

SA Objective	Assessment Criteria - Does the site (CD017)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a mixed brownfield and greenfield site that is both inside and outside the village boundary could help to improve the social and environmental quality of the village centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located on the edge of the village, it is within 800m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cheddleton does not	--

SA Objective	Assessment Criteria - Does the site (CD017)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cheddleton does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 29 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is more than 800m from the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (CD017)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 800m from the village centre and could increase the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that site has mostly low biodiversity value overall in terms of area. The major aspects of interest are focused on the species rich hedgerow and bat potential in the oak and sycamore trees and general potential for supporting breeding birds in the scattered trees and hedgerows. Therefore the site is deemed to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (CD017)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on mixed brownfield and greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	0
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of four grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 2,000m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CD017)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 29 dwellings is considered to have a significant positive effect, as could the site's proximity to areas of existing employment. Similarly, the site's accessibility to areas of countryside and open space is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the site's proximity to historic assets and the ecological value of the site is likely to have a negative effect.			

Table 7.157

## CD029

SA Objective	Assessment Criteria - Does the site (CD029)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light</li> </ul>	The development of this site, a greenfield site that is within the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● <del>and appropriate levels of privacy?</del> Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 1,200m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cheddleton does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cheddleton does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CD029)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 8 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is more than 1,200m from the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 1,000m of a bus stop. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m from the village centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (CD029)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,750m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 500m from listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (CD029)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 1,750m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (CD029)...?	Commentary on likely nature of effects of site allocation	Overall assessment
The site's proximity to areas of existing employment is considered to have a significant positive effect. Similarly, the proposed delivery of circa 8 dwellings is likely to have a positive effect, as could the site's accessibility to areas of open countryside and location away from historic assets. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's inaccessibility to services and facilities.			

Table 7.158

## CD060/CD118

SA Objective	Assessment Criteria -Does the site (CD060/118)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is both inside and outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cheddleton does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It	+

SA Objective	Assessment Criteria -Does the site (CD0060/118)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	should be noted that Cheddleton does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 113 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria -Does the site (CD0060/118)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,500m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has very low biodiversity value overall with only trees and the hedgerow having potential for supporting breeding birds, foraging bats and badger. Therefore the site is considered to have low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as mixed grade 3 and 4 ALC land, so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria -Does the site (CD0060/118)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from one grade II* listed asset and eight grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 1,500m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CD0060/118)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 113 dwellings is considered to have a significant positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 3 and 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and the inaccessibility of areas of existing employment.

## CD0069A

SA Objective	Assessment Criteria - Does the site (CD0069A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (CD0069A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is inside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 800m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cheddleton does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cheddleton does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 6 dwellings and therefore also	+

SA Objective	Assessment Criteria - Does the site (CD0069A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (CD0069A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,250m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly very low biodiversity overall and is located near to an urban environment with little connectivity to the wider countryside which lowers the biodiversity of the area considerably. Therefore the site is deemed to have low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as mixed grade 4 ALC land, so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m from one scheduled monument, seven grade II* listed assets and nineteen grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a	-/?

SA Objective	Assessment Criteria - Does the site (CD0069A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?	negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 2,250m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria - Does the site (CD0069A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 6 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open countryside and low ecological value is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the site's inaccessibility to areas of existing employment is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets.			

**Table 7.160****CD088**

SA Objective	Assessment Criteria - Does the site (CD088)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green-Infrastructure?</li> </ul>	The development of this site, a mixed brownfield and greenfield site that is inside the village boundary could help to improve the social and environmental quality of the village centre. Overall, this site has been assessed as having a positive effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cheddleton does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cheddleton does not have a GP surgery and that	+

	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 7 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CD088)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this Objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,250m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has mostly very low biodiversity value overall and is set within an urban environment with little connectivity to the wider countryside which lowers the biodiversity of the area considerably. However, since there is potential for the building to support roosting bats the site is deemed to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources, and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on mixed brownfield and greenfield land. However, the land has also been assessed as mixed grade 4 ALC land, so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CD088)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from one scheduled monument and eight grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 2,250m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CD088)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 7 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open countryside is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the site's inaccessibility to areas of existing employment is likely to have a negative effect. The site's proximity to historic assets and the ecological value of the site is likely to have a negative effect.			

Table 7.161

## Potentially suitable sites (5+ dwellings) - within the Green Belt

## CD002

SA Objective	Assessment Criteria - Does the site (CD002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (CD002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 1,200m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cheddleton does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cheddleton does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 26 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (CD002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is more than 1,200m from the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 1,000m of a bus stop. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m from the village centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (CD002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,750m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that site has mostly low biodiversity value overall in terms of area. However, the major aspects of interest are the significant bat potential in the five trees and the species rich hedgerow which constitutes the site being given some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is more than 500m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (CD002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 1,750m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CD002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 26 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment and open countryside, as well as the site's location away from historic assets is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's ecological value.			

Table 7.162

resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from one grade II listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 1,750m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CD003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 70 dwellings is considered to have a significant positive effect, as is the site's accessibility to areas of existing employment. Similarly, the site's accessibility to the open countryside is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's ecological value and location near to historic assets.			

Table 7.163

## CD007

SA Objective	Assessment Criteria - Does the site (CD007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			

SA Objective	Assessment Criteria - Does the site (CD007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 1,200m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cheddleton does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cheddleton does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 14 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (CD007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is more than 1,200m from the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 1,200m from the village centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (CD007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from one grade II listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (CD007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 2,000m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (CD007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		The proposed delivery of circa 14 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to the open countryside and areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect and location near to historic assets.	

**Table 7.164****CD008**

SA Objective	Assessment Criteria - Does the site (CD008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 1,200m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cheddleton does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cheddleton does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CD008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 23 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m from the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is within 1,200m from the village centre and could increase the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (CD008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 2,000m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CD008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 23 dwellings is considered to have a significant positive effect, as is the site's accessibility to areas of existing employment. Similarly, the site's accessibility to the open countryside is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect and location near to historic assets.			

Table 7.165

## CD015

SA Objective	Assessment Criteria - Does the site (CD015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located on the edge of the village, it is within 1,200m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cheddleton does not	--

SA Objective	Assessment Criteria - Does the site (CD015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cheddleton does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 30 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m from the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (CD015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is within 1,200m from the village centre and could increase the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (CD015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from three grade II listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 2,000m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria - Does the site (CD015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 30 dwellings is considered to have a significant positive effect, as is the site's accessibility to areas of existing employment. Similarly, the site's accessibility to the open countryside is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect and location near to historic assets.			

Table 7.166

## CD019

SA Objective	Assessment Criteria - Does the site (CD019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (CD019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 800m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cheddleton does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cheddleton does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 39 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (CD019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m from the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> </ul>	The site is more than 2,000m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have no effect on this	+/?

SA Objective	Assessment Criteria - Does the site (CD019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	asset. The Ecological Study (2015) notes that site has mostly low biodiversity value overall in terms of area. The major aspects of interest are focussed on the species rich hedgerow and bat potential in the oak and sycamore trees and general potential for supporting breeding birds in the scattered trees and hedgerows. Therefore the site is deemed to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from eight grade II listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> </ul>	The site would be more within 2,000m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on	0

SA Objective	Assessment Criteria - Does the site (CD019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (CD019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
The proposed delivery of circa 39 dwellings is considered to have a significant positive effect, as is the site's accessibility to areas of existing employment. Similarly, the site's accessibility to the open countryside is likely to have a positive effect. However, the inaccessibility of services and facilities is likely to have a significant negative effect. Similarly, the development of greenfield, grade 4 ALC land is assessed as having a negative effect and its location near to historic assets.			

Table 7.167

## CD115

SA Objective	Assessment Criteria - Does the site (CD115: residential)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cheddleton does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria - Does the site (CD115: residential)...?	Commentary on likely nature of effects of site allocation	Overall assessment
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cheddleton does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 104 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CD115: residential)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has very low biodiversity value overall with only trees and the hedgerow having potential for supporting breeding birds, and foraging bats and badger. Therefore the site is attributed a low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land, so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (CD115: residential)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from one grade II* listed asset and ten grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 2,000m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CD115: residential)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 104 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and areas of existing employment is likely to have a positive effect. However, the inaccessibility of services and facilities and development of greenfield, grade 3 ALC land is likely to have a significant negative effect. Similarly, the sites proximity to historic assets is likely to have a negative effect.			

**Table 7.168****Other Uses****CD115**

SA Objective	Assessment Criteria - Does the site (CD115: alternative uses)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (CD115: alternative uses)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside the village boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> <li>● Help to minimise any disadvantage suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. However, the proposed mixed use of this site may introduce new services and facilities into the village. It should be noted that Cheddleton does not have a secondary school but supply of educational and community services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents and employees with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cheddleton does not have a GP surgery and that the GP surgery serving the settlement currently has adequate supply but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 104 dwellings and therefore also provide a quantum of affordable housing on site. It is acknowledge that	++

SA Objective	Assessment Criteria - Does the site (CD115: alternative uses)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	the site is proposed as mixed use which may reduce the quantum of housing delivered by this site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Cheddleton as well as being within the open countryside which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (CD115: alternative uses)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	<p>The site is more than 2,000m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have no effect on this asset. The Ecological Study (2015) notes that the site has very low biodiversity value overall with only trees and the hedgerow having potential for supporting breeding birds, and foraging bats and badger. Therefore the site is attributed a low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.</p>	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	<p>As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land, so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.</p>	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	<p>As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.</p>	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	<p>The site is within 400m from one grade II* listed asset and ten grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. SA Objective	Assessment Criteria - Does the site (CD115: alternative uses)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more within 2,000m from Churnet Valley SSSI. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed mixed use of this site could have an effect on investment in culture and tourism within the village and wider district. Similarly, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a mixed use site with good access to the village centre of Cheddleton has scope to have a positive effect on the vitality and viability of Cheddleton and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a significant positive effect on this Objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and proposed employment use of the site could encourage investment in people and infrastructure through developer contributions and strengthen and diversify the economy. Overall, this site has been assessed as having a significant positive effect on this Objective, however the exact effects are uncertain.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective resident as well as new employment provision on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (CD115: alternative uses)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the provision of housing provided is likely to have a significant positive effect. However, the inaccessibility of services and facilities and development of greenfield, grade 3 ALC land is likely to have a significant negative effect. Similarly, the site's proximity to historic assets is likely to have a negative effect.			

**Table 7.169**

## 7.4.2 Larger villages: Endon to Kingsley

### Endon

#### Potentially suitable sites (5+ dwellings) - within the Development Boundary

#### EN128

SA Objective	Assessment Criteria - Does the site (EN128)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set inside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located in the centre of the village and is within 400m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. The site is in proximity to Endon High School. It should be noted that the current supply of educational services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted	+

SA Objective	Assessment Criteria - Does the site (EN128)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 27 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Endon and 800m of a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (EN128)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is considered not to have an effect on this asset. The Ecological Study (2015) notes that the site has fairly low biodiversity value overall and the site is set within a mainly urban environment with poor connectivity to the wider countryside. However, the site has been attributed some ecological value due to the presence of one tree with bat roosting potential and a species rich hedgerow. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on mixed brownfield and greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (EN128)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m from Marshes Hill Common (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Endon has scope to have a positive effect on the vitality and viability of Endon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EN128)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 27 dwellings is considered to have a significant positive effect, as is the site's proximity to services and facilities. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The site's proximity to historic assets and ecological value is likely to have a negative effect.			

Table 7.170

## Potentially suitable sites (5+ dwellings) - within the Green Belt

EN007

SA Objective	Assessment Criteria - Does the site (EN007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (EN007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 400m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 45 dwellings and therefore also	++

SA Objective	Assessment Criteria - Does the site (EN007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Endon and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--

SA Objective	Assessment Criteria - Does the site (EN007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,250m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site is directly adjacent to a housing estate and species poor grasslands, which reduces the value of the site as a whole to bats and other species of wildlife. The site also has mostly low biodiversity value overall in terms of area, but due to its assemblage of mature trees and wet areas with associated fauna the site is deemed as of some ecological value in terms of its loss to the wider countryside. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of one scheduled monument and sixteen grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of	-/?

SA Objective	Assessment Criteria - Does the site (EN007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The proposal would be more than 2,250m from Marshes Hill Common (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on the landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Endon has scope to have a positive effect on the vitality and viability of Endon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (EN007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 45 dwellings is considered to have a significant positive effect, as is the site's proximity to services and facilities. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect, as could its partial location within a flood zone. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

SA Objective	Assessment Criteria - Does the site (EN012),...?	Commentary on likely nature of effects of site allocation	Overall assessment
SOCIAL			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"><li>● Make a positive contribution towards community cohesion?</li></ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
	<ul style="list-style-type: none"><li>● Offer opportunity to improve neighbourhood quality?</li></ul>		
	<ul style="list-style-type: none"><li>● Offer opportunity to provide open space and support Green Infrastructure?</li></ul>		
	<ul style="list-style-type: none"><li>● Risk unacceptable light and noise pollution?</li></ul>		
	<ul style="list-style-type: none"><li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li></ul>		

SA Objective	Assessment Criteria - Does the site (EN012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 24 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Endon and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EN012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,500m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area though the dry ditch to the east adds some extra biodiversity to the site. The major aspects of interest across the site is the significant bat potential in the two trees and general potential for supporting reptiles and amphibians that warrants the site being attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (EN012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. SA Objective	Assessment Criteria - Does the site (EN012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Endon has scope to have a positive effect on the vitality and viability of Endon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 24 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.			

Table 7.172

## EN019

SA Objective	Assessment Criteria - Does the site (EN019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EN019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 8 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Endon and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (EN019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,750m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area with the major aspect of interest being the significant bat potential in the one tree, which affords some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns /	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of eight grade II listed assets. Dependent on proposal specific information, there is scope that development of this	-/?

SA Objective	Assessment Criteria - Does the site (EN019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The proposal would be more than 1,750m from Marshes Hill Common (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Endon has scope to have a positive effect on the vitality and viability of Endon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (EN019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 8 dwellings is considered to have a positive effect. Similarly, the site's accessibility to services, facilities and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.			

Table 7.173

## EN024

SA Objective	Assessment Criteria - Does the site (EN024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. The site is in proximity to Endon High School. It should be noted that the current supply of educational services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EN024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 7 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Endon and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EN024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,250m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has fairly low biodiversity value overall, mainly being improved grazed grassland. The trees and hedgerow have potential for supporting foraging bats and badger as well as terrestrial habitat for amphibians and reptiles. Therefore the site is attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (EN024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of two grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The proposal would be more than 2,250m from Marshes Hill Common (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on the landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Endon has scope to have a positive effect on the vitality and viability of Endon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EN024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 7 dwellings is considered to have a positive effect. Similarly, the site's accessibility to services, facilities and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect, as could its partial location within a flood zone. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.			

Table 7.174

## EN030

SA Objective	Assessment Criteria - Does the site (EN030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (EN030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 1,200m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 10 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the village centre of Endon and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EN030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 2 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a negative effect on this objective.	-
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,250m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so	-

SA Objective	Assessment Criteria - Does the site (EN030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one scheduled monument, one grade II* listed asset, seventeen grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The proposal would be more than 2,250m from Marshes Hill Common (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Chumet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EN030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Endon has scope to have a positive effect on the vitality and viability of Endon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 10 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services, facilities is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land partially within flood zone 2 is assessed as having a negative effect, as is the site's proximity to historic assets.			

Table 7.175

## EN033

SA Objective	Assessment Criteria - Does the site (EN033)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (EN033)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 400m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Endon and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EN033)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2.500m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area and is poorly connected to other more diverse habitats apart from two ponds less than 200m away to the east, which increases the sites ecological value in terms of its loss within the wider countryside. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (EN033)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The proposal would be more than 2,500m from Marshes Hill Common (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (EN033)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Endon has scope to have a positive effect on the vitality and viability of Endon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 12 dwellings is considered to have a significant positive effect, as is the accessibility of services and facilities. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.			

Table 7.176

## EN079

SA Objective	Assessment Criteria - Does the site (EN079)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 400m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 18 dwellings and therefore also	++

SA Objective	Assessment Criteria - Does the site (EN079)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Endon and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--

SA Objective	Assessment Criteria - Does the site (EN079)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,250m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site is directly adjacent to a housing estate and species poor grasslands, which reduces the value of the site as a whole to bats and other species of wildlife. The site also has mostly low biodiversity value overall in terms of area, but due to its assemblage of mature trees and wet areas with associated fauna the site is attributed some ecological value in terms of its loss to the wider countryside. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of one scheduled monument and seventeen grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the	-/?

SA Objective	Assessment Criteria - Does the site (EN079)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The proposal would be more than 2,500m from Marshes Hill Common (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Endon has scope to have a positive effect on the vitality and viability of Endon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (EN079)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 18 dwellings is considered to have a significant positive effect, as is the accessibility of services and facilities. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect, as could its partial location within a flood zone. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.			

Table 7.177

## EN101

SA Objective	Assessment Criteria - Does the site (EN101)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support for community facilities that are likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.</p>	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.		The site is located on the edge of the village and is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EN101)...?	Commentary on likely nature of effects of site allocation	Overall assessment
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 54 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Endon and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EN101)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,750m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site is directly adjacent to a housing estate and species poor grasslands, but is well connected to other more biodiverse habitats. The site also has mostly low biodiversity value overall in terms of area. However, the major aspects of interest are the significant bat roosting potential in the ten trees, connectivity to other more biodiverse habitats and the dry ditch that could support reptile populations which warrants the site being attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (EN101)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>		
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of eighteen grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The proposal would be more than 1,750m from Marshes Hill Common (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on the landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria - Does the site (EN101)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Endon has scope to have a positive effect on the vitality and viability of Endon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 54 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

## EN125

SA Objective	Assessment Criteria - Does the site (EN125)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (EN125)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 1,200m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 1,200m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 14 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (EN125)...?	Commentary on likely nature of effects of site allocation	Overall assessment
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 1,200m of the village centre of Endon and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 1,200m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a neutral effect on this Objective.	0
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> </ul>	The site is more than 2,250m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is not considered to have an	+/?

SA Objective	Assessment Criteria - Does the site (EN125)...?	Commentary on likely nature of effects of site allocation	Overall assessment
plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one scheduled monument, one grade II* listed asset and twenty three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement</li> </ul>	The proposal would be more than 2,250m from Marshes Hill Common (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (EN125)...? of the natural environment identified in the NCA profiles?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Endon has scope to have a positive effect on the vitality and viability of Endon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 14 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets.			

Table 7.179

## EN126

SA Objective	Assessment Criteria –Does the site (EN126)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.</p>	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Help to improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>The site is located on the edge of the village and is within 400m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a significant positive effect on this Objective.</p>	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	<p>The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	<p>This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
5. To ensure adequate quality and provision of a range of house types to meet local		<p>Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.</p>	++

SA Objective	Assessment Criteria -Does the site (EN126)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Endon and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--

SA Objective	Assessment Criteria -Does the site (EN126)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2.500m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has fairly poor biodiversity and has poor connectivity to the wider countryside. However, as the site has a number of trees with bat roosting potential and habitats that could support reptiles and terrestrial amphibians the site has been attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria -Does the site (EN126)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The proposal would be more than 2,500m from Marshes Hill Common (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on the landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Endon has scope to have a positive effect on the vitality and viability of Endon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria -Does the site (EN126)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 12 dwellings is considered to have a significant positive effect, as could its accessibility to services and facilities. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which is likely to have a significant negative effect, as could its partial location within a flood zone. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.			

**Table 7.180****Other Uses****EN024\***

SA Objective	Assessment Criteria - Does the site (EN024*)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective employees of the site. The site is in proximity to Endon High School. It should be noted that the current supply of educational services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted	+

SA Objective	Assessment Criteria - Does the site (EN024*)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	The site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Endon and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (EN024*)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,250m from Marshes Hill Common (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has fairly low biodiversity value overall, mainly being improved grazed grassland. The trees and hedgerow have potential for supporting foraging bats and badger as well as terrestrial habitat for amphibians and reptiles. Therefore the site is attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (EN024*)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of two grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The proposal would be more than 2,250m from Marshes Hill Common (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a neutral effect on this Objective.	0
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site could have an effect on investment in culture and tourism within the village and wider district. Similarly, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a employment site with good access to the village centre of Endon has scope to have a positive effect on the vitality and viability of Endon and the wider District, as new employees could be expected to increase footfall. Overall, this has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (EN024*)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Endon as it could strengthen and diversify the economy. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The creation of new employment provision by the site could be expected to help meet the employment needs of people within the village and wider district. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site's accessibility to areas of open countryside, services and facilities and low ecological value is likely to have a positive effect. However, the site is partially located within a flood zone which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets.

## Ipstones

## Potentially suitable sites (5+ dwellings) - within the Development Boundary

## IP019

SA Objective	Assessment Criteria - Does the site (IP019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (IP019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support community cohesion?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Support disadvantaged people or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 400m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that Ipstones does not have a secondary school but that the current supply of educational services and facilities exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 35 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> </ul>	As noted previously, the site is within 400m of the village centre of Ipstones and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village.	+

SA Objective	Assessment Criteria - Does the site (IP019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> </ul>	The site is within 1,000m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that apart from roosting bats the site has little potential to support protected species and fairly poorly connected to the wider countryside, but their presence gives the site	-/?

SA Objective	Assessment Criteria - Does the site (IP019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II* listed asset and twenty seven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement</li> </ul>	The site would be within 1,000m of Churnet Valley SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (IP019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	of the natural environment identified in the NCA profiles?		
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 35 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to designated and historic assets and ecological value.			

Table 7.182

## SOCIAL

SA Objective	Assessment Criteria - Does the site (IP014)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and access to the level of a highway?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Can an appropriate mix of services be provided to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 400m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that Ipstones does not have a secondary school but that the current supply of educational services and facilities exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help	+

SA Objective	Assessment Criteria - Does the site (IP011)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 15 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Ipstones and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate	+

SA Objective	Assessment Criteria - Does the site (IP011)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,250m from Churnet Valley SSSI, the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that site has little potential to support protected species apart from foraging bats and badger, and is fairly poorly connected to the wider countryside, though as a species rich hedgerow is present the site is attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of one grade II* listed asset and twenty four grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the	-/?

SA Objective	Assessment Criteria - Does the site (IP011)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,250m of Churnet Valley SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (IP011)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.

		regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to historic assets and ecological value.			

Table 7.184

## IP014A

SA Objective	Assessment Criteria - Does the site (IP014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (IP014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 400m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that Ipstones does not have a secondary school but that the current supply of educational services and facilities exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 35 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> </ul>	As noted previously, the site is within 400m of the village centre of Ipstones and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (IP014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>		
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> </ul>	The site is within 750m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has little potential to support protected species apart from foraging bats and badger. The wet ditch also supports species poor tall ruderal vegetation which forms	-/?

SA Objective	Assessment Criteria - Does the site (IP014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	a connection to the wider countryside, but the site is considered overall to have low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II* listed asset and thirty five grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement</li> </ul>	The site would be within 750m of Churnet Valley SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (IP014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	of the natural environment identified in the NCA profiles?		
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 35 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the site's proximity to designated and historic assets.			

Table 7.185

## IP015

SA Objective	Assessment Criteria - Does the site (IP015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● and appropriate levels of privacy?</li> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 800m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that Ipstones does not have a secondary school but that the current supply of educational services and facilities exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities is currently adequate but is expected to be outstripped by future demand. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (IP015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 22 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Ipstones and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (IP015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 400m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has low potential to support protected species as the habitats are species poor and poorly connected to other more biodiverse habitats, therefore the site is deemed as having low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 50m of two grade II listed assets and within 400m of eight grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (IP015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 400m of Churnet Valley SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (IP015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>		
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 22 dwellings is considered to have a significant positive effect, as is the site's proximity to areas of existing employment. Similarly, the site's accessibility to health care and open space is likely to have a positive effect. However, the site is in proximity to a designated asset, Churnet Valley SSSI which is likely to have a significant negative effect, as could the site's proximity to listed assets. The development of greenfield, grade 4 ALC land is assessed as having a negative effect.			

Table 7.186

## Kingsley

## Potentially suitable sites (5+ dwellings) - within the Development Boundary

## KG024

SA Objective	Assessment Criteria - Does the site (KG024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> </ul>	The development of this site, a brownfield site that is within the settlement boundary, could help to improve the social and environmental quality of the village. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 800m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Kingsley does not have a secondary school but that the current supply of educational services and facilities exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria - Does the site (KG024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Kingsley does not have a GP surgery and, accordingly, the current supply of health care services and facilities is falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Kingsley as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KG024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 750m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall with the main features of ecological interest contained within the potential for the buildings to support roosting bats, which attributes the site some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on brownfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KG024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of one grade II listed assets and within 400m of four grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 750m of Churnet Valley SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KG024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and the partial brownfield nature of the site is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. The site's proximity to designated and historic assets is likely to have a negative effect, as could the site's ecological value.

## KG059

SA Objective	Assessment Criteria - Does the site (KG059)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is within the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-

SA Objective	Assessment Criteria - Does the site (KG059)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. The site is in proximity of St. Werburghs C of E Primary School. It should be noted that Kingsley does not have a secondary school but that the current supply of educational services and facilities exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Kingsley does not have a GP surgery and, accordingly, the current supply of health care services and facilities is falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 6 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Kingsley as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KG059)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,000m from Churnet Valley SSSI and Frogghall Meadow and Pastures SSSI, the nearest designated assets, and, as such, is considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so	--/?

SA Objective	Assessment Criteria - Does the site (KG059)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of one grade II listed assets and within 400m of eight grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,000m of Churnet Valley SSSI and Frogghall Meadow and Pastures SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural	+

SA Objective	Assessment Criteria - Does the site (KG059)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 6 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. Similarly, the site's proximity to historic assets and the development of greenfield, grade 3 ALC land is likely to also have a significant negative effect. The site's proximity to designated assets is likely to have a negative effect.			

Table 7.188

## Potentially suitable sites (5+ dwellings) - within the Green Belt

## KG005

SA Objective	Assessment Criteria - Does the site (KG005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support for recreation facilities that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Support for recreation facilities that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located outside of the village, it is within 800m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Kingsley does not have a secondary school but that the current supply of educational services and facilities exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Kingsley does not have a GP surgery and, accordingly, the current supply of health care services and facilities is falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 7 dwellings and therefore also	+

SA Objective	Assessment Criteria - Does the site (KG005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	
6. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (KG005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,250m from Churnet Valley SSSI, the nearest designated assets, and, as such, is not considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (KG005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,250m of Churnet Valley SSSI and may not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (KG005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
The proposed delivery of circa 7 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. Similarly, development of greenfield, grade 3 ALC land is likely to also have a significant negative effect and the site's proximity to historic assets.			

Table 7.189

## KG019

SA Objective	Assessment Criteria - Does the site (KG019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings are not disadvantaged by their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective</p>	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver services that are accessible to all people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The site is located outside of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. The site is in proximity of St. Werburghs C of E Primary School. It should be noted that Kingsley does not have a secondary school but that the current supply of educational services and facilities exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.</p>	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	<p>The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Kingsley does not have a GP surgery and,</p>	+

SA Objective	Assessment Criteria - Does the site (KG019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	accordingly, the current supply of health care services and facilities is falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 30 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Kingsley as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KG019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 750m from Churnet Valley SSSI and Froghall Meadow and Pastures SSSI, the nearest designated assets, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has fairly low biodiversity value overall, the major aspects of interest being the bat potential in the tree and building which accords the site overall some ecological value in terms of its loss to the wider countryside. This is supported by general potential for supporting breeding birds and foraging bats in the scattered trees, hedgerows and to a lesser extent the tall ruderal vegetation. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (KG019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of eleven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 750m of Churnet Valley SSSI and Frogghall Meadow and Pastures SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (KG026A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,250m from Churnet Valley SSSI, the nearest designated assets, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area, is adjacent to farm buildings, dwellings and species poor grasslands with poor connectivity to the wider countryside. However, the site is attributed some ecological value due to the potentially species rich hedgerow and two trees with bat potential. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the of these historical heritage	-/?

SA Objective	Assessment Criteria - Does the site (KG026A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,250m of Churnet Valley SSSI and may not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (KG026A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 30 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. Similarly, development of greenfield, grade 3 ALC land is likely to also have a significant negative effect. The site's proximity to designated and historic assets is likely to have a negative effect.			

Table 7.191

## KG026B

SA Objective	Assessment Criteria - Does the site (KG026B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and open space?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver a development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,...</li> </ul>	The site is located outside of the village, it is within 800m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Kingsley does not have a secondary school but that the current supply of educational services and facilities exceeds demand and is expected to do so for the	--

SA Objective	Assessment Criteria - Does the site (KG026B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Kingsley does not have a GP surgery and, accordingly, the current supply of health care services and facilities is falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 50 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Kingsley as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (KG026B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	+/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,250m from Churnet Valley SSSI, the nearest designated assets, and, as such, is not considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most	--/?

SA Objective	Assessment Criteria - Does the site (KG026B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the of these historical heritage assets and their setting. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,250m of Churnet Valley SSSI and may not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KG026B)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. Similarly, development of greenfield, grade 3 ALC land is likely to also have a significant negative effect.

15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (KG030A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	The proposed delivery of circa 25 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. Similarly, development of greenfield, grade 3 ALC land is likely to also have a significant negative effect. The site's proximity to historic assets is likely to have a negative effect.		

**Table 7.193****KG031**

SA Objective	Assessment Criteria - Does the site (KG031)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located outside of the village, it is within 800m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Kingsley does not have a secondary school but that the current supply of educational services and facilities exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Kingsley does not have a GP surgery and,	+

SA Objective	Assessment Criteria - Does the site (KG031)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	accordingly, the current supply of health care services and facilities is falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 20 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Kingsley as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KG034)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,250m from Churnet Valley SSSI, the nearest designated assets, and, as such, is not considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope	0

SA Objective	Assessment Criteria - Does the site (KG031)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,250m of Churnet Valley SSSI and may not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KG034)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. Similarly, development of greenfield, grade 3 ALC land is likely to also have a significant negative effect. The site's proximity to historic assets is likely to have a negative effect.

However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> </ul>	The site is within 1,000m from Churnet Valley SSSI, the nearest designated assets, and, as such, is considered to have an effect on	-/?

SA Objective	Assessment Criteria - Does the site (KG049A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of seven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement</li> </ul>	The site would be within 1,000m from Churnet Valley SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (KG049A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	of the natural environment identified in the NCA profiles?		
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Ipstones has scope to have a positive effect on the vitality and viability of Ipstones and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 35 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. Similarly, development of greenfield, grade 3 ALC land is likely to also have a significant negative effect. The site's proximity to designated and historic assets is likely to have a negative effect.

#### Upper Tean

#### Potentially suitable sites (5+ dwellings) - within the Development Boundary

UT011/014

SA Objective	Assessment Criteria - Does the site (UT011/14)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a mixed brownfield and greenfield site that is within the settlement boundary, could help to improve the social and environmental quality of the village centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 800m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents and employees of the site. It should be noted that Upper Tean does not have a secondary school but that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents and employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (UT011/14)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 20 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Upper Tean and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding.	--

SA Objective	Assessment Criteria - Does the site (UT011/14)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 2,500m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has species poor habitats present on site, but good connectivity to the wider countryside and potential to support roosting bats, reptiles and terrestrial populations of amphibians, therefore the site is attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on mixed brownfield and greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	0
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (UT011/14)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of two grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 2,500m of Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Needwood & South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Upper Tean has scope to have a positive effect on the vitality and viability of Upper Tean and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (UT011/14)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to health care and areas of existing employment is likely to have a positive effect. However, the site is partially located within a flood zone which is likely to have a significant negative effect. The site's proximity to historic assets and ecological value is likely to have a negative effect.			

Table 7.197

## UT019

SA Objective	Assessment Criteria - Does the site (UT019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> </ul>	The development of this site, a brownfield site that is within the settlement boundary, could help to improve the social and environmental quality of the village centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Offer opportunity to improve neighbourhood or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 400m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents and employees of the site. It should be noted that Upper Tean does not have a secondary school but that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents and employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It	+

SA Objective	Assessment Criteria - Does the site (UT019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 15 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Upper Tean and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (UT019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 3,000m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site is set within an urban environment with little connectivity to the wider countryside which lowers the biodiversity value of the area considerably. The site has mostly low biodiversity value overall and is therefore deemed to have low ecological importance. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on brownfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (UT019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of seven grade II listed assets and 400m of two grade II* listed assets and three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 3,000m of Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there would not be effects on landscape character. Proposal specific information is required to assess the impact on the Needwood & South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Upper Tean has scope to have a positive effect on the vitality and viability of Upper Tean and the wider District, as new residents could be expected to increase footfall. However, the site itself is an area of employment and the development of this site would result	-

SA Objective	Assessment Criteria - Does the site (UT019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		in the loss of employment. Overall, this has been assessed as having a negative effect on this Objective.	
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the site itself is an area of employment and the development of this site would result in the loss of employment. Overall, this site has been assessed as having a negative effect on this Objective.	-
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. However, the site itself is an area of employment and the development of this site would result in the loss of employment. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the site is located in proximity to historic assets which is likely to have a significant negative effect, as could the development of grade 3 ALC land. The site's inaccessibility to areas of existing employment is likely to have a negative effect.			

Table 7.198

### Potentially suitable sites (5+ dwellings) - within the Green Belt

#### UT012

SA Objective	Assessment Criteria - Does the site (UT012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (UT012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 800m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents and employees of the site. It should be noted that Upper Tean does not have a secondary school but that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents and employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 50 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Upper Tean and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (UT012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 2,500m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so	-

SA Objective	Assessment Criteria - Does the site (UT012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of two grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 2,500m of Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there would be effects on landscape character. Proposal specific information is required to assess the impact on the Needwood & South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (UT012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Upper Tean has scope to have a positive effect on the vitality and viability of Upper Tean and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to health care and areas of existing employment is likely to have a positive effect. However, the site is partially located within a flood zone which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect as could the site's proximity to historic assets.			

Table 7.199

## UT018

SA Objective	Assessment Criteria - Does the site (UT018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support for people with disabilities?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Support or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 800m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents and employees of the site. It should be noted that Upper Tean does not have a secondary school but that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents and employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 25 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (UT018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Upper Tean and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 1,000m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (UT018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 2,500m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has five trees with bat potential and a species rich hedgerow which is poorly connected to habitats within a rural landscape, and is deemed to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is more than 550m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (UT018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 2,500m of Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Needwood & South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Upper Tean has scope to have a positive effect on the vitality and viability of Upper Tean and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (UT018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 25 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to health care and areas of existing employment is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is likely to have a significant negative effect. The ecological value of the site is likely to have a negative effect.			

Table 7.200

## UT021

SA Objective	Assessment Criteria - Does the site (UT021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located on the edge of the village and is within 400m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents and employees	+

SA Objective	Assessment Criteria - Does the site (UT021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	of the site. The site is in proximity of Greatwood Primary School. It should be noted that Upper Tean does not have a secondary school but that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents and employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 20 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Upper Tean and 800m from a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (UT021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3,250m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has low ecological value and is poorly connected to habitats within a rural landscape. However, the site has two trees with bat potential and a species rich hedgerow therefore is deemed to have some ecological value overall. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so	-/?

SA Objective	Assessment Criteria - Does the site (UT021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from two grade II* listed assets and nine grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 3,250m of Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Needwood & South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (UT021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Upper Tean has scope to have a positive effect on the vitality and viability of Upper Tean and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect, as could the site's accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is likely to have a significant negative effect. The ecological value of the site and its proximity to historic assets is likely to have a negative effect.			

Table 7.201

## UT022

SA Objective	Assessment Criteria - Does the site (UT022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 400m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents and employees of the site. The site is in proximity of Greatwood Primary School. It should be noted that Upper Tean does not have a secondary school but that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents and employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (UT022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 15 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Upper Tean and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding.	--

SA Objective	Assessment Criteria - Does the site (UT022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3,250m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has a species poor hedgerow and habitats of low biodiversity which is poorly connected to other habitats within a rural landscape, therefore is considered to have low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns /	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m from two grade II* listed assets and ten grade II listed assets. Dependent on proposal specific information, there is	-/?

SA Objective	Assessment Criteria - Does the site (UT022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 3,250m of Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Needwood & South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Upper Tean has scope to have a positive effect on the vitality and viability of Upper Tean and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (UT022)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 15 dwellings is considered to have a significant positive effect, as could the site's accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is likely to have a significant negative effect, as could the site's partial location within a flood zone. The site's proximity to historic assets is likely to have a negative effect.

## UT023

SA Objective	Assessment Criteria - Does the site (UT023)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (UT023)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 800m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents and employees of the site. It should be noted that Upper Tean does not have a secondary school but that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents and employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 50 dwellings and therefore also	++

SA Objective	Assessment Criteria - Does the site (UT023)...?	Commentary on likely nature of effects of site allocation	Overall assessment
house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Upper Tean and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	Part of the site is located within a flood zone 3 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this objective.	--

SA Objective	Assessment Criteria - Does the site (UT023)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	<p>The site is more than 3,000m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has habitats mainly of low biodiversity which are poorly connected to habitats within a rural landscape. However, the presence of a species rich hedgerow and two trees with potential to support roosting bats is considered to give the site some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.</p>	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	<p>As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.</p>	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	<p>As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.</p>	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	<p>The site is within 400m from one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.</p>	-/?

SA Objective	Assessment Criteria - Does the site (UT023)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 3,000m of Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Needwood & South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Upper Tean has scope to have a positive effect on the vitality and viability of Upper Tean and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (UT023)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 50 dwellings is considered to have a significant positive effect, as could the site's accessibility to areas of existing employment. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is likely to have a significant negative effect, as could the site's partial location within a flood zone. The site's proximity to historic assets and ecological value is likely to have a negative effect.

## UT024

SA Objective	Assessment Criteria - Does the site (UT024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	The site is located on the edge of the village and is within 400m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents and employees of the site. It should be noted that Upper Tean does not have a secondary school but that the current supply of educational services	+

SA Objective	Assessment Criteria - Does the site (UT024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents and employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 40 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Upper Tean and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (UT024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3,000m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most	--/?

SA Objective	Assessment Criteria - Does the site (UT024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from two grade II* listed assets and nine grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 3,000m of Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Needwood & South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria - Does the site (UT024)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Upper Tean has scope to have a positive effect on the vitality and viability of Upper Tean and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 40 dwellings is considered to have a significant positive effect, as could the site's accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the development of greenfield, grade 3 ALC land is likely to have a significant negative effect. The site's proximity to historic assets is likely to have a negative effect.			

Table 7.204

## UT041

SA Objective	Assessment Criteria - Does the site (UT041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (UT041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 800m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents and employees of the site. It should be noted that Upper Tean does not have a secondary school but that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a neutral effect on this Objective.	0
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents and employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 50 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Upper Tean and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (UT041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from two grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (UT041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 2,000m of Cecily Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Needwood & South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Upper Tean has scope to have a positive effect on the vitality and viability of Upper Tean and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (UT041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 50 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of existing employment and open space is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is likely to have a negative effect, as could the site's proximity to historic assets.			

Table 7.205

**Waterhouses****Potentially suitable sites (5+ dwellings) - within the Development Boundary****WA004**

SA Objective	Assessment Criteria - Does the site (WA004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is within the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located on the edge of the village and is within 400m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents and employees	+

SA Objective	Assessment Criteria - Does the site (WA004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	of the site. It should be noted that Waterhouses does not have a secondary school but that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents and employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 36 dwellings and therefore also provide a quantum of affordable housing on site. It is acknowledged that the site is proposed as mixed use which may reduce the quantum of housing delivered by this site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Waterhouses and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (WA004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 750m from Caudon Railway Cutting SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that un-mitigated ecological impacts of development may be significant. The site has little potential to support protected species apart from roosting/foraging bats, badger and breeding birds, but is connected adjacent to other species rich grasslands. Semi-improved species rich grasslands are uncommon and should be preserved, therefore the site is attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (WA004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from four grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 750m of Caudon Railway Cutting SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the White Peak National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (WA004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed mixed use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a employment site with good access to the village centre of Waterhouses has scope to have a positive effect on the vitality and viability of Waterhouses and the wider District, as new residents could be expected to increase footfall. However, the site itself is an area of employment and the development of this site could result in decreased employment. Overall, this has been assessed as having a negative effect on this Objective.	-
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the site itself is an area of employment and the development of this site could result in decreased employment. Overall, this site has been assessed as having a negative effect on this Objective.	-
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. However, the site itself is an area of employment and the development of this site could result in decreased employment. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (WA005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 40 dwellings is considered to have a significant positive effect, as is the site accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the site's proximity to a designated asset is likely to have a negative effect. The development of greenfield, grade 4 ALC land is likely to also have a negative effect, as could the site's proximity to historic assets.			

Table 7.207

## WA006

SA Objective	Assessment Criteria - Does the site (WA006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (WA006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village and is within 400m of the village centre and the limited range of services and facilities that can be found here that could serve prospective residents and employees of the site. It should be noted that Waterhouses does not have a secondary school but that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents and employees with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is expected to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (WA006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 30 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Waterhouses and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (WA006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 750m from Caudon Railway Cutting SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has little potential to support protected species apart from potentially roosting/foraging bats and badger, and is fairly poorly connected to the wider countryside. Nevertheless the site is afforded ecological value due to the bat roosting potential of these two trees. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m from three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (WA006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 750m of Caudon Railway Cutting SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the White Peak National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Waterhouses has scope to have a positive effect on the vitality and viability of Waterhouses and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (WA006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 30 dwellings is considered to have a significant positive effect, as is the site accessibility to areas of existing employment. Similarly, the site's accessibility to services and facilities is likely to have a positive effect. However, the site's proximity to a designated asset is likely to have a negative effect. The development of greenfield, grade 4 ALC land is likely to also have a negative effect, as could the site's proximity to historic assets.

## Wetley Rocks

## Potentially suitable sites (5+ dwellings) - within the development Boundary

## WR002

SA Objective	Assessment Criteria - Does the site (WR002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (WR002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Wetley Rocks does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Wetley Rocks does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 29 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Wetley Rocks as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (WR002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,750m from Churnet Valley SSSI, the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site is directly adjacent to a housing estate and species poor grasslands, and has poor connectivity to the wider countryside which reduces the value of the site as a whole in terms of biodiversity. The site also has mostly low biodiversity value overall in terms of area and therefore is deemed as having low ecological value in terms of its loss within the wider countryside. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (WR002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m from one grade II listed asset and 400m from three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,750m of Churnet Valley SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (WR002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Wetley Rocks has scope to have a positive effect on the vitality and viability of Wetley Rocks and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 29 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and low ecological importance of the site is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect, as could the site's proximity to designated and historic assets. The development of greenfield, grade 4 ALC land is likely to have a negative effect.			

Table 7.209

**WR015**

SA Objective	Assessment Criteria - Does the site (WR015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Wetley Rocks does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Wetley Rocks does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 20 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (WR015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Wetley Rocks as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (WR015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 2,000m from Churnet Valley SSSI, the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area, is directly adjacent to a housing estate and species poor grasslands, and has poor connectivity to the wider countryside. Therefore the site is deemed as having low ecological value in terms of its loss within the wider countryside. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m from three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (WR015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 2,000m of Churnet Valley SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Wetley Rocks has scope to have a positive effect on the vitality and viability of Wetley Rocks and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (WR015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and low ecological value of the site is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect, as could the site's proximity to historic assets.			

Table 7.210

## Potentially suitable sites (5+ dwellings) - within the Green Belt

## WR005

SA Objective	Assessment Criteria - Does the site (WR005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (WR005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Do the development or its occupiers help to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Wetley Rocks does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Wetley Rocks does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 13 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (WR005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Welley Rocks as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (WR005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	<p>The site is within 1,500m from Churnet Valley SSSI, the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site is directly adjacent to a small housing estate, species poor grasslands, and has poor connectivity to the wider countryside which reduces the value of the site as a whole in terms of biodiversity. The site also has mostly low biodiversity value overall in terms of area but is considered to have some ecological value in terms of its loss within the wider countryside due to the presence of the two trees with bat roosting potential. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.</p>	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	<p>As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.</p>	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	<p>As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.</p>	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	<p>The site is within 400m from two grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets</p>	-/?

SA Objective	Assessment Criteria - Does the site (WR005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,500m of Churnet Valley SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. SA Objective	Assessment Criteria - Does the site (WR014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Wetley Rocks does	--

SA Objective	Assessment Criteria - Does the site (WR014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Wetley Rocks does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Wetley Rocks as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (WR014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a brownfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,750m from Churnet Valley SSSI, the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has fairly low potential to support protected species, and the site is fairly poorly connected to the wider countryside. However the two trees highlighted for bat roosting potential affords the site some ecological value. HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site could result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (WR014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,750m of Churnet Valley SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (WR014A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Wetley Rocks has scope to have a positive effect on the vitality and viability of Wetley Rocks and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment and services and facilities which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect, as could the site's proximity to historic assets and ecological value.			

Table 7.212

## Werrington & Cellarhead

### Potentially suitable sites (5+ dwellings) - within the Development Boundary

#### WE018

SA Objective	Assessment Criteria - Does the site (WE018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a mixed brownfield and greenfield site that is set inside of the settlement boundary, could help to improve the social and environmental quality of the village centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located in the centre of the village and is within 400m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. This site includes Werrington Primary School and development would lead to the closure of this school. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted	+

SA Objective	Assessment Criteria - Does the site (WE018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 24 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Werrington and Cellarhead and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (WE018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of a mixed brownfield and greenfield site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 400m from Wetley Moor SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall, is set within an urban environment with little connectivity to the wider countryside which lowers the biodiversity of the area considerably. However the site has been attributed ecological value in terms of its loss within the wider countryside as the building and tree could support roosting bats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on mixed brownfield and greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (WE018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing buildings. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 400m from Wetley Moor SSSI and would increase external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Werrington and Cellarhead has scope to have a positive effect on the vitality and viability of Werrington and Cellarhead and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (WE018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 24 dwellings is considered to have a significant positive effect, as is the accessibility of services and facilities. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated assets. Similarly, the site's proximity to historic assets is assessed as having a negative effect.			

Table 7.213

## Potentially suitable sites (5+ dwellings) - within the Green Belt

## WE003

SA Objective	Assessment Criteria - Does the site (WE003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (WE003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located in the centre of the village and is within 400m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. The site is in proximity of Werrington Primary School. It should be noted that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 85 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (WE003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. <b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 85 dwellings is considered to have a significant positive effect, as is the accessibility of services and facilities. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated assets. Similarly, the development of greenfield, grade 4 ALC land and the site's proximity to historic assets is assessed as having a negative effect.			

Table 7.214

## WE013

SA Objective	Assessment Criteria - Does the site (WE013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located in the centre of the village and is within 400m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be	++

SA Objective	Assessment Criteria - Does the site (WE013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	noted that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a significant positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 400m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 10 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Werrington and Cellarhead and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (WE013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 800m from Wetley Moor SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (WE013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of two grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 800m from Wetley Moor SSSI and would increase external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria - Does the site (WE013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Werrington and Cellarhead has scope to have a positive effect on the vitality and viability of Werrington and Cellarhead and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 10 dwellings is considered to have a significant positive effect, as is the accessibility of services and facilities. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated assets. Similarly, the development of greenfield, grade 4 ALC land and the site's proximity to historic assets is assessed as having a negative effect.			

Table 7.215

## WE019

SA Objective	Assessment Criteria - Does the site (WE019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (WE019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located in the centre of the village and is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 50 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (WE019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Werrington and Cellarhead and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (WE019)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	<p>The site is within 100m from Wetley Moor SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological study (2015) notes that the site itself has seven trees with bat potential, species rich hedgerow and a large area of tall ruderal vegetation connected to a series of other hedgerows and habitats. These features culminate in the assessment that the site is attributed ecological value in terms of its loss within the wider countryside. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.</p>	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	<p>As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 800m from Wetley Moor SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (WE027)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of two grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 800m from Wetley Moor SSSI and would increase external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria - Does the site (WE027)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Werrington and Cellarhead has scope to have a positive effect on the vitality and viability of Werrington and Cellarhead and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect, as could the site's accessibility to services and facilities. Similarly, the site's to areas of open space is likely to have a positive effect. However, the site's accessibility to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated assets. Similarly, the development of greenfield, grade 4 ALC land and the site's proximity to historic assets is assessed as having a negative effect.			

Table 7.217

## WE033

SA Objective	Assessment Criteria - Does the site (WE033)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (WE033)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located in the edge of the village boundary and is more than 2,000m from the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a negative effect on this Objective.	-
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. However, the site is more than 2,000m from a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a negative effect on this Objective.	-
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (WE033)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 60 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is more than 2,000m from the village centre of Werrington and Cellarhead and a GP surgery, but is adjacent to an area of open space. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 2,000m from the village centre and could increase the need to travel. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. It should be noted that the site is within 350m from a candidate AQMA. Overall, this site has been assessed as having a negative effect on this Objective.	-
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (WE033)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,750m from Wetley Moor SSSI, the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological study (2015) notes that the site has mostly low biodiversity value overall in terms of area and is directly adjacent to a small housing estate and species poor grasslands. The site does have some good connectivity to a pond which increases chance of the site support terrestrial populations of amphibians and reptiles. The site is therefore deemed as having some ecological value in terms of its potential loss within the wider countryside. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of three grade II listed assets. archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,750m from Wetley Moor SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site has scope to have a positive effect on the vitality and viability of Werrington and Cellarhead and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (WE033)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 60 dwellings is considered to have a significant positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect. Similarly, the site's inaccessibility to services and facilities and areas of open space is likely to have a negative effect. Also, the site's ecological value is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land and the site's proximity to historic assets is assessed as having a negative effect.			

Table 7.218

## WE040

SA Objective	Assessment Criteria - Does the site (WE040)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located in the centre of the village and is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be	+

SA Objective	Assessment Criteria - Does the site (WE040)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	noted that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 7 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Werrington and Cellarhead and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 1,000m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (WE040)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 200m of Wetley Moor SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has mostly low biodiversity value overall with fairly good connectivity to Wetley Moor SSSI and is deemed as having some ecological value in terms of its loss within the wider countryside due to its proximity to the SSSI. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so	-

SA Objective	Assessment Criteria - Does the site (WE040)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 200m from Wetley Moor SSSI and would increase external pressures on these sites. Given the location of the site, it is considered that there would be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (WE040)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Werrington and Cellarhead has scope to have a positive effect on the vitality and viability of Werrington and Cellarhead and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 7 dwellings is considered to have a positive effect, as is the accessibility to services and facilities and areas of open space. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated and historic assets. Similarly, the development of greenfield, grade 4 ALC land is likely to have a negative effect.			

Table 7.219

SA Objective	Assessment Criteria - Does the site (WE041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			

SA Objective	Assessment Criteria - Does the site (WE041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located in the centre of the village and is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 22 dwellings and therefore also	++

SA Objective	Assessment Criteria - Does the site (WE041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Werrington and Cellarhead and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 1,000m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (WE041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 100m of Wetley Moor SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has mostly low biodiversity value overall with fairly good connectivity to Wetley Moor SSSI and is deemed as having some ecological value in terms of its loss within the wider countryside due to its proximity to the SSSI. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 50m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?

SA Objective	Assessment Criteria - Does the site (WE041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 100m from Wetley Moor SSSI and would increase external pressures on these sites. Given the location of the site, it is considered that there would be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Werrington and Cellarhead has scope to have a positive effect on the vitality and viability of Werrington and Cellarhead and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria - Does the site (WE041)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 22 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to designated and historic assets. Similarly, the development of greenfield, grade 4 ALC land is likely to have a negative effect.

However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (WE052)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 600m of Wetley Moor SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site is directly adjacent to a housing estate and species poor grasslands, and has poor connectivity to more biodiverse habitats. However, the site is deemed as having some ecological value in terms of its loss within the wider countryside due to having five trees that have potential to support roosting bats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (WE052)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 600m from Wetley Moor SSSI and would increase external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Werrington and Cellarhead has scope to have a positive effect on the vitality and viability of Werrington and Cellarhead and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (WE052)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 25 dwellings is considered to have a significant positive effect, as is the site's accessibility to services and facilities. Similarly, the site's accessibility to open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect. The site's proximity to designated and historic assets is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land.			

Table 7.221

## WE053

SA Objective	Assessment Criteria - Does the site (WE053)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership,</li> </ul>	The site is located in the centre of the village and is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable	+

SA Objective	Assessment Criteria - Does the site (WE053)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	future. Overall, this site has been assessed as having a positive effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 15 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Werrington and Cellarhead and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (WE053)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 700m of Wetley Moor SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area, is directly adjacent to a small housing estate and species poor grasslands, and has poor connectivity to more biodiverse habitats. The site is therefore deemed as having low ecological value in terms of its loss within the wider countryside. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so	-

SA Objective	Assessment Criteria - Does the site (WE053)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 700m from Wetley Moor SSSI and would increase external pressures on these sites. Given the location of the site, it is considered that there would be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (WE053)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Werrington and Cellarhead has scope to have a positive effect on the vitality and viability of Werrington and Cellarhead and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to historic assets. The site's proximity to designated assets is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land.

SA Objective	Assessment Criteria - Does the site (WE069)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 6 dwellings is considered to have a positive effect. Similarly, the site's accessibility to services and facilities and areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect, as would the site's proximity to historic assets. The site's proximity to designated assets is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land.			

Table 7.223

**WE070**

SA Objective	Assessment Criteria - Does the site (WE070)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located in the centre of the village and is within 800m of the village centre and the range of services and facilities that can be found here that could serve prospective residents of the site. It should be noted that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (WE070)...?	Commentary on likely nature of effects of site allocation	Overall assessment
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. Similarly, the site is within 800m of a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Werrington and Cellarhead and a GP surgery as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (WE070)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 900m of Wetley Moor SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope	0

SA Objective	Assessment Criteria - Does the site (WE070)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of two grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 900m from Wetley Moor SSSI and would increase external pressures on these sites. Given the location of the site, it is considered that there would be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Werrington and Cellarhead has scope to have a positive effect on the vitality and viability of Werrington and Cellarhead and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (WE070)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing areas of employment within the village or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to services and facilities and areas of open space is likely to have a positive effect. However, the site is inaccessible to areas of existing employment which would have a significant negative effect. The site's proximity to designated and historic assets is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land.			

Table 7.224

## Other Uses

## WE001

SA Objective	Assessment Criteria - Does the site (WE001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (WE001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is set outside of the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located in the edge of the village boundary and is more than 2,000m from the village centre and the range of services and facilities that can be found here that could serve prospective employees of the site. It should be noted that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a negative effect on this Objective.	-
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide employees with good access to areas of open space which should help to support healthy lifestyles. However, the site is more than 2,000m from a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a negative effect on this Objective.	-
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (WE001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is more than 2,000m from the village centre of Werrington and Cellarhead and a GP surgery, but is adjacent to an area of open space. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 2,000m from the village centre and could increase the need to travel. Overall, this site has been assessed as having a negative effect on this Objective.	-
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. It should be noted that the site is within 100m from a candidate AQMA. Overall, this site has been assessed as having a negative effect on this Objective.	-
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (WE001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,900m from Churnet Valley SSSI, the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological study (2015) notes that the site has fairly species poor habitats present on site, and has been attributed low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (WE001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,900m from Churnet Valley SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there would be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site provides scope for the development of this site to have a positive effect on investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the village centre has the scope to have a positive effect on the vitality and viability of Werrington and Cellarhead and the wider District, as new employment could be expected to increase footfall in the nearby village centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Werrington and Cellarhead as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing local employment provision but the site would generate new employment provision. Overall, this site has been assessed as having a significant positive effect on this objective.	++
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (WE001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site's low ecological value is likely to have a positive effect. However, the development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the proximity to historic assets and distance away from services and facilities and areas of open space.		

Table 7.225

## WE002

SA Objective	Assessment Criteria - Does the site (WE002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is remote from the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located in the edge of the village boundary and is more than 2,000m from the village centre and the range of services and facilities that can be found here that could serve prospective employees of the site. It should be noted that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (WE002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide employees with good access to areas of open space which should help to support healthy lifestyles. However, the site is more than 2,000m from a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a negative effect on this Objective.	-
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is more than 2,000m from the village centre of Werrington and Cellarhead and a GP surgery, but is adjacent to an area of open space. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 2,000m from the village centre and could increase the need to travel. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria - Does the site (WE002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. It should be noted that the site is within 150m from a candidate AQMA. Overall, this site has been assessed as having an negative effect on this Objective.	-
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Churnet Valley SSSI and Wetley Moor SSSI, the nearest designated assets, and, as such, is not considered to have an effect on this asset. The Ecological study (2015) notes that the site has species poor habitats present on site and low potential to support protected species, therefore is attributed low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (WE002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m from Churnet Valley SSSI and Wetley Rocks SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there would be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site provides scope for the development of this site to have a positive effect on investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the village centre has the scope to have a positive effect on the vitality and viability of Werrington and Cellarhead and the wider District, as new employment could be expected to increase footfall in the nearby village centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++

SA Objective	Assessment Criteria - Does the site (WE002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Werrington and Cellarhead as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing local employment provision but the site would generate new employment provision. Overall, this site has been assessed as having a significant positive effect on this objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site's low ecological value is likely to have a positive effect. However, the remote nature of the site is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the proximity to historic assets and distance away from services and facilities and areas of open space.			

Table 7.226

## WE003

SA Objective	Assessment Criteria - Does the site (WE003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (WE003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is remote from the settlement boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village boundary and is more than 2,000m from the village centre and the range of services and facilities that can be found here that could serve prospective employees of the site. It should be noted that the current supply of educational services and facilities currently exceeds demand and is expected to do so for the foreseeable future. Overall, this site has been assessed as having a negative effect on this Objective.	-
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide employees with good access to areas of open space which should help to support healthy lifestyles. However, the site is more than 2,000m from a GP surgery. It should be noted that the current supply of health care services and facilities currently falls short of demand and the situation is likely to worsen in the future. Overall, this site has been assessed as having a negative effect on this Objective.	-
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing.	0

SA Objective	Assessment Criteria - Does the site (WE003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Overall, this site has been assessed as having a neutral effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is more than 2,000m from the village centre of Werrington and Cellarhead and a GP surgery, but is adjacent to an area of open space. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. Similarly, the site is more than 2,000m from the village centre and could increase the need to travel. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (WE003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Wetley Rocks SSSI and Churnet Valley SSSI, the nearest designated assets, and, as such, is not considered to have an effect on this asset. The Ecological study (2015) notes that the site has species poor habitats present on site, but is attributed some ecological value due to the potential of two trees to support roosting bats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of the setting of these historical heritage assets. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (WE003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m from Wetley Rocks SSSI and Churnet Valley SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there would be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site provides scope for the development of this site to have a positive effect on investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the village centre has the scope to have a positive effect on the vitality and viability of Werrington and Cellarhead and the wider District, as new employment could be expected to increase footfall in the nearby village centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site and the proposed employment use of the site could be considered to have a positive effect on businesses and the residents of Werrington and Cellarhead as it could strengthen and diversify the economy. Overall, this has been assessed as having a significant positive effect on this Objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m from existing local employment provision but the site would generate new employment provision. Overall, this site has been assessed as having a significant positive effect on this objective.	++

SA Objective	Assessment Criteria - Does the site (WE003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>  The development of new employment premises should have a significant positive effect on the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. However, the remote nature of the site is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is assessed as having a negative effect, as is the proximity to historic assets, ecological value and distance away from services and facilities and areas of open space.			

Table 7.227

## 7.5 Smaller villages: Bagnall to Checkley

### Bagnall

#### Potentially suitable sites (5+ dwellings) - within the Green Belt

#### BG008

SA Objective	Assessment Criteria - Does the site (BG008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Bagnall does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Bagnall does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BG008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>		
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 10 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Bagnall as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BG008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,500m from Bagnall Road Wood (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has four trees with bat potential and a species rich hedgerow and is attributed some ecological value, although it is fairly poorly connected to other biodiverse habitats within the locality. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (BG008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from ten grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,500m of Bagnall Road Wood (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Bagnall has scope to have a positive effect on the vitality and viability of Bagnall and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BG008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 10 dwellings is considered to have a significant positive effect, as could the site's accessibility to areas of existing employment. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect, as could the site's proximity to historic assets. The development of greenfield, grade 4 ALC land and the ecological value of the site is likely to also have a negative effect.			

Table 7.228

SA Objective	Assessment Criteria - Does the site (BG014)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (BG014)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Bagnall does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Bagnall does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 10 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (BG014)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Bagnall as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (BG014)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,250m from Bagnall Road Wood (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has three trees with bat potential which forms the main biodiversity interest, although it is fairly poorly connected to other biodiverse habitats within the locality, it is attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m from ten grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (BG014)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,250m of Bagnall Road Wood (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Bagnall has scope to have a positive effect on the vitality and viability of Bagnall and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BG014)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 10 dwellings is considered to have a significant positive effect, as could the site's accessibility to areas of existing employment. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect, as could the site's proximity to historic assets. The development of greenfield, grade 4 ALC land and the ecological value of the site is likely to also have a negative effect.			

Table 7.229

## BG015

SA Objective	Assessment Criteria - Does the site (BG015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (BG015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Bagnall does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Bagnall does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 10 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Bagnall as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (BG015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,250m from Bagnall Road Wood (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has four trees with bat potential and a species rich hedgerow and is attributed some ecological value, although it is fairly poorly connected to other biodiverse habitats within the locality. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (BG015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from ten grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,250m of Bagnall Road Wood (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BG015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Bagnall has scope to have a positive effect on the vitality and viability of Bagnall and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 10 dwellings is considered to have a significant positive effect, as could the site's accessibility to areas of existing employment. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect, as could the site's proximity to historic assets. The development of greenfield, grade 4 ALC land and the ecological value of the site is likely to also have a negative effect.			

Table 7.230

**Blackshaw Moor****Potentially suitable sites (5+ dwellings) - within the draft Infill Boundary****BL006**

SA Objective	Assessment Criteria - Does the site (BL006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Blackshaw Moor does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Blackshaw Moor does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (BL006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Blackshaw Moor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (BL006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>● Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>● Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,250m from Thornccliffe Moor SSSI, the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has potential for protected species to be present due to the buildings present on site and has been deemed to have some ecological value despite fairly poor connectivity to the wider countryside. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns /	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is more than 400m from any listed assets. Dependent on proposal specific information, there is limited scope that development	+/?

SA Objective	Assessment Criteria - Does the site (BL006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,250m of Thornciliffe Moor SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the South West Peak National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Blackshaw Moor has scope to have a positive effect on the vitality and viability of Blackshaw Moor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (BL006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 12 dwellings is considered to have a significant positive effect, as could the site's accessibility to areas of existing employment. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land and the ecological value of the site is likely to have a negative effect.			

Table 7.231

## BL007

SA Objective	Assessment Criteria - Does the site (BL007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside of the settlement boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (BL007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Blackshaw Moor does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Blackshaw Moor does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 7 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Blackshaw Moor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
ENVIRONMENTAL			

SA Objective	Assessment Criteria - Does the site (BL007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,250m from Thornccliffe Moor SSSI, the nearest designated asset, and, as such, is not considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (BL007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m from any listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,250m of Thornccliffe Moor SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the South West Peak National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria - Does the site (BL007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Blackshaw Moor has scope to have a positive effect on the vitality and viability of Blackshaw Moor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The site's accessibility to areas of existing employment is considered to have a significant positive effect. The proposed delivery of 7 dwellings is likely to have a positive effect, as could the site's accessibility to areas of open space. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect.			

Table 7.232

## Caverswall

## Potentially suitable sites (5+ dwellings) - within the Infill Boundary

## CV005

SA Objective	Assessment Criteria - Does the site (CV005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light?</li> </ul>	The development of this site, a greenfield site that is within the settlement boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Do all people have the opportunity to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Caverswall does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

The	+

SA Objective	Assessment Criteria - Does the site (CV005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Coyney Woods (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site contains fairly species poor habitats and common species, although it is fairly well connected to the wider countryside. As two buildings are present with the potential to support roosting bats the site is deemed to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CV005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of one grade II listed asset and 400m from one grade II* listed asset and fourteen grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m from Coyney Woods (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Caverswall has scope to have a positive effect on the vitality and viability of Caverswall and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CV005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 10 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect, as could the development of greenfield, grade 3 ALC land and the site's proximity to historic assets. The ecological value of the site is likely to have a negative effect.			

Table 7.233

### Potentially suitable sites (5+ dwellings) - within the Green Belt

#### CV004

SA Objective	Assessment Criteria - Does the site (CV004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (CV004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Caverswall does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Caverswall does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 8 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Caverswall as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (CV004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Coyney Woods (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the majority of the site contains fairly species poor habitats although they are well connected to the wider countryside they have been deemed to have low ecological value overall. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most	--/?

SA Objective	Assessment Criteria - Does the site (CV004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of one grade II listed asset and 400m from one grade II* listed asset and fourteen grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m from Coyney Woods (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Chumet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CV004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Caverswall has scope to have a positive effect on the vitality and viability of Caverswall and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 8 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space and low ecological value of the site is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect, as could the development of greenfield, grade 3 ALC land and the site's proximity to historic assets.

## CV006

SA Objective	Assessment Criteria - Does the site (CV006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Caverswall does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Caverswall does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 8 dwellings and therefore also	+

SA Objective	Assessment Criteria - Does the site (CV006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Caverswall as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (CV006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Coyney Woods (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site contains fairly species poor habitats and diversity although is well connected from the western boundary to the wider countryside through an area of semi-natural broadleaved woodland. The site is deemed to have some ecological value due to its good connectivity to the wider countryside and the potential to support polecat populations. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 50m of one grade II listed asset and 400m from one grade II* listed asset and fourteen grade II listed assets. Dependent on proposal specific information, there is scope that development of	-/?

SA Objective	Assessment Criteria - Does the site (CL004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Help to improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cookshill does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help to improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cookshill does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 20 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (CL004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Cookhill as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (CL004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,250m of Coyney Woods (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site mostly contains fairly species poor habitats but with some potential to support European and UK protected species along the dry ditch and connecting hedgerow, which is well connected to potentially biodiverse habitats and able to support European and UK protected species. Therefore the site is considered to have ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is more than 400m from a listed asset. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of these historical heritage assets and	+/?

SA Objective	Assessment Criteria - Does the site (CL004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	their setting. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,250m from Coyney Woods (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Cookhill has scope to have a positive effect on the vitality and viability of Cookhill and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CL004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and location away from historic assets is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect, as could the development of greenfield, grade 3 ALC land. The ecological value of the site is likely to have a negative effect.			

Table 7.236

## CL007

SA Objective	Assessment Criteria - Does the site (CL007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Cookshill does not	--

SA Objective	Assessment Criteria - Does the site (CL007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cookshill does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 30 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Cookshill as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (CL007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,500m of Coyney Woods (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has nine trees with bat potential and two species rich hedgerows which are fairly poorly connected to the wider countryside and therefore the site is deemed to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most	--/?

SA Objective	Assessment Criteria - Does the site (CL007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,500m from Coyney Woods (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CL007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Cookshill has scope to have a positive effect on the vitality and viability of Cookshill and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 30 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect, as could the development of greenfield, grade 3 ALC land. The ecological value of the site and its proximity to historic assets is likely to have a negative effect.			

Table 7.237

## Checkley

### Potentially suitable sites (5+ dwellings) - outside the Infill Boundary

#### CK007

SA Objective	Assessment Criteria - Does the site (CK007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Support Green Infrastructure to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Checkley does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Checkley does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CK007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 6 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Checkley as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (CK007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 4.500m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has very low biodiversity value overall in terms of area, is adjacent to a main road to the south and farm buildings to the east, dwellings to the west and species poor grasslands to the north with poor connectivity. Therefore the site is considered to have low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m from one scheduled monument, one grade I listed asset and nine grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (CK007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 4,500m from Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Needwood and South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Checkley has scope to have a positive effect on the vitality and viability of Checkley and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (CK007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 6 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space and low ecological value is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect, as could the development of greenfield, grade 3 ALC land. The site's proximity to historic assets is likely to have a negative effect.			

Table 7.238

CK008

SA Objective	Assessment Criteria - Does the site (CK008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site that is outside the settlement boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (CK008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Checkley does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Checkley does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 7 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Checkley as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
ENVIRONMENTAL			

SA Objective	Assessment Criteria - Does the site (CK008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 4,500m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area, is adjacent to a main road to the south and dwellings to the east west and species poor grasslands to the north, and has poor connectivity. Therefore the site is considered to have low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so	--/?

SA Objective	Assessment Criteria - Does the site (CK008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from one scheduled monument, one grade I listed asset and eight grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 4,500m from Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be limited effects on landscape character. Proposal specific information is required to assess the impact on the Needwood and South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (CK008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Checkley has scope to have a positive effect on the vitality and viability of Checkley and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 7 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space and low ecological value is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect, as could the development of greenfield, grade 3 ALC land. The site's proximity to historic assets is likely to have a negative effect.

archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 4,500m from Cecilly Brook (LNR) and Churnet Valley SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Dilhorne has scope to have a positive effect on the vitality and viability of Dilhorne and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (DL004)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and distance from designated assets is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect, as could the site's proximity to historic assets. The development of greenfield, grade 4 ALC land is likely to have a negative effect.			

Table 7.240

SA Objective	Assessment Criteria - Does the site (DL013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Dilhorne does not have	--

SA Objective	Assessment Criteria - Does the site (DL013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Dilhorne does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 6 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Dilhorne as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (DL013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 4,500m from Cecilly Brook (LNR) and Churnet Valley SSSI, the nearest designated assets, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site is attributed low ecological value as it has mostly low biodiversity value overall in terms of area, is adjacent to a road to the north, farm buildings and dwellings on the edge of a small village with fairly poor connectivity to the wider countryside through one hedgerow. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (DL013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m from one grade II listed asset and within 400m from six grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 4,500m from Cecilly Brook (LNR) and Churnet Valley SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (DL013)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Dilhorne has scope to have a positive effect on the vitality and viability of Dilhorne and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 6 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space and distance from designated assets is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect, as could the site's proximity to historic assets. The development of greenfield, grade 4 ALC land is likely to have a negative effect.			

Table 7.241

## DH018

SA Objective	Assessment Criteria - Does the site (DL018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Dilhorne does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Dilhorne does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (DL018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 7 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Dilhorne as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

It should be noted that Dilhorne does not have	--

SA Objective	Assessment Criteria - Does the site (DL026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Dilhorne does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 15 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Dilhorne as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (DL026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 4,500m from Cecilly Brook (LNR) and Churnet Valley SSSI, the nearest designated assets, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has potential for protected species to be present due to proximity of ponds and wetland habitats and the good connectivity to these potentially biodiverse habitats through species rich hedgerows and adjacent habitat to the wider countryside. Therefore the site is deemed to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (DL026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from seven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 4,500m from Cecilly Brook (LNR) and Churnet Valley SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (DL026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Dilhorne has scope to have a positive effect on the vitality and viability of Dilhorne and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect, as could the site's ecological value and proximity to historic assets.

## Draycott

## Potentially suitable sites (5+ dwellings) - within the Green Belt

## DC003

SA Objective	Assessment Criteria - Does the site (DC003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Draycott does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Draycott does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (DC003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 10 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Draycott as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. The	+

SA Objective	Assessment Criteria - Does the site (DC003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 4,000m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site itself has species poor grassland, a small semi-natural broadleaved woodland connected to a pond to the north and further woodland and scrub within a rural landscape, which has been deemed to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (DC003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m from one grade II listed asset and within 400m from one grade II* listed asset and three grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 4,000m from Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Needwood and South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Draycott has scope to have a positive effect on the vitality and viability of Draycott and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (DC003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 10 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect, as could the site's proximity to historic assets and development of greenfield, grade 3 ALC land. The site's ecological value is likely to have a negative effect.

## Potentially suitable sites (5+ dwellings) - outside the draft Infill Boundary

FO008

SA Objective	Assessment Criteria - Does the site (FO008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	SOCIAL		

SA Objective	Assessment Criteria - Does the site (FO008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings have access to appropriate levels of natural light and appropriate levels of privacy offered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The development of this site, a greenfield site outside the development boundary, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.</p>	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver social spaces that are accessible to all people</li> <li>● Offer opportunities to improve health and well-being</li> <li>● Help to improve health and reduce health inequalities.</li> </ul>	<p>The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Foxt does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.</p>	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Foxt does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	<p>This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	<p>Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 8 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+

SA Objective	Assessment Criteria - Does the site (FO008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Foxton as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> </ul>	The site is within 500m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have an effect on this	--/?

SA Objective	Assessment Criteria - Does the site (FO008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from four grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement</li> </ul>	The site would be within 500m from Churnet Valley SSSI and would increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (FO008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	of the natural environment identified in the NCA profiles?		
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Foxt has scope to have a positive effect on the vitality and viability of Foxt and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (FO008)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		The site has good accessibility to areas of existing employment which is likely to have a significant positive effect. Similarly, the proposed delivery of circa 8 dwellings is considered to have a positive effect, as could the site's accessibility to areas of open space. However, the site is inaccessible to services and facilities and is in proximity to designated assets, both of which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect, as could the site's proximity to historic assets.	

**Table 7.245**

## 7.5.2 Smaller villages: Hollington to Longsdon

### Hollington

#### Potentially suitable sites (5+ dwellings) - outside the draft Infill Boundary

#### HO002

SA Objective	Assessment Criteria - Does the site (HO002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site outside of the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Hollington does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Hollington does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (HO002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>		
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 7 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Hollington as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (HO002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3,500m from Dimmings Dale and The Ranger SSSI and Saltersford Lane Meadows SSSI, the nearest designated assets, and, as such, is not considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope	0

SA Objective	Assessment Criteria - Does the site (HO002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of one grade II listed asset and within 400m from five grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 3,500m from Dimmings Dale and The Ranger SSSI and Saltersford Lane Meadows SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Hollington has scope to have a positive effect on the vitality and viability of Hollington and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (HO002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 7 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space and location away from designated assets is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect, as could the site's proximity to historic assets. The development of greenfield, grade 4 ALC land is likely to have a negative effect.			

Table 7.246

## HO003

SA Objective	Assessment Criteria - Does the site (HO003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site outside of the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (HO003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Hollington does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Hollington does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 6 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Hollington as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (HO003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	+/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3,500m from Dimmings Dale and The Ranger SSSI and Saltersford Lane Meadows SSSI, the nearest designated assets, and, as such, is not considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (HO003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of one grade II listed asset and within 400m from five grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historic heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 3,500m from Dimmings Dale and The Ranger SSSI and Saltersford Lane Meadows SSSI and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria - Does the site (HO003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Hollington has scope to have a positive effect on the vitality and viability of Hollington and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 6 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space and location away from designated assets is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment, both of which is likely to have a significant negative effect, as could the site's proximity to historic assets. The development of greenfield, grade 4 ALC land is likely to have a negative effect.			

Table 7.247

## Hulme

### Potentially suitable sites (5+ dwellings) - within the Green Belt

#### HU002

SA Objective	Assessment Criteria - Does the site (HU002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and adequate levels of privacy to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The development of this site, a brownfield site outside of the development boundary could help to improve the social and environmental quality of the village centre. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● buildings and spaces have sufficient natural light and adequate levels of privacy to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Hulme does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.</p>	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Hulme does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+

SA Objective	Assessment Criteria - Does the site (HU002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 5 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Hulme as well as being adjacent to an area of open space which should reduce the need to travel within the village. However, the site is circa 1,500m from a bus stop or other form of public transport. Overall, this site has been assessed as having a neutral effect on this Objective.	0
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>● Offer opportunities to increase energy efficiency?</li> <li>● Offer opportunities to increase the use of renewable energy?</li> <li>● Deliver development is in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise emissions of airborne pollutants?</li> <li>● Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>● Deliver development directed towards areas of least flood risk?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The	+

SA Objective	Assessment Criteria - Does the site (HU002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 750m of Hulme Quarry SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on brownfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a positive effect on this Objective.	+
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the village centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is more than 400m from any listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of these historical heritage	+/?

SA Objective	Assessment Criteria - Does the site (HU002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	assets and their setting. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 750m from Hulme Quarry SSSI and would increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Hulme has scope to have a positive effect on the vitality and viability of Hulme and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (HU002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 5 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space, areas of existing employment and location away from historic assets is likely to have a positive effect, as could the development of brownfield land. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect, as could the site's proximity to designated assets.			

Table 7.248

## Kingsley Holt

## Potentially suitable sites (5+ dwellings) - within the Infill Boundary

KH018

SA Objective	Assessment Criteria - Does the site (KH018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (KH018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site within the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Kingsley Holt does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Kingsley Holt does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 8 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KH018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Kingsley Holt as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> </ul>	The site is within 500m of Frogghall Meadow and Pastures SSSI, the nearest designated asset, and, as such, is considered to have an effect	--/?

SA Objective	Assessment Criteria - Does the site (KH018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area, is adjacent to a main road to the west with buildings and species poor grasslands, and has poor connectivity to the wider countryside. The site is deemed as having some ecological value due to the presence of species rich hedgerows and a tree with bat roosting potential. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m from one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of these historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> </ul>	The site would be within 500m from Frogghall Meadow and Pastures SSSI and would increase external pressures on these sites. Given the	+

historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Kingsley Holt has scope to have a positive effect on the vitality and viability of Kingsley Holt and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KH018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>			
The proposed delivery of circa 8 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space and areas of existing employment is likely to have a positive effect. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect, as could the site's proximity to designated assets. The development of greenfield, grade 4 ALC land is likely to have a negative effect, as could the site's proximity to historic assets.			

Table 7.249

## Potentially suitable sites (5+ dwellings) - outside the Infill Boundary

## KH009

SA Objective	Assessment Criteria - Does the site (KH009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> </ul>	The development of this site, a brownfield site outside of the development boundary could help to improve the social and environmental quality of the village centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Offer opportunity to provide open space and support to disadvantaged people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Kingsley Holt does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Kingsley Holt does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KH009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>		
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 9 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Kingsley Holt as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KH009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 400m of Frogghall Meadow and Pastures SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity with numerous non-native and coniferous species present, is adjacent to a road to the west and buildings to the north and species poor grasslands, with fairly good connectivity to the wider countryside. The site is deemed to have some value from an ecological perspective. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on brownfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KH009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield site could enable the re-use of existing buildings within the village centre. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m from any listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 500m from Frogghall Meadow and Pastures SSSI and would increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Kingsley Holt has scope to have a positive effect on the vitality and viability of Kingsley Holt and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (KH009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 9 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space and areas of existing employment is likely to have a positive effect, as could its location away from historic assets and the development of brownfield land. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect, as could the site's proximity to designated assets.

## ADD07

SA Objective	Assessment Criteria - Does the site (ADD07)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		

SA Objective	Assessment Criteria - Does the site (ADD07)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site outside of the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Kingsley Holt does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Kingsley Holt does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the location and size of the site, it is considered that the site could accommodate circa 52 dwellings and therefore also provide a	++

SA Objective	Assessment Criteria - Does the site (ADD07)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Kingsley Holt as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (ADD07)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 600m of Froghall Meadow and Pastures SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m one grade II listed asset. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (ADD07)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 600m from Frogghall Meadow and Pastures SSSI and would increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Kingsley Holt has scope to have a positive effect on the vitality and viability of Kingsley Holt and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (ADD07)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 1,000m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 52 dwellings is considered to have a significant positive effect. The site's accessibility to areas of existing employment is considered to have a positive effect. However, the site's inaccessibility to services and facilities is likely to have a significant negative effect. Similarly, the site's proximity to designated and historic assets is likely to have a negative effect, as could the development of greenfield, grade 4 ALC land.

## Leekbrook

## Potentially suitable sites (5+ dwellings) - within the Infill Boundary

## LB006

SA Objective	Assessment Criteria - Does the site (LB006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site within the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (LB006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Leekbrook does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Leekbrook does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 6 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Leekbrook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
ENVIRONMENTAL			

SA Objective	Assessment Criteria - Does the site (LB006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,750m of Ladderedge Country Park (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has poor biodiversity and has poor connectivity to the wider countryside therefore is deemed to have low ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (LB006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m from any listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,750m from Ladderedge Country Park (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (LB006)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Leekbrook has scope to have a positive effect on the vitality and viability of Leekbrook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The site's accessibility to areas of existing employment is likely to have a significant positive effect. Similarly, the proposed delivery of circa 6 dwellings is considered to have a positive effect, as could the site's accessibility to areas of open space and its location away from designated and historic assets. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect.			

Table 7.252

## Potentially suitable sites (5+ dwellings) - outside the Infill Boundary

## LB011

SA Objective	Assessment Criteria - Does the site (LB011)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site outside the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Leekbrook does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Leekbrook does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (LB011)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 6 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Leekbrook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	Part of the site is located within a flood zone 2 area and, as such, it can be considered that the site would be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to an increased water demand within the District. Overall, this site has been assessed as having a negative effect on this objective, however the exact effects are uncertain.	-

SA Objective	Assessment Criteria - Does the site (LB011)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 1,750m of Ladderedge Country Park (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is more than 400m from any listed assets. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (LB011)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,750m from Ladderedge Country Park (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Leekbrook has scope to have a positive effect on the vitality and viability of Leekbrook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (LB011)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The site's accessibility to areas of existing employment is likely to have a significant positive effect. Similarly, the proposed delivery of circa 6 dwellings is considered to have a positive effect, as could the site's accessibility to areas of open space and its location away from designated and historic assets. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect.

Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 1,750m from Ladderedge Country Park (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (LB012)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Leekbrook has scope to have a positive effect on the vitality and viability of Leekbrook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The site's accessibility to areas of existing employment is likely to have a significant positive effect. Similarly, the proposed delivery of circa 6 dwellings is considered to have a positive effect, as could the site's accessibility to areas of open space and its location away from designated and historic assets. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect.			

Table 7.254

## Longsdon

### Potentially suitable sites (5+ dwellings) - within the draft Infill Boundary

#### LO002

SA Objective	Assessment Criteria - Does the site (LO002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support recreation facilities that help to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The development of this site, a greenfield site within the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Help to improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Longsdon does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Longsdon does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.		This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (LO002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 10 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Longsdon as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (LO002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 400m of Ladderedge Country Park (LNR), the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has low potential to support protected species, and the site is fairly poorly connected to the wider countryside, though is attributed some ecological value due to the presence of two trees with potential to support roosting bats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m one grade II* listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (LO002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 400m from Ladderedge Country Park (LNR) and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Longsdon has scope to have a positive effect on the vitality and viability of Longsdon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (LO002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 10 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect, as could the site's proximity to designated and historic assets.

To ensure adequate quality and provision of a range of	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 13 dwellings and therefore also	++

SA Objective	Assessment Criteria - Does the site (LO021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Longsdon as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. The development could also be expected to lead to increased water demand within the District. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (LO021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 400m of Ladderedge Country Park (LNR), the nearest designated asset, and, as such, is considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m one grade II* listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (LO021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 400m from Ladderedge Country Park (LNR) and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Longsdon has scope to have a positive effect on the vitality and viability of Longsdon and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (LO021)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 13 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which is likely to have a significant negative effect. The development of greenfield, grade 4 ALC land is likely to have a negative effect, as could the site's proximity to designated and historic assets.

SA Objective	Assessment Criteria - Does the site (LT001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> </ul>	The development of this site, a greenfield site outside the development boundary could be expected to have an effect on the Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Offer opportunity to provide open space and support local businesses that are likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Lower Tean does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Lower Tean does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help	+

SA Objective	Assessment Criteria - Does the site (LT001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 20 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Lower Tean as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate	+

SA Objective	Assessment Criteria - Does the site (LT001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3,500m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of the improved grassland area and is also directly adjacent to a housing estate and species poor grasslands. The hedgerow however has very good connectivity to the wider countryside becoming more diverse further north and should be retained and potentially qualify for SBI status, hence the site itself being attributed ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	-/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns /	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 50m of two grade II listed assets and within 400m of one scheduled monument and eight grade II listed assets. Dependent	-/?

SA Objective	Assessment Criteria - Does the site (LT001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 3,500m from Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Needwood and South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Lower Tean has scope to have a positive effect on the vitality and viability of Lower Tean and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (LT001)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 20 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect, as could the development of greenfield, grade 3 ALC land and proximity to historic assets. The site's proximity to designated assets and the inaccessibility of areas of existing employment are likely to have a negative effect.			

Table 7.258

## LT002

SA Objective	Assessment Criteria - Does the site (LT002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site outside the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (LT002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Lower Tean does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Lower Tean does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 6 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Lower Tean as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
ENVIRONMENTAL			

SA Objective	Assessment Criteria - Does the site (LT002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3,500m from Cecilly Brook (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area, is adjacent to a main road to the south and farm buildings to the east and species poor grasslands to the north and west, but has good connectivity to the wider countryside through networks of species rich hedgerows. The presence of a species rich hedgerow attributes the site some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (LT002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 3 ALC land so development of this site could result in the loss of best and most versatile land. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 50m of two grade II listed assets and within 400m of one scheduled monument and seven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	--/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 3,500m from Cecilly Brook (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Needwood and South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (LT002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Lower Tean has scope to have a positive effect on the vitality and viability of Lower Tean and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,000m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a negative effect on this Objective.	-
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 6 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect, as could the development of greenfield, grade 3 ALC land and proximity to historic assets. The site's proximity to designated assets and the inaccessibility of existing employment are likely to have a negative effect.			

Table 7.259

## Oakamoor

## Potentially suitable sites (5+ dwellings) - within Infill Boundary

## OA026

SA Objective	Assessment Criteria - Does the site (OA026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site within the infill boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Oakamoor does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Oakamoor does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help	+

SA Objective	Assessment Criteria - Does the site (OA026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 11 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Oakamoor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate	+

SA Objective	Assessment Criteria - Does the site (OA026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	against this. Overall, this site has been assessed as having a positive effect on this objective.	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 800m of Bath Pasture SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area, despite its proximity to Cotton Dell Nature Reserve / AWI. The major aspects of ecological interest is the bat potential in the four trees and general potential for supporting reptiles and the connective value of the vegetation to the Local Nature Reserve. The site is therefore considered to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural</li> </ul>	The site is within 400m of six grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and	-/?

SA Objective	Assessment Criteria - Does the site (OA026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings? Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 800m of Bath Pasture SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Oakamoor has scope to have a positive effect on the vitality and viability of Oakamoor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (OA026)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 11 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to designated and historic assets and the development of greenfield, grade 4 ALC land are likely to have a negative effect.			

Table 7.260

### Potentially suitable sites (5+ dwellings) - outside infill boundary

#### OA016

SA Objective	Assessment Criteria - Does the site (OA016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> </ul>	The development of this site, a greenfield site outside the infill boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (OA016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Oakamoor has scope to have a positive effect on the vitality and viability of Oakamoor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 9 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to designated and historic assets and the development of greenfield, grade 4 ALC land are likely to have a negative effect.			

Table 7.261

## OA030

SA Objective	Assessment Criteria - Does the site (OA030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site outside the infill boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Oakamoor does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Oakamoor does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (OA030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 23 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Oakamoor as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (OA030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 900m of Bath Pasture SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has high potential biodiversity and very good connectivity to the wider countryside through broadleaved woodland to the north. The area is attributed high biodiversity value, especially the unimproved calcareous grassland. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m of seven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (OA030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be within 900m of Bath Pasture SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Oakamoor has scope to have a positive effect on the vitality and viability of Oakamoor and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (OA030)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 23 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to designated and historic assets and the development of greenfield, grade 4 ALC land are likely to have a negative effect.

house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Rudyard as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (RU016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 3,000m from Brough Park (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has potential for protected species to be present due to the mosaic of habitats and habitat structure present, especially as the site is well connected to the wider countryside. The site is considered to have ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	There are no listed assets within 400m of the site. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (RU016)....?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 3,000m from Brough Park (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Rudyard has scope to have a positive effect on the vitality and viability of Rudyard and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (RU016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 13 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and location away from historic assets are likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to designated assets and the development of greenfield, grade 4 ALC land are likely to have a negative effect.			

Table 7.264

## RU020

SA Objective	Assessment Criteria - Does the site (RU020)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> </ul>	The development of this site, a mixed brownfield and greenfield site outside the development boundary could help to improve the social and environmental quality of the village centre. Overall, this site has been assessed as having a positive effect on this Objective.	+
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Offer opportunity to improve neighbourhood <del>quality</del> or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Rudyard does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria - Does the site (RU020)...?	Commentary on likely nature of effects of site allocation	Overall assessment
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Rudyard does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 14 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Rudyard as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (RU020)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,750m from Brough Park (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has potential for protected species to be present due to the mosaic of habitats and habitat structure present, especially as the site is well connected to a lake <500m away. Therefore the site is deemed to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on mixed brownfield and greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (RU020)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	The development of this brownfield and greenfield site could enable the re-use of existing building. Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,750m from Brough Park (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Similarly, the site is located within the Churnet Valley Area as an area for sustainable tourism and rural regeneration. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Rudyard has scope to have a positive effect on the vitality and viability of Rudyard and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (RU020)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 14 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to historic assets, the ecological value of the site and the development of greenfield, grade 4 ALC land are likely to have a negative effect.

Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 4,500m from Peak District Moors (South Pennine Moors Phase 1) SPA, the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site generally has poor biodiversity and has poor connectivity to the wider countryside, but despite this is deemed to have some ecological value due to the presence of a potential bat roost within one of the trees. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so	-

SA Objective	Assessment Criteria - Does the site (RS005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of two grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 4,500m from Peak District Moors (South Pennine Moors Phase 1) SPA and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the South West Peak National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (RS005)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Rushton Spencer has scope to have a positive effect on the vitality and viability of Rushton Spencer and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 7 dwellings is considered to have a positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to historic assets, the ecological value of the site and the development of greenfield, grade 4 ALC land are likely to have a negative effect.			

Table 7.266

## Potentially suitable sites (5+ dwellings) - within Green Belt

## RS009

SA Objective	Assessment Criteria - Does the site (RS009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of life of people who live in the area.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender, reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	<p>The development of this site, a greenfield site outside of the village of Rushton Spencer, has the potential to help improve community cohesion and the quality of life of people who live in the area. The site is located in a rural area and is surrounded by open space. The development of the site would provide a significant positive effect on this Objective.</p>	-
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	<p>The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Rushton Spencer does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	<p>This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.</p>	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	<p>Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 30 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.</p>	++

SA Objective	Assessment Criteria - Does the site (RS009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Rushton Spencer as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> </ul>	The site is more than 4,500m from Peak District Moors (South Pennine Moors Phase 1) SPA, the nearest designated asset, and, as such, is	-/?

SA Objective	Assessment Criteria - Does the site (RS009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>● Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>● Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has potential to support protected species, though the site is fairly poorly connected to the wider countryside but is considered to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Help safeguard the best and most versatile agricultural land?</li> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of five grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> </ul>	The site would be more than 4,500m from Peak District Moors (South Pennine Moors Phase 1) SPA and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the South West Peak	+

SA Objective	Assessment Criteria - Does the site (RS009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Rushton Spencer has scope to have a positive effect on the vitality and viability of Rushton Spencer and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>			

SA Objective	Assessment Criteria - Does the site (RS009)...?	Commentary on likely nature of effects of site allocation	Overall assessment
			The proposed delivery of circa 30 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to historic assets, the ecological value of the site and the development of greenfield, grade 4 ALC land are likely to have a negative effect.

## RS007

SA Objective	Assessment Criteria - Does the site (RS007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<b>SOCIAL</b>		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site outside of the development boundary could be expected to have an effect on the Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Rushton Spencer does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria - Does the site (RS007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Rushton Spencer does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 26 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Rushton Spencer as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (RS007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 4,500m from Peak District Moors (South Pennine Moors Phase 1) SPA, the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has potential for protected species to be present due to proximity of the wet habitat communities, under refugia and potentially using the area as a basking opportunity. The site is also well connected to more biodiverse habitats within the wider countryside and overall the site is deemed to have ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (RS007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of four grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 4,500m from Peak District Moors (South Pennine Moors Phase 1) SPA and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the South West Peak National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Rushton Spencer has scope to have a positive effect on the vitality and viability of Rushton Spencer and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (RS007)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 26 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to historic assets, the ecological importance of the site and the development of greenfield, grade 4 ALC land are likely to have a negative effect.

SOCIAL			

SA Objective	Assessment Criteria - Does the site (RS015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and ventilation?</li> </ul>	The development of this site, a greenfield site outside of the development boundary could be expected to have an effect on the Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Deliver opportunities that are likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Rushton Spencer does not have a secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Help improve health or access to health facilities?</li> <li>Help promote healthy lifestyles?</li> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Rushton Spencer does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 12 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (RS015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Rushton Spencer as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

SA Objective	Assessment Criteria - Does the site (RS015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 4,500m from Peak District Moors (South Pennine Moors Phase 1) SPA, the nearest designated asset, and, as such, is not considered to have an effect on this asset. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of four grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (RS015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 4,500m from Peak District Moors (South Pennine Moors Phase 1) SPA and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the South West Peak National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Rushton Spencer has scope to have a positive effect on the vitality and viability of Rushton Spencer and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria - Does the site (RS015)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 12 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to historic assets, the ecological value of the site and the development of greenfield, grade 4 ALC land are likely to have a negative effect.			

Table 7.269

## 7.5.4 Smaller villages: Stockton Brook to Whiston and other areas

### Stockton Brook

#### Potentially suitable sites (5+ dwellings) - within the Green Belt

##### SB014

SA Objective	Assessment Criteria - Does the site (SB014)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site outside of the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Stockton Brook does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Stockton Brook does not have a GP surgery.	+

SA Objective	Assessment Criteria - Does the site (SB014)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Help to reduce health inequalities?</li> <li>Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	Overall, this site has been assessed as having a positive effect on this Objective.	
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Deliver development that reduces actual levels of crime?</li> <li>Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 10 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Stockton Brook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (SB014)...?	Commentary on likely nature of effects of site allocation	Overall assessment
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 2,000m from Bagnall Road Wood (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area, is adjacent to a main road with buildings to the west and species poor grasslands, with fairly good connectivity to the wider countryside. The site is deemed to have some ecological value for both its woodland assemblage and two trees with potential to support roosting bats. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (SB014)...?	Commentary on likely nature of effects of site allocation	Overall assessment
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	There are no listed assets within 400m of the site. Dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 2,000m from Bagnall Road Wood (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Stockton Brook has scope to have a positive effect on the vitality and viability of Stockton Brook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (SB014)...?	Commentary on likely nature of effects of site allocation	Overall assessment
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 10 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and location away from historic assets are likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's ecological importance and the development of greenfield, grade 4 ALC land are likely to have a negative effect.

## SB016

SA Objective	Assessment Criteria - Does the site (SB016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
SOCIAL			

SA Objective	Assessment Criteria - Does the site (SB016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site outside of the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Stockton Brook does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Stockton Brook does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 15 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++

SA Objective	Assessment Criteria - Does the site (SB016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>		
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Stockton Brook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

	<ul style="list-style-type: none"> <li>contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 1,750m from Bagnall Road Wood (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. The Ecological Study (2015) notes that the site has potential for protected species to be present due to proximity of ponds, Caldon Canal, and wetland habitat mosaic. The site is also well connected to more biodiverse habitats and the wider countryside. The site is therefore deemed to have some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is within 400m of five grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (SB016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would be more than 1,750m from Bagnall Road Wood (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Stockton Brook has scope to have a positive effect on the vitality and viability of Stockton Brook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (SB016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 15 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to historic assets, ecological value and the development of greenfield, grade 4 ALC land are likely to have a negative effect.

## ADD08

SA Objective	Assessment Criteria - Does the site (ADD08)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site outside of the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (ADD08)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Stockton Brook does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Stockton Brook does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 40 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Stockton Brook as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (ADD08)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 2,000m from Bagnall Road Wood (LNR), the nearest designated asset, and, as such, is not considered to have an effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (ADD08)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of five grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would within 2,000m from Bagnall Road Wood (LNR) and would not increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria - Does the site (ADD08)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Stockton Brook has scope to have a positive effect on the vitality and viability of Stockton Brook and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 40 dwellings is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and location away from designated assets are likely to have a positive effect. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to historic assets and ecological value are likely to have a negative effect.

archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a significant negative effect on this Objective, however the exact effects are uncertain.	
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site is within 500m from Churnet Valley SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Whiston has scope to have a positive effect on the vitality and viability of Whiston and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0

SA Objective	Assessment Criteria - Does the site (WH002)...?	Commentary on likely nature of effects of site allocation	Overall assessment
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The proposed delivery of circa 10 dwellings and proximity to areas of existing employment is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect, as could the site's proximity to designated and historic assets.

## WH009A

SA Objective	Assessment Criteria - Does the site (WH009A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site outside of the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (WH009A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Whiston does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Whiston does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 15 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Whiston as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
ENVIRONMENTAL			

SA Objective	Assessment Criteria - Does the site (WH009A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	!/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 600m from Churnet Valley SSSI and Whiston Eaves SSSI, the nearest designated assets, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has mostly low biodiversity value overall in terms of area, is adjacent to a main road to the west and species poor grasslands but does have fairly good connectivity to the wider countryside through networks of hedgerows. Overall the site is attributed low ecological value due to the lack of potential to support protected species. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?

SA Objective	Assessment Criteria - Does the site (WH009A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of six grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site is within 600m from Churnet Valley SSSI and Whiston Eaves SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (WH009A)...?	Commentary on likely nature of effects of site allocation	Overall assessment
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Whiston has scope to have a positive effect on the vitality and viability of Whiston and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> <li>Improve physical accessibility to jobs?</li> <li>Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b> The proposed delivery of circa 15 dwellings and proximity to areas of existing employment is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space is likely to have a positive effect. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect. The site's proximity to designated and historic assets and the development of greenfield, grade 4 ALC land are likely to have a negative effect.

SA Objective	Assessment Criteria - Does the site (WH016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>Make a positive contribution towards community cohesion?</li> <li>Offer opportunity to improve neighbourhood quality?</li> <li>Offer opportunity to provide open space and support Green Infrastructure?</li> <li>Risk unacceptable light and noise pollution?</li> <li>Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li> </ul>	The development of this site, a greenfield site outside of the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-

SA Objective	Assessment Criteria - Does the site (WH016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Whiston does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Whiston does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>● Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>● Offer opportunities to ensure that people can afford their housing?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 6 dwellings and therefore also provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	+
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>● Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>● Support the use of public transport?</li> <li>● Support safe walking and cycling?</li> <li>● Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Whiston as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			

SA Objective	Assessment Criteria - Does the site (WH016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is within 500m from Churnet Valley SSSI, the nearest designated asset, and, as such, is considered to have an effect on this asset. The Ecological Study (2015) notes that the site has a mosaic of habitats contained within an area of garden and derelict garden with good connectivity to other more biodiverse habitats, therefore the site has been attributed some ecological value. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
11. To safeguard the best and most versatile agricultural land; improve soil and land	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most	-

SA Objective	Assessment Criteria - Does the site (WH016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>● Deliver development that helps to minimise the loss of greenfield land?</li> <li>● Offer opportunities to reduce land contamination / instability?</li> <li>● Deliver development that helps reduce the amount of derelict land?</li> <li>● Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to reduce waste generation?</li> <li>● Offer opportunities to maximise the re-use of existing buildings?</li> <li>● Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>● Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>● Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of seven grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>● Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>● Deliver development that maximises re-use of brownfield land?</li> <li>● Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site is within 500m from Churnet Valley SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>● Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>● Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+

SA Objective	Assessment Criteria - Does the site (WH016)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Whiston has scope to have a positive effect on the vitality and viability of Whiston and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is within 500m of existing areas of employment within the town or District and, as such, would provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant positive effect on this Objective.	++
<b>Summary of overall assessment and likely significant effects:</b>  The site's proximity to areas of existing employment is considered to have a significant positive effect. Similarly, the site's accessibility to areas of open space and the proposed delivery of circa 6 dwellings are likely to have a positive effect. However, the site is inaccessible to services and facilities which is likely to have a significant negative effect. The site's proximity to designated and historic assets and the development of greenfield, grade 4 ALC land are likely to have a negative effect.			

Table 7.276

SA Objective	Assessment Criteria - Does the site (WH018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> </ul>	The development of this site, a greenfield site outside of the development boundary could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● Deliver development that is likely to help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located on the edge of the village, it is within 400m of the village centre but has insufficient services and facilities to meet the needs of the community. It should be noted that Whiston does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide residents with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Whiston does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	+
5. To ensure adequate quality and provision of a range of house types to meet local	<ul style="list-style-type: none"> <li>● Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> </ul>	Based on the SHLAA (2015) assessment of this site, it is considered that the site could accommodate circa 5 dwellings and therefore also	+

SA Objective	Assessment Criteria - Does the site (WH018)...?	Commentary on likely nature of effects of site allocation	Overall assessment
needs in appropriate locations and including affordable / social /extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	provide a quantum of affordable housing on site. Overall, this site has been assessed as having a positive effect on this Objective.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 400m of the village centre of Whiston as well as being adjacent to an area of open space which should reduce the need to travel within the village. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 400m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	i/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help</li> </ul>	As the site is located outside of a flood zone 2 or 3 area it can be considered that the site would not be subject to risk from flooding. The development of this site could lead to an increase in wastewater and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a positive effect on this objective.	+

Dependent on proposal specific information, there is scope that development could incorporate sustainable materials. Overall, this site has been assessed as having a positive effect on this Objective.	+
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?</li> </ul>	The site is within 400m of one grade II listed assets. Dependent on proposal specific information, there is scope that development of this site could lead to the deterioration of historical heritage assets and their setting. Overall, this site has been assessed as having a negative effect on this Objective, however the exact effects are uncertain.	-/?
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site is within 600m of Hulme Quarry SSSI and could increase external pressures on these sites. Given the location of the site, it is considered that there could be effects on landscape character. Proposal specific information is required to assess the impact on the Potteries and Churnet Valley National Character Area. Overall, this site has been assessed as having a negative effect on this Objective.	-
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed residential use of this site limits the effect that it can have on investment in culture and tourism within the village and wider district. However, the increased population of both the village and District may have a positive effect. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			

SA Objective	Assessment Criteria - Does the site (OC003)...?	Commentary on likely nature of effects of site allocation	Overall assessment
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>● Deliver development that helps to safeguard shops and services in existing centres?</li> <li>● Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of a residential site with good access to the village centre of Hulme has scope to have a positive effect on the vitality and viability of Hulme and the wider District, as new residents could be expected to increase footfall. Overall, this has been assessed as having a positive effect on this Objective.	+
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>● Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>● Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The development of this site could encourage investment in people and infrastructure through developer contributions although this would be limited. However, the extent of this effect is uncertain. Overall, this site has been assessed as having a neutral effect on this Objective.	0
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>● Help meet the employment needs of local people?</li> <li>● Help increase economic activity levels?</li> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>	The site is over 1,500m to existing areas of employment within the town or District and, as such, would fail to provide sufficient accessible employment opportunities for prospective residents. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
<b>Summary of overall assessment and likely significant effects:</b>  The development of brownfield, grade 4 ALC land is considered to have a positive effect, as could the site's accessibility to areas of open space and the proposed delivery of circa 6 dwellings. However, the site is inaccessible to services and facilities and areas of existing employment which are likely to have a significant negative effect. The site's proximity to designated and historic assets are likely to have a negative effect.			

Table 7.278

## Potentially suitable sites (5+ dwellings) - outside Infill Boundary

## OC055

SA Objective	Assessment Criteria - Does the site (OC055)...?	Commentary on likely nature of effects of site allocation	Overall assessment
<b>SOCIAL</b>			
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"> <li>● Make a positive contribution towards community cohesion?</li> <li>● Offer opportunity to improve neighbourhood quality?</li> <li>● Offer opportunity to provide open space and support Green Infrastructure?</li> <li>● Risk unacceptable light and noise pollution?</li> <li>● Offer opportunity to ensure that occupiers of buildings and spaces have sufficient natural light?</li> </ul>	The site is on the edge of Cresswell and is outside of the infill boundary. The development of this site a greenfield site, could be expected to have an effect on Green Infrastructure and environmental quality. Overall, this site has been assessed as having a negative effect on this Objective.	-
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>● <del>Build opportunities that help remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</del></li> <li>● Help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	The site is located within 800m of the village centre of Cresswell which has insufficient services and facilities to meet the needs of the community. It should be noted that Cresswell does not have a primary or secondary school. Overall, this site has been assessed as having a significant negative effect on this Objective.	--
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>● Help improve health or access to health facilities?</li> <li>● Help promote healthy lifestyles?</li> <li>● Help to reduce health inequalities?</li> <li>● Offer opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	The location of this site should provide employees with good access to areas of open space which should help to support healthy lifestyles. It should be noted that Cresswell does not have a GP surgery. Overall, this site has been assessed as having a positive effect on this Objective.	+
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>● Deliver development that reduces actual levels of crime?</li> <li>● Deliver development that helps to reduce fear of crime?</li> </ul>	This site is difficult to assess against this objective without proposal specific information. However, it can be considered that new development would include aspects of good design which would help	+

SA Objective	Assessment Criteria - Does the site (OC055)...?	Commentary on likely nature of effects of site allocation	Overall assessment
		to minimise crime and the fear of crime. Overall, this site has been assessed as having a positive effect on this Objective.	
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Offer opportunities to provide an appropriate mix of housing to enable all needs to be met?</li> <li>Offer opportunities to enable people to meet their needs within their existing communities?</li> <li>Offer opportunities to ensure that people can afford their housing?</li> </ul>	This site has been proposed for employment uses with regards to this assessment. Therefore the development would provide no housing. Overall, this site has been assessed as having a neutral effect on this Objective.	0
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise impacts on existing traffic congestion?</li> <li>Support the use of public transport?</li> <li>Support safe walking and cycling?</li> <li>Offer opportunities to protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	As noted previously, the site is within 800m of the village centre of Creswell and adjacent to the open countryside which should reduce the need to travel within the town. Similarly, the site is within 500m of a bus stop. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ENVIRONMENTAL</b>			
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce emissions of greenhouse gases, particularly CO<sub>2</sub>?</li> <li>Offer opportunities to increase energy efficiency?</li> <li>Offer opportunities to increase the use of renewable energy?</li> <li>Deliver development in an accessible location in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	The development of this site could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. However, the site is within 800m of the village centre and could reduce the need to travel. Overall, this site has been assessed as having a positive effect on this Objective.	+
8. To improve air quality.	<ul style="list-style-type: none"> <li>Offer opportunities to minimise emissions of airborne pollutants?</li> <li>Offer opportunities to remove air pollutants (e.g. by trees)?</li> </ul>	The outcome of this assessment could be dependent on implementation and site specific detail. Overall, this site has been assessed as having an uncertain effect on this Objective.	1/?
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Deliver development directed towards areas of least flood risk?</li> <li>Offer opportunities to reduce risk of flooding e.g. by integration of mitigation measures such as SuDs?</li> </ul>	Part of the site is located within flood zone 3. The development of this site could lead to an increase in waste water and reduction of natural drainage, however SuDs could be used to mitigate against this. Overall, this site has been assessed as having a significant negative effect on this Objective.	--

SA Objective	Assessment Criteria - Does the site (OC055)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>Offer opportunities to protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Offer opportunities to encourage water efficiency and demand management?</li> </ul>		
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Enable protection of the district's sites of ecological and nature conservation importance, including the integrity of European sites?</li> <li>Deliver development that will help to support meeting Staffordshire Biodiversity Action Plan objectives?</li> <li>Offer opportunities to help deliver networks of biodiversity and green infrastructure?</li> </ul>	The site is more than 5,000m from Barlaston and Rough Close Common (LNR), the nearest designated asset, and, as such, is considered to have no effect on this asset. This site has not been subject to an ecology survey, so the exact effects are uncertain. The HRA notes that no direct impacts upon the SPA are predicted from this site. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"> <li>Help safeguard the best and most versatile agricultural land?</li> <li>Deliver development that helps to minimise the loss of greenfield land?</li> <li>Offer opportunities to reduce land contamination / instability?</li> <li>Deliver development that helps reduce the amount of derelict land?</li> <li>Offer opportunities to protect notable geological and geomorphological features?</li> </ul>	As noted, this site has been assessed as being on greenfield land. However, the land has also been assessed as grade 4 ALC land so development of this site would not result in the loss of best and most versatile land. Overall, this site has been assessed as having a negative effect on this Objective.	-
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Offer opportunities to reduce waste generation?</li> <li>Offer opportunities to maximise the re-use of existing buildings?</li> <li>Offer opportunities to increase the use of building materials from sustainable sources?</li> </ul>	As per the previous objective, the development of this site would not enable the re-use or loss of existing buildings. However, there is scope that development could use sustainable materials and increase the demand for local resources. Overall, this site has been assessed as having a neutral effect on this Objective.	0
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Deliver development that helps ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Offer opportunities to protect and reinforce the character and appearance of the district's towns</li> </ul>	The site is more than 400m away from a listed asset. Although dependent on proposal specific information, there is limited scope that development of this site could lead to the deterioration of the setting of this historical heritage assets. Overall, this site has been assessed as having a positive effect on this Objective, however the exact effects are uncertain.	+/?

SA Objective	Assessment Criteria - Does the site (OC055)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	and villages and maintain and strengthen local distinctiveness and sense of place?		
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Offer opportunities to protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Deliver development that maximises re-use of brownfield land?</li> <li>Offer opportunities to safeguard protected sites and provide opportunities for the enhancement of the natural environment identified in the NCA profiles?</li> </ul>	The site would avoid development within 5,000m of protected sites and would reduce external pressures on these sites. Given the location of the site, it is considered that there would be scope for effects on landscape character. Proposal specific information is required to assess the impact on the Needwood and South Derbyshire Claylands National Character Area. Overall, this site has been assessed as having a positive effect on this Objective.	+
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Offer opportunities to support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Offer opportunities to help support tourism and the visitor economy?</li> </ul>	The proposed employment use of this site provides scope for the development of this site to have a positive effect on investment in culture and tourism within the town and wider district, however this is dependent on proposal specific information. Overall, this site has been assessed as having a positive effect on this Objective.	+
<b>ECONOMIC</b>			
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Deliver development that helps to safeguard shops and services in existing centres?</li> <li>Deliver development that helps to safeguard and improve the retail, leisure and service provision?</li> </ul>	The proposed development of an employment site within the village centre has the scope to have a positive effect on the vitality and viability of Cresswell and the wider District, as new employment could be expected to increase footfall in the nearby village centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Help provide a balanced portfolio of employment land in sustainable locations?</li> <li>Help provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	The proposed development of an employment site within the village centre has the scope to have a positive effect on the vitality and viability of Cresswell and the wider District, as new employment could be expected to increase footfall in the nearby village centre. Overall, this site has been assessed as having a significant positive effect on this objective.	++
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Help meet the employment needs of local people?</li> <li>Help increase economic activity levels?</li> </ul>	The site is proximity to areas of existing local employment provision as well as new employment provision generated by this site. Overall, this site has been assessed as having a significant positive effect on this objective.	++

SA Objective	Assessment Criteria - Does the site (OC055)...?	Commentary on likely nature of effects of site allocation	Overall assessment
	<ul style="list-style-type: none"> <li>● Improve physical accessibility to jobs?</li> <li>● Support higher income levels for local residents?</li> </ul>		
<p><b>Summary of overall assessment and likely significant effects:</b></p> <p>The development of new employment premises should have a significant positive effect upon the vitality and viability of the District, strengthen economic growth and support a higher level of employment within the District. Similarly, the site is located away from designated and historic assets. However, the site is inaccessible to services and facilities, is partially within a flood zone which are both assessed to have a significant negative effect. The development of greenfield, grade 4 ALC land is considered to have a negative effect.</p>			

Table 7.279

## Appraisal of alternative housing target options

## 8 Appraisal of alternative housing target options

**8.1** The matrices below set out the likely significant effects on sustainability of the four alternative options considered by the Council for a housing requirement. The assessments are based on the methodology proposed and consulted on in the SA Scoping Report and use the SA Framework also developed through consultation as part of the SA Scoping stage.

**8.2** As part of the SA appraisal of options, consideration has been given to effects on sustainability over time (in the short, medium and long term) along with any cumulative impacts of implementing each option and possible mitigation measures where appropriate.

**8.3** In comparing options with one another, consideration has also been given to the geographical scale of effect, whether any identified effects would be permanent or temporary, reversible or irreversible and the assumptions made, or justification for the assessment recorded.

**8.4** Definitions of significance are provided in Section 3 Appraisal Methodology.

### Scoring of options

Score	
++	The requirement will have a very positive impact on the sustainability objective
+	The requirement will have a slightly positive impact on the sustainability objective
0	The requirement will have a negligible or neutral impact on the sustainability objective. A recorded neutral effect does not necessarily mean that there will be no effect at the project level, but shows that at this strategic level there are no identifiable effects.
-	The requirement will have a slightly negative impact on the sustainability objective
--	The requirement will have a very negative impact on the sustainability objective
i	The outcome could be dependent on implementation, or more detail is required to make an assessment
?	The impact of an issue cannot be predicted at this stage

**Table 8.1 Scoring of options**

**8.5** Different components within an option may generate varying impacts. This is indicated by "/".

**Key to Table**

- ST: Short term = 0 - 5 years
- MT: Medium term = 5 - 10 years
- LT: Long term = over 10 years

## Housing Requirement Option 1

SA Objective	Option 1: 250 new homes each year					Justification; cumulative effects / mitigation measures
	Decision making criteria	Time-frame			Nature of effect; Comments	
		ST	MT	LT		
SOCIAL						
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"><li>Will it make a positive contribution towards community cohesion?</li><li>Will it improve neighbourhood quality?</li><li>Will it ensure that there is adequate open space and support Green Infrastructure?</li><li>Will it minimise light and noise pollution?</li><li>Will it ensure that occupiers of buildings and spaces have sufficient natural light and</li></ul>	?	?	?	There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. There is a balance between loss of countryside as a result of development and provision of new, accessible open space as part of new developments. This requirement may offer the least opportunity for associated benefits such as new or enhanced community facilities to be delivered as a result of new development.	<b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Community cohesion and local environmental quality are more dependent on design and location of new development than on the overall housing requirement. <b>Mitigation measures:</b> Local Plan policies to ensure that good standards of amenity and open space and Green Infrastructure are delivered as part of new housing development.

Option 1: 250 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
	appropriate levels of privacy?				
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Will it remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> </ul>	?	?	?	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However this option will deliver the least housing growth of the four options considered and thus the least opportunity to improve accessibility to key services and facilities. Despite this, lower levels of housing growth will enable a focus of growth on small urban extensions and small sites within the existing settlement boundary which is likely to help minimise the distance people need to travel.</p>
	<ul style="list-style-type: none"> <li>Will it help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>				
					<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Equality of opportunity for all persons will be improved by any measure that has the effect of improving overall accessibility to jobs, services and facilities. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments are brought forward in sustainable locations.</p>

Option 1: 250 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Will it improve health or access to health facilities?</li> <li>Will it promote healthy lifestyles?</li> <li>Will it reduce health inequalities?</li> <li>Will it provide opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	?/-	?/-	?/--	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However this option will deliver the least housing growth of the four options considered and thus the least opportunity to improve health infrastructure, including opportunities for walking and cycling. In the long term there could be a deterioration in health through lack of investment in health-care, leisure and physical recreational facilities. There is a balance between loss of countryside as a result of development and provision of improved opportunities to access the countryside as part of new developments.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Investment in new infrastructure keeps pace with growth. More housing growth offers more opportunities to invest in new health-care facilities, including new or improved opportunities for walking and cycling. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments deliver opportunities to increase take up of sustainable transport choices and improvements to healthy travel networks, including increased opportunities for access to the countryside.</p>
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Will it reduce actual levels of crime?</li> <li>Will it reduce fear of crime?</li> </ul>	?	?	?	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the implementation of relevant Local Plan policies.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Good design will help minimise opportunities for crime and reduce the fear of crime.</p>

Option 1: 250 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
					<b>Justification; cumulative effects / mitigation measures</b>
					<b>Mitigation measures:</b> Local Plan policies to ensure that new developments are well designed, creating safe places and reducing opportunities for anti-social behaviour.
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Will it provide an appropriate mix of housing to enable all needs to be met?</li> <li>Will it enable people to meet their needs within their existing communities?</li> <li>Will it ensure that people can afford their housing?</li> </ul>	+	+	+	<p>This option represents the lower end of the recommended OAN range<sup>(1)</sup> and by meeting the full demographically-assessed need for housing in the District will have a direct, long-term, positive effect on this SA objective. The requirement is expected to enable the delivery of a range of housing types and tenures, making a contribution to meeting community needs. However the impact of this option on the SA objective is less significant than under all other options. This option is likely to make the least contribution to addressing the needs of an ageing population or ensuring that problems of affordability can be satisfactorily addressed, risking adverse outcomes</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Household projections suggest a considerable growth in the number of older people. The SHMA<sup>(2)</sup> identified a critical affordable housing need. Objectively assessed housing need for the District is between 250dpa and 440dpa. This option will meet the objectively assessed housing need of the plan area but fails fully to address affordable housing need, or offer maximum opportunity for investment in meeting the housing needs of older people. <b>Mitigation measures:</b> Wider initiatives of the Council should be supported to help deliver additional affordable homes.</p>

SA Objective	Option 1: 250 new homes each year					Justification; cumulative effects / mitigation measures
	Decision making criteria	Time-frame			Nature of effect; Comments	
		ST	MT	LT		
					for older people and those who still need to access the housing market.	
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"><li>Will it minimise impacts on existing traffic congestion?</li><li>Will it support the use of public transport?</li><li>Will it support safe walking and cycling?</li><li>Will it protect and improve access to the natural environment and support Green Infrastructure?</li></ul>	?/+	?/+	?/+	There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However this requirement could have a positive effect on minimising the impact of new development on existing traffic congestion and could offer support for the use of sustainable forms of transport through delivering most new development close to town and village centres. The option could support priorities and provisions identified in the SMDC integrated transport strategy <sup>(3)</sup> , including the proposed Local Transport Packages for Leek, Cheadle and Biddulph.	<b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Lower levels of growth are likely to generate fewer new car journeys, resulting in less impact on existing congestion. Lower levels of growth will maximise the proportion of new development delivered close to existing centres, facilitating use of sustainable forms of transport. Higher levels of growth will allow most investment in support for sustainable transport. <b>Mitigation measures:</b> Local Plan policies to ensure that developments are brought forward in sustainable locations; support safe walking and cycling and improve access to the natural environment.
ENVIRONMENTAL						

Option 1: 250 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Will it reduce emissions of greenhouse gases particularly CO<sub>2</sub>?</li> <li>Will it increase energy efficiency?</li> <li>Will it increase the use of renewable energy?</li> <li>Will it ensure new development is in accessible locations in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	-	-	-	<p>There is some uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of developments and the implementation of Local Plan policies. However this option is likely to result in the smallest overall increase in carbon emissions from the energy consumption and emissions arising from construction and use of new development and associated car journeys.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Even if individual properties are built to high environmental performance standards and delivered in sustainable locations, the total increase in number of dwellings and car journeys is likely to increase energy use and associated greenhouse gas emissions. <b>Mitigation measures:</b> Local Plan policies to ensure that high environmental design standards are supported and that developments are brought forward in accessible locations that support the use of sustainable forms of transport.</p>
	<ul style="list-style-type: none"> <li>Will it minimise emissions of airborne pollutants?</li> <li>Will it maximise the removal of air</li> </ul>	?	?	?/-	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However as this option represents the lowest level of growth,</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Identified areas of poor air quality include the Cellarhead junction (between the A52 and A520); Ball Haye Street, Leek (a primary link road from Leek</p>

Option 1: 250 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
	pollutants (e.g. by trees)?				A53 to the A523 Macclesfield and Buxton Road) and Broad Street, Leek (a primary link road from Stoke on Trent) <sup>(4)</sup> . The total increase in number of dwellings and car journeys is likely to increase emission of airborne pollutants. There is a risk that air quality may deteriorate in areas of existing low quality. <b>Mitigation measures:</b> Local Plan policies to ensure that developments include appropriate landscaping to aid removal of air pollutants.
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Is new development directed towards areas of least flood risk?</li> <li>Will it reduce risk of flooding eg by encouraging the integration of mitigation measures such as</li> </ul>	?	?	?	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However the SFRA<sup>(5)</sup> confirms that there are few locations in which development would significantly increase fluvial flood risk elsewhere, due to the majority of</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Development - at whatever overall scale - will be permitted only where schemes meet development plan requirements for management of flood risk. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments are directed towards areas of least flood risk</p>

Option 1: 250 new homes each year

		ST	MT	LT	
sustain a vibrant rural economy					Local Plan policies to support town and village centres.
		deaths over births. The increase in spending in the local economy this is likely to generate should result in benefits to the vitality and viability of the District's towns and villages, contributing to the safeguarding and improvement of shops and services. Although since this option provides for the lowest level of growth, the benefits would be lowest of all options considered.			
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Will it provide a balanced portfolio of employment land in sustainable locations?</li> <li>Will it provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	-	--	--	<p>This option is likely to lead to the loss of 2,075 jobs over the plan period. This is likely to result in a significant negative effect on business, the local economy and local employment through a lack of encouragement for investment in business and infrastructure.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> A local labour supply will help to deliver economic growth across the plan area. <b>Mitigation measures:</b> Local Plan policies to support sustainable economic growth.</p>

SA Objective	Option 1: 250 new homes each year					Justification; cumulative effects / mitigation measures
	Decision making criteria	Time-frame			Nature of effect; Comments	
		ST	MT	LT		
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"><li>Will it meet the employment needs of local people?</li><li>Will it increase economic activity levels?</li><li>Will it improve physical accessibility to jobs?</li><li>Will it support higher income levels for local residents?</li></ul>	-	--	--	It is projected that the number of people aged over 65 in the District will increase by 39% by 2031. The oldest age groups (75-84 and 85+) would see the most substantial increases of 69% and 134% respectively <sup>(8)</sup> . Under this option, the ageing profile of the population is likely to result in a reduction in the labour force, with the working age population expected to decline by 4,058 by 2031. Taking into account overall economic activity rates of individual age groups, this option indicates that the labour force would decline by 2,075 over the plan period. The option is likely to have a negative effect on the local economy and local employment.	<b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Whilst there is not a direct causal relationship between job growth and housing needs, the two are nevertheless fundamentally related. Ensuring a sufficient supply of homes within easy access of employment is a central element of an efficiently functioning economy. <b>Mitigation measures:</b> Local Plan policies to support sustainable economic growth.
<b>Summary of significant effects:</b>  This option proposes the delivery of 250 new dwellings per year. It will have a direct, long-term positive effect on the SA objective to ensure provision of homes to meet local needs since it represents the lower end of the recommended objectively assessed housing need range. However being the lower end of the range, the option makes the least contribution of all options considered to addressing affordable housing need and the needs of an ageing population. Predicted population growth of around 2,800 is likely to increase spending in the local economy resulting in positive benefits for the District's towns and villages including helping to safeguard local shops and services. However since this						

SA Objective	Option 1: 250 new homes each year					Justification; cumulative effects / mitigation measures
	Decision making criteria	Time-frame			Nature of effect; Comments	
		ST	MT	LT		
	<p>option provides for the lowest level of growth, these benefits would be lowest of all options considered. This option is likely to lead to the loss of 2,075 jobs over the plan period. This is likely to result in a significant negative effect on business, the local economy and local employment through a lack of encouragement for investment in business and infrastructure. As the lowest growth option, requiring the lowest number of site allocations, by comparison with other options considered, this alternative is likely to result in minor positive effects on SA objectives relating to the protection of biodiversity; the character of towns, villages and heritage assets and their settings; and landscape character and natural assets. The low level of growth is also likely to minimise the negative effects on objectives relating to climate change contributions and air quality that are associated with energy consumption and emissions arising from construction and use of new dwellings and associated car journeys. The low level of growth is also likely to help enable a focus of new development on small urban extensions and small sites within existing settlement boundaries resulting in minor positive effects on minimising the distance people need to travel to access key services and facilities and increasing the opportunities for use of sustainable forms of transport. However since this option proposes the lowest level of growth, it is also likely to result in the lowest level of investment in community facilities, including Green Infrastructure and other measures that help to reduce health inequalities, leading to minor negative effects on the SA objective relating to reducing health improvements.</p>

		ST	MT	LT	
	appropriate levels of privacy?				
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Will it remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> </ul>	?	?	?	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However this option will deliver more growth than under option 1, but less growth than proposed under options 3 or 4 and thus some opportunity to improve accessibility to key services and facilities. Lower levels of housing growth may enable a focus of growth on small urban extensions and small sites within the existing settlement boundary which is likely to help minimise the distance people need to travel.</p>
	<ul style="list-style-type: none"> <li>Will it help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>				
					<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Equality of opportunity for all persons will be improved by any measure that has the effect of improving overall accessibility to jobs, services and facilities. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments are brought forward in sustainable locations.</p>

Option 2: 320 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Will it improve health or access to health facilities?</li> <li>Will it promote healthy lifestyles?</li> <li>Will it reduce health inequalities?</li> <li>Will it provide opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	?	?/-	?/-	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However this option will deliver more growth than under option 1, but less growth than proposed under options 3 or 4 and thus some opportunity to improve health infrastructure, including opportunities for walking and cycling. In the long term there could be a deterioration in health-care, lack of investment in health-care, leisure and physical recreational facilities. There is a balance between loss of countryside as a result of development and provision of improved opportunities to access the countryside as part of new developments.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Investment in new infrastructure keeps pace with growth. More housing growth offers more opportunities to invest in new health-care facilities, including new or improved opportunities for walking and cycling. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments deliver opportunities to increase take up of sustainable transport choices and improvements to healthy travel networks, including increased opportunities for access to the countryside.</p>
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Will it reduce actual levels of crime?</li> <li>Will it reduce fear of crime?</li> </ul>	?	?	?	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the implementation of relevant Local Plan policies.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Good design will help minimise opportunities for crime and reduce</p>

Option 2: 320 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
					Justification; cumulative effects / mitigation measures
					the fear of crime. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments are well designed, creating safe places and reducing opportunities for anti-social behaviour.
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Will it provide an appropriate mix of housing to enable all needs to be met?</li> <li>Will it enable people to meet their needs within their existing communities?</li> <li>Will it ensure that people can afford their housing?</li> </ul>	+	+	++	<p>This option represents the job stabilisation / past trends job growth scenario<sup>(1)</sup>. It is also broadly aligned with the requirement identified in the adopted Core Strategy (300dpa). By meeting the full assessed need for housing in the District, this option will have a direct, long-term, positive effect on the SA objective. The requirement is expected to enable the delivery of a range of housing types and tenures, making a contribution to meeting community needs. While the impact of this option on the SA objective is greater than that under option 1, it is less significant than under options 3 and 4. Whilst this option is likely to contribute to addressing the needs of an ageing population and ensuring that problems of affordability can be</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Household projections suggest a considerable growth in the number of older people. The SHMA<sup>(2)</sup> identified a critical affordable housing need. Objectively assessed housing need for the District is between 250dpa and 440dpa. This option will meet the objectively assessed housing need of the plan area but fails fully to address affordable housing need, or offer maximum opportunity for investment in meeting the housing needs of older people. <b>Mitigation measures:</b> Wider initiatives of the Council should be supported to</p>

Option 2: 320 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
					addressed, there is a greater risk of adverse outcomes for older people and those who still need to access the housing market than under options 3 and 4.
					help deliver additional affordable homes.
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Will it minimise impacts on existing traffic congestion?</li> <li>Will it support the use of public transport?</li> <li>Will it support safe walking and cycling?</li> <li>Will it protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	?/+	?/+	?/++	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However since it proposes a lower level of growth than under options 3 and 4, in comparison with other alternatives considered, this requirement could have a long-term positive effect on minimising the impact of new development on existing traffic congestion and could offer support for the use of sustainable forms of transport through delivering new development close to town and village centres. The option could support priorities and provisions identified in the SMDC integrated transport strategy <sup>(3)</sup>, including the</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Lower levels of growth are likely to generate fewer new car journeys, resulting in less impact on existing congestion. Lower levels of growth will maximise the proportion of new development delivered close to existing centres, facilitating use of sustainable forms of transport. Higher levels of growth will allow most investment in support for sustainable transport. <b>Mitigation measures:</b> Local Plan policies to ensure that developments are brought forward in sustainable locations; support safe walking and cycling and improve access to the natural environment.</p>

Option 2: 320 new homes each year

					proposed Local Transport Packages for Leek, Cheadle and Biddulph.
ENVIRONMENTAL					
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Will it reduce emissions of greenhouse gases particularly CO<sub>2</sub>?</li> <li>Will it increase energy efficiency?</li> <li>Will it increase the use of renewable energy?</li> <li>Will it ensure new development is in accessible locations in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	-	-	--	<p>There is some uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of developments and the implementation of Local Plan policies. However since it proposes a lower level of growth than under options 3 and 4, in comparison with other alternatives considered, this requirement is likely to result in a lower overall increase in carbon emissions from the energy consumption and emissions arising from construction and use of new development and associated car journeys. In the long-term there is likely to be a more significant negative impact than under option 1 since this proposes lower growth.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Even if individual properties are built to high environmental performance standards and delivered in sustainable locations, the total increase in number of dwellings and car journeys is likely to increase energy use and associated greenhouse gas emissions. <b>Mitigation measures:</b> Local Plan policies to ensure that high environmental design standards are supported and that developments are brought forward in accessible locations that support the use of sustainable forms of transport.</p>

Option 2: 320 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
8. To improve air quality.	<ul style="list-style-type: none"> <li>Will it minimise emissions of airborne pollutants?</li> <li>Will it maximise the removal of air pollutants (e.g. by trees)?</li> </ul>	?	?/-	?/-	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However since it proposes a lower level of growth than under options 3 and 4, in comparison with other alternatives considered, this requirement is likely to give rise to lower levels of new emissions of airborne pollutants associated with additional car journeys. In the medium and long-term there is likely to be a more significant negative impact than under option 1 and some potential for development to be delivered within 500m of an identified area of poor air quality.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Identified areas of poor air quality include the Cellarhead junction (between the A52 and A520); Ball Haye Street, Leek (a primary link road from Leek A53 to the A523 Macclesfield and Buxton Road) and Broad Street, Leek (a primary link road from Stoke on Trent)<sup>(4)</sup>. The total increase in number of dwellings and car journeys is likely to increase emission of airborne pollutants, there is a risk that air quality may deteriorate in areas of existing low quality. <b>Mitigation measures:</b> Local Plan policies to ensure that developments include appropriate landscaping to aid removal of air pollutants.</p>
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Is new development directed towards areas of least flood risk?</li> </ul>	?	?	?	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Development - at whatever overall scale - will be permitted only</p>

Option 2: 320 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
	<ul style="list-style-type: none"> <li>Will it reduce risk of flooding eg by encouraging the integration of mitigation measures such as SuDS into new development?</li> <li>Will it protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Will it encourage water efficiency and demand management?</li> </ul>				<p>However the SFRA<sup>(5)</sup> confirms that there are few locations in which development would significantly increase fluvial flood risk elsewhere, due to the majority of potentially suitable sites for development being located within Flood Zone 1, with only a few sites partially within Flood Zone 2 or 3. Since it proposes a lower level of growth than under options 3 and 4, in comparison with other alternatives considered, this requirement is likely to result in less peripheral development proposed on agricultural (greenfield) land on the outskirts of settlements, and thus result in less risk of surface water flood risk within towns or villages and further downstream as a result of increased surface water runoff and reduced infiltration. Although in the long-term there is likely to be a more significant negative impact than under option 1.</p>
					<p>where schemes meet development plan requirements for management of flood risk.  <b>Mitigation measures:</b> Local Plan policies to ensure that new developments are directed towards areas of least flood risk and incorporate SuDS wherever possible.</p>
10. To identify, conserve and enhance	<ul style="list-style-type: none"> <li>Will it protect and promote effective management of</li> </ul>	?	?/+	?/+	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the</p> <p><b>Geographical scale:</b> Local Plan area;  <b>Effects:</b> Permanent;  <b>Assumptions made:</b> Policies in</p>

SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>the district's sites of ecological and nature conservation importance?</li> <li>Will it help contribute to Staffordshire Biodiversity Action Plan objectives?</li> <li>Will it help deliver networks of biodiversity and green infrastructure?</li> </ul>				<p>the Local Plan will provide protection for biodiversity and for sites of ecological and nature conservation importance, but the higher the level of growth, the greater the need to allocate sites in the countryside, on the periphery of settlements, including sites potentially requiring Green Belt release or within the zone of influence of European designated sites. <b>Mitigation measures:</b> Local Plan policies to ensure conservation and enhancement of biodiversity and that any development proposal is not permitted to have an adverse effect on the integrity of a European site.</p>
					<p>location of development and the implementation of Local Plan policies. However, since it proposes a lower level of growth than under options 3 and 4, in comparison with other alternatives considered, this requirement is likely to provide overall, long-term protection for biodiversity and natural networks. However in comparison with options 3 and 4, there is likely to be a lower level of new investment and associated opportunities to deliver biodiversity enhancement or the extension of GI networks as part of schemes. Given that in comparison with options 3 and 4, this requirement is likely to lead to lower recreational and other urbanising pressures on the closest European sites, the option is also likely to afford long-term protection for the integrity of European sites. Whilst positive impacts are not as significant as under option 1, the HRA of the Local Plan will ensure that Local Plan</p>

Option 2: 320 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
					settlement pattern was still predominant. Since it proposes a lower level of growth than under options 3 and 4, in comparison with other alternatives considered, this requirement is likely to result in the protection of the character and appearance of the landscape, including historic landscapes, and other natural assets and resources. Positive impacts are not as significant as under option 1.
	other natural assets and resources.				
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Will it support the development of a vibrant cultural economy and local distinctiveness? Does it help support tourism and the visitor economy?</li> </ul>	?	?	?	<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> The higher the level of growth, the greater the number of site allocations that will be made, increasing the risk of congestion and an adverse effect on the character and appearance of landscapes, towns and villages that together may detract from the further development of local distinctiveness and could result in long-term negative impacts on tourism and the visitor economy.</p>

Option 2: 320 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
					<p>significance is less than under option 1. The positive impacts are balanced by the requirement also providing less opportunity than under options 3 and 4 for investment in culture and tourism and this may result in long-term negative effects on the local economy.</p> <p>Counter to this, higher levels of growth provide the most opportunities for investment that may support tourism and the visitor economy. <b>Mitigation measures:</b> Local Plan policies to support tourism and the visitor economy.</p>
<b>ECONOMIC</b>					
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Will it safeguard shops and services in existing centres?</li> <li>Will it safeguard and improve the retail, leisure and service provision?</li> </ul>	+	+	++	<p>This option assumes that the number of jobs in the District remains at its current (2012) level over the plan period and since there is an ageing population, there would be a need for growth in the labour force, in-migration and ultimately housing. Creating a labour force large enough to support jobs would result in a population increase of 7,901. The increase in spending in the local economy this is likely to generate should result in benefits to the vitality and viability of the District's towns and villages, contributing to the safeguarding and improvement of shops and services.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Residents of new developments will support their local retail, leisure and service provision. <b>Mitigation measures:</b> Local Plan policies to support town and village centres.</p>

Option 2: 320 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
					Although since this option proposes a lower level of growth than under options 3 and 4, in comparison with other alternatives considered, this requirement is likely to result in less significant benefits. Benefits would be more significant than under option 1.
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Will it provide a balanced portfolio of employment land in sustainable locations?</li> <li>Will it provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	+	+	+	<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent;</p> <p><b>Assumptions made:</b> Helping to stem the decline of working age residents in the District would achieve a more balanced population structure and reduce potential future economic difficulties and the demands of services associated with an ageing population and a more limited supply of labour.</p> <p><b>Mitigation measures:</b> Local Plan policies to support sustainable economic growth.</p>
18. To encourage and	<ul style="list-style-type: none"> <li>Will it meet the employment</li> </ul>	0	0	+	<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent;</p>

SA Objective		Option 2: 320 new homes each year					Justification; cumulative effects / mitigation measures
		Decision making criteria	Time-frame			Nature of effect; Comments	
			ST	MT	LT		
support a high and stable level of employment		<ul style="list-style-type: none"><li>needs of local people?</li><li>Will it increase economic activity levels?</li><li>Will it improve physical accessibility to jobs?</li><li>Will it support higher income levels for local residents?</li></ul>				District. This is likely to result in a long term minor positive impact on the local economy and local employment.	<b>Assumptions made:</b> Whilst there is not a direct causal relationship between job growth and housing needs, the two are nevertheless fundamentally related. Ensuring a sufficient supply of homes within easy access of employment is a central element of an efficiently functioning economy. <b>Mitigation measures:</b> Local Plan policies to support sustainable economic growth.
<b>Summary of significant effects:</b>							
<p>This option proposes the delivery of 320 new dwellings per year. Since it is within the recommended objectively assessed housing need range, the housing requirement would have a direct, long-term positive effect on the SA objective to ensure provision of homes to meet local needs. This positive effect is likely to be more significant than under option 1. However being closer to the lower end of the range than options 3 and 4, the option makes less of a contribution than options 3 and 4 to addressing affordable housing need and the needs of an ageing population. Predicted population growth of around 7,900 is likely to increase spending in the local economy resulting in positive benefits for the District's towns and villages, including help to safeguard local shops and services. Under this option, these benefits are likely to be more significant than under option 1 and less significant than under options 3 and 4. This option is expected to maintain the current number of jobs in the district over the plan period. This is likely to result in a long term minor positive impact on business, the local economy and local employment. This compares favourably with the impacts on this objective likely under option 1, where significant negative impacts on SA objectives for supporting employment and economic growth are likely. However the positive impacts on economic growth under this option are less significant than those likely to result under options 3 and 4. Option 2 requires the second lowest number of site allocations</p>							

SA Objective	Option 2: 320 new homes each year					
	Decision making criteria	Time-frame			Nature of effect; Comments	Justification; cumulative effects / mitigation measures
		ST	MT	LT		
	of the four options considered, and consequently this alternative is likely to result in comparatively more positive effects on SA objectives relating to the protection of biodiversity; the character of towns, villages and heritage assets and their settings; and landscape character and natural assets than options 3 and 4. Positive effects on these objectives are slightly less under this option than under option 1. The lower level of growth under option 2 compared with options 3 and 4 is also likely to minimise the negative effects on objectives relating to climate change contributions and air quality that are associated with energy consumption and emissions arising from construction and use of new dwellings and associated car journeys. The lower level of growth is also likely more likely under option 2 than options 3 and 4 to enable a focus of new development on small urban extensions and small sites within existing settlement boundaries resulting in minor positive effects on minimising the distance people need to travel to access key services and facilities and increasing the opportunities for use of sustainable forms of transport. Benefits under option 2 in this regard are not likely to be as great as under option 1. However since option 2 proposes the second lowest level of growth of the four options considered, it is likely to result in a lower level of investment than under options 3 and 4 in community facilities, including Green Infrastructure and other measures that help to reduce health inequalities, leading to possible minor negative effects on the SA objective relating to reducing health improvements. These negative effects are not likely to be as significant as under option 1.

## Housing Requirement Option 3

SA Objective		Option 3: 440 new homes each year					Justification; cumulative effects / mitigation measures
		Decision making criteria	Time-frame			Nature of effect; Comments	
			ST	MT	LT		
SOCIAL							
1. To improve community cohesion and the quality of where people work and live.	●	Will it make a positive contribution towards community cohesion?	?	?/+	?/+	There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. There is a balance between loss of countryside as a result of development and provision of new, accessible open space as part of new developments. This requirement may offer more opportunities than options 1 and 2 for achieving associated benefits of investment, such as new or enhanced community facilities, but there would be less opportunities than under option 4.	<b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Community cohesion and local environmental quality are more dependent on design and location of new development than on the overall housing requirement. <b>Mitigation measures:</b> Local Plan policies to ensure that good standards of amenity and open space and Green Infrastructure are delivered as part of new housing development.
	●	Will it improve neighbourhood quality?					
	●	Will it ensure that there is adequate open space and support Green Infrastructure?					
	●	Will it minimise light and noise pollution?					
	●	Will it ensure that occupiers of buildings and spaces have sufficient natural light and					

SA Objective	Option 3: 440 new homes each year					Justification; cumulative effects / mitigation measures
	Decision making criteria	Time-frame			Nature of effect; Comments	
		ST	MT	LT		
	appropriate levels of privacy?					
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"><li>Will it remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li></ul>	?	?/+	?/+	There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However this option will deliver more growth than under options 1 and 2 (but less growth than proposed under option 4) and consequently there is opportunity to improve accessibility to key services and facilities through delivering more investment into the rural areas. However under this option it is less likely than under options 1 and 2 that the focus of growth could be delivered as small urban extensions and small sites within existing settlement boundaries and this may increase the distance that some people would need to travel in order to access key services and facilities.	<b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Equality of opportunity for all persons will be improved by any measure that has the effect of improving overall accessibility to jobs, services and facilities. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments are brought forward in sustainable locations.
	<ul style="list-style-type: none"><li>Will it help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li></ul>					

Option 3: 440 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Will it improve health or access to health facilities?</li> <li>Will it promote healthy lifestyles?</li> <li>Will it reduce health inequalities?</li> <li>Will it provide opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	?	?/+	?/+	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However this option will deliver more growth than under options 1 and 2 (but less growth than proposed under option 4) and consequently there is opportunity to improve health infrastructure, including opportunities for walking and cycling. In the long term there could be an indirectly positive effect on health through enabling investment in health-care, leisure and physical recreational facilities. There is a balance between loss of countryside as a result of developed opportunities to provision of improved opportunities to access the countryside as part of new developments.</p>
					<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Investment in new infrastructure keeps pace with growth. More housing growth offers more opportunities to invest in new health-care facilities, including new or improved opportunities for walking and cycling. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments deliver opportunities to increase take up of sustainable transport choices and improvements to healthy travel networks, including increased opportunities for access to the countryside.</p>
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Will it reduce actual levels of crime?</li> <li>Will it reduce fear of crime?</li> </ul>	?	?	?	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the implementation of relevant Local Plan policies.</p>
					<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Good design will help minimise opportunities for crime and reduce</p>

Option 3: 440 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
					the fear of crime. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments are well designed, creating safe places and reducing opportunities for anti-social behaviour.
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Will it provide an appropriate mix of housing to enable all needs to be met?</li> <li>Will it enable people to meet their needs within their existing communities?</li> <li>Will it ensure that people can afford their housing?</li> </ul>	+	++	++	<p>This option represents the Oxford Economics Job Growth scenario<sup>(1)</sup>. This option represents to upper end of the objectively assessed housing need range. By meeting the full assessed need for housing in the District, this option will have a direct, medium and long-term, positive effect on the SA objective. The requirement is expected to enable the delivery of a range of housing types and tenures, making a significant contribution to meeting community needs. While the impact of this option on the SA objective is greater than that under options 1 and 2, it is less significant than under option 4. As the upper end of the OAN range, this option is likely to make a significant contribution to addressing the needs of an ageing population and ensuring that</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Household projections suggest a considerable growth in the number of older people. The SHMA<sup>(2)</sup> identified a critical affordable housing need. Objectively assessed housing need for the District is between 250dpa and 440dpa. This option will meet the objectively assessed housing need of the plan area and address both affordable housing need and the housing needs of older people. <b>Mitigation measures:</b> Wider initiatives of the Council should be supported to help deliver additional affordable homes.</p>

Option 3: 440 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
					problems of affordability can be addressed.
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Will it minimise impacts on existing traffic congestion?</li> <li>Will it support the use of public transport?</li> <li>Will it support safe walking and cycling?</li> <li>Will it protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	?	?	?/-	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However since it proposes a higher level of growth than under options 1 and 2, in comparison with other alternatives considered, this requirement could have a long-term negative effect on minimising the impact of new development on existing traffic congestion. Due to the extent of sites that are likely to be allocated under this option, it is less likely than under options 1 and 2 that a high proportion of new development can be delivered close to town and village centres, possibly resulting in a lower use of sustainable forms of transport. The option is likely to support priorities and provisions identified in the SMDC integrated transport strategy <sup>(3)</sup>, including the proposed Local Transport</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Lower levels of growth are likely to generate fewer new car journeys, resulting in less impact on existing congestion. Lower levels of growth will maximise the proportion of new development delivered close to existing centres, facilitating use of sustainable forms of transport. Higher levels of growth will allow most investment in support for sustainable transport. <b>Mitigation measures:</b> Local Plan policies to ensure that developments are brought forward in sustainable locations; support safe walking and cycling and improve access to the natural environment.</p>

		ST	MT	LT	
					Packages for Leek, Cheadle and Biddulph.
ENVIRONMENTAL					
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Will it reduce emissions of greenhouse gases particularly CO<sub>2</sub>?</li> <li>Will it increase energy efficiency?</li> <li>Will it increase the use of renewable energy?</li> <li>Will it ensure new development is in accessible locations in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>	-	--	--	<p>There is some uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of developments and the implementation of Local Plan policies. However since it proposes a higher level of growth than under options 1 and 2, in comparison with other alternatives considered, this requirement is likely to result in a higher overall increase in carbon emissions from the energy consumption and emissions arising from construction and use of new development and associated car journeys. Impacts are likely to be less significant than under option 4.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Even if individual properties are built to high environmental performance standards and delivered in sustainable locations, the total increase in number of dwellings and car journeys is likely to increase energy use and associated greenhouse gas emissions. <b>Mitigation measures:</b> Local Plan policies to ensure that high environmental design standards are supported and that developments are brought forward in accessible locations that support the use of sustainable forms of transport.</p>

Option 3: 440 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
8. To improve air quality.	<ul style="list-style-type: none"> <li>Will it minimise emissions of airborne pollutants?</li> <li>Will it maximise the removal of air pollutants (e.g. by trees)?</li> </ul>	?	?/-	?/--	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However since it proposes a higher level of growth than under options 1 and 2, in comparison with other alternatives considered, this requirement is likely to give rise to higher levels of new emissions of airborne pollutants associated with additional car journeys. In the medium and long-term there is likely to be a more significant negative impact than under options 1 and 2 and some potential for development to be delivered within 500m of an identified area of poor air quality. Impacts are likely to be less significant than under option 4.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Identified areas of poor air quality include the Cellarhead junction (between the A52 and A520); Ball Haye Street, Leek (a primary link road from Leek A53 to the A523 Macclesfield and Buxton Road) and Broad Street, Leek (a primary link road from Stoke on Trent)<sup>(4)</sup>. The total increase in number of dwellings and car journeys is likely to increase emission of airborne pollutants, there is a risk that air quality may deteriorate in areas of existing low quality. <b>Mitigation measures:</b> Local Plan policies to ensure that developments include appropriate landscaping to aid removal of air pollutants.</p>
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Is new development directed towards</li> </ul>	?	?	?	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Development - at whatever overall scale - will be permitted only</p>

Option 3: 440 new homes each year				
SA Objective	Decision making criteria	Time-frame		
		ST	MT	LT
	<ul style="list-style-type: none"> <li>• areas of least flood risk? Will it reduce risk of flooding eg by encouraging the integration of mitigation measures such as SuDS into new development?</li> <li>• Will it protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>• Will it encourage water efficiency and demand management?</li> </ul>			
				<p>of Local Plan policies. However the SFRA<sup>(5)</sup> confirms that there are few locations in which development would significantly increase fluvial flood risk elsewhere, due to the majority of potentially suitable sites for development being located within Flood Zone 1, with only a few sites partially within Flood Zone 2 or 3. Since it proposes a higher level of growth than under options 1 and 2, in comparison with other alternatives considered, this requirement is likely to result in more peripheral development proposed on agricultural (greenfield) land on the outskirts of settlements, and thus result in more risk of surface water flood risk within towns or villages and further downstream as a result of increased surface water runoff and reduced infiltration. Although in the long-term there is likely to be a less significant impact than under option 4.</p>
				<p>where schemes meet development plan requirements for management of flood risk. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments are directed towards areas of least flood risk and incorporate SuDS wherever possible.</p>

Option 3: 440 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on European Sites and SSSIs	<ul style="list-style-type: none"> <li>Will it protect and promote effective management of the district's sites of ecological and nature conservation importance?</li> <li>Will it help contribute to Staffordshire Biodiversity Action Plan objectives?</li> <li>Will it help deliver networks of biodiversity and green infrastructure?</li> </ul>	?	?/-	?/-	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. Since it proposes a higher level of growth than under options 1 and 2, in comparison with other alternatives considered (with the exception of the highest growth option 4) this requirement is less likely to provide long-term protection for biodiversity and natural networks. However in comparison with options 1 and 2, there is likely to be a higher level of new investment and associated opportunities to deliver biodiversity enhancement or the extension of GI networks as part of schemes (but less opportunity than under option 4). Given that in comparison with options 1 and 2, this requirement is likely to lead to increased recreational and other urbanising pressures on the closest European sites, the option is also less likely to afford long-term protection for the integrity of European sites. Whilst such negative impacts are not as</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Policies in the Local Plan will provide protection for biodiversity and for sites of ecological and nature conservation importance, but the higher the level of growth, the greater the need to allocate sites in the countryside, on the periphery of settlements, including sites potentially requiring Green Belt release or within the zone of influence of European designated sites. <b>Mitigation measures:</b> Local Plan policies to ensure conservation and enhancement of biodiversity and that any development proposal is not permitted to have an adverse effect on the integrity of a European site.</p>

	Decision making criteria	Time-frame			Nature of effect; Comments	
		ST	MT	LT		
					significant as under option 4, the HRA of the Local Plan will ensure that Local Plan policies and allocations will not result in adverse effects on European designated sites.	
11. To safeguard the best and most versatile agricultural land; improve soil and land resources; and protect and enhance geological resources.	<ul style="list-style-type: none"><li>Will it safeguard the best and most versatile agricultural land?</li><li>Will it minimise the loss of greenfield land?</li><li>Will it reduce land contamination / instability?</li><li>Will it reduce the amount of derelict land?</li><li>Will it protect notable geological and geomorphological features?</li></ul>	?	?	?/-	There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However since it proposes a higher level of growth than under options 1 and 2, in comparison with other alternatives considered (with the exception of the highest growth option 4) this requirement is less likely to provide overall, long-term protection for the best and most versatile agricultural land. However negative impacts are not as significant as under option 4.	<b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Policies in the Local Plan will provide protection for the best and most versatile agricultural land and geological resources, but the higher the level of growth, the greater the need to allocate agricultural (greenfield) sites. <b>Mitigation measures:</b> Local Plan policies to ensure protection and enhancement of geologically important sites.

Option 3: 440 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
12. To minimise the use of non-renewable resources.	<ul style="list-style-type: none"> <li>Will it reduce waste generation?</li> <li>Will it maximise the re-use of existing buildings?</li> <li>Will it increase the use of building materials from sustainable sources?</li> </ul>	?	?	?	There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies.
					<b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Policies in the Local Plan will encourage the re-use of existing buildings wherever possible. <b>Mitigation measures:</b> Local Plan policies to support waste minimisation.
13. To protect and enhance the character of towns / villages and other heritage and archaeological assets along with their settings.	<ul style="list-style-type: none"> <li>Will it ensure the continued protection and enhancement of cultural and historic heritage assets (designated and undesignated assets) along with their settings?</li> <li>Will it protect and reinforce the character and</li> </ul>	?	?	?/-	There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However since it proposes a higher level of growth than under options 1 and 2, in comparison with other alternatives considered (with the exception of the highest growth option 4) this requirement is likely to result in less protection of cultural and historic heritage assets (designated and undesignated) along with their settings.
					<b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Policies in the Local Plan will provide protection for heritage and archaeological assets along with their settings. However the higher the level of growth, the greater the number of site allocations that will be made, increasing the risk of altering the character of settlements and resulting in deterioration of cultural and historic heritage assets

Option 3: 440 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
	appearance of the district's towns and villages and maintain and strengthen local distinctiveness and sense of place?				(designated and undesignated assets) or their settings that could not be reasonably mitigated. <b>Mitigation measures:</b> Local Plan policies to support protection and enhancement for the character of towns / villages; heritage and archaeological assets along with their settings.
14. To protect and enhance the character and appearance of the landscape including historic landscape and other natural assets and resources.	<ul style="list-style-type: none"> <li>Will it protect and enhance the character of the landscape and maintain and strengthen local distinctiveness?</li> <li>Will it promote development on brownfield land?</li> <li>Will it safeguard protected sites and provide opportunities for the enhancement of the natural environment</li> </ul>	?	?	?/-	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. The Landscape and Settlement Character Assessment Study<sup>(6)</sup> offers guidance to help ensure new development required in the District takes place in locations that are compatible with the unique quality of the Staffordshire Moorlands landscape and in sympathy with the setting of a particular settlement. The HEA<sup>(7)</sup> identified that (within each of the study areas) historic character had been retained and that beyond the present</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Policies in the Local Plan will provide protection for landscape character and natural assets. However the higher the level of growth, the greater the number of site allocations that will be made, increasing the risk of resulting in an adverse effect on the character of landscapes, including historic landscapes, that could not be reasonably mitigated. <b>Mitigation measures:</b> Local Plan policies to support protection and enhancement of the character and</p>

Option 3: 440 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
	identified in the NCA profiles?				appearance of the landscape including historic landscape and other natural assets and resources.
					extent of the built areas, a dispersed settlement pattern was still predominant. Since it proposes a higher level of growth than under options 1 and 2, in comparison with other alternatives considered (with the exception of the highest growth option 4) this requirement is less likely to result in the protection of the character and appearance of the landscape, including historic landscapes, and other natural assets and resources. Negative impacts are not as significant as under option 4.
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Will it support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Does it help support tourism and the visitor economy?</li> </ul>	?	?	?	<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent;</p> <p><b>Assumptions made:</b> The higher the level of growth, the greater the number of site allocations that will be made, increasing the risk of congestion and an adverse effect on the character and appearance of landscapes, towns and villages that together may detract from the further development of local distinctiveness and could result in</p>

Option 3: 440 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
					distinctiveness, and this may lead to a long-term negative impact on tourism and the visitor economy. The significance is less than under option 4. The negative impacts are balanced by the requirement also providing more opportunity than under options 1 and 2 for investment in culture and tourism and this may result in medium term positive effects on the local economy.
<b>ECONOMIC</b>					
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Will it safeguard shops and services in existing centres?</li> <li>Will it safeguard and improve the retail, leisure and service provision?</li> </ul>	+	++	++	<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent;</p> <p><b>Assumptions made:</b> Residents of new developments will support their local retail, leisure and service provision. <b>Mitigation measures:</b> Local Plan policies to support town and village centres.</p>

Option 3: 440 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
					villages, contributing to the safeguarding and improvement of shops and services. Since this option proposes a higher level of growth than under options 1 and 2, in comparison with other alternatives considered (with the exception of the highest growth option 4) this requirement is likely to result in significant benefits for the economies of existing centres. Benefits however are likely to be less significant than under option 4.
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Will it provide a balanced portfolio of employment land in sustainable locations?</li> <li>Will it provide opportunities for the creation of new businesses and/or minimise the loss or displacement of</li> </ul>	+	+	++	<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent;</p> <p><b>Assumptions made:</b> Helping to reverse the decline of working age residents in the District would achieve a more balanced population structure and reduce potential future economic difficulties and the demand of services associated with an ageing population and a more limited supply of labour.</p> <p><b>Mitigation measures:</b> Local Plan</p>

Option 3: 440 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
	existing businesses?				policies to support sustainable economic growth.
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Will it meet the employment needs of local people?</li> <li>Will it increase economic activity levels?</li> <li>Will it improve physical accessibility to jobs?</li> <li>Will it support higher income levels for local residents?</li> </ul>	+	+	++	<p>This option is expected to deliver sufficient labour force levels to support the Oxford Economics job growth projections, a labour force increase of 1,549. This is likely to allow for the economic potential of the district to be realised and result in medium and long term positive impacts on the local economy and local employment.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Whilst there is not a direct causal relationship between job growth and housing needs, the two are nevertheless fundamentally related. Ensuring a sufficient supply of homes within easy access of employment is a central element of an efficiently functioning economy. <b>Mitigation measures:</b> Local Plan policies to support sustainable economic growth.</p>
<p><b>Summary of significant effects:</b></p> <p>This option proposes the delivery of 440 new dwellings per year. Since it is the upper end of the recommended objectively assessed housing need range, the housing requirement would have a direct, long-term positive effect on the SA objective to ensure provision of homes to meet local needs. This positive effect is likely to be more significant than under options 1 and 2. As the upper end of the range, the option is likely to make a significant contribution to addressing affordable housing need and the needs of an ageing population. Predicted population growth of around 13,400 is likely to increase spending in the local economy resulting in positive benefits for the District's towns and villages, including help to safeguard local shops and services. Under this option, these benefits are likely to be more significant than under options 1 and 2,</p>					

SA Objective	Option 3: 440 new homes each year					Justification; cumulative effects / mitigation measures
	Decision making criteria	Time-frame			Nature of effect; Comments	
		ST	MT	LT		
	but less significant than under option 4. This option is based on expected job growth of 2,250 in the district over the plan period. This is likely to allow for the economic potential of the district to be realised and result in medium and long term positive impacts on the local economy and local employment. Option 3 requires the second highest number of site allocations of the four options considered, and consequently this alternative is likely to result in comparatively more negative effects on SA objectives relating to the protection of biodiversity; the character of towns, villages and heritage assets and their settings; and landscape character and natural assets than options 1 and 2. Negative effects on these objectives are slightly less under this option than under option 4. The higher level of growth under option 3 compared with options 1 and 2 is also likely to result in negative effects on objectives relating to climate change contributions and air quality that are associated with energy consumption and emissions arising from construction and use of new dwellings and associated car journeys. Due to the extent of sites that are likely to be allocated under this option, it is less likely than under options 1 and 2 that a high proportion of new development can be delivered close to town and village centres, resulting in negative effects on minimising the distance people need to travel to access key services and facilities and reducing the opportunities for use of sustainable forms of transport. Negative effects under option 3 in this regard are not likely to be as great as under option 4. However since option 3 proposes the second highest level of growth of the four options considered, it is likely to result in a higher level of investment than under options 1 and 2 in community facilities, including Green Infrastructure and other measures that help to reduce health inequalities, leading to possible minor positive effects on the SA objective relating to reducing health improvements. These positive effects are not likely to be as significant as under option 4.

## Housing requirement option 4

SA Objective		Option 4: 520 new homes each year					Justification; cumulative effects / mitigation measures
		Decision making criteria	Time-frame			Nature of effect; Comments	
			ST	MT	LT		
SOCIAL							
1. To improve community cohesion and the quality of where people work and live.	●	Will it make a positive contribution towards community cohesion?	?	?	?/+	There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. There is a balance between loss of countryside as a result of development and provision of new, accessible open space as part of new developments. This requirement is likely to offer the most opportunity for associated benefits such as new or enhanced community facilities to be delivered as a result of new development.	<b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Community cohesion and local environmental quality are more dependent on design and location of new development than on the overall housing requirement. <b>Mitigation measures:</b> Local Plan policies to ensure that good standards of amenity and open space and Green Infrastructure are delivered as part of new housing development.
	●	Will it improve neighbourhood quality?					
	●	Will it ensure that there is adequate open space and support Green Infrastructure?					
	●	Will it minimise light and noise pollution?					
	●	Will it ensure that occupiers of buildings and spaces have sufficient natural light and					

Option 4: 520 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
	appropriate levels of privacy?				
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Will it remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> </ul>	?	?	?/+	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However this option will deliver the highest level of housing growth of the four options considered and thus the greatest opportunity to improve accessibility to key services and facilities through delivering more investment into the rural areas. However, this level of new housing development is not likely to enable growth to be focused on small urban extensions and small sites within the existing settlement boundaries, which may result in increasing the distance people need to travel.</p>
	<ul style="list-style-type: none"> <li>Will it help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>				
					<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Equality of opportunity for all persons will be improved by any measure that has the effect of improving overall accessibility to jobs, services and facilities. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments are brought forward in sustainable locations.</p>

Option 4: 520 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Will it improve health or access to health facilities?</li> <li>Will it promote healthy lifestyles?</li> <li>Will it reduce health inequalities?</li> <li>Will it provide opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	?	?	?/+	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However this option will deliver the highest level of housing growth of the four options considered and thus present the most opportunities to improve health infrastructure, including opportunities for walking and cycling. In the long term there could be an improvement in health through increased investment in health-care, leisure and physical recreational facilities. There is a balance between loss of countryside as a result of development and provision of improved opportunities to access the countryside as part of new developments.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Investment in new infrastructure keeps pace with growth. More housing growth offers more opportunities to invest in new health-care facilities, including new or improved opportunities for walking and cycling. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments deliver opportunities to increase take up of sustainable transport choices and improvements to healthy travel networks, including increased opportunities for access to the countryside.</p>
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Will it reduce actual levels of crime?</li> <li>Will it reduce fear of crime?</li> </ul>	?	?	?	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the implementation of relevant Local Plan policies.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Good design will help minimise opportunities for crime and reduce</p>

Option 4: 520 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
					Justification; cumulative effects / mitigation measures
					the fear of crime. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments are well designed, creating safe places and reducing opportunities for anti-social behaviour.
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Will it provide an appropriate mix of housing to enable all needs to be met?</li> <li>Will it enable people to meet their needs within their existing communities?</li> <li>Will it ensure that people can afford their housing?</li> </ul>	++	++	++	<p>This option exceeds the upper end of the recommended OAN range<sup>(1)</sup> and by meeting the full, objectively assessed need for housing in the District, it will have a direct, long-term, positive effect on this SA objective. The requirement is expected to enable the delivery of a range of housing types and tenures, making a significant contribution to meeting community needs. The impact of this option on the SA objective is more significant than under all other options. This option is likely to make the most contribution to addressing the needs of an ageing population and ensuring that problems of affordability can be satisfactorily addressed, improving outcomes for older people</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Household projections suggest a considerable growth in the number of older people. The SHMA<sup>(2)</sup> identified a critical affordable housing need. Objectively assessed housing need for the District is between 250dpa and 440dpa. This option will meet the objectively assessed housing need of the plan area and will go further than any other option considered towards addressing affordable housing need and offering opportunities for investment in meeting the housing needs of older people. <b>Mitigation measures:</b> Wider initiatives of the Council should be supported to</p>

Option 4: 520 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
					and those who still need to access the housing market.
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Will it minimise impacts on existing traffic congestion?</li> <li>Will it support the use of public transport?</li> <li>Will it support safe walking and cycling?</li> <li>Will it protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>	?/-	?/--	?/--	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However this requirement is likely to have a negative effect on minimising the impact of new development on existing traffic congestion. Due to the number of site allocations that would be required, it is likely that some new development would be delivered remote from town and village centres, making the use of sustainable forms of transport less likely. The option could support priorities and provisions identified in the SMDC integrated transport strategy <sup>(3)</sup>, including the proposed Local Transport Packages for Leek, Cheadle and Biddulph.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Lower levels of growth are likely to generate fewer new car journeys, resulting in less impact on existing congestion. Lower levels of growth will maximise the proportion of new development delivered close to existing centres, facilitating use of sustainable forms of transport. Higher levels of growth will allow most investment in support for walking and cycling initiatives. <b>Mitigation measures:</b> Local Plan policies to ensure that developments are brought forward in sustainable locations; support safe walking and cycling and improve access to the natural environment.</p>
ENVIRONMENTAL					

Option 4: 520 new homes each year					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Will it reduce emissions of greenhouse gases particularly CO<sub>2</sub>?</li> </ul>	--	--	--	<p>There is some uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of developments and the implementation of Local Plan policies. However this option is likely to result in the greatest overall increase in carbon emissions from the energy consumption and emissions arising from construction and use of new development and associated car journeys.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Even if individual properties are built to high environmental performance standards and delivered in sustainable locations, the total increase in number of dwellings and car journeys is likely to increase energy use and associated greenhouse gas emissions. <b>Mitigation measures:</b> Local Plan policies to ensure that high environmental design standards are supported and that developments are brought forward in accessible locations that support the use of sustainable forms of transport.</p>
	<ul style="list-style-type: none"> <li>Will it increase energy efficiency?</li> <li>Will it increase the use of renewable energy?</li> <li>Will it ensure new development is in accessible locations in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>				
8. To improve air quality.	<ul style="list-style-type: none"> <li>Will it minimise emissions of airborne pollutants?</li> <li>Will it maximise the removal of air</li> </ul>	?	?/-	--	<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However as this option represents the highest level of housing growth, it is</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Identified areas of poor air quality include the Cellarhead junction (between the A52 and A520); Ball Haye Street, Leek (a primary link road</p>

Option 4: 520 new homes each year					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
	pollutants (e.g. by trees)?				likely to give rise to the highest level of new emissions of airborne pollutants associated with additional car journeys. In the medium-term there is potential for development to be delivered within 500m of an identified area of poor air quality.
	from Leek A53 to the A523 Macclesfield and Buxton Road) and Broad Street, Leek (a primary link road from Stoke on Trent) <sup>(4)</sup> . The total increase in number of dwellings and car journeys is likely to increase emission of airborne pollutants. There is a risk that air quality may deteriorate in areas of existing low quality. <b>Mitigation measures:</b> Local Plan policies to ensure that developments include appropriate landscaping to aid removal of air pollutants.				
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Is new development directed towards areas of least flood risk?</li> <li>Will it reduce risk of flooding eg by encouraging the integration of mitigation measures such as</li> </ul>	?	?	?	<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent;</p> <p><b>Assumptions made:</b> Development - at whatever overall scale - will be permitted only where schemes meet development plan requirements for management of flood risk.</p> <p><b>Mitigation measures:</b> Local Plan policies to ensure that new developments are directed towards areas of least flood risk</p>
					<p>There is uncertainty as to the nature of the effect and level of significance as this will be dependent on the location of development and the implementation of Local Plan policies. However the SFRA<sup>(5)</sup> confirms that there are few locations in which development would significantly increase fluvial flood risk elsewhere, due to the majority of potentially suitable sites for development being</p>

Option 4: 520 new homes each year

		ST	MT	LT		
	<ul style="list-style-type: none"><li>Will it improve physical accessibility to jobs?</li><li>Will it support higher income levels for local residents?</li></ul>				effect on the local economy and local employment. However these benefits should be treated with caution since the 2012-based SNHP update notes that the population growth required to underpin this job growth would primarily be achieved by inward migration as opposed to natural change. Net migration would need to increase from +7,373 to +20,645 - over 13,000 net additional in migrants to achieve the required population level (all other assumptions remaining constant). This is considered to be at odds with what may be reasonably expected to occur in the district.	easy access of employment is a central element of an efficiently functioning economy. <b>Mitigation measures:</b> Local Plan policies to support sustainable economic growth.
<b>Summary of significant effects:</b>						
This option proposes the delivery of 520 new dwellings per year. It will have a direct and significant positive effect on the SA objective to ensure provision of homes to meet local needs since it exceeds the upper end of the recommended objectively assessed housing need range. This option should make the greatest contribution of all options considered to addressing affordable housing need and the needs of an ageing population. Predicted population growth of around 17,000 is likely to increase spending in the local economy resulting in positive benefits for the District's towns and villages, including helping to safeguard local shops and services. This option is based on an objective forecast of how the district could perform in economic terms based on the nature of its economy and current expectations of future national and regional economic performance and provides unconstrained employment growth in the district of 3,878 jobs over the plan period. As a result, the option is likely to have a significant positive effect on the local economy and local employment. However these predicted positive

		ST	MT	LT		
	<p>effects should be treated with caution, since the 2012-based SNHP update notes that the population growth required to underpin this job growth would primarily be achieved by inward migration as opposed to natural change. Net migration would need to increase from +7,373 to +20,645 - over 13,000 net additional in migrants to achieve the required population level (all other assumptions remaining constant). This is considered to be at odds with what may be reasonably expected to occur in the district. As the highest growth option, requiring the highest number of site allocations, by comparison with other options considered, this alternative is likely to result in significant negative effects on SA objectives relating to the protection of biodiversity; the character of towns, villages and heritage assets and their settings; and landscape character and natural assets. The high level of housing growth is also likely to result in negative effects on objectives relating to climate change contributions and air quality that are associated with energy consumption and emissions arising from construction and use of new dwellings and associated car journeys. This level of new housing development is not likely to enable growth to be focused on small urban extensions and small sites within the existing settlement boundaries, which may result in increasing the distance people need to travel to access key services and facilities and makes the use of sustainable forms of transport less likely. However since this option proposes the highest level of growth, it is likely to result in the highest level of investment in community facilities, including Green Infrastructure and other measures that may help to reduce health inequalities, leading to positive effects on the SA objective relating to reducing health improvements.</p>

## Appraisal of alternative development approaches for Cheadle

## 9 Appraisal of alternative development approaches for Cheadle

**9.1** The matrices below set out the likely significant effects on sustainability of the three alternative options considered by the Council for a development approach for Cheadle. The assessments are based on the methodology proposed and consulted on in the SA Scoping Report and use the SA Framework also developed through consultation as part of the SA Scoping stage.

**9.2** As part of the SA appraisal of options, consideration has been given to effects on sustainability over time (in the short, medium and long term) along with any cumulative impacts of implementing each option and possible mitigation measures where appropriate.

**9.3** In comparing options with one another, consideration has also been given to the geographical scale of effect, whether any identified effects would be permanent or temporary, reversible or irreversible and the assumptions made, or justification for the assessment recorded.

**9.4** Definitions of significance are provided in Section 3 Appraisal Methodology.

**9.5** Scoring of options is as set out in Table 8.1.

### Option 1: Northern Focus

Option 1: Northern Focus

	provide opportunities for the enhancement of the natural environment identified in the NCA profiles?				that none of the above sites fall within the area identified as "important landscape setting to settlement" <sup>(4)</sup> . Overall this option has been assessed as having a negative effect on this objective.
	including historic landscapes, that could not be reasonably mitigated. <b>Mitigation measures:</b> Local Plan policies to support protection and enhancement of the character and appearance of the landscape including historic landscape and other natural assets and resources.				
15. To encourage further development of sustainable tourism, cultural heritage and local distinctiveness.	<ul style="list-style-type: none"> <li>Will it support the development of a vibrant cultural economy and local distinctiveness?</li> <li>Does it help support tourism and the visitor economy?</li> </ul>	+	+	+	<p>This option envisages locating the focus of growth to the north of the town. Delivery of a new school in the north of Cheadle could be expected to ease some pressure on peak time journeys to school that are currently concentrated in the south west of the town and this may help support opportunities for investment in culture and tourism that could result in positive effects on the local economy.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Proposals that have a positive effect on the town centre are likely to result in support for tourism and the visitor economy. <b>Mitigation measures:</b> Local Plan policies to support tourism and the visitor economy.</p>
ECONOMIC					

Option 1: Northern Focus					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
16. To safeguard the vitality and viability of the District's towns and villages, and create and sustain a vibrant rural economy	<ul style="list-style-type: none"> <li>Will it safeguard shops and services in existing centres?</li> <li>Will it safeguard and improve the retail, leisure and service provision?</li> </ul>	+	+	+	<p>The majority of sites comprising this option are located within 1,200m of the town centre and the wide range of key services and facilities that can be found here. Sites CH080, CH081 and CH132 are more than 1,200m away from the town centre which could result in existing services and facilities being inaccessible for new residents of developments here. Overall the proposal has been assessed as having a minor positive effect on this objective.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Development of residential sites with good access to the town centre is likely to result in a positive effect on the vitality and viability of Cheadle as residents of new developments could be expected to support their local retail, leisure and service provision. <b>Mitigation measures:</b> Local Plan policies to support town and village centres.</p>
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Will it provide a balanced portfolio of employment land in sustainable locations?</li> <li>Will it provide opportunities for the creation of new businesses and/or minimise the loss or displacement of</li> </ul>	0	0	0	<p>Developments of the sites comprising this option could encourage investment in people and infrastructure through developer contributions although this would be limited. This proposal has been assessed as having a neutral effect on this objective.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> A local labour supply will help to deliver economic growth across the plan area. <b>Mitigation measures:</b> Local Plan policies to support sustainable economic growth.</p>

Option 1: Northern Focus					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
	existing businesses?				
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Will it meet the employment needs of local people?</li> <li>Will it increase economic activity levels?</li> <li>Will it improve physical accessibility to jobs?</li> <li>Will it support higher income levels for local residents?</li> </ul>	+	+	+	<p>The proposal could facilitate residential development within 30 minutes travel time of existing employment provision. This proposal has been assessed as having a positive effect on this objective.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Ensuring a sufficient supply of homes within easy access of employment is a central element of an efficiently functioning economy. <b>Mitigation measures:</b> Local Plan policies to support sustainable economic growth.</p>
<p><b>Summary of significant effects:</b></p> <p>Sites comprising the option "northern focus" are located both within and outside the existing settlement boundary. The sites are a range of sizes, four are large enough to yield over 100 homes each, a further three are each expected to yield 50 or more homes. This could be expected to help enable the delivery of a range of types and tenures, making a significant contribution to meeting the housing needs of the whole community. A further positive effect of the option is the opportunity it provides for the delivery of a new school. A new school in the north of Cheadle could be expected to ease some pressure on peak time journeys to the existing schools that are concentrated in the south west of the town. This is likely to result in positive effects on the town centre and may help support opportunities for investment in culture and tourism with positive effects on the local economy. All the sites comprising this option could deliver development within 500m of a bus</p>					

SA Objective	Option 1: Northern Focus					Justification; cumulative effects / mitigation measures
	Decision making criteria	Time-frame			Nature of effect; Comments	
		ST	MT	LT		
	<p>stop and all but three sites are within 1,200m of the town centre with its wide range of key services and facilities. This is likely to result in positive effects on: improving access to jobs, services and facilities (which in turn is likely to advance equality of opportunity), improving access to health care, helping to safeguard the vitality and viability of the town centre, providing support for walking and cycling and reducing the need to travel by car. However sites CH080, CH081 and CH132 are more than 1,200m away from the town centre, so this option could result in existing services and facilities being inaccessible for residents of some new developments. There is potential for the cumulative impacts of development to result in the disturbance of habitats (and their connectedness) and of protected species that could not be reasonably mitigated. The option includes sites CH002a and CH024 which border Cecilly Brook Local Nature Reserve (LNR), one of the most important sites for water voles (a protected species) in Staffordshire. In addition, sites CH002b, CH006 and CH009 are within 100m of the Reserve. CH129 is within 100m of Hales Hall Pool LNR. Sites CH073b and CH081 are within 200m of one of these Local Nature Reserves. This option is also likely to result in the development of sites subject to risk from flooding, the option includes sites CH002a, CH006, CH020, CH080, CH081 and CH132 all of which are partly located within a flood zone 3 area. Dependent on proposal specific information, there is scope that the cumulative impact of development under this option may result in harm or loss to the significance of designated heritage assets. Sites CH009, CH013, CH015, CH024, CH080 and CH081 are within 400m of one or more grade II listed assets. Site CH015 is within 400m of 24 grade II listed assets; CH013 is within 400m of 38 grade II listed assets and one grade 1 listed asset. Likely negative effects on landscape character have also been identified, sites CH073B, CH080, CH081, CH129 and CH132 are all greenfield sites outside the current development boundary, however none are within the area identified as "important landscape setting to settlement". The option has also been assessed as likely to result in minor negative effects in relation to loss of best and most versatile agricultural land, air quality and greenhouse gas emissions and energy consumption arising from construction and occupation of new developments.</p>

		ST	MT	LT	
	light and appropriate levels of privacy?				
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Will it remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> </ul>	+	++	++	<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Equality of opportunity for all persons will be improved by any measure that has the effect of improving overall accessibility to jobs, services and facilities.</p> <p><b>Mitigation measures:</b> Local Plan policies to help ensure that the needs of all members of the community can be addressed by helping to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</p>
	<ul style="list-style-type: none"> <li>Will it help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>				
					<p>This option could enable the delivery of new development in good proximity to a wide range of services and facilities. Sites CH009, CH013 and CH015 are within 400m of the town centre; sites CH001, CH002A, CH002B, CH006, CH020 and CH024 are within 800m of the centre. Sites CH004 and sites CH085A, B, C and D are within 1,200m of the town centre. Of this option, only sites CH093 and CH128 are more than 1,200m from the centre. This is likely to result in very positive effects on improving access to jobs, services and facilities which could be expected to contribute to the advancement of equality of opportunity.</p>

Option 2: South-Western Focus					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
3. To improve health and reduce health inequalities.	<ul style="list-style-type: none"> <li>Will it improve health or access to health facilities?</li> <li>Will it promote healthy lifestyles?</li> <li>Will it reduce health inequalities?</li> <li>Will it provide opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>	+	+	++	<p>This option could enable the delivery of new development in proximity to a range of healthcare facilities (eg within 1,200m from a GP surgery and open space). Development on the edge of settlement may offer opportunities to enable improved recreational access to the countryside. Overall this option has been assessed as having a positive effect on this objective in the medium and long term.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Delivering new homes in proximity to existing healthcare services and open space will have a positive effect on health. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments deliver opportunities to increase take up of sustainable transport choices and improvements to healthy travel networks, including increased opportunities for access to the countryside.</p>
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Will it reduce actual levels of crime?</li> <li>Will it reduce fear of crime?</li> </ul>	?	?	?	<p>There is uncertainty as to the nature of effect and level of significance as this will be dependent on the implementation of Local Plan policies.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Good design will help minimise opportunities for crime and reduce the fear of crime. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments are well designed, creating safe places and</p>

Option 2: South-Western Focus					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
					Justification; cumulative effects / mitigation measures
					reducing opportunities for anti-social behaviour.
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / extra social / extra care housing.	<ul style="list-style-type: none"> <li>Will it provide an appropriate mix of housing to enable all needs to be met?</li> <li>Will it enable people to meet their needs within their existing communities?</li> <li>Will it ensure that people can afford their housing?</li> </ul>	+	++	++	<p>The sites comprising the south-western focus option are a range of sizes, five are large enough to yield over 100 homes each, a further two are expected to yield 50 or more homes. This could be expected to help enable the delivery of a range of types and tenures, making a significant contribution to meeting the needs of the whole community. This option has been assessed as having a very positive effect on this objective in the medium and long term.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Larger sites offer the most potential to deliver a range of types and tenures of new homes. <b>Mitigation measures:</b> Wider initiatives of the Council should be supported to help deliver additional affordable homes.</p>
6. To strengthen links between rural areas and towns by sustainable forms of transport and	<ul style="list-style-type: none"> <li>Will it minimise impacts on existing traffic congestion?</li> <li>Will it support the use of public transport?</li> </ul>	+	+	++	<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Development delivered close to existing services and facilities will help to reduce the number of journeys made by car.</p>

Option 2: South-Western Focus					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Will it support safe walking and cycling?</li> <li>Will it protect and improve access to the natural environment and support Green Infrastructure?</li> </ul>				<p><b>Mitigation measures:</b> Local Plan policies to ensure that developments support safe walking and cycling and improve access to the natural environment.</p>
ENVIRONMENTAL					
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Will it reduce emissions of greenhouse gases particularly CO<sub>2</sub>?</li> <li>Will it increase energy efficiency?</li> </ul>	-	-	-	<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Even if individual properties are built to high environmental performance standards and delivered in sustainable locations, the total</p>

Option 2: South-Western Focus					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
	<ul style="list-style-type: none"> <li>Will it increase the use of renewable energy?</li> <li>Will it ensure new development is in accessible locations in order to reduce the need for car use and / or encourage sustainable forms of transport?</li> </ul>				<p>increase in number of dwellings and car journeys is likely to increase energy use and associated greenhouse gas emissions. <b>Mitigation measures:</b> Local Plan policies to ensure that high environmental design standards are supported and that developments are brought forward in accessible locations that support the use of sustainable forms of transport.</p>
					<p>a bus stop. Ten of the sixteen sites making up the option are within the settlement boundary (and all but one of these within 800m from the town centre) which could be expected to support the delivery of new development in close proximity to a wide range of services and facilities, helping to support the use of walking and cycling. Six sites are outside the existing settlement boundary, four of these within 1,200m of services and facilities and two - CH093 and CH128 - more than 1,200m. Whilst this may help reduce the need to travel by car, overall this option has been assessed as having a negative effect on this objective.</p>
8. To improve air quality.	<ul style="list-style-type: none"> <li>Will it minimise emissions of airborne pollutants?</li> <li>Will it maximise the removal of air pollutants (e.g. by trees)?</li> </ul>	-	-	--	<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> The main areas identified in the District as being of poor air quality are the Cellarhead junction (between the A52 and A520); Ball Haye Street, Leek (a primary link road</p>

Option 2: South-Western Focus					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
					from Leek A53 to the A523 Macclesfield and Buxton Road) and Broad Street, Leek (a primary link road from Stoke on Trent) <sup>(1)</sup> . The increase in number of dwellings and car journeys across Cheadle is likely to increase emission of airborne pollutants. There is a risk that air quality may deteriorate in areas of existing low quality. <b>Mitigation measures:</b> Local Plan policies to ensure that developments include appropriate landscaping to aid removal of air pollutants and provide support for the Cheadle Transport Package <sup>(2)</sup> .
9. To reduce flood risk, protect and enhance water sources.	<ul style="list-style-type: none"> <li>Is new development directed towards areas of least flood risk?</li> <li>Will it reduce risk of flooding eg by encouraging the</li> </ul>	-	--	--	<p>This option includes sites CH002A, CH006, CH020 and CH85B all of which are partly located within a flood zone 3 area. Also sites CH085A and CH093 that are partly within flood zone 2. It can be considered that this option is likely to result in the development of sites</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Development will be permitted only where schemes meet development plan requirements for management of flood risk. <b>Mitigation measures:</b> Local</p>

Option 2: South-Western Focus					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
	<ul style="list-style-type: none"> <li>integration of mitigation measures such as SuDS into new development?</li> <li>Will it protect, maintain and improve the quality of water resources and help contribute to the objectives of the Water Framework Directive?</li> <li>Will it encourage water efficiency and demand management?</li> </ul>				<p>Plan policies to ensure that new developments are directed towards areas of least flood risk and incorporate SuDS wherever possible.</p>
					<p>subject to risk from flooding. Development of sites could be expected to lead to an increase in wastewater and reduction of natural drainage. Mitigation measures are possible however. Overall this option has been assessed as having a significant negative effect on this objective.</p>
10. To identify, conserve and enhance biodiversity resources and to test the plan's policies and proposals on	<ul style="list-style-type: none"> <li>Will it protect and promote effective management of the district's sites of ecological and nature conservation importance?</li> </ul>	-	--	--	<p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Policies in the Local Plan will provide protection for biodiversity and for sites of ecological and nature</p>

Option 2: South-Western Focus

		ST	MT	LT		
					proposal has been assessed as having a minor positive effect on this objective.	
17. To strengthen, modernise and diversify the District economy, and promote sustainable economic growth	<ul style="list-style-type: none"> <li>Will it provide a balanced portfolio of employment land in sustainable locations?</li> <li>Will it provide opportunities for the creation of new businesses and/or minimise the loss or displacement of existing businesses?</li> </ul>	0	0	0	Developments of the sites comprising this option could encourage investment in people and infrastructure through developer contributions. This proposal has been assessed as having a neutral effect on this objective.	<b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> A local labour supply will help to deliver economic growth across the plan area. <b>Mitigation measures:</b> Local Plan policies to support sustainable economic growth.
18. To encourage and support a high and stable level of employment	<ul style="list-style-type: none"> <li>Will it meet the employment needs of local people?</li> <li>Will it increase economic activity levels?</li> <li>Will it improve physical</li> </ul>	+	+	+	The proposal could facilitate residential development within 30 minutes travel time of existing employment provision. This proposal has been assessed as having a positive effect on this objective.	<b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Ensuring a sufficient supply of homes within easy access of employment is a central element of an efficiently functioning economy. <b>Mitigation measures:</b> Local Plan policies

Option 2: South-Western Focus					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
	accessibility to jobs? • Will it support higher income levels for local residents?				to support sustainable economic growth.
<b>Summary of significant effects:</b>  Sites comprising the option "south western focus" are located both within and outside the existing settlement boundary. The sites are a range of sizes, five are large enough to yield over 100 homes each, a further two are expected to yield 50 or more homes. This could be expected to help enable the delivery of a range of types and tenures, making a significant contribution to meeting the housing needs of the whole community. A further positive effect of the option is the opportunity it provides for the delivery of a southern link road to help relieve traffic congestion in the town centre. However focusing new development where there is an existing cluster of schools may exacerbate congestion at peak times from concentrating journeys to school into one area of town. Unless the new journeys to school are mainly made on foot, this may result in negative effects on the town centre. All of the sites comprising this option could deliver development within 500m of a bus stop and all but two are within 1,200m of the town centre with its wide range of key services and facilities. This is likely to result in positive effects on: improving access to jobs, services and facilities (which in turn is likely to advance equality of opportunity), improving access to health care, helping to safeguard the vitality and viability of the town centre, providing support for walking and cycling and reducing the need to travel by car. However sites CH093 and CH128 are more than 1,200m away from the town centre, so this option could result in existing services and facilities being inaccessible for residents of some new developments. There is potential for the cumulative impacts of development to result in the disturbance of habitats (and their connectedness) and of protected species that could not be reasonably mitigated. The option includes sites CH002A and CH024 which border Cecilly Brook Local Nature Reserve, one of the most important sites for water voles (a protected species) in Staffordshire. In addition, sites CH002B, CH006 and CH009 are within 100m of the Reserve. This option is also likely to result in the development of sites subject to risk from flooding, the option includes sites CH002A, CH006, CH020 and CH085B all of which are partly located within a flood zone 3 area; and sites CH085A and CH093 that are partly within flood zone 2. Dependent on proposal specific information, the cumulative impact of development under this option may result in harm or loss to the significance of designated heritage					

SA Objective	Option 2: South-Western Focus				
	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
	<p>assets. Sites CH009, CH013, CH015, CH024, CH085C, CH085D, CH093 and CH128 are within 400m of one or more grade II listed assets. Site CH015 is within 400m of 24 grade II listed assets; CH013 is within 400m of 38 grade II listed assets and one grade 1 listed asset. Likely negative effects on landscape character have also been identified; sites CH085A, B, C and D, CH093 and CH128 are all greenfield sites outside the current development boundary, however none are within the area identified as "important landscape setting to settlement". Sites CH093 and CH128 have been recommended as appropriate to consider for release from the Green Belt under exceptional circumstances. The option has also been assessed as likely to result in minor negative effects in relation to loss of best and most versatile agricultural land, air quality and greenhouse gas emissions and energy consumption arising from construction and occupation of new developments.</p>

	Decision making criteria	Time-frame			Nature of effect; Comments	
		ST	MT	LT		
1. To improve community cohesion and the quality of where people work and live.	<ul style="list-style-type: none"><li>Will it make a positive contribution towards community cohesion?</li><li>Will it improve neighbourhood quality?</li><li>Will it ensure that there is adequate open space and support Green Infrastructure?</li><li>Will it minimise light and noise pollution?</li><li>Will it ensure that occupiers of buildings and spaces have sufficient natural light and appropriate levels of privacy?</li></ul>	+/-	+/-	+/-	Development of the sites comprising the "scattered approach" include sites both within and outside the existing settlement boundary. Through the inclusion of site CH132, the option could enable the delivery of a new school and this is likely to result in positive effects on this objective. However sites CH002A, CH002B, CH006, CH009 and CH024 are within 100m of Cecilly Brook LNR and it is considered that this is likely to result in a negative effect arising from the potential for adverse impacts on the District's GI network. Overall the assessment against this objective is considered to be mixed and uncertain as in addition it will be partly dependent on the implementation of Local Plan policies.	<b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Community cohesion and local environmental quality are dependent on the design and tenure mix, as well as the location of new development. <b>Mitigation measures:</b> Local Plan policies to ensure that good standards of amenity and open space and Green Infrastructure are delivered as part of new housing development.

Option 3: Scattered approach					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
2. To advance equality of opportunity between all persons and eliminate social exclusion by improving access to jobs, services and facilities.	<ul style="list-style-type: none"> <li>Will it remove or minimise any disadvantages suffered by people due to their age, disability, gender reassignment, marriage / civil partnership, pregnancy / maternity, race, religion / belief, sex and sexual orientation?</li> <li>Will it help to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</li> </ul>	+	++	++	<p>This option could enable the delivery of new development in good proximity to a wide range of services and facilities. Sites CH009, CH013 and CH015 are within 400m of the town centre; sites CH001, CH002A, CH002B, CH006, CH020 and CH024 are within 800m of the centre. Sites CH004, CH075A, B and C, 85A and 85D are within 1,200m of the town centre. Of this option, only sites CH081, CH128 and CH132 are more than 1,200m from the centre. This is likely to result in very positive effects on improving access to jobs, services and facilities which could be expected to contribute to the advancement of equality of opportunity.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Equality of opportunity for all persons will be improved by any measure that has the effect of improving overall accessibility to jobs, services and facilities. <b>Mitigation measures:</b> Local Plan policies to help ensure that the needs of all members of the community can be addressed by helping to minimise the distance people need to travel to access education, employment, shopping and other key services and facilities.</p>
3. To improve health and	<ul style="list-style-type: none"> <li>Will it improve health or access to health facilities?</li> </ul>	+	+	++	<p>This option could enable the delivery of new development in proximity to</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent;</p>

Option 3: Scattered approach					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
reduce health inequalities.	<ul style="list-style-type: none"> <li>Will it promote healthy lifestyles?</li> <li>Will it reduce health inequalities?</li> <li>Will it provide opportunities to participate in leisure and recreational activities including access to the countryside?</li> </ul>				<p>a range of healthcare facilities (eg within 1,200m from a GP surgery and open space). Development on the edge of settlement may offer opportunities to enable improved recreational access to the countryside. Overall this option has been assessed as having a positive effect on this objective in the medium and long term.</p> <p><b>Assumptions made:</b> Delivering new homes in proximity to existing healthcare services and open space will have a positive effect on health. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments deliver opportunities to increase take up of sustainable transport choices and improvements to healthy travel networks, including increased opportunities for access to the countryside.</p>
4. To minimise opportunities for crime and reduce the fear of crime.	<ul style="list-style-type: none"> <li>Will it reduce actual levels of crime?</li> <li>Will it reduce fear of crime?</li> </ul>	?	?	?	<p>There is uncertainty as to the nature of effect and level of significance as this will be dependent on the implementation of Local Plan policies.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Good design will help minimise opportunities for crime and reduce the fear of crime. <b>Mitigation measures:</b> Local Plan policies to ensure that new developments are well designed, creating safe places and reducing opportunities for anti-social behaviour.</p>

Option 3: Scattered approach					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
5. To ensure adequate quality and provision of a range of house types to meet local needs in appropriate locations and including affordable / social / extra care housing.	<ul style="list-style-type: none"> <li>Will it provide an appropriate mix of housing to enable all needs to be met?</li> <li>Will it enable people to meet their needs within their existing communities?</li> <li>Will it ensure that people can afford their housing?</li> </ul>	+	++	++	<p>The sites comprising the scattered approach option are a range of sizes, three are large enough to yield over 100 homes each, a further six are each expected to yield 50 or more homes. This could be expected to help enable the delivery of a range of types and tenures, making a significant contribution to meeting the needs of the whole community. This option has been assessed as having a very positive effect on this objective in the medium and long term.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Larger sites offer the most potential to deliver a range of types and tenures of new homes. <b>Mitigation measures:</b> Wider initiatives of the Council should be supported to help deliver additional affordable homes.</p>
6. To strengthen links between rural areas and towns by sustainable forms of transport and reduce the number of journeys made by car.	<ul style="list-style-type: none"> <li>Will it minimise impacts on existing traffic congestion?</li> <li>Will it support the use of public transport?</li> <li>Will it support safe walking and cycling?</li> <li>Will it protect and improve access to</li> </ul>	+	+	++	<p>All the sites comprising this option could deliver development within 500m of a bus stop and this is likely to result in a positive effect from supporting the use of public transport. Ten of the eighteen sites making up the option are within the settlement boundary (and all but one within 800m from the town centre) which could be expected to support the delivery of new development in close proximity to a wide range of services and facilities, helping to</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Development delivered close to existing services and facilities will help to reduce the number of journeys made by car. <b>Mitigation measures:</b> Local Plan policies to ensure that developments support safe walking and cycling and improve access to the natural environment.</p>

Option 3: Scattered approach					
SA Objective	Decision making criteria	Time-frame			Justification; cumulative effects / mitigation measures
		ST	MT	LT	
	the natural environment and support Green Infrastructure?				support the use of walking and cycling. Eight sites are outside the existing settlement boundary, five of these are within 1,200m of services and facilities and three - CH081, CH128 and CH132 - more than 1,200m. Overall this option has been assessed as having a long term positive effect on this objective.
ENVIRONMENTAL					
7. To minimise contributions to climate change and consider climate change adaptation.	<ul style="list-style-type: none"> <li>Will it reduce emissions of greenhouse gases particularly CO<sub>2</sub>?</li> <li>Will it increase energy efficiency?</li> <li>Will it increase the use of renewable energy?</li> <li>Will it ensure new development is in accessible locations in order to reduce the need for car use and / or</li> </ul>	-	-	-	<p>Development of the sites comprising this option could lead to an increase in greenhouse gas emissions and energy consumption during both construction and occupation. All of the sites comprising this option could deliver development within 500m of a bus stop. Ten of the eighteen sites making up the option are within the settlement boundary (and all but one of these within 800m from the town centre) which could be expected to support the delivery of new development in close proximity to a wide range of services and facilities,</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> Even if individual properties are built to high environmental performance standards and delivered in sustainable locations, the total increase in number of dwellings and car journeys is likely to increase energy use and associated greenhouse gas emissions. <b>Mitigation measures:</b> Local Plan policies to ensure that high environmental design standards</p>

Option 3: Scattered approach					
SA Objective	Decision making criteria	Time-frame			Nature of effect; Comments
		ST	MT	LT	
	encourage sustainable forms of transport?				helping to support the use of walking and cycling. Eight sites are outside the existing settlement boundary, five of these within 1,200m of services and facilities and three - CH081, CH128 and CH132 - more than 1,200m. Whilst this may help reduce the need to travel by car, overall this option has been assessed as having a negative effect on this objective.
	are supported and that developments are brought forward in accessible locations that support the use of sustainable forms of transport.				
8. To improve air quality.	<ul style="list-style-type: none"> <li>Will it minimise emissions of airborne pollutants?</li> <li>Will it maximise the removal of air pollutants (e.g. by trees)?</li> </ul>	-	-	--	<p>This option includes site CH015 which is an edge of town centre site within 100m of a candidate Air Quality Management Area. This option has been assessed as having a negative effect on this objective.</p> <p><b>Geographical scale:</b> Local Plan area; <b>Effects:</b> Permanent; <b>Assumptions made:</b> The main areas identified in the District as being of poor air quality are the Cellarhead junction (between the A52 and A520); Ball Haye Street, Leek (a primary link road from Leek A53 to the A523 Macclesfield and Buxton Road) and Broad Street, Leek (a primary link road from Stoke on Trent)<sup>(1)</sup>. The increase in number of dwellings and car journeys across Cheadle is likely to increase emission of airborne</p>

		ST	MT	LT	
	levels for local residents?				
<p><b>Summary of significant effects:</b></p> <p>Sites comprising the option "scattered approach" are located both within and outside the existing settlement boundary. The sites are a range of sizes, three are large enough to yield over 100 homes each, a further six are each expected to yield 50 or more homes. This could be expected to help enable the delivery of a range of types and tenures, making a significant contribution to meeting the housing needs of the whole community. A further positive effect of the option is the opportunity it provides for the delivery of a new school. A new school in the north of Cheadle could be expected to ease some pressure on peak time journeys to the existing schools that are concentrated in the south west of the town. However this option also includes some sites comprising a small scale extension to the south west, where there is an existing cluster of schools and this may contribute to "school run congestion" issues in this part of the town. All of the sites comprising this option could deliver development within 500m of a bus stop and all but three are within 1,200m of the town centre with its wide range of key services and facilities. This is likely to result in positive effects on: improving access to jobs, services and facilities (which in turn is likely to advance equality of opportunity), improving access to health care, helping to safeguard the vitality and viability of the town centre, providing support for walking and cycling and reducing the need to travel by car. However sites CH081, CH128 and CH132 are more than 1,200m away from the town centre, so this option could result in existing services and facilities being inaccessible for residents of some new developments. There is potential for the cumulative impacts of development to result in the disturbance of habitats (and their connectedness) and of protected species that could not be reasonably mitigated. The option includes sites CH002A and CH024 which border Cecilly Brook Local Nature Reserve, one of the most important sites for water voles (a protected species) in Staffordshire. In addition, sites CH002B, CH006 and CH009 are within 100m of the Reserve. This option is also likely to result in the development of sites subject to risk from flooding, the option includes sites CH002A, CH006, CH020, CH81 and CH132 all of which are partly located within a flood zone 3 area; and site CH085A that is partly within flood zone 2. Dependent on proposal specific information, the cumulative impact of development under this option may result in harm or loss to the significance of designated heritage assets. Sites CH009, CH013, CH015, CH024, CH075C, CH081, CH085D, and CH128 are within 400m of one or more grade II listed assets. Site CH015 is within 400m of 24 grade II listed assets; CH013 is within 400m of 38 grade II listed assets and one grade 1 listed asset. Likely negative effects on landscape character have also been identified; sites CH075A, B and C, CH081, CH085A and D, CH128 and CH132 are all greenfield sites outside the current development</p>

	boundary; sites CH075A, B and C lie in the area identified as "important landscape setting to settlement, where impacts may be most significant. Site CH128 has been recommended as appropriate to consider for release from the Green Belt under exceptional circumstances. The option has also been assessed as likely to result in minor negative effects in relation to loss of best and most versatile agricultural land, air quality and greenhouse gas emissions and energy consumption arising from construction and occupation of new developments.
