

Partnership Plans 2020 to 2021

The Moorlands Together Safer and Stronger Communities Partnership (CSP) is made up of a number of organisations that work together to make our district safer. These organisations include Staffordshire Moorlands District Council, Staffordshire County Council, Staffordshire Police, Your Housing Group, Staffordshire Housing Group, Staffordshire Fire and Rescue Service, local Clinical Commissioning Group and probation service providers. Funding to support partnership activity is provided by Staffordshire Commissioner for Police, Fire and Crime and by individual agencies through mainstream budgets.

The Moorlands Together Safer and Stronger Communities Strategy Group considers the information contained within an annual strategic assessment to establish local priorities. The priorities are then reflected in the community safety partnership plan, which sets out what the CSP will do to address these priorities. There are five main priorities for 2020/21:

The strategic priorities for Staffordshire Moorlands CSP for 2020/2021:

- Anti-Social Behaviour
- Domestic Abuse
- Rural Crime (including burglary and vehicle theft)
- Fraud
- Vulnerable People

The Moorlands Together Safer and Stronger Communities Partnership Plan builds on the five priorities set out in the Staffordshire Commissioner for Police, Fire and Crime *Safer, Fairer, United Communities* strategy. These are:

- **Early intervention** and Prevention - preventing crime and antisocial behaviour and providing early help to individuals, families and communities before problems become entrenched, more complex and costly to resolve.
- **Supporting victims and witnesses** - ensuring that victims, witnesses and their families are supported in a way that recognises their individual circumstances and places them at the very heart of all criminal justice processes.
- **Managing offending and reoffending** - being able to reduce offending and reoffending in Staffordshire and Stoke-on-Trent.
- **Public confidence** - ensuring that the people of Staffordshire are better informed and involved in how policing and community safety arrangements are delivered, helping thereby to increase public confidence and reduce the fear of crime.

- **Modernised policing** - a modern and transformed police service fit for a changing future, able to address existing and new issues and the threat and harm that impact from local, regional, national and international criminal activity.

It should be acknowledged some activity is centrally commissioned and the Moorlands Together Safer and Stronger Communities Partnership plan aims to compliment, not duplicate, any activity based on local needs.

The CSP will also be adopting a Place Based approach with public services working in partnership with each other, the voluntary and business sectors and communities to plan, design, resource, build and deliver services around people, families and communities in the most disadvantaged communities to support them to improve their life opportunities and outcomes.
